Program Description

Guidance classes are designed to be transferable (100 and above) and to help students succeed. These courses strengthen and support individuals during their academic journey. Guidance courses focus on the development of the whole person as students learn college success strategies and life management skills. These courses help students identify personal, educational, and career goals and make satisfying decisions for transition to the workforce as productive members of society. The learning and self-management skills developed in student success courses can serve a lifetime.

Transfer Preparation

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Learning Outcomes

• Develop a comprehensive plan for applying personality types, interests, skills, and aptitudes towards major selection and career choice.

Note: Every effort has been made to keep program information current. Please use this information as a guide and consult with the chair of the department/program or an MSJC counselor.
Instructional Programs

- Apply sound strategies and practice to successful job search planning and career management.
- Develop decision-making and problem-solving skills necessary for personal and professional success.
