Program Description

The non-transfer associate degree programs in music are designed with two ends in mind. The transfer courses are designed to provide students with preparation in the areas of music theory, musicianship, history and appreciation, and piano, guitar, voice and instrumental performance. The associate degree program gives students the basic skills and abilities in music to prepare students for involvement in musical activities and careers, and that can be used for integration into other majors, such as multi-media, early childhood, and audio-technology.

The areas of study presented include each of the required areas of study prescribed by transfer institutions. Specifics required to transfer differ among the many local four-year institutions, so students in the music department are encouraged to work with the institution to which they wish to transfer to ensure they complete all of the required courses. These requirements frequently exceed the
requirements established for the associate degree in music. These requirements may include completion of the entire series of music theory and musicianship courses, membership in a performing ensemble every semester of enrollment, and private instruction on their instrument of choice.

For the associate degree in music, the student will complete a minimum of 18 units of instruction in music theory, musicianship, music history, and individual and group performance.

CAREER OPPORTUNITIES

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. [See: www.onetonline.org]

Non-Transfer Degree

Musician (further education recommended), Arranger (further education recommended), Composer (further education recommended)

Music Teacher (Instrumental, Choral, Elementary through College, or Private) - Further Education is REQUIRED.

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Build performance skills in instrumental music, voice, piano, and/or guitar.
- Discover how musical works are composed through the study of foundational elements: melody, harmony, rhythm, form, instrumentation, and texture.
- Develop an awareness of the aesthetic values in music and the roles music plays in the aesthetics of various time periods, styles, and world regions.
- Explore how music has evolved throughout history, and in specific styles and world regions.
- Explore various career paths in music and the expectations of each field.
- Enrich the community through interaction in the Arts.
