Jack lives a respectable life in the country with his young ward, Cecily, but has created an imaginary wayward brother, Ernest, whom he uses as a pretext for going up to London. Algernon lives in London and has created an imaginary invalid friend whom he visits to avoid unappealing engagements. Their alibis begin to unravel as Algernon takes on the identity of Ernest, and Jack announces that Ernest has died! First performed in 1895, Wilde’s play has been described as the wittiest comedy in the English language.

She Loves Me is considered by many to be the most charming musical ever written. Set in a 1930's European perfumery, we meet shop clerks Amalia and Georg, who more often than not, don't see eye to eye. After both respond to a “lonely hearts advertisement” in the newspaper, they now live for the love letters they exchange, but the identity of their admirers remain unknown. She Loves Me is a warm romantic comedy with an endearing innocence and a touch of old world elegance.
