The California Community College System is the *largest* system of higher education in the nation.

It serves 2.4 million students per year.

It provides workforce training, basic skills education and prepares students for transfer to four-year institutions.

HOWEVER …

Community Colleges receive the *lowest* amount of per-student funding from the state 2012-13:

- CC: $5,447
- K-12: $7,569
- CSU: $12,729
- UC: $24,909
Since 2008-09, the state slashed community college system funding by $809 million, or 12%.

2011-12: California Community Colleges cut $400 million.

Since 2008-09, the state cut MSJC’s budget by $13 million

If Prop. 30 had failed, MSJC would have faced a $7 million gap in 2012-2013

Statewide, budget cuts resulted in:
• Reduced course offerings by as much as 20%.
• Waitlisted seats into the tens of thousands.
• Enrollment decreased by nearly 300,000 students statewide since 2009.
• MSJC: Enrollment down 24% because of state budget cuts
