**How to use www.assist.org**

Mt. San Jacinto College

Transfer Begins Today!

ASSIST helps you find community college courses that are transferable to a UC or CSU campus and how those transferable courses might be used to satisfy subject matter requirements for specific majors or general education requirements.

To see the lists of transferable courses and the articulation agreements, start by choosing an institution from the selection list. To view transferable courses, select a community college and chose either the CSU or UC transfer course option. To view articulation agreements between two institutions, you may a community college and view the corresponding course at the university.

ASSIST.org also provides information about majors offered at UC and CSU campuses. To Explore Majors, choose a specific major that interests you, a campus you are considering attending, a community college in your area or transfer information for a specific community college, and University of California or California State University campus.

(Information accessed from www.assist.org)
Step 2. Agreements with Other Campuses
Next, we can choose the community college we have or are currently attending i.e. Mt. San Jacinto Community College.

Step 3. Select Your Major
Many university campuses also have articulation by departments, rather than for a specific major. We can also choose All Major or All Departments that will list all the agreements. Some university campuses also have articulation for their local lower division GE requirements.
An articulation agreement is an agreement between colleges that let you know what classes are considered equal to each other between the two campuses. **Example:** Biology 100 @ California State University San Bernardino (CSUSB) is equal to Biology 115 @ Mt. San Jacinto College (MSJC).

For more information on ensuring your transfer success, please meet with a Counselor to develop an educational plan by contacting Counseling at (SJC) (951) 487-3255, (MVC) (951) 639-5255, (SGP) (951) 922-1327, or (TEC) (951)-308-1059 ext 6300.
