

# Early Connect Referral System

## Introduction

---

The intent of Early Connect Referral System is to provide a quick and simple mechanism for faculty members to identify problems or concerns early in the semester about a student and make appropriate referrals to address those concerns. Early Connect is entirely web-based and can be used multiple times throughout the semester. This handout discusses how to log in and out of the Early Connect Referral System, how to make referrals, and how to view and update the status of referrals.
