## **Honors Enrichment Scholarship Application -Spring 2015-**

The Honors Enrichment Program maintains three primary objectives for student work in honors courses: first, to deepen the student's understanding of the subject matter; second, to increase the student's ability to think critically; and third, to challenge the student to go beyond rote learning to discover creative or original solutions and conclusions. All three of these objectives are vital to students' success as they continue their education and enter the work place.

The Honors Enrichment Program is offering one \$500 scholarship for members of the program.
