Mt. San Jacinto College complies with all federal and state rules and regulations and does not discriminate on the basis of ethnic group identification, national origin, religion, age, sex, gender, gender identification, gender expression, race, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, or because he or she is perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics. Inquiries regarding compliance activity may be directed to the District’s Title IX and Section 504 Coordinator, Fred Frontino at (951) 487-3301.
A Message from the President…

Welcome to Mt. San Jacinto College! I am excited that you are taking the time to consider MSJC to begin or continue your journey in higher education.

This catalog contains all of the information you will need, from campus telephone numbers to student resources and from course descriptions to policies, to assist you as you work to achieve your individual goals.

In keeping with our mission, Mt. San Jacinto College provides an ever-growing number of educational opportunities for the diverse communities we serve. MSJC offers classes at five main locations: the San Jacinto Campus, the Menifee Valley Campus, the San Gorgonio Pass Campus, the Temecula Education Complex #1 and the Temecula Education Complex #2. In addition, MSJC offers a number of online classes to assist and provide students with even greater flexibility in accessing their education.

The student is the heart and focus of this institution. MSJC courses and programs are designed to meet the needs of the students. Courses and programs are continuously reviewed to meet the criteria set forth by the Education Code, the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges and the California Community College Board of Governors.

MSJC offers the required undergraduate classes to prepare you for transfer to a four-year institution. The college also provides pathways for students to begin new careers, develop or upgrade occupational skills, improve basic skills and to seek opportunities for personal enrichment and lifelong learning.

To ensure that students have the opportunity to take advantage of these enriching educational experiences, MSJC has created an environment that promotes student success. That environment is built on a foundation of support services that will assist each undergraduate to achieve his or her individual goals and aspirations. On behalf of the Board of Trustees, the faculty and staff, I encourage you to visit us, talk with us and choose MSJC as your educational partner.

Sincerely,

Roger Schultz, Ph.D.
Superintendent/President
### Fall Semester Commences

- **2014-15 Academic Year**: Commences August 19, 2014
- **Spring Semester**: Commences January 19, 2015

#### Instruction Days

- **Fall Semester**: Mondays, Tuesdays, Wednesdays, Thursdays, Fridays
- **Spring Semester**: Mondays, Tuesdays, Wednesdays, Thursdays, Fridays

#### Final Exams

- **Spring Semester**: Monday, May 25, 2015
- **Summer Session**: Final exams are conducted on the last day of the session.

#### Holiday - College Closed

- **Spring Break**: March 23 - 27, 2015
- **Summer Session**: No classes on the following days:
  - Memorial Day: Monday, May 25, 2015
  - Independence Day: Monday, July 6, 2015

#### Required Faculty Day

- **Fall Semester**: Mondays, January 19, 2015
- **Spring Semester**: Mondays, May 25, 2015

#### Commencement

- **Spring Semester**: May 29, 2015

#### Summer Session

- **6 weeks**: June 16 - July 24, 2015
- **8 weeks**: June 16 - August 8, 2015

WAYS THIS CATALOG CAN HELP YOU

1. While this catalog is designed to provide comprehensive information about the programs and services available at Mt. San Jacinto College, students are advised to consult a college counselor in developing their educational plans.

2. When developing your educational plan, carefully read the information given for each course you plan to take. Pay careful attention to the prerequisites. Student registration will be blocked from courses where a prerequisite or corequisite has not been met.

3. General requirements for the Associate of Arts and Associate of Science degrees and for transfer to California State Universities and Colleges can be found in the Degrees, Certificates & Curricula area of this catalog.

4. The front portions of the catalog contain listings of available student services and applicable college rules and regulations, including admissions procedures, matriculation information, services to students, veteran’s information, student activities, and grading policies.

5. Use the Table of Contents or the Index at the back of the catalog to find things quickly.

Mt. San Jacinto College 2014-2015 Catalog
GUARANTEE OF NONDISCRIMINATION

The Mt. San Jacinto Community College District does not discriminate in its admissions, education programs, activities or employment policies on the basis of race, age, sex, sexual orientation, religion, color, national origin, Vietnam era veteran's status or disability. The District is subject to Title IX of the Educational Amendments of 1972, Title VII of the Civil Rights Act of 1964 and 1972 and the Rehabilitation Act of 1973, Sections 503 and 504. Inquiries concerning the application of said regulations as they apply to employment should be referred to the Equal Employment Opportunity Officer, Vice President of Human Resources in the Human Resources Office, located in the Administration Building on the San Jacinto Campus. Inquiries regarding admissions, education programs, or student activities should be directed to the Title IX Officer, Fred Frontino, (951) 487-3301.

In compliance with Section 504 of the Rehabilitation Act, the District has developed a Disabled Students Program. The District encourages “mainstreaming” of disabled students into regular classes and the college offers support services to make education accessible. Inquiries concerning this program should be directed to the Director of the Disabled Students Programs and Services.

Mt. San Jacinto College is authorized, under federal law, to enroll nonimmigrant and alien students.

If you have questions, please contact the appropriate site.

GIRONDE DE NO DISCRIMINACIÓN

De acuerdo con la Sección 504 del Dictamen de Rehabilitación, el distrito ha desarrollado un Programa para Estudiantes discapacitados. El distrito exorta a la integración de estudiantes discapacitados a clases regulares, y el colegio ofrece servicios de apoyo para hacer la educación accesible. Información concerniente a este programa puede ser requerida al Director(a) de Programas y Servicios para Estudiantes Discapacitados.

El Colegio Mt. San Jacinto está autorizado, bajo la ley federal, a admitir tanto estudiantes no inmigrantes, así como extranjeros.

Si necesita ayuda en Español, por favor hable al número (951) 487-3217.

DISCLAIMER

Mt. San Jacinto College has made every reasonable effort to determine that everything stated in the catalog is accurate. Catalog information, together with other matters contained herein, are subject to change without notice by the administration of Mt. San Jacinto College for reasons related to student enrollment, level of financial support, or for any other reason at the discretion of the college. The college further reserves the right to add, amend, or repeal any of the rules, regulations, policies and procedures, consistent with applicable laws.
Values

We value our students and employees. We believe that the act of teaching and learning is vital to a thriving community that enriches, and at times, saves lives. It is for this reason that we value:

**Excellence** – We challenge students with high standards for learning and critical thinking, which we model with action.

**Collaboration** – We believe that the best results can be achieved through effective communication between employees, students, industry and the communities we serve.

**Relationship** – We nurture a caring community built on positive interactions and a genuine concern for the welfare of others.

**Innovation** – We cultivate a creative environment that promotes the development of new ideas for continuous quality improvement.

**Relevance** – We pursue educational experiences that have meaningful applications in a local and global context, today and tomorrow.

**Access** – We promote a network of support that improves learning opportunities, removes barriers to a quality education and ensures the rights of all students.

**Leadership** – We empower people throughout the college community to support and facilitate positive change.

**Diversity** – We respect and embrace the power of sharing our differences in thought, opinion, culture and background to optimize our collective strength.

**Integrity** – We believe in being true to our core values by acting honestly and consistently in ways that demonstrate our character and moral commitment to “doing the right thing”.

We commit to create and respond to opportunities that inspire these values in ourselves.

### Institutional Learning Outcomes

Mt. San Jacinto College is dedicated to the following six Institutional Learning Outcomes:

- **Communication**: The student will communicate effectively, expressing thoughts, goals and needs through use of appropriate modes and technologies.
- **Critical Thinking**: The student will reason and think critically.
- **Aesthetic Awareness**: The student will possess aesthetic awareness.
- **Social Awareness**: The student will demonstrate societal awareness.
- **Responsibility**: The student will display societial and civic responsibility.
- **Scientific Awareness**: The student will possess an awareness of the physical and biological principles related to science.

### Location

The Mt. San Jacinto Community College District covers 1,700 square miles in central and southwestern Riverside County, one of California’s fastest-growing and most dynamic regions.

Named for the majestic 10,000-foot peak that dominates the area’s skyline, the Mt. San Jacinto Community College District stretches 45 miles from east to west and includes the communities of Banning, Beaumont, Idyllwild, San Jacinto, Hemet, Perris, Sun City, Lake Elsinore, Wildomar, Canyon Lake, Murrieta, Menifee, Temecula, Aguanga and Anza. Economic activity includes a varied agricultural industry, light manufacturing, tourism and a thriving service sector to meet the needs of the region’s growing population. District geography is diverse, ranging from desert and valley grasslands to pine-forested mountains.

The San Jacinto Campus is centrally located on State Highway 79 in the northern end of the San Jacinto Valley. It serves residents of the eastern portion of the college district. The Menifee Valley Campus, which opened in the fall of 1990, is located approximately 25 miles to the southwest. It is strategically located to serve the growing communities along the Interstate 215/Interstate 15 corridors. The Temecula Education Complex 1 & 2 provide a variety of services and an array of courses to serve residents the southern end of the district. The San Gorgonio Pass Campus is located in Banning and allows students in the northern region of the district to take a variety of classes and receive a host of services, including enrollment, placement testing and counseling.

Total enrollment in credit, non-credit and community-services classes exceeds 22,000 students a year.
History

The Mt. San Jacinto Community College District was formed in 1960 by a vote of the citizens in Banning, Beaumont, Hemet and San Jacinto.

The college enrolled its first students in the fall of 1963, holding classes in rented facilities. The San Jacinto Campus was opened in 1965 with two buildings and has grown into a comprehensive college campus serving the needs of students and the community.

In 1975, the residents of Temecula, Lake Elsinore, Perris and adjacent areas voted to join the Mt. San Jacinto Community College District, increasing the college’s area to the present 1,700 square miles. Although the boundaries have remained stable since 1975, the District has changed dramatically, especially since the 1980s. In recent years, unprecedented population growth has fostered the highest rate of enrollment increase of all 112 community colleges.

In response to this intense growth, Mt. San Jacinto College opened its Menifee Valley Campus in October 1990. By the end of its first year, there were 2,100 students attending classes at the Menifee Valley Campus. Today the campus serves 11,000+ students each semester.

With the rapid growth in enrollments being experienced at both campuses, the District has engaged in extensive planning and development to ensure state-of-the-art learning environments for Mt. San Jacinto College students.

In the fall of 1993, the Alice P. Cutting Business & Technology Center on the San Jacinto Campus opened to students with new laboratories for Business, Computer Information Systems, Engineering Technologies, Electronics and Photography.

In the fall of 1995, a state-of-the-art music building opened on the San Jacinto Campus. The 1995-96 year saw a vast increase in classroom space on the Menifee Valley Campus with the opening of the Allied Health and Fine Arts buildings.

The construction of two new childcare centers in 2002 paved the way for a major expansion of the Child Development and Education Centers at MSJC. A new learning resource center on this campus opened during the Spring of 2006.

In 2006, Mt. San Jacinto College opened its new Learning Resource Center on the Menifee Valley Campus. The state-of-the-art-building provides a library, tutoring services and more for students.

Mt. San Jacinto College experienced rapid expansion in 2008. The Business & Technology Center opened on the Menifee Valley Campus, providing state-of-the-art instruction in Geographic Information Systems, Multimedia, Photography and more.

The college also opened the Temecula Education Complex 2. The state-of-the-art-building provides state-of-the-art equipment for student learning.

By November of 2010, counseling and enrollment services offered at the former San Gorgonio Pass Service Center were moved to the new San Gorgonio Pass Campus located south of Interstate 10. In January 2011, students began attending classes at the new site. The campus is built on two of 50 acres the college owns.

The college opened the new Humanities & Social Sciences building on the Menifee Valley Campus in 2012. The two-story building provides state-of-the-art equipment for student learning.

The college’s master plan calls for ultimately providing for between 15,000 and 20,000 students on the Menifee Valley Campus and up to 15,000 on the San Jacinto Campus. Classrooms are being added or renovated on both campuses to meet the educational demands of the area. The master plan also includes serving about 3,600 students in the Pass area and nearly 4,000 students in the I-15 corridor over the next several years.

In 2014, the college opened its second site in Temecula: Temecula Education Complex 2.

Academic Freedom

1. Faculty members are entitled to full freedom in research and in the publication of the results, subject to the adequate performance of their other academic duties; but research for pecuniary return should be based upon an understanding with the authorities of the institution.

2. Faculty members are entitled to freedom in the classroom in discussing their subject, but they should be careful not to introduce into their teaching controversial matter which has no relation to their subject. Limitations of academic freedom because of religious or other aims of the institution should be clearly stated in writing at the time of the appointment.

3. College and university faculty members are citizens, members of a learned profession, and officers of an educational institution. When they speak or write as citizens, they should be free from institutional censorship or discipline, but their special position in the community imposes special obligations. As scholars and educational officers, they should remember that the public may judge their profession and their institution by their utterances. Hence they should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should make every effort to indicate that they are not speaking for the institution.

4. Faculty members in non-teaching fields have the same claim to freedom of inquiry and expression of professional opinion as teaching faculty, and they have parallel obligations as well.

Statement on Professional Ethics

1. Faculty members, guided by a deep conviction of the worth and dignity of the advancement of knowledge, recognize the special responsibilities placed upon them. Their primary responsibility to their subject is to seek and to state the truth as they see it. To this end faculty members devote their energies to developing and improving their scholarly competence. They accept the obligation to exercise critical self-discipline and judgment in using, extending, and transmitting knowledge. They practice intellectual honesty.
Although faculty members may follow subsidiary interests, these interests must never seriously hamper or compromise their freedom of inquiry.

2. Faculty members encourage the free pursuit of learning in their students. They hold before them the best scholarly and ethical standards of their discipline. Faculty members demonstrate respect for students as individuals and adhere to their proper roles as intellectual guides and counselors. Faculty members make every reasonable effort to foster honest academic conduct and to ensure that their evaluations of students reflect each student’s true merit. They respect the confidential nature of the relationship between faculty member and student. They avoid any exploitation, harassment, or discriminatory treatment of students. They acknowledge significant academic or scholarly assistance from them. They protect their academic freedom.

3. As colleagues, faculty members have obligations that derive from common membership in the community of scholars. Faculty members do not discriminate against or harass colleagues. They respect and defend the free inquiry of associates. In the exchange of criticism and ideas faculty members show due respect for the opinions of others. Faculty members acknowledge academic debt and strive to be objective in their professional judgment of colleagues. Faculty members accept their share of faculty responsibilities for the governance of their institution.

4. As members of an academic institution, faculty members seek above all to be effective faculty members and scholars. Although faculty members observe the stated regulations of the institution, provided the regulations do not contravene academic freedom, they maintain their right to criticize and seek revision. Faculty members give due regard to their paramount responsibilities within their institution in determining the amount and character of work done outside it. When considering the interruption or termination of their service, faculty members recognize the effect of their decision upon the program of the institution and give due notice of their intentions.

5. As members of their community, faculty members have the rights and obligations of other citizens. Faculty members measure the urgency of these obligations in light of their responsibilities to their subject, to their students, to their profession, and to their institution. When they speak or act as private persons, they avoid creating the impression of speaking or acting for their college or university. As citizens engaged in a profession that depends upon freedom for its health and integrity, faculty members have a particular obligation to promote conditions of free inquiry and to further public understanding of academic freedom.

Commitment to Quality

As part of a single college, multi-campus district, Mt. San Jacinto College faculty and staff from both campuses and all sites work together to provide the highest quality curriculum and student services possible. The Board of Trustees, the Superintendent/President, and all of the faculty and staff of Mt. San Jacinto College have made the commitment to provide the highest quality transfer and occupational education programs and services in a supportive teaching and learning environment. As the college continues to grow in the years ahead, the tradition of building for the future, which began in 1963, will continue to guide Mt. San Jacinto College in its quest for excellence, both now and throughout the 21st century.

Accreditation and Affiliations

Mt. San Jacinto College is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, (10 Commercial Blvd., Suite #204, Novato, CA 94949, (415) 506-0234 [Fax: (415) 506-0238], E-mail: accjc1@pacbell.net, www.accjc.org), a regional accrediting body recognized by the Council for Higher Education Association and the U. S. Department of Education, Board of Registered Nursing and the Board of Vocational Nursing and Psychiatric Technician Examiners.

The college has been approved to offer veterans educational benefits under the Department of Veterans Affairs Veterans Educational Improvement Assistance Act and various United States public laws and California veteran enactments.

The Bureau of Citizenship and Immigration Services has approved Mt. San Jacinto College for international students under educational visas. Mt. San Jacinto College is authorized under federal law to enroll non-immigrant and alien students.

Catalog Authority Advisement

The materials and information found in this catalog are intended to provide the most recent information about programs, services, policies and regulations. Individuals with questions related to current programs, courses, policies and procedures should contact the Office of Student Services or the Office of Instructional Affairs.

The Importance of Education

The nation’s vitality depends upon a well-educated citizenry. The goal of the college staff is to provide students with the knowledge, skills, and attitudes essential to living in and contributing to an ever-changing democratic society. The college’s programs and services are designed to assist students in developing personal autonomy, social competence, social conscience, and creative capacity.

Recognizing that education is a personal achievement gained through opportunity and an individual’s aim to succeed, Mt. San Jacinto College is committed to providing the resources such achievement requires including:

1. General education: To provide opportunities for students to develop skills in learning, critical thinking, leadership, organization, and techniques for making intelligent choices.

2. Transfer education: To provide the first two years of college-level courses for those students who plan to transfer to a four-year college or university.

3. Career education: To offer courses and programs in varied vocational/technical fields for students to gain entry-level occupational skills, enhance career changes, or upgrade skills for career advancement.
4. Transitional education: To offer courses in developmental or remedial education for students who need to improve English and mathematics proficiency in preparation for college-level courses.

5. Counseling and guidance: To encourage student growth and development through specialized counseling in the areas of academic planning, career planning and personal development.

6. Special programs and services: To extend special programs and services to students who are disadvantaged and/or disabled.

7. Community education: To provide an enriched environment throughout the community by offering vocational, recreational and cultural programs.

Degree Granting Programs and Certificates

Under the laws of the State of California, the locally elected Board of Trustees, on the recommendation of the superintendent/president and faculty of the college, is authorized to confer the Associate in Arts, Associate in Science and Associate in Science—Nursing degrees and vocational certificates in several specific occupational fields.
Continuing Education & Workplace Training

Mt. San Jacinto College’s Continuing Education and Workplace Training office includes three unique programs:

1. **FOCUS**: Continuing Education fee-based classes, seminars and Short Term Career Training Certificates;
2. **Contract Training**: training employees in the workplace; and
3. **Non-Credit**: Basic Skills or Older Adult classes.

MSJC’s FOCUS classes provide opportunities for personal and professional development, skill improvement and upgrading, cultural enrichment, recreational enjoyment and the joy of learning. The Short Term Career Training Certificates are designed to rapidly prepare people for their first step in a career and are always developed or revised in response to current labor market trends. FOCUS classes are supported by registration fees and are not funded by taxpayer dollars.

Contract training for businesses and government agencies allows the opportunity to customize training solutions in response to specific business needs. This program can include credit classes that are not open to the public. Contract training also receives no taxpayer funds.

Non-Credit Basic Skills and Older Adult courses that are offered have been approved for funding by the State of California. Non-Credit education offers citizens of every age and educational level continuing opportunities for lifelong learning. Because of the state’s financial support, students do not pay a fee to take non-credit courses. GED preparation, Citizenship, English as a Second Language and classes designed for older adults are some of the courses offered through this program.

College credit is not given for any FOCUS or non-credit classes.

Mt. San Jacinto College Foundation

The Mt. San Jacinto College Foundation was founded in 1983 with the mission of raising funds to assist the College in purchasing equipment and to enhance its services and programs.

The Foundation offers the community the opportunity to support the College through financial donations, and gifts of time and expertise. More facilities and expanded programs are required as the population in the College District’s 1,700 square mile area, which stretches from the San Gorgonio Pass to the Temecula Valley, continues to rapidly grow. Cutbacks in the state budget, which means reduced funding to the College, makes the Foundation’s fundraising efforts even more important to help pay for the needed facilities and programs.

Since the Foundation was formed, more than $1,000,000 in scholarships and book loans have been given to many deserving students. Donations for instructional equipment and facility improvements have been provided through wills, estates and the annual giving programs such as The President’s Club.

The Foundation continues to actively solicit support for each of the College’s two campuses, its Temecula Education Complex and the San Gorgonio Pass Campus from donors throughout the college district. Individuals interested in learning more about the Foundation or making a donation may call the Foundation Office at the San Jacinto Campus at (951) 487-3171 or visit www.msjc.edu/foundation on the web.
ADMISSIONS

The following groups of people may attend Mt. San Jacinto College:

- Residents and non-residents of California who have graduated from high school, passed the California High School Proficiency Exam or General Education Development Exam (GED), or are 18 years or older and can benefit from instruction;
- International students who have satisfied specific admission requirements; or
- Eligible high school students who have satisfied specific admissions requirements.

Policy on Open Enrollment

Unless specifically exempted by statute, every course, course section or class which is to be reported for state apportionment, is open for enrollment and participation by any person who has been admitted to the college and who meets the prerequisite of such course as defined in Title 5, section 58106 of the California Administrative Code.

NOTE: To ensure students the most accurate placement, placement scores are subject to change based upon continuing validation studies. Please consult the Assessment Centers for modifications.
Admissions Information

STUDENT SUCCESS AND SUPPORT PROGRAM

The Seymour-Campbell Student Success Act of 2012 requires California Community Colleges to provide students with the following core matriculation services to assist them in achieving their educational goals in their program of study.

• Orientation;
• Assessment;
• Counseling and other educational planning services;
• Referrals to specialized support services; and
• Evaluation of the student’s academic progress for intervention.

It is the student’s responsibility to participate in these activities by:

• Identifying an education and/or career goal;
• Participating in orientation;
• Completing the assessment for placement into English and mathematics;
• Participating in counseling services and completing an abbreviated student education plan on entry into Mt. San Jacinto College; and
• Completing a comprehensive student education plan on completion of 15 units or within two semesters.

Students who do not complete the above activities may be considered a Priority 10—non-matriculated student when registering for courses.

Matriculation Exemption

A student may qualify for exemption from assessment based on the following criteria:

• Completion of an associate degree or higher from a regionally accredited college;
• Enrollment in coursework to pursue personal enrichment or maintain a certificate/license;
• All students are required to participate in orientation and counseling services including the development of a student educational plan.

Admission Application

New and returning students who have not attended MSJC for more than one calendar year must complete an application for admission. Federal and state law, and college policy requires this information. It is highly recommended that students provide the college with official transcripts from high school and previous college work at the time of admission. All transcripts and other documentation submitted become the property of Mt. San Jacinto College.

Complete the application for Admission on the Web at www.msjc.edu. Click on the Admission tab and then click on “Apply for Admission.” After you have completed the application, click on the submit button. Print a copy of your confirmation page. Remember the login and password used should you need to review your application information.

Assessment

Assessment (a component of the matriculation process) assists students with making sound decisions about their courses by evaluating their reading, writing and mathematics skills. Assessment (in conjunction with orientation) is REQUIRED for all new students unless they qualify for an exemption.

Assessment tests can be taken anytime during the center’s hours of operation. After you have completed your computerized assessment, the scores will be uploaded into your student account. Once you have completed your assessment and orientation, you may go to my.msjc.edu for your registration appointment. It is highly recommended that all new students meet with a counselor.

Special Needs

The Assessment Centers on the Menifee Valley and San Jacinto Campuses will provide appropriate assistance to students with special needs (e.g. hearing impaired may require interpreters or visually impaired may need print enlargement). Please contact the Assessment Center nearest to you.

Retesting

Retesting will be permitted if 3 years have lapsed since taking the last placement, or if assessment was taken while in high school.

Students who have received college credit for math, English or reading classes will not be permitted to retest.

Multiple Measures

In addition to assessment scores, evaluating a student’s background (e.g. highest level of education, hours of employment, etc.) is used to place students at the appropriate course levels.

Registration Enrollment Priorities

Mt. San Jacinto College has adopted the following enrollment priorities that are used for registration appointments for fall and spring terms and summer sessions.

Priority Registration

Section is currently under review to incorporate recent statutory and regulatory changes effective fall 2014; information to be included in the addendum of the 2014/2015 college catalog.

The purpose of priority registration is to enable students to enter and be able to complete their educational goals at the college in a reasonable time frame by providing priority registration to groups of students with special needs and to maintain that priority as long as they continue to make good progress. The following is a breakdown of registration priorities as approved by the Local Governing Board and in accordance with Title 5, section 58108:
Assessments From Other Colleges

The following assessments from other colleges may be used for placement at MSJC if taken within the last 3 years:

- ASSET;
- Compass;
- Accuplacer;
- MDTP;
- CLEP; or
- CELSA (for ESL Students).

To use assessments from other colleges, students must provide a copy of the placement results and scores from the previous college. A counselor will be able to interpret the appropriateness of the placement for Mt. San Jacinto College curriculum.

Residency Requirements

This section of the catalog provides a general summary of the principal rules on residency and their exceptions. For the detailed rules used by admission officers for residency determination, reference should be made to regulations of the Board of Governors of the California Community Colleges in Sub-Chapter 1 (commencing with Section 54000) of Division 6 of Chapter V, of Title 5 of the California Administrative Code, and the regulations and guidelines available at the Enrollment Services Office. These regulations are subject to change without notice by the state Legislature.

Determination of Residency

Each person enrolled or applying for admission to a California community college is, for purposes of admission and/or tuition, classified as a “California resident” or as a “non-resident.” If students are classified as California residents, they will be admitted to the college without paying non-resident tuition. Students classified as non-residents will be required to pay non-resident tuition and capital outlay fee, in addition to the California Enrollment fee, in an amount set by the governing board of the district.

A “California resident” is a person who has resided within California for at least one year and one day prior to the first day of the term of enrollment and can provide documentation of his/her intent to make California their permanent residence. A “non-resident” student is one who does not have residence in the state for more than one year prior to the residence determination date and cannot provide documentation of intent to make California their permanent residence.

Establishing Residence

To establish residence, a person capable of establishing residence in California must couple his or her physical presence in California with objective evidence that the physical presence is with the intent to make California the permanent home. The burden is on the student to demonstrate clearly both physical presence in California and intent to establish California residence. The following explanations will assist in determining physical presence and intent.

Registration Process

All students will be issued a registration appointment based on the priority listed above. Students may register at or after the date and time of their appointment. Appointments are generally issued two weeks prior to registration and may be viewed online via Student EagleAdvisor ea.msjc.edu.

Wait List Option

Once a class fills, you may have the option to add your name to the waitlist (a prioritized list of students seeking enrollment) via Student EagleAdvisor ea.msjc.edu. If space becomes available in the class, you will automatically be enrolled, and have four (4) days to pay the enrollment fee or be dropped. Notification of auto-enrollment is sent to college issued student e-mail account. For spring and fall full-term classes, waitlists close seven (7) days prior to the start of the term. For all spring and fall classes which are not full term (and all summer classes) the waitlist closes seven (7) days prior to the start of the class. Students are responsible for meeting prerequisite/corequisite requirements for waitlisted courses. In addition, it is the student’s responsibility to ensure necessary petitions are submitted and the waitlisted class does not pose any scheduling time conflicts.

Assessment/Placement

Mt. San Jacinto College utilizes the Accuplacer – Computer Placement Test and Accuplacer Companion (paper and pencil). The Accuplacer assessment, coupled with multiple measures (see “Multiple Measures”), provides accurate course placement that enhances a student’s potential for success in their courses. Students will only be permitted to enroll in courses with the appropriate course placement scores or completion of the required prerequisite/corequisite (see “Prerequisites, Corequisites and Other Limitations on Enrollment”).

Mt. San Jacinto College utilizes the Accuplacer – Computer Placement Test and Accuplacer Companion (paper and pencil).
Admissions Information

Physical Presence

- A person capable of establishing residence in California must be physically present in California for one year prior to the residence determination date to be classified as a resident student;
- A temporary absence for business, education or pleasure will not result in loss of California residence if, during the absence, the person always intended to return to California and did nothing inconsistent with that intent;
- Physical presence within the state solely for educational purposes does not constitute establishing California residence regardless of the length of that presence.

Intent

a) Intent to make California the home for other than a temporary purpose may be manifested in many ways. No one factor is controlling;

b) A student who is 19 years of age or over and who has maintained a home in California continuously for the last two years shall be presumed to have the intent to make California the home for other than a temporary purpose unless the student has evidenced a contrary intent by having engaged in any of the activities listed in subsection (f) of this section;

c) A student who is under 19 years of age shall be presumed to have the intent to make California the home for other than a temporary purpose if both the student and his parent(s) have maintained a home in California continuously for the last two years unless the student has evidenced a contrary intent by having engaged in any of the activities listed in subsection (f) of this section;

d) A student who does not meet the requirements of subsection (b) or subsection (c) of this section shall be required to provide evidence of intent to make California the home for other than a temporary purpose as specified in subsection (e) of this section;

e) The following factors are considered in determining California residency (a minimum of 3 must be provided):
   1. Ownership of residential property or continuous occupancy of rented or leased property in California;
   2. Registering to vote and voting in California;
   3. Licensing from California for professional practice;
   4. Active membership in service or social clubs;
   5. Presence of spouse, children or other close relatives in the state;
   6. Showing California as home address on federal income tax form;
   7. Payment of California state income tax as a resident;
   8. Possessing California motor vehicle license plates;
   9. Possessing a California driver’s license;
   10. Maintaining a permanent military address or home of record in California while in the armed forces;
   11. Establishing and maintaining an active California bank account;
   12. Being the petitioner for a divorce in California.

f) Conduct inconsistent with a claim of California residence includes but is not limited to:

1. Maintaining voter registration and voting in another state;
2. Being the petitioner for a divorce in another state;
3. Attending an out-of-state institution as a resident of that state;
4. Declaring non-residence for state income tax purposes.

Reclassification

Students who have been classified as non-residents are not automatically reclassified as residents. It is the responsibility of the student to request reclassification to residency status. The petition for reclassification to residency status must be submitted to the Enrollment Services Office no later than the first day of registration for the term in which the student is seeking reclassification. The petition must be accompanied by documentation verifying the student’s intent to become a California resident, evidence of physical presence in California and/or evidence of financial independence. The law clearly states that the burden of proof of verifying residency rests with the applicant or student.

- A student seeking reclassification as a resident, who was classified a non-resident in the preceding term, shall be determined to be financially independent or dependent;
- A student who has established financial independence may be classified as a resident if the student has demonstrated clearly physical presence and intent to be a California resident for one year prior to the residence determination date;
- In determining whether the student has objectively manifested intent to establish California residence, financial independence shall weigh in favor of finding California residence, and financial dependence shall weigh against finding California residence;
- Financial dependence in the current or preceding calendar year shall weigh more heavily against finding California residence than shall financial dependence in earlier calendar years. Financial dependence in the current or preceding calendar year shall be overcome only if (1) the parent on whom the student is dependent is a California resident, or (2) there is no evidence of continuing residence in another state.

One-Year Waiting Period

The one-year residency period that a student must meet to be classified as a resident does not begin to run until the student both is present in California and has manifested clear intent to become a California resident.

Exceptions to Residency Rule

Exceptions to the residency determination as set forth above will be applied to certain factual situations. If the student would otherwise be classified a non-resident, but fits within one of the following exceptions, he or she will be granted resident classification until he or she obtains such classification.
Examples of some exceptions are:

- A minor whose parents moved from California prior to the residency determination date will retain resident classification if he or she remains in California and continues full-time attendance at Mt. San Jacinto College;
- A student who is a minor and who has been self-supporting and in California for one year preceding the day before the term will be granted resident classification;
- A child or a spouse of a member of the armed forces stationed in California will be granted resident classification. A student who is a member of the armed forces not assigned to California for purposes of education will be entitled to resident classification;
- Adult aliens lawfully admitted for permanent residence and present for one year will be given resident classification. Minor aliens may use their parent’s durational presence to satisfy the one-year requirement as long as they are not precluded from establishing residence in the United States;
- A student holding a valid credential authorizing service in a public school and employed in a certificated position by a community college district will be given resident classification;
- Certain refugees may claim exception from non-resident tuition with documentation from the Immigration and Naturalization Service evidencing that the student is a refugee and establishing that he or she has been a California resident for one year;
- A student who is a full-time employee of a California school enrolling in courses necessary for credential qualifications will be given resident classification.

Change of Address

Following is a step-by-step process for changing your address on the Web:

- Go to ea.msjc.edu;
- Log in using your username and password;
- Select “Student EagleAdvisor” from the menu;
- Under the heading “User Account”, select “Verify/Update My Address”.

Admission of High School Students

The California Education Code has provided a special program for high school students who are able to benefit from advanced scholastic or vocational studies. To that end, upon the written recommendation of the high school principal, students in grades 11 and 12 may enroll in 8 units of instruction or 2 courses that are not remedial courses. Some highly qualified ninth and tenth grade students may be admitted based upon demonstrated ability to handle advanced study. Official transcripts are required. For purposes of this program, remedial courses are defined as any course numbered under 070, such as English 062. In addition, students MUST meet all established course prerequisites in order to be admitted to college courses. Please note that completion of high school courses does not always meet college course prerequisites. Consult a college counselor for details on specific courses.

FALL/SPRING TERMS

- Students in grades 11 or 12 may enroll in any scholastic or vocational course(s)* numbered 070 or above for which they meet the course prerequisite(s), and where they can benefit;
- Students in the second semester of grade 9 or who are in grade 10 must have a letter of recommendation attesting to the student’s ability to benefit from enrollment in the college course or program. The letter of recommendation must come from the student’s high school teacher in the same discipline for which the student is requesting permission to enroll. If an appropriate, matching discipline is not available at the student’s high school, the letter must then come from the student’s high school guidance counselor;
- In general, students who are not currently enrolled in the second semester of grade 9 or above are not eligible to enroll in college courses;
- Concurrently enrolled students are limited by statute to 8 units or 2 courses;
- In addition to materials required for special part-time students, concurrently enrolled students desiring to enroll in 12 units must also present written authorization from the K-12 or high school district governing board;
- Because college courses are taught at a much faster pace and require significantly more independent learning, high school students will not be permitted to enroll in courses where they have failed the same course in high school.

*Scholastic or vocational courses are non-performance courses that may be counted toward an Associate degree or certificate, or for transfer to a four-year institution. History and theory courses such as music or art history, music fundamentals, American Red Cross Lifeguard Training, etc. are considered to be scholastic or vocational, and may be taken by high school students who meet the prerequisites.

These courses have both lecture and lab components to the curriculum. Specifically excluded during the academic year are courses involving activity in physical education and lab courses emphasizing physical skill building that is not needed to reinforce the theory of a lecture course.

SUMMER SESSION

- Student must have completed grade 9;
- Course must not be available through local high school during the summer;
- Student must meet all prerequisites; and
- Up to 5% of any high school students enrolled in a particular grade (as determined by the high school) may be admitted.
Admissions Information

Process for All Students:

- Submit an MSJC Application for Admission (first semester only).
- Submit a School/Parent Agreement Form (every semester).
- Submit official high school transcript (every semester).
- All students must take the assessment test and go through the orientation process (first semester only).

High School students in grades 9 through 12 wishing to participate in this program must submit a “School/Parent Agreement Form,” available at high school counseling offices and at the college’s Enrollment Services offices. The form MUST be signed by the high school principal and by the parent or legal guardian. The high school principal, by signing this form, assures the college that the high school student is able to benefit from advanced instruction.

The student is responsible for completing the college registration process, which includes completion of an application for admission, submitting official transcripts, taking the assessment placement test, attending an orientation session, and officially registering for classes. This process must be completed before the course begins. No late requests will be considered.

Special Students Below Grade 9

In extraordinary cases where a student demonstrates superior ability and capacity to succeed in college level work in a particular discipline, the college may consider admission of students who have not completed the first semester of 9th grade. Such consideration will be on a case-by-case basis, will be limited, and will include completion of the college assessment or other significant documentation of exceptional abilities. Students in this age group who are capable of college level work will usually have already begun high school. Under normal conditions, students still in grade 9 or below will be considered to have not demonstrated college level abilities. MSJC reserves the right to deny admission to courses.

Parents should be aware that college work requires more than an ability to understand material. The college-learning environment requires a level of emotional and intellectual ability, which is significantly above that of an 8th grader. Even straight A’s in 8th grade do not necessarily mean a student is ready for college work. Eighth grade students who request admission will be given individual attention to determine their ability to benefit from college instruction.

Parents are not permitted to attend classes with their children unless they are registered for the course or authorized to attend class to assist a student with an identified disability.

Parents should be aware that they do not have access to their children’s records without a signed release from the child.

Fees

Pursuant to Education Code Section 76300 (f), all special part-time students enrolled in up to and including 11 units per semester at Mt. San Jacinto College while concurrently enrolled in grade 12 or lower are exempt from enrollment fees. When appropriate, students are required to pay non-resident, SGA, student representation, transportation, parking and/or materials fees. Special full-time students enrolled in more than 11 units per semester are required to pay California Enrollment fees.

NOTE: While most high schools accept college courses as satisfying high school graduation requirements, it is the high schools’ exclusive right to determine what will be accepted, and how it will be counted. Be certain to consult with the high school counselor before assuming how a college course will be counted. In addition, the college can generate official transcripts only after all instructor grades have been submitted. Therefore, semester grades may not be posted on transcripts in time for high school graduations. Where high school districts will accept it, the college will provide an advance letter indicating course completion to assist the student in going through commencement exercises at the high school.

Grades are not automatically sent to the high school. It is the student’s responsibility to sign and submit a transcript request form in time for the college to provide a transcript to the high school. All of the regulations regarding transcript requests apply to high school students as well, including fees. You may now order your official MSJC transcripts online at ea.msjc.edu. Login and go to the “Student EagleAdvisor” menu.

College courses completed by high school students carry the full weight of college credit, and will count toward college degrees and/or certificates as outlined in this catalog. These courses become a part of the student’s permanent college transcript.

NOTE: It is expected that all high school students enrolling in college courses have the maturity to function effectively on a college campus. No special arrangements for additional supervision of underage students are available. College courses are designed for adult students. In a very small number of disciplines, course content may be unusually frank in order to deal with scholarly discussion of behavior, artistic, human or other issues. Unlike K-12 schools, colleges do not contact parents in advance to inform them of these issues. Parents are hereby notified that it is their responsibility to assure that their student is able to handle the college environment, as well as the content of the courses in which the student enrolls. Parents may wish to investigate the curriculum prior to enrolling their student if they have any questions or concerns.

Admission of International Students

Students from outside the United States will be admitted to Mt. San Jacinto College if they meet the general admission requirements and the additional requirements for admission of international students.

Full information on admission of international students is available from the Enrollment Services Office. There is a non-refundable application processing fee of $90, which will be applied toward the non-resident tuition upon acceptance of the international student.

International students will be required to pay the prevailing non-resident tuition fee, California enrollment fees and any other appropriate fees. Please visit the website for further information at http://www.msjc.edu/enroll and click on “International Students.”
Evening Classes

Evening classes are parallel to daytime classes in title and number, prerequisites, course content, outside work required and in examinations. Students may qualify for the Associate in Arts degree or the Associate in Science degree through participation in evening classes. The evening program offers many possibilities: preparation for a vocation, preparation for transfer to the upper division of a four-year college or university or a chance to gain a better general education. Counseling services are available to help students in their educational planning.

Maximum Unit Load

During the fall and spring semesters, students may not enroll in more than 20 units. During the summer session, students may not enroll in more than 8 units. Unit load is subject to change without notice.

If you would like to enroll in more than the allowed units, please meet with a counselor.

Cross Enrollment

Mt. San Jacinto College participates in a cross-enrollment program with the California State University (CSU) and University of California (UC) campuses. Mt. San Jacinto College students may enroll in one course per term (limited to two courses per year) at any CSU or UC on a space available basis without formal admission and without payment of university tuition fees.

Qualification Requirements for Cross-Enrollment Programs

You are eligible for Cross Enrollment if you have met all of the following requirements at MSJC:

a. Have earned California resident status;
b. Completed at least one regular semester at MSJC;
c. Earned a grade point average of 2.0 for college work completed;
d. Enrolled at MSJC for a minimum of six units for the current term (fall or spring);
e. Paid appropriate enrollment fees at home campus;
f. Completed appropriate academic preparation for the course you intend to take as determined by the host campus. The host campus is where you will take the additional class (example: CSUSB, CSUSM, UCR, UCSD, etc.).

For further information, see the Counseling Office.

Schedule of Classes

Mt. San Jacinto College publishes class schedules for the regular academic program and continuing education for each semester. Class schedules are available on the Web at www.msjc.edu. Printed schedules for Continuing Education & Workplace Training (non-credit) are available in the Enrollment Services Office on the San Jacinto and Menifee Valley campuses, the Temecula Education Complex, and the San Gorgonio Pass Campus. Due to budget constraints, class schedules for academic (credit) programs are available online only.

Off-Campus Centers

Courses are offered at a variety of high school campuses and other off-campus sites. Check the current schedule of classes for information about course offerings and locations.

Courses taken on either campus or at any off-campus center of Mt. San Jacinto College are all reported on the same transcript and are counted cumulatively toward the student’s educational goal.

Online and Short-Term Offerings

The college provides a wide variety of specially scheduled courses such as Online, Short-term, and courses that are not contained within one of the regular academic terms. All credit courses offered, regardless of scheduling option, meet the requirements and standards established by the college, and result in the award of full college credit.
Admissions Information
**ENROLLMENT FEES**

**Resident Tuition**

(Each semester)
Each unit ................................................................. $46

**Enrollment Fee Waiver (BOGW)**

The Board of Governor’s Waiver (BOGW) ensures that no student who is eligible and who wants to attend Mt. San Jacinto College is denied entrance because of the enrollment fee. To receive a BOGW, a student must be a California resident or be eligible for AB 540, California Non-resident Tuition Exemption, must be either receiving Temporary Assistance to Needy Families (TANF) or Supplemental Social Security or General Assistance, or meet the past year’s income criterion. Complete information is available in the Financial Aid Office.

Enrollment fees shall be waived for the following:

1. Dependents of certain deceased or disabled veterans and California National Guard members upon certification of fee waiver eligibility by the California Department of Veterans Affairs or the National Guard Adjutant General;
2. The surviving spouse or the child, natural or adopted, of a deceased person who met all the requirements of Education Code section 68120 regarding active law enforcement service or active fire suppression and prevention;
3. A dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if he or she meets the financial need requirements for the Cal Grant A Program, pursuant to Education Code section 69432.7 and either the dependent was a resident of California on September 11, 2001, or the individual killed in the attacks was a resident of California on September 11, 2001. The waiver continues until January 1, 2013, for a surviving spouse, and for a surviving child, the exemption continues until the dependent child reaches the age of 30.

**Other Fees**

Student Activity/Student Government Association Discount Card (optional) .......................................................... $7
**RTA/Transportation Fee ..............................................$6
***Parking Fee fall/spring .............................................$34
***Board of Governor’s Waiver Parking Fee .................$20
***Motorcycle Parking Fee ........................................ $20
***Parking Fee summer ................................................$15
or $2 a day from the meter at San Jacinto, Menifee Valley and San Gorgonio Pass
Student Representation Fee (optional) ...............................$1
Help-A-Student Fund (optional) ........................................ $2

Material fees as listed in the current schedule
*All fees are subject to change. See current class schedule.

**Non-Resident Tuition**

Each unit .......................................................................... $193
California Enrollment Fee ..............................................$46
Capital Outlay Fee per unit ........................................... $16
Total Non-Resident Tuition per unit .............................. $255

A non-resident tuition fee will be charged those students 18 years of age or older at the time of registration, who have not been living in the State of California for a period of one year prior to the date of enrollment. Students under 18 will be charged non-resident tuition if the student’s parents or legal guardian are a resident of another state.

A student who does not qualify for California residency is classified as a non-resident student and is required to pay a non-resident tuition fee. The fee for non-resident tuition is $193 per unit. This fee is in addition to the $46 per unit enrollment fee mandated by the State of California. Non-resident students must also pay an additional $16 per unit capital outlay fee pursuant to Education Code Section 76141.

Students who qualify for California Non-Resident Tuition Exemption (AB 540) are not required to pay the non-resident tuition and capital outlay fees. See AB 540 eligibility below.

**California Non-Resident Tuition Exemption**

**For Eligible California High School Graduates**

(The law passed by the Legislature in 2001 as AB 540: Education Code Section 68130.5)

Any student, other than a nonimmigrant alien, who meets all of the following requirements, shall be exempt from paying non-resident tuition at the California Community Colleges, the California State University and the University of California (all public colleges and universities in California).

**Requirements**

1. The student must have attended a high school (public or private) in California for three (3) or more years;
2. The student must have graduated from a California high school or attained the equivalent prior to the start of the term (for example, passing the GED or California High School Proficiency exam);

3. An alien student who is without lawful immigration status must file an affidavit with the college or university stating that he or she has filed an application to legalize his or her immigration status, or will file an application as soon as he or she is eligible to do so;

4. Students who are nonimmigrants (for example, those who hold F [student] visas, B [visitor] visas, etc.) are not eligible for this exemption; and

5. The student must file an exemption request including a signed affidavit with the college that indicates the student has met all applicable conditions described above. Student information obtained in this process is strictly confidential unless disclosure is required under law.

Students eligible for this exemption who are transferring to another California public college or university must submit a new request (and documentation, if required) to each college under consideration.

Non-resident students meeting the criteria will be exempted from the payment of non-resident tuition, but they will not be classified as California residents. They continue to be “non-residents.”

**California Dream Act of 2011**

The California Dream Act of 2011 is the result of two bills, Assembly Bill 130 (AB 130) and Assembly Bill 131 (AB 131). Together, these bills allow undocumented and documented students who meet certain provisions of AB 540 law (see above) to apply for and receive non-state funded scholarships for public colleges and universities (AB 130), state-funded financial aid such as institutional grants, community college fee waivers, Cal Grant and Chafee Grant (AB 131).

If you are an undocumented AB 540 student, complete the CA Dream Application at [https://dream.csac.ca.gov/](https://dream.csac.ca.gov/) or if you are a U.S. citizen or permanent resident, complete the FAFSA (Free Application for Federal Student Aid) at [https://fafsa.gov/](https://fafsa.gov/) to determine your eligibility for financial aid programs.

**Refund Policy**

**RESIDENTS**

Your enrollment fee, less a $10 processing charge, is returned automatically if you drop by a specific date depending on each course or full refund if the college cancels classes. For short-term classes (less than two weeks), you must drop before the first class meeting. For short-term classes (greater than two weeks) including summer session classes, you must drop prior to 10% of the length of the course. Please refer to your registration statement for specific dates including the refund date, drop without a “W” and drop with a “W” date.

Refunds for your parking fee must be requested through the Enrollment Services Office and a processing fee may be assessed. The processing fee is assessed once per semester. You must submit a “Request for Refund” form and attach your parking permit. No refunds will be made after the second week of instruction.

The processing time for refunds is approximately four weeks. The Student Government Association discount sticker and student representative fee are non-refundable. Keep receipts for reference. Student transcripts, diplomas and registration privileges will be withheld pending settlement of outstanding financial obligations due the college.

If you do not appear in class, do not drop the course and the instructor does not drop you, you will be held responsible for fees. In addition, you may also receive a failing grade.

**Military Withdrawal**

Students who have withdrawn from classes due to military orders may request a refund of enrollment fees.

**NON-RESIDENTS**

The amount of your tuition that will be refunded depends upon when you drop.

**Tuition will be refunded as follows:**

**Spring/Fall Sessions Refund**

<table>
<thead>
<tr>
<th>Reason for Withdrawal</th>
<th>Percentage Refunded</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fees collected in error</td>
<td>100%</td>
</tr>
<tr>
<td>Cancelled classes initiated by MSJC</td>
<td>100%</td>
</tr>
<tr>
<td>Drops prior to the end of the second week of instruction</td>
<td>100%</td>
</tr>
</tbody>
</table>

**Drops processed:**

- During the third week of instruction: 80%
- During the fourth week of instruction: 60%
- During the fifth week of instruction: 40%
- During the sixth week of instruction: 20%

After the sixth week of instruction, no refunds will be made. Non-resident students enrolling in short-term classes starting after the beginning of the ninth week of instruction will be charged for the additional units of short-term credit regardless of any reduction at that time.

**Summer Session Refund**

<table>

Mt. San Jacinto College complies with all refund requirements established by the Federal Title 4 Financial Aid Regulations. These refund regulations may differ from the college’s regular refund policy. The college’s current financial aid tuition refund policy may be obtained from the Financial Aid Office.
**SGA Sticker**

The Student Government Association (SGA) sticker fee helps students by providing:

- 5% discounts on purchases in the bookstore and cafeteria
- Free admissions to home game athletic events (excluding playoffs)
- Discounts for on campus performing arts events
- Discounts to local area vendors (the list is available on the SGA website under the Vendor Discount Program)
- While supplies last, free academic supplies such as scantrons, blue books, pencils, etc.
- Free admission to SGA events

In addition, the SGA fee helps fund a variety of important activities and programs on campus. They are:

- Campus BBQ events
- Athletics Program
- Leadership Training
- Club activities
- Local concerts
- SGA programs and events

**Outstanding Obligations**

If you have outstanding fees/obligations owed to the district, the college will withhold your transcripts, diplomas and registration privileges in the current term and subsequent terms until all fees are paid pursuant to California Education Code, section 72237 and Title 5, section 59410.

**Books and Supplies**

Textbooks and some supplies are available for purchase in the One Stop Eagle Shop Bookstores. They also have an extensive rental program with 500 titles available which can save students up to 65%. A valid student identification and credit card in the student’s name is required.
Student Records and Privacy Act

Definitions

For the purposes of this policy, Mt. San Jacinto Community College District (MSJCCD) uses the following definitions of terms:

- **Student** – any person who attends or has attended Mt. San Jacinto College (MSJC)
- **Education records** – any record (in handwriting, print, tapes, film, photograph or other medium) maintained by MSJC or any agent of the college that is directly related to a student, except:

1. A personal record kept by a staff member, if it is kept in the personal possession of the individual who made the record, and information contained in the record has never been revealed or made available to any other person except the maker's temporary substitute;
2. An employment record of an individual whose employment is not contingent on the fact that he or she is a student, provided the record is used only in relation to the individual's employment;
3. Records maintained by MSJC security if the record is maintained solely for law enforcement purposes, is revealed only to law enforcement agencies of the same jurisdiction and does not have access to education records maintained by the college;
4. Records maintained by health services if the records are used only for treatment of a student and made available only to those people providing the treatment; and
5. Alumni records containing information about a student after he or she is no longer in attendance at the college and the records do not relate to the person as a student.

Family Educational Rights and Privacy Act (FERPA)

All student records of Mt. San Jacinto College are maintained in accordance with the provisions of the Family Educational Rights and Privacy Act of 1974. A copy of the complete text of this act is available in the college library (see “Family Educational and Privacy Rights” in Shepherd’s Acts and Cases by Popular Names). The two basic elements of the act are the student’s right to review and challenge his/her record and the conditions under which information in the record can be released to outside parties.

Annual Notification

Students will be notified of their Family Educational Rights and Privacy Act (FERPA) rights annually by publication in the college catalog.

Procedure to Inspect Records

Students may inspect and review their education records upon request to the appropriate record custodian. Students should submit to the record custodian or an appropriate college staff person a written request identifying as precisely as possible the record or records he or she wishes to inspect.
Records

The record custodian or an appropriate college staff person will make the needed arrangements for access as promptly as possible and notify the student of the time and place where the records may be inspected. Access must be within 45 days from the receipt of the request.

When a record contains information about more than one student, the student may inspect and review only the records that related to him or her.

Right to Refuse Access

MSJC reserves the right to refuse student access to the following records:

- The financial statement of the student’s parents;
- Letters and statements of recommendation for which the student has waived his or her right of access, or which were placed in the file before January 1, 1975;
- Those records which are excluded from the FERPA definition of education records.

Refusal to Provide Copies

MSJC reserves the right to deny transcripts or copies of records not required to be made available by the FERPA in any of the following situations:

- The student lives within commuting distance of the college;
- The student has an unpaid financial obligation to the college;
- There is an unresolved disciplinary action against the student.

Fees for Copies of Records

The fee for copies will be 10¢ per page. The cost of a subpoena is $15.

Directory Information

Mt. San Jacinto College designates the name, participation in officially recognized activities and sports, weight, height and high school graduation of athletic team members, photographs and degrees/awards/honors received, including the President’s Honor List, as directory information.

Unless the individual student files a written statement within the first two weeks of each semester requesting that the directory information not be released, the college may make directory information available to various agencies, companies and people.

Student names and addresses may be provided to a private or public school or college. No private or public school or college shall use this information for other than purposes directly related to the academic or professional goals of the institution.

Directory information and other personal information may be given to appropriate persons in connection with an emergency if the knowledge of that information is necessary to protect the health or safety of a student or other persons.

Types, Locations and Custodians of Education Records

The following is a list of the types of records that the college maintains, their location and their custodians:

<table>
<thead>
<tr>
<th>Type</th>

</tr>
</tbody>
</table>

All records received for students become the property of Mt. San Jacinto College. No original record shall be given to a student.

Disclosure of Education Records

MSJC will disclose information from a student’s education record only with the written consent of the student, except to:

1. College officials who have a legitimate educational interest in the records;

   A. A college official is:

   - A person employed by the college in an administrative, supervisory, academic, research or support staff position;
   - A person elected to the Board of Trustees; or
   - A person employed by or under contract to the college to perform a special task, such as the attorney or auditor.

   B. A college official has a legitimate educational interest if the official is:

   - Performing a task that is specified in his or her position description or by a contract agreement;
   - Performing a task related to the student’s education;
   - Performing a task related to the discipline of a student; or
   - Providing a service or benefit relating to the student or student’s family, such as health care, counseling, job placement or financial aid.
2. To officials of another school or college, upon request, in which a student seeks or intends to enroll;

3. To certain officials of the U.S. Department of Education, the Controller General and state and local educational authorities, in connection with certain state or federally supported education programs;

4. In connection with a student’s request for, or receipt of financial aid, as necessary to determine the eligibility, amount or conditions of the financial aid, or to enforce the terms and conditions of the aid;

5. To organizations conducting certain studies for, or on behalf of the college;

6. To accrediting organizations to carry out their functions;

7. To comply with a judicial order or a lawfully issued subpoena;

8. To appropriate parties in a health or safety emergency.

**Record of Request for Disclosure**

MSJC will maintain a record of all requests for and/or disclosure of information from a student’s education records. The record will indicate the name of the party making the request, any additional party to whom it may be disclosed and the legitimate interest the party had in requesting or obtaining the information. The record may be reviewed by the parents or eligible student.

**Correction of Education Records**

Any student may file a written request with the Superintendent/President to correct or remove information recorded in his student records which he or she alleges to be inaccurate; an unsubstantiated personal conclusion or inference; a conclusion or inference outside of the observer’s area of competence; or not based on the personal observation of a named person with the time and place of the observation noted.

Within 30 days of receipt of such request, the Superintendent/President or his designee shall meet with the student and the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the college.

The Superintendent/President or his designee shall then sustain or deny the allegations. If the Superintendent/President or his designee sustains any or all of the allegations, he shall order the correction or removal and destruction of the information. If the Superintendent/President or his designee denies any or all of the allegations and refuses to order the correction or removal of the information, the student may, within 30 days of the refusal, appeal the decision in writing to the Board of Trustees.

Within 30 days of receipt of such an appeal, the Board of Trustees shall, in closed session with the student and the certificated employee who recorded the information in question, if any, and if the college presently employs such employee, determine to sustain or deny the allegations. If the Board of Trustees sustains any or all of the allegations, it shall order the Superintendent/President or his designee to immediately correct or remove and destroy the information. The decision of the Board of Trustees shall be final.

If the final decision of the Board of Trustees is unfavorable to the student, or if the student accepts an unfavorable decision by the Superintendent/President, the student shall have the right to submit a written statement of his objections to the information. This statement shall become a part of the student’s records until such time as the information objected to is either corrected or removed.
The Solomon Amendment

Federal Statute (Public Law 104-208 and Public Law 104-206, commonly known as the Solomon Amendment) requires that Mt. San Jacinto College provide student directory information, (which includes name, address and telephone numbers) to the Department of Defense, including military recruiters, upon request.

Knowing Your Responsibilities

Mt. San Jacinto College provides you with a wide variety of academic assistance and personal support, but it is up to you to know when you need help and to seek it out.

It is your responsibility to keep informed and to obey the rules, regulations and policies, which control your academic standing and your life as an MSJC student.

Meeting deadlines, completing prerequisites and satisfying the degree and certificate requirements, as found in the program planning guides and in this catalog, are all part of your duties as a student.

Consult this catalog, college announcements, student email account, and the schedule of classes for the information you need. This information can be obtained at www.msjc.edu.

Attendance Requirements

Students are expected to attend all classes in which they are enrolled. Experience demonstrates that absence and tardiness contribute to academic failure. Absence interferes with the instructional process; the legitimacy of the reason for absence in no way mitigates the loss incurred.

The instructor of a course is in the best position to judge the effect of any absence on the progress of a student in that course; hence, it is the instructor’s prerogative to report excessive absence, to recommend withdrawal or to drop a student from the course when, in the instructor’s judgment, such absence has seriously interfered with learning.

Absence due to illness or absence due to participation in a college-sponsored activity certainly introduces the element of extenuating circumstance and presumably will be factors in the instructor’s judgment.

Make-up work for absence of any kind must be completed to the satisfaction of the instructor. All instructors recognize the unavoidable nature of illness, and it is institutional policy to support and encourage student involvement in significant activities and experiences outside the classroom. Even so, no absence, whatever the reason, relieves the student of responsibility for completing all work assigned.

Each instructor will, through the course syllabus and the official course outline of record, establish the grading criteria; specify the written course of objectives and the standards for attendance in each class.

Attendance at First Class Meeting

It is extremely important for a student to attend the first class meeting after his or her registration. Instructors are authorized to drop students who do not appear for the first class meeting to make room for others who desire to take the class.

Unit of Credit

A unit of credit is approximately one hour of class plus two hours of study per week, or three hours of laboratory per week carried through the term. For each hour of lecture/discussion, two hours of preparation are assumed. To receive credit, the student must be officially enrolled in the course. Students not officially enrolled by the proper date will not receive credit for the course, even if they complete all course work.

Final Examinations

No student may be excused from final examinations. Instructors will not ordinarily give final examinations at any time other than that regularly scheduled.

Special permission must be obtained from the instructor for an individual student to take final examinations at other than the regularly scheduled time.
General Regulations

GRADING POLICY

Academic Records Symbols and Grade-Point Average (GPA)

Evaluation symbols (grades) are issued in each course at the end of each semester and summer session. The unit of measure utilized at Mt. San Jacinto College is the semester unit.

Students must obtain their final grades by Web. Students may log in at ea.msjc.edu. The college does not mail grades.

In the absence of mistake (to include clerical errors and errors made by an instructor in calculating a student’s grade), fraud, incompetence or bad faith, the determination of the student’s grade by the instructor shall be final. Final grades are recorded on a transcript, which is the student’s official permanent record of all grades issued. Questions regarding final grades of record should be addressed to the attention of the Enrollment Services Office. Evaluative grades are averaged on the basis of the point equivalencies to determine a student’s grade-point-average. (Note: The symbol “P” is an evaluative symbol without grade points.) Non-evaluative symbols are not used in calculating grade point averages. Evaluative symbols and grade points are as follows:

<table>
<thead>
<tr>
<th>Evaluative Grade</th>
<th>Symbols Definition</th>
<th>Grade Point Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4</td>
</tr>
<tr>
<td>B</td>
<td>Good</td>
<td>3</td>
</tr>
<tr>
<td>C</td>
<td>Satisfactory</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Passing, less than satisfactory</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Failing</td>
<td>0</td>
</tr>
<tr>
<td>P*</td>
<td>Pass (not counted in GPA)</td>
<td></td>
</tr>
<tr>
<td>NP**</td>
<td>No Pass (not counted in GPA)</td>
<td></td>
</tr>
</tbody>
</table>

*P grades reflect at least satisfactory performance. Units are awarded.

**NP grades reflect less than satisfactory or failing performance. No units are awarded.

Calculation of Grade-Point Average

The quality of a student’s work for one semester is measured by his or her grade-point average (GPA). His or her cumulative GPA indicates the quality of all work a student has completed at the college through one or more semesters.

In calculating students’ degree applicable grade point averages, grades earned in non-degree credit courses shall not be included.

GPA is determined by:

- Multiplying the number of grade points equivalent to the letter grade received by the number of semester hours for that course
- Adding the grade points received in all courses during the semester
- Dividing the total number of grade points by the total number of semester hours attempted (See example)

### Example

<table>
<thead>
<tr>
<th>Course</th>
<th>Grade</th>
<th>Grade Value</th>
<th>Semester Hours</th>
<th>Total Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL-101</td>
<td>B</td>
<td>3</td>
<td>4</td>
<td>12</td>
</tr>
<tr>
<td>PSYC-100</td>
<td>A</td>
<td>4</td>
<td>3</td>
<td>12</td>
</tr>
<tr>
<td>MATH-140</td>
<td>C</td>
<td>2</td>
<td>4</td>
<td>8</td>
</tr>
<tr>
<td>BIOL-110</td>
<td>D</td>
<td>1</td>
<td>4</td>
<td>4</td>
</tr>
<tr>
<td>PE-112</td>
<td>A</td>
<td>4</td>
<td>1</td>
<td>4</td>
</tr>
</tbody>
</table>

Divide the 40 grade points by the 16 semester hours attempted for a semester grade-point average of 2.50.

During graduation evaluation, the same process using all grades received for all degree applicable courses and all grades accepted from other accredited colleges and universities determines the cumulative grade-point average for students earning the Associate in Arts or Associate in Science degree. Proficiency credit and CLEP earned at MSJC appear on a student’s official transcript, but do not carry any grade value and, therefore, does not affect a student’s grade-point average.

Non-Evaluative Symbols Definitions

- **Incomplete:** Incomplete academic work for unforeseeable emergency and justifiable reasons at the end of the term may result in an “I” symbol being entered in the student’s record. In a written record, the instructor shall state the condition for removal of the “I.” This record must be given to the student with a copy on file with the Enrollment Services Office until the “I” is made up or the time limit has passed.
A final grade shall be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed.

The “I” may be made up no later than six weeks within the subsequent term (excluding summer session) in which it was assigned. A student may petition for an extension of time due to unusual circumstances before the time limit has passed. The “I” symbol shall not be used in calculating units attempted or for grade points.

**IP In Progress:** The “IP” symbol shall be used to denote that the class is scheduled to extend beyond the normal end of an academic term. It indicates that work is “in progress” but that assignment of a substantive grade must await its completion. The “IP” symbol shall remain on the student’s record for the term in which the course is completed. The “IP” shall not be used in calculating grade-point averages.

**RD Report Delayed:** Only the Director of Enrollment Services may assign the “RD” symbol. It is to be used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible. “RD” shall not be used in calculating grade-point averages.

**W Withdrawal:** The “W” symbol shall be used to denote withdrawal from a class. The grade indicates that the course has been removed from the student’s program of study without credit and is not included in the grade point computation.

No notation of “W” or other grade or course entry shall be made on the academic record of the student who withdraws prior to the census date. The census date in a 17-week term is Monday of the third week of instruction. The census date in an 18-week term is Monday of the fourth week of instruction. Additionally, no notation of “W” shall be made on the academic record of the student who withdraws during the summer session and/or short-term class(es) prior to 20% of the course.

The “W” shall not be used in calculating grade-point averages. However, units attempted for which “W” is recorded shall be considered in probation and dismissal procedures.

The “W” shall not be used in calculating grade-point averages. However, units attempted for which “W” is recorded shall be considered in probation and dismissal procedures.

**MW Military Withdrawal:** Occurs when a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. Upon verification of such orders, a “MW” symbol will be assigned. Military withdrawals shall not be counted in progress probation and dismissal calculations.

### Petition to Withdraw

Students who have verifiable extenuating circumstances beyond their control may petition for an exception to withdraw from a class after 75% of the term or course and receive a “W” grade. Under normal circumstances, students will be required to drop all classes unless the student can document reason(s) to drop less than all classes. This may be done by completing a Petition to Drop a Class(es) Beyond 75% of the Term with supportive documentation attached. The instructor of each course during the semester/term must agree to the withdrawal. Once the form is completed, attach the required documentation to support the request, i.e. verification from medical provider, hospital records, employer, etc., and secure the signature of the instructor(s). The form should be submitted in its entirety to Enrollment Services for the Associate Dean or Director to review. Extenuating circumstances may be severe illness, hospitalization, employment, relocation, death of a family member or incarceration.

### Grade Change Policy

In any course of instruction for which grades are awarded, the instructor of the course shall determine the grade to be awarded in accordance with the above-stated grading system. The determination of the student’s grade by the instructor shall be final in the absence of mistake, fraud, bad faith or incompetency. The instructor of record may correct grades given in error. All grade changes must take place within five years of initial award of grade.

### Pass/No Pass

Mt. San Jacinto College shall authorize a maximum of twelve (12) pass/no pass units for students to meet college degree and/or certificate requirements.

A “pass” symbol is defined as a grade of “C” (satisfactory) or better. Attendance requirements are the same for students taking the course for “pass/no pass” as those taking the course for a letter grade. The assignments made for students taking the course for “pass/no pass” are the same assignments made for those taking the course for a letter grade.

Students electing this option must file an Application for Pass/No Pass in the Enrollment Services Office by the end of the fifth (5th) week of a full-term semester or by the end of the first 30% of a short-term course.

Although “pass/no pass” grades are allowed in all designated courses, students should be aware that transfer institutions may not accept courses for transfer taken in a student’s major for which a grade of “P” has been earned. Units earned on a “pass/no pass” basis shall not be used to calculate grade-point averages. However, units attempted for which “NP” is recorded shall be considered in probation and dismissal procedures.
General Regulations

Limitations of Basic Skills and ESL Credit

Students enrolled in basic skills courses may earn up to thirty (30) units of pass/no pass units. Students enrolled in English as a second language courses and students identified by the district as having a learning disability are exempt from the thirty-unit limitation.

Documentation Notice

Every effort is made to accurately record all student transactions. However, in case of an error in records, it is the student’s responsibility to present receipts and official copies of other pertinent documents in order to obtain adjustments in college records. Students are urged to retain all receipts, registration statements, printed schedules, and other college documents in a safe place for future reference.

Standards for Probation

Academic Probation

A student who has attempted at least 12 semester units as shown by the official academic record shall be placed on academic probation if the student has earned a grade-point average of below 2.0 (C) in all units that were graded on the basis of the grading scale.

Progress Probation

A student who has enrolled in a total of at least 12 semester units as shown by the official academic record shall be placed on progress probation when the percentage of all units in which a student has enrolled and for which entries of “W,” “I,” “NC” and “NP” are recorded reaches or exceeds fifty percent (50%). While on probation, the college will make every reasonable effort to provide counseling and other support services to a student on probation to help the student overcome any academic difficulties. This assistance may include the regulation of the student’s study load in accordance with the demonstrated aptitudes and achievements.

Students receiving financial assistance are also subject to additional satisfactory academic progress requirements.

Removal from Probation

A student on academic probation for a grade point deficiency shall be removed from probation when the student’s accumulated grade-point average is 2.0 (C) or higher.

A student on progress probation because of an excess of units where entries of “W,” “I,” “NC” and “NP” are recorded shall be removed from probation when the percentage of units in this category drops below fifty percent (50%).

Standards for Dismissal

Academic Dismissal

A student on Academic Probation is subject to dismissal when the student earns a cumulative grade point average of less than 1.75 in all units attempted in three consecutive semesters.

Progress Dismissal

A student on Progress Probation is subject to dismissal if the cumulative percentage of units in which the student has been enrolled for which entries of “W,” “I,” “NC” and “NP” are reported in at least three (3) consecutive semesters reaches or exceeds fifty (50) percent.

Dismissal Period

A student may be required to remain out of college one semester, excluding the summer term, but may return on probationary status after one semester’s absence.

Appeal Option

A dismissed student may submit an appeal to Enrollment Services for permission to enroll without loss of one semester if the student feels that the cause for the dismissal reflects extenuating circumstances. The burden of written documentation in support of these circumstances remains with the student.

Exceptions

A student may submit a petition to Enrollment Services for readmission following dismissal if their dismissal arises from one of the following:

1. Military service obligations
2. Unusual personal problems which interfered with academic performance
3. Serious health problems, substantiated by a doctor’s statement, which affected academic performance
4. Conditions that their counselor determines may be rectified by a change of curriculum

Academic Renewal Regulations

The Academic Renewal Procedure (55046 California Code of Regulations Title 5) permits the alleviation of a student’s previously recorded substandard academic performance which is not reflective of the student’s present demonstrated ability and level of performance. As a consequence, Academic Renewal may gain for students the benefits of their current level of ability and performance and not permanently penalize them for poor performance in the past.

Therefore, within the regulations listed, Mt. San Jacinto College may disregard particular previously recorded substandard work from a student’s cumulative grade point average (GPA). The regulations for course alleviation follow:

1. Up to 18 units may be alleviated from a Mt. San Jacinto College transcript; however, units taken from another college(s) will not be alleviated.
2. Units alleviated may be requested for one or multiple academic terms in any combination.
3. A minimum of twelve (12) months must have elapsed since the most recent coursework to be alleviated was recorded.
4. A minimum of twelve (12) units must be completed at any accredited college or university, with a grade point average of 2.0 in all units since the last semester of requested renewal. Official transcripts are required for units completed at another institution.
5. Courses used in the major in awarding an Associate Degree cannot be alleviated.
6. A student may be granted academic renewal only once and is irreversible once posted to the transcript. Units alleviated will remain on the transcript and will be annotated appropriately but will not be calculated into the overall grade point average.
7. Academic renewal by Mt. San Jacinto College does not guarantee that other institutions outside the District will approve such action. This determination will be made by the respective transfer institutions.
8. All alleviated unit totals will count as attempted units for financial aid purposes.
9. Only substandard grades (D, F, NC and NP) can be alleviated.
10. Academic Renewal may be accomplished by submitting a petition to the Enrollment Services Department.

No part of the regulations and procedures shall conflict with (a) Education Code, §76224, pertaining to the finality of grades assigned by instructors, and (b) Chapter 2.5 of Division of Title 5 (commencing with section 59020), pertaining to the retention and destruction of records, and particularly section 59023 (c) relating to the permanency of certain student records.

Course Repetition and Withdrawal

Students who have been awarded any of the following grade symbols “D,” “F,” “NC,” “NP” or “W” will only be allowed to repeat the same course twice, for a total maximum enrollment of three times. Military Withdrawals “MW” are excluded from this limitation. Withdrawals resulting in no notation of a “W” grade are allowed within the first 20 percent of a course. In cases where extenuating circumstances exist, students may file a Petition to Repeat the course one additional time (whether the prior enrollment was due to a substandard grade or a withdrawal). Petition to Repeat forms can be obtained and submitted to the Enrollment Services Office. Extenuating circumstances are defined as verified accidents, illnesses or other circumstances beyond the control of the student. Students will be required to attach documentation to their petition to substantiate the request, such as letters from hospitals, physicians, law enforcement agencies, attorneys, etc. When course repetition is approved pursuant to this provision, the previous grade and credit earned (if any) shall be disregarded in computing the student’s grade point average each time the course is repeated. When academic forgiveness is applied to a course, the course is still counted toward the maximum enrollment limitation. The student’s permanent academic record shall be annotated in such a manner that all course work remains legible, insuring a complete and true academic history. Participation in an intervention program may be required.

Equivalent Courses to Alleviate Substandard Grades

Students may replace an unsatisfactory grade by repeating a course that has been repeated in one of two ways: (a) the units of the revised course must be more than the units of the previous course; or (b) the units of the revised course must be one unit less than the units of the previous course. If the units of the revised course are two (2) or more units less than those of the previous course, then the student may not replace the unsatisfactory grade.

Repeatable Courses

The following types of courses may be designated as repeatable courses and are identified in the catalog’s course descriptions:

- Intercollegiate academic or vocational competition courses ($55002)
- MSJC does not currently have any such courses
- Intercollegiate athletic courses ($55000)
- Identified in the program pages of the catalog
- Courses for which repetition is necessary to meet the major requirements of CSU or UC for completion of a bachelor’s degree
- Identified in the program pages of the catalog

Limitation on Enrollment within Related-Content Groups

(refer to program pages for specific related-content groups information)

Courses which are “active participatory courses” (Title 5, §55000) and courses which are in “Physical Education, Visual Arts, or Performing Arts” (Title 5, §55040) shall be placed in related-content groups to be designated by discipline faculty and approved by the Executive Curriculum Committee and forwarded to the Curriculum Committee for approval. Per Title 5, §55040(c) a student may enroll in “related active participatory courses [aka a related-content group]….for no more than four (4) semesters or six (6) quarters. This limitation applies even if a student receives a substandard grade during one or more of the enrollments in such a course or petitions for repetition due to special circumstances as provided in section §55045.”

Instances where a course is repeatable to the individual student include the following and require the student to submit a Petition to Repeat to Enrollment Services with justifiable documentation:

- Special courses for students with disabilities ($55040(b)(7), §56029)
- Courses required for legally mandated training ($55040(b)(8), §55000)
- Courses necessary for employment or licensure due to significant change in industry or licensure standards ($55040(9))
- Courses that are Occupational Internships (up to a total of 16 units of credit)

When a course is repeated pursuant to this section, the grade received each time shall be included for purposes of calculating the student’s grade point average. All attempts,
General Regulations

including “W” and substandard grades will count toward the enrollment limitation. When repetition occurs, the student’s permanent academic record shall be annotated in such a manner that all course work remains legible, insuring a complete and true academic history.

Procedures for Repetition – Significant Lapse of Time

Students may be permitted or required to repeat courses in which a “C” or better grade was earned where there was a significant lapse of time since the grade was obtained and:

• An institution of higher education to which a student wishes to transfer has established a recency requirement that the student cannot satisfy without repeating the course;
• The student has submitted a Petition to Repeat to Enrollment Services with documentation of a recency prerequisite.

When a student needs to repeat an activity course due to a significant lapse of time, each repetition attempt will be counted toward the established repetition limits. However, if a student has already exhausted the number of permitted repetitions, then an additional repetition due to significant lapse of time may be permitted.

When a course is repeated due to a significant lapse of time, the District shall disregard the previous grade and credit when computing a student’s grade point average.

Time Conflicts

Students will not be permitted to register for classes that are scheduled to meet at the same time or at overlapping times.

Multiple Enrollments

Students shall only be permitted to enroll in two or more sections of the same credit course during the same term if the length of the course is such that the student is not enrolled in more than one section at any given time.

Auditing

Students who are not interested in earning credits may audit courses for a fee of $15 a unit for each semester or intersession. The auditing student is essentially a listener, who does not take examinations or receive credit.

• Auditing of a course is at the discretion and permission of the instructor and has no impact on enrollment capacity.
• The audit fee shall be $15 per unit per semester or intersession. (Students enrolled in classes to receive credit for ten or more units shall not be charged a fee to audit three or fewer units per semester.)
• Priority in class enrollment shall be given to students desiring to take the course for credit. Therefore, enrollment for audit will not be permitted until the second week of instruction for full-term classes and the second day of instruction for short-term and summer classes.
• Auditing requests are made through the instructor and with the approval of the area Dean of Instruction during the second week of the term. No audit requests are accepted after 10% of the course.

• Once audit enrollment is completed, no student will be permitted to change his/her enrollment to receive credit.
• If a student registers for a class, he/she may not make the request to audit.
• The college may levy a fee on materials used by the student. This fee will be in addition to the auditing fee.
• The college will maintain no attendance or transcript record
• No refunds will be made for student withdrawals unless the college cancels the course.
• Rules and regulations pertaining to the credit student are applicable to the auditing student except tests and grade responsibility.

Program Changes

Any student wishing to add or drop classes after enrollment may login at ea.msjc.edu. However, commencing the day of the first class meeting, instructor approval is required for all registration via late add codes. Add codes are provided by the instructor and must be used by the expiration date. After the late add code expiration date, a student is required to submit a Petition to Enter Class Late to Enrollment Services. This form MUST be signed by the instructor. Students may not drop a class beyond 75% of the course length. You may request a registration statement from Enrollment Services for specific dates, including refund date, drop without a “W” date and drop with a “W” date.

Transcripts and Enrollment Verifications

Upon a student’s written request, Mt. San Jacinto College will forward an official transcript to another institution or other designated location. The transcript is a duly certified record of all work completed at Mt. San Jacinto College. The first two transcripts and/or enrollment verifications are furnished free of charge upon written request. Additional transcripts and/or enrollment verifications may be obtained for an additional fee. Rush transcripts and/or enrollment verifications are available for an additional service fee. Rush requests are normally processed while you wait, or mailed within 24 hours of receipt of written request. For information on fees, please refer to www.msjc.edu. Click on Admissions, FAQs and then “What Fees do I have to pay?”

The following types of enrollment verifications will not be charged a service fee:

• Scholarship Verifications
• Child Care Verifications
• GPA Verifications
• In-School Loan Deferment Requests
• Verifications as required for public assistance, rehabilitation, unemployment or other California State services/benefits
• Verifications as required for U.S. Military Agencies or Veterans Affairs Services
High School and college transcripts, which are submitted by other institutions to the Enrollment Services Offices for you, become the property of Mt. San Jacinto College and are not forwarded to other institutions, nor are copies provided to students. Unofficial transcripts are available online at ea.msjc.edu.

**Academic Standing**

A student who is in good academic standing is one who has a cumulative GPA of 2.0 (C) or higher.

**Minimum Load**

The college does not specify a minimum load except when the student desires to meet certain requirements such as:

- The load requirements for Chapter 34 (Veterans, 1966 Federal Veterans Education Act), for Chapter 35 (War Orphans) and Federal Student Financial Aid are:
  - Full-time: 12 units
  - Three-fourth time: 9-11 units
  - One-half time: 6-8 units
- Full-time load to maintain status as an “F-1” visa (international student) requirement; 12 units per semester.
- Eligibility to participate in intercollegiate athletics: A student/athlete must be actively enrolled in a minimum of 12 units at his or her community college during the seasons of competition, complete 24 units between season of sports to participate in a second season of the sport and maintain a 2.0 (C) or better grade-point average. See the Dean of Student Services, Physical Education and Athletics for conference regulations.
- Eligibility to participate in student government requires enrollment in 6 or more units during the semester of participation. Contact the Student Government Association Office for other requirements.
- Federal Pell Grants are paid on the basis of less than one-half, one-half, three-fourths or full-time enrollment. Any number of units will qualify an otherwise eligible student for a part-time payment on a Pell Grant.
- Eligibility for EOP&S or the CARE program requires full-time enrollment (12 units).

**Schedule Limitations**

A regular program is 15 to 18 units, including an activity course in physical education. The maximum load for any student is 20 units for the fall and spring semesters. The maximum load for summer session is 8 units. Exceptions will be made only by signed recommendation of a counselor on a Student Petition Form submitted to the Enrollment Services Office.

---

**HONORS**

**Graduation Honors**

“With distinction” is accorded those MSJC graduates whose degree applicable cumulative grade-point average is 3.5 or higher in all college work attempted. These graduates wear a gold tassel during commencement.

The names of the candidates for graduation and their GPA group designation will be published in the commencement program.

**President’s Honor List**

The Vice President of Student Services recognizes each semester’s outstanding scholars by publishing a list of those who carried 12 or more units of work the previous semester and whose grade-point average is 3.5 or better in all courses attempted. The Superintendent/President then commends each scholar in a written letter and provides a list to the Board of Trustees at a regularly scheduled meeting. Graduates may be on this list independently of qualifying for “with distinction.”
General Regulations

**POLICY FOR EARNING COLLEGE CREDIT**

The college provides the following methods of receiving credit for units toward graduation:

A. Enrollment – The student may enroll in a course and master the objectives required for college credit.

B. Testing – The student may demonstrate proficiency in a course and receive college credit by taking a written examination or any other approved method which shows the student has mastered the objectives of the course. These methods include:

1. Credit by Examination – The individual department and/or instructor has the final decision of whether or not the test will be administered. If approved by the instructor, a student who has completed 12 or more units with a 2.0 GPA at MSJC may be granted credit for satisfactorily passing an examination conducted by proper authorities of the college. Such credit may be granted only to a student who is in good standing and registered in a course of three units or more at the time credit by examination is authorized. Credit by examination is allowed only for courses listed in the catalog and is not authorized for a course in which a student is currently enrolled or has already earned a grade in the course including a “W” grade. The examination will be comprehensive and a grade of credit will be recorded on the student academic record and clearly annotated to reflect that the credit was earned by examination. No grade points will be assigned and the credit by examination units cannot exceed twelve (12) as applicable to graduation or counted in determining the twelve (12) units required for residency at MSJC. Credit by examination is not treated as part of the student’s class load and is not considered for financial aid or veteran’s benefits in the application of those regulations. The BOGW does not pay enrollment fees for credit by examination. The deadline to apply for credit by examination is Friday of the third week of Fall and Spring terms. Summer session is Thursday of the second week of instruction. The exam deadline for credit by examination is Friday of the 8th week of Fall and Spring terms. Summer session is Thursday of the 5th week of instruction.

2. Tech Prep – Credit by Exam for High School Classes – The Tech Prep program awards college credit to high school students who earn an “A” or “B” in career-related “articulated” high school courses. An articulated course is one in which the high school teacher and the Mt. San Jacinto College faculty have “formally agreed” that the high school course outline, syllabus, textbook, midterm and/or final exam are comparable to those in a course of the same major at Mt. San Jacinto College and that the final exam score will be used as a credit-by-exam for the comparable Mt. San Jacinto College course. Students who pass the approved credit exam with a 70 or above will earn credit for the course, indicated with a “P” on their transcript. In some instances, faculty at MSJC have deemed the course eligible for a letter grade; in these courses, students who pass the approved credit exam with an 80 or above will earn the letter grade of “A” or “B,” depending on the faculty-determined grading scale, and a letter grade will be posted to their transcript. Students cannot exceed nine (9) as applicable to a specific Certificate or Associate degree at graduation or be counted in determining the twelve (12) units required for residency at MSJC. Tech Prep units will be awarded to the high school student’s MSJC transcript within one semester after the high school posts and forwards the high school transcript to MSJC. MSJC will not require Tech Prep approved students to meet the 12 unit residency requirement prior to posting these units.

3. CLEP – A student who has completed MSJC’s residency requirement of twelve (12) or more units with a 2.0 GPA may earn up to 30 semester units of credit/no credit by successful completion of the College Level Examination Program. For amount and type of credit, please refer to the CLEP table in this catalog, the Enrollment Services Office or a counselor. Units for which credit is given pursuant to these examinations will not be counted in determining the 12 semester hours for credit in residence required for graduation.

**NOTE:** A total of 12 pass/no pass units may be used toward the 18 A.A./A.S. degree unit requirements.

**Please note:**

The Academic Senate of the California Community College System approved the alignment of a California Community College general education (CCC GE) CLEP exam score equivalency list that is aligned with the California State University (CSU) GE CLEP exam score equivalency lists effective fall 2011. This realignment impacts the units allowed, catalog rights to previous approved units will apply.

A maximum of 12 semester units of CLEP may be used to meet MSJC’s AA/AS degrees and certificates. Each California State University will determine how CLEP exams are accepted. Check with your transfer institution for correct CLEP transfer information.

The University of California system will not accept CLEP exams.
General Regulations

C. Advanced Placement at MSJC - MSJC participates in the Advanced Placement Program (AP) offered by the College Board. Advanced Placement Courses are posted to the student’s permanent record and annotated as earned credit. Students will be granted semester unit credit as listed below. Advanced Placement credit shall be granted at MSJC according to the following policies:

1. AP test scores of 3, 4 or 5 are considered satisfactory for earning college credit. No credit will be given for scores of 1 or 2.

2. AP credit can be used to certify general education requirements for transfer to the University of California and California State University under the Intersegmental General Education Transfer Curriculum (IGETC) where our faculty recognize the equivalency between the AP exam and the IGETC approved course and the CSU General Education Breadth pattern approved by CSU faculty (as listed on the following pages).

3. AP credit units granted at MSJC do not necessarily transfer to other colleges and universities unless noted below. The transferability of AP credit outside of MSJC’s is determined by each four-year college or university according to their policies. For further information, please refer to each college or university’s own catalog.

4. Students will not be given duplicate credit for college courses and exams.

5. Students can petition to obtain AP credit by completing the Student Petition Form and submitting it with a copy of their AP test scores to the Enrollment Services Office. Exams and courses for which AP credit is granted will be posted on the student’s transcripts when they have completed 12 units of MSJC coursework with a 2.0 GPA or higher.

6. AP credit can be used to meet MSJC graduation requirements for AA and AS degrees (as listed on the following pages).

Advanced Placement (AP) Examinations for California State University General Education-Breadth Certification

Per CSU General Education Advisory Committee: Beginning Fall 1997 term and beyond, all institutions participating in General Education-Breadth Certification may treat the AP examinations on the list below as though they were incorporated in the institutions’ own General Education-Breadth Certification list.

The following Advanced Placement examinations may be incorporated into certification of completion of CSU General Education-Breadth requirements by any participating institution. Students must have scored 3, 4, or 5 on an Advanced Placement examination listed below to receive the credit indicated. All CSU campuses will accept the minimum units shown below toward fulfillment

of the designated General Education-Breadth area if the examination is included in a full or subject-area certification; individual CSU campuses may choose to accept more units than those specified below towards completion of General Education-Breadth requirements. The CSU campus to which the student is transferring determines the total number of units awarded for successful completion of an Advanced Placement examination and the applicability of the examination to other graduation requirements.

Advanced Placement (AP) Examinations for the University of California System

The University of California grants credit for all College Board Advanced Placement Tests in which a student scores 3 or higher. The credit may be subject credit, graduation credit or credit toward general education or breadth requirements, as determined by evaluators at each UC campus.

The units granted for AP tests are not counted toward the maximum number of credits required for formal declaration of an undergraduate major or the maximum number of units a student may accumulate prior to graduation from the University.

Students who enter the University with AP credit do not have to declare a major earlier than other students, nor are they required to graduate earlier. Counselors should advise students that the College Board reports all AP test results to the University. Students may not choose which test scores they wish reported.

Students should be aware that college courses taken prior to or after enrolling at the University may duplicate the content of AP examinations. In these cases, the University may not award credit for both the course and the AP exam.

Credit awarded for Advanced Placement tests is described by campus (see appropriate UC catalog). Even if subject credit or credit toward specific requirements is not mentioned in the campus lists, students receive University credit as described above for all AP tests on which they score 3 or higher. The unit maximums noted in the box for subjects with more than one examination applies in all schools and colleges at all campuses.

Note about AB Sub score on Calculus BC Examination: Students who take the Calculus BC examination and earn a sub score of 3 or higher on the Calculus AB portion will receive credit for the Calculus AB examination, even if they do not receive a score of 3 or higher on the BC examination.

Note about Music Theory Sub score: The University grants credit for the full Music Theory exam. Students who earn only a sub score will not receive exam credit.

The University grants credit for AP tests as described in the following chart. Credit is expressed in quarter and semester units. Space does not permit discussion of how AP credit is granted for each program, so students should be advised to thoroughly investigate this area at each UC. The campus UC Admissions Offices can advise counselors and students about these issues.
UC NOTES: All AP exams are reevaluated by the UC at time of application.

A maximum of 8 quarter/5.3 semester units is allowed in each of the following combined areas:

- Art (Studio), English, Mathematics, Music and Physics.
- A maximum of 4 quarter/2.67 semester units is allowed for A and AB Computer Science exams.
- Asterisks (*) denotes a maximum number of elective units per exam at the UC.
- LOTE = “Language Other Than English” on the IGETC requirements see following pages.

UC Eligibility Code: E=English, M=Math, H=Humanities, B=Behavioral and Social Sciences, S=Biological and Physical Sciences

Art, Studio
2-D Design Portfolio 5.3 semester units
3-D Design Portfolio 5.3 semester units
Drawing Portfolio 5.3 semester units
(5.3 semester units maximum for all three tests)

Spanish Literature (UC-H) 5.3 semester units

Mathematics
Calculus AB (UC-M) 2.7 semester units
Calculus BC (UC-M) 5.3 semester units
(5.3 semester units maximum for both tests)

Music Theory (UC-H) 5.3 semester units

Physics
Physics B (UC-S) 5.3 semester units
Physics C: Mechanics (UC-S) 2.7 semester units
Physics C: Electricity and Magnetism (UC-S) 2.7 semester units
(5.3 semester units maximum for all three tests)

General Regulations

Psychology (UC-B) 2.7 semester units
Statistics (UC-M) 2.7 semester units
For information on how AP exams can be applied to IGETC requirements see following pages.

CSU NOTES: Individual CSU campuses may grant more credit for AP exams.

AP Studio Art examination is not approved for CSU GE Breadth certification.

AP examination will not be accepted to fulfill the Area A3 (Critical Thinking) requirement.

AP Government & Politics: U.S. does not meet the CSU California State and Local Government requirement for graduation.

AP U.S. History will meet the CSU U.S. History requirement for graduation.

CSU Eligibility Code: E=English, M=Math, H=Humanities, B=Behavioral and Social Sciences, S=Biological and Physical Sciences

Students seeking certification in GE Breadth prior to transfer must have passed the AP exam before the certification date. If a student passes more than one AP exam in calculus or computer science, only one examination may be applied to the baccalaureate at CSU. Students who pass AP Environmental Science earn 4 units of credit. Tests prior to Fall 2009 may apply to B1+B3 or B2+B3 of CSU GE Breadth. Fall of 09 or later, those credits may only apply to B1+B3. If a student passes more than one AP exam in Physics, only six units of credit may be applied to the baccalaureate, and only four units of credit may be applied to a certification in CSU GE Breadth. Actual AP transfer credit awarded for these and other AP exams for admission is determined by the CSU and UC. Please note that some universities do not accept AP scores for major preparation. Check with your transfer institution for AP acceptance for major.

**MSJC AA/AS units are internal use and may only apply to the degree at MSJC or clear prerequisites.**

04/8/14
General Regulations

Mt. San Jacinto College accepts the International Baccalaureate (IB) for pass along into the CSU and UC systems and for the MSJC General Education Option A. The IB is awarded by diploma or exam certificate: the diploma, with a score of 30 or above, awards 20 semester units for transfer and the certificate with scores of 5, 6 or 7 on the Higher Level exams earns 5.3 semester units at University of California. For General Education Breadth and/or U.S. History, Constitution, and American Ideals IB exams are approved for area as directed in Executive Order 1036, Section 1.2.4. Note: each campus in the University of California and the California State University systems determine how they will apply IB external examinations toward credit in the major (major preparation). See chart below.

Students who have earned credit from an IB exam should not take a comparable college course because transfer credit will not be granted for both.

( ) indicates semester units awarded.

*IB exam may be used in either area regardless of where the certifying CCC’s discipline is located.

8 The IB curriculum offers language at various levels for native and non-native speakers. Language B courses are offered at the intermediate level for non-natives. Language A1 and A2 are advanced courses in literature for native and non-native speakers, respectively.

Actual IB Higher Level transfer credit awarded for admission is determined by the CSU and UC. The UC Policy for IB credit can be found in the publication “Quick Reference for Counselors”.

The CSU also has a systemwide policy for awarding transfer credit for admission. The CSU policy for IB can be found at [http://www.calstate.edu/app/general_education.shtml](http://www.calstate.edu/app/general_education.shtml)
2+2 Articulation

(High School Articulation)

See Credit By Exam.

Nursing Credit

Diploma school registered nurse graduates licensed in California may receive 30 units of nursing credit and must complete 36 units of general education and science requirements (with a minimum of 12 units in residency for an Associate in Science – Registered Nurse degree). Seek counseling advisement for further information.

Law Enforcement

Students may submit a Student Petition Form to Enrollment Services to substitute credit for completion of a P.O.S.T. Basic Peace Officers Academy through an accredited institution. Students must attach official college transcripts and an Academy course outline or syllabus to the student petition. The Administration of Justice department chair will determine the amount of credit to award the student. A maximum of 12 units may be awarded toward the Administration of Justice degree or certificate.

Transfer credit shall only be approved subject to the student providing appropriate and adequate documentation of the courses under consideration.

Occupational Internship

Eight units of credit will be accepted toward the associate degree and four units may be applied toward completion of some certificate programs. For additional information, see the Occupational Internship program page.

Military Credit

Veterans may be awarded 3 units of credit for the healthful living and physical education requirement for graduation by submitting their DD 214, verifying 180 days active military duty, to the Enrollment Services Specialist. Upon request and submission of official transcripts to the Enrollment Services Office, military course work will be evaluated based on recommendations of the American Council on Education as stated in “A Guide to the Evaluation of Educational Experiences in the Armed Services.” All requests for evaluation should be made in the Enrollment Services Office. No more than a total of 30 units may be granted for military service and course work.

Foreign Country Units

Upon formal evaluation by an approved transcript evaluation service, credit will be given for a maximum of 48 units, as indicated by the service. The student will be responsible for requesting of the service, supplying of the documents and for any cost involved in the evaluation. (Contact counseling or an Enrollment Services Specialist for approved evaluation service list.)

Petitions Procedure

Students feeling that there are circumstances warranting special consideration for adjustment or deviation from established procedures and policies of the college in their case may file an Academic Standards Petition, attach supportive documentation, obtain staff recommendation and submit to the Enrollment Services Office for the Academic Standards Committee review.
**General Regulations**

**STANDARDS OF CONDUCT**

**Board Policy 5500**

**Standards of Conduct**

The Board of Trustees and the campus community at Mt. San Jacinto College support a harmonious, safe, and productive learning environment. To promote such an environment, the Board of Trustees and the Superintendent/President have established procedures for the imposition of discipline on students in accordance with the requirements for due process of the federal and state law and regulations.

The procedures shall clearly define the conduct that is subject to discipline, and shall identify potential disciplinary actions, including but not limited to the removal, suspension or expulsion of a student.

The Board shall consider any recommendation from the Superintendent/President for expulsion. The Board shall consider an expulsion recommendation in closed session unless the student requests that the matter be considered in a public meeting. Final action by the Board on the expulsion shall be taken at a public meeting.

The procedures shall be made widely available to students through the college catalog, the Student Handbook and Orientation Guide and other means.

**Administrative Procedures 5500**

**Standards of Conduct**

Definitions: The following conduct shall constitute good cause for discipline, including but not limited to the removal, suspension or expulsion of a student:

1. Causing, attempting to cause, or threatening to cause physical injury to another person.
2. Possession, sale or otherwise furnishing any firearm, knife, explosive or other dangerous object, including but not limited to any facsimile firearm, knife or explosive, unless, in the case of possession of any object of this type, the student has obtained written permission to possess the item from a District employee, which is concurred by the Superintendent/President.
3. Unlawful possession, use, and sale, offer to sell, or furnishing, or being under the influence of, any controlled substance listed in California Health and Safety Code Section 11053 et seq., an alcoholic beverage, or an intoxicant of any kind; or unlawful possession of, or offering, arranging or negotiating the sale of any drug paraphernalia, as defined in California Health and Safety Code Section 11014.5.
4. Committing or attempting to commit robbery or extortion.
5. Causing, attempting to cause or threatening to cause damage to District property or to private property on campus.
6. Stealing or attempting to steal District property or private property on campus, or knowingly receiving stolen District property or private property on campus.
7. Willful or persistent smoking in any area where smoking has been prohibited by law or by regulation of the college or the District.
8. Committing sexual harassment as defined by law or by District policies and procedures.
9. Engaging in harassing or discriminatory behavior based on disability, gender, gender identify, gender expression, nationality, race or ethnicity, religion, sexual orientation or any other status protected by law.
10. Engaging in intimidating conduct or bullying against another student through words or actions, including direct physical contact; verbal assaults, such as teasing or name-calling; social isolation or manipulation; and cyberbullying.
11. Willful misconduct that results in injury or death to a student or to District personnel or which results in cutting, defacing, or other injury to any real or personal property owned by the District or on campus.
12. Disruptive behavior, willful disobedience, habitual profanity or vulgarity, or the open and persistent defiance of the authority of, or persistent abuse of, college personnel.
13. Cheating, plagiarism (including plagiarism in a student publication), or engaging in other academic dishonesty
   A. Forms of academic dishonesty include, but are not limited to:
   1) Plagiarism
      a) The use, by paraphrase or direct quotation, of the published or unpublished work of another person without full and clear acknowledgment.
      b) The unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials.
   2) Cheating
      a) Use of any unauthorized assistance in taking quizzes, tests, or examinations.
      b) Use of the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments.
      c) The acquisition, without permission, of tests or other academic material belonging to a member of the College faculty or staff.
      d) Collaboration with other students that results in a shared intellectual product without the express permission of the instructor of record.
14. Dishonesty; forgery; alteration or misuse of District documents, records or identification; or knowingly furnishing false information to the District.
15. Unauthorized entry upon or use of District facilities.
16. Lewd, indecent or obscene conduct or expression on District-owned or controlled property, or at District sponsored or supervised functions.
17. Engaging in expression which is obscene, libelous or slanderous, or which so incites students as to create a clear and present danger of the commission of unlawful acts.
on District premises, or the violation of lawful District regulations, or the substantial disruption of the orderly operation of the District.

18. Persistent, serious misconduct where other means of correction have failed to bring about proper conduct.

19. Unauthorized preparation, giving, selling, transfer, distribution, or publication, for any commercial purpose, of any contemporaneous recording of an academic presentation in a classroom or equivalent site of instruction, including but not limited to handwritten or typewritten class notes, except as permitted by any district policy or administrative procedure.

Students who engage in any of the above are subject to the procedures outlined in AP 5520 titled Student Discipline Procedures.

**Administrative Procedures 5520**

**Student Discipline Procedures**

The purpose of this procedure is to provide a prompt and equitable means to address violations of the Standards of Conduct, which guarantees to the student or students involved the due process rights guaranteed to them by state and federal constitutional protections. This procedure will be used in a fair and equitable manner, and not for purposes of retaliation. It is not intended to substitute for criminal or civil proceedings that may be initiated by other agencies. Any suspected violations determined to be violations of law will be referred to the Mt. San Jacinto College Campus Police for further action. The Standards of Conduct pertains to student violations only.

These Administrative Procedures are specifically not intended to infringe in any way on the rights of students to engage in free expression as protected by the state and federal constitutions, and by Education Code Section 76120, and will not be used to punish expression that is protected.

**Definitions:**

- The term “College” means Mt. San Jacinto College.
- The term “District” is the Mt. San Jacinto Community College District.
- The term “student” includes all persons enrolled in courses or programs offered by the District in addition to any person engaged in the matriculation process.
- The term “faculty member” means any person hired by the College to conduct classroom activities, perform professional counselor duties, or perform professional librarian duties.
- The term “College official” includes any person employed by the College performing assigned administrative, professional, or staff responsibilities.
- The term “member of the College Community” includes any person who is a student, faculty member, College official, or any other person employed by the College. A person’s status in a particular situation shall be determined by the Superintendent/President.
- The term “College premises” includes all land, buildings, facilities, and other property in the possession of, or owned, used, or controlled by the College or location where a College-sponsored activity is occurring (including adjacent streets and sidewalks).
- The term “organization” means any number of persons who have complied with the formal requirements for College recognition.
- Unless otherwise specified in this policy, the term “day” shall refer to “working day,” which shall be defined as any day Monday through Friday on which the college offices are open.
- The term “Appellate Committee” means any person or persons authorized by the Superintendent/President to determine whether a student has violated the Standards of Conduct and to recommend imposition of sanctions.
- The term “Administrator” means the College official authorized to impose sanctions upon students found to have violated the Standards of Conduct. The Administrator shall be the Vice President of Student Services. The Superintendent/President may authorize an Administrator to serve simultaneously as an Administrator and the sole member or one of the members of an Appellate Committee. Should a conflict of interest exist between the Administrator and a specific case, the Superintendent/President shall appoint an ad hoc Administrator to handle that specific case.
- The term “Appellate Board” means any person or persons authorized by the Superintendent/President to consider an appeal from an Appellate Committee’s determination that a student has violated the Standards of Conduct or from the sanctions imposed by the Administrator.
- A “Certificate of Mailing” is a receipt that provides evidence of the date that mail was presented to the U.S. Postal Service for mailing.
- The term “shall” is used in the imperative sense.
- The term “may” is used in the permissive sense.
- The Vice President of Student Services is responsible for the administration of the Standards of Conduct.
- The term “policy” is defined as the written regulations of the College as found in, but not limited to the Board Policy Manual, the Standards of Conduct, the Student Handbook and Orientation Guide, and College Catalogs.
- The term “cheating” includes, but is not limited to: (1) use of any unauthorized assistance in taking quizzes, tests, or examinations; (2) use of the aid of sources beyond those authorized by the instructor in writing papers, preparing reports, solving problems, or carrying out other assignments; (3) the acquisition, without permission, of tests or other academic material belonging to a member of the College faculty or staff; or (4) collaboration with other students that results in a shared intellectual product without the express permission of the instructor of record.
- The term “plagiarism” includes, but is not limited to, the use, by paraphrase or direct quotation, of the published or unpublished work of another person without full and clear
General Regulations

acknowledgment. It also includes the unacknowledged use of materials prepared by another person or agency engaged in the selling of term papers or other academic materials.

I. Student Discipline Procedures

The Superintendent/President shall establish procedures and designate appropriate staff members with the responsibility for the imposition of discipline on students in accordance with the requirements for due process of the federal and state law and regulations.

A. Notice of Standards of Conduct Violation

1. Written notice shall be submitted to the Administrator that a violation has been committed by filing the “Violation of Standards of Conduct” form within 5 working days of the violation. Complaints submitted through email, voicemail or any other means will not be accepted.

a. Filing a Complaint: Mt. San Jacinto College utilizes the Advocate system to process reported violations of the MSJC Standards of Conduct. Students, faculty or staff that believes a student has violated the Standards of Conduct may file a complaint online at http://www.msjc.edu/StudentServices/StudentConduct/Pages/Student-Code-of-Conduct.aspx.

2. Violations submitted beyond the 5 day period will be accepted at the discretion of the Administrator.

3. Persons filing a complaint are responsible for keeping their own records. All information will become the property of the Administrator once filed.

4. Complaints involving classroom misconduct must be accompanied by the instructor’s syllabus. Complaints involving academic dishonesty must include all supporting documentation including the instructor’s syllabus, the student’s work and relevant materials that are a part of the complaint. Internet links or web addresses are not acceptable documentation.

B. Investigation

1. An investigation of the allegations will proceed once all of the relevant paperwork has been received.

2. As a part of the investigation, all parties may be interviewed to clarify or request additional information.

3. A determination will be made by the Administrator whether a violation of the Standards of Conduct has occurred and the appropriate sanctions to be applied.

C. Notice to Student

1. A letter (verified by a “Certificate of Mailing”) will be mailed to the student that a Standards of Conduct violation has been filed when there is a reasonable belief a violation has occurred. An email communication may also be used to notify the student to contact the Administrator’s office.

2. Written communication may contain a request for a meeting with the Administrator. The student will have 5 working days from the receipt of the letter to respond.

3. Failure to respond to the Administrator’s request may result in a HOLD being placed on the student’s records for not following the direction of a college official.

II. Removal by Instructors of Disruptive Students

An instructor may remove a student for “good cause” from his/her class for the day of removal and the next class meeting when other means of correction fail to bring about proper conduct, or when the presence of the student causes a continuing danger to the physical safety of the student or others (Education Code §76033). Removal must be reported to the Administrator, in writing by the end of the day of such removal. The following procedure should be followed for managing disruptive behavior:

A. Non-Violent Students – First Warning

1. Speak with student privately when appropriate about his/her behavior and about the standards in your class.

2. If the behavior continues at a subsequent session, the faculty member has the authority to inform the student to leave that class session and the next class session. The student is responsible for any assignments or work missed as a result of the suspension.

a. The faculty member must inform the Administrator in writing of his/her action and the facts leading up to his/her action by the end of the day.

b. The Administrator may require a student conference for continued class attendance.

c. If the student will not leave the classroom, the instructor should contact the MSJC Campus Police at (951) 639-5188 (all campus sites) or by dialing extension 7777 from within the college phone system.

B. Violent or Threatening Students

College personnel, faculty or students that are in eminent physical danger should call MSJC Campus Police immediately at (951) 639-5188 (all campus sites), by dialing extension 7777 from within the college phone system or 911.

III. Removal by Staff of Disruptive Student

Any administrator/management/supervisory staff member of Mt. San Jacinto College who supervises a service area has the authority to remove a student from that area for that day and the next day when other means of correction fail to bring about proper conduct, or when the presence of the student causes a continuing danger to the physical safety of the student or others or the orderly operations of the College. The manager shall submit a written report to the Administrator when a student is removed. This authority is comparable to the instructor’s authority (Education Code, §76033). Removal must be reported to the Administrator, in writing by the end of the day of such removal. The following procedure should be followed for managing disruptive behavior:

A. Non-Violent Students

1. Speak with student privately when appropriate about his/her behavior and about the standards in your class.

2. If the behavior continues at a subsequent session, the faculty member has the authority to inform the student to leave that class session and the next class session. The student is responsible for any assignments or work missed as a result of the suspension.

a. The faculty member must inform the Administrator in writing of his/her action and the facts leading up to his/her action by the end of the day.

b. The Administrator may require a student conference for continued class attendance.

c. If the student will not leave the classroom, the instructor should contact the MSJC Campus Police at (951) 639-5188 (all campus sites) or by dialing extension 7777 from within the college phone system or 911.

B. Violent or Threatening Students

College personnel, faculty or students that are in eminent physical danger should call MSJC Campus Police immediately at (951) 639-5188 (all campus sites), by dialing extension 7777 from within the college phone system or 911.

IV. Summary Ten-Day Suspension

The Superintendent/President, or designated authority, may order immediate exclusion from campus and/or classes for a period not to exceed ten (10) days when it is determined that immediate suspension is required to protect lives or property and to ensure the maintenance of order (Education Code §66017). A student may be summarily suspended for good cause prior
to a conference or hearing. Ten-day suspension is designed to provide an opportunity for investigation, to serve as a means of relieving tension of the student body due to a serious infraction of the Standards of Student Conduct, or to remove a threat to the well-being of the students and/or the good order of the College which would prevent the continued normal conduct of the academic community.

V. Initiating Student Discipline Procedures

All proceedings held in accordance with these procedures shall relate specifically to an alleged violation of this adopted Standards of Student Conduct.

A request for disciplinary action may be initiated by any faculty, student, or College employee and shall be made of the Administrator in writing on the appropriate forms. Electronic communication or verbal reports are not acceptable. The Administrator will then take any action deemed appropriate under the circumstances.

The Administrator shall determine if any aspect of the student’s conduct constitutes good cause to initiate any disciplinary action.

A. The student disciplinary provisions do not apply to:
1. Student Grievance Procedures;
2. Removal by Instructor or Staff of Disruptive Students;
3. State Residence Determination; and
4. Other academic and legal requirements for admissions, retention, and conferral of degrees or certificates.

Disciplinary measures may be taken by the College independently of any charges filed through civil or criminal authorities, or both.

VI. Disciplinary Actions

If after reviewing the situation with the student the Administrator concludes disciplinary action is appropriate, the Administrator shall submit in writing any of the following types of sanctions. The following sanctions may be imposed upon any student found to have violated the Standards of Conduct:

A. Informal Warning: Faculty or staff may issue a warning to a student either verbally or in writing to cease behavior that is violating the Standards of Conduct. Similarly, an administrator may issue an informal warning. This type of warning will not be included in a student’s educational records.

B. Formal Warning: A written notice that continuation or repetition of misconduct will be cause for future disciplinary action.

C. Probation: A written reprimand for violation of specified regulations. Probation is for a designated period of time and includes the probability of more severe disciplinary sanctions if the student is found to be violating any institutional regulation(s) during the probationary period.

D. Loss of Privileges: Denial of specified privileges for a designated period of time.

E. Restitution: Compensation for loss, damage, or injury. This may take the form of appropriate service and/or monetary or material replacement.

F. Discretionary Sanctions: Work assignments, service to the College or other related discretionary assignments (such assignments must have the prior approval of the Administrator).

G. Hold on Records: The Administrator may place a “HOLD” on all of a student’s records for a period not to exceed one (1) calendar year.

H. Summary 10-Day Suspension: A student may be summarily suspended for good cause (Education Code, §76033) prior to a conference or hearing. A written Notice of 10-Day Summary Suspension (Education Code §76031), and the reasons for such Summary 10-Day Suspension will be mailed to the student. Immediate exclusion from campus and/or classes for a period not to exceed ten (10) days by the Superintendent/President, the Administrator or designated authority, when it is determined that immediate suspension is required to protect lives or property and to ensure the maintenance of order.

I. Suspension: A suspended student is barred from occupying any portion of the campus or buildings, from contacting or talking with specific students, faculty or staff members, or from taking a specific class or classes, and may be denied all College privileges, including attendance, for a specified period of time up to two years. Conditions for re-admission to the college may apply.

J. Expulsion: Permanent separation of the student from the College. If an Appellate Committee recommends expulsion, it shall require the concurrence of the Vice President of Student Services and the Superintendent/President, who shall recommend that the Board of Trustees approve the expulsion.

More than one of the sanctions listed above may be imposed for any single violation.

Disciplinary sanctions and all documents related to the disciplinary process may be made available upon subpoena or student request. The student’s confidential record will be expunged of disciplinary actions other than College suspension or College expulsion based upon regulations and time lines provided in the Education Code and in Title 5 of the California Code of Regulations.

The following sanctions may be imposed upon groups or organizations:

1. Those sanctions listed above under Disciplinary Actions, A through E.

2. Deactivation: Loss of privileges including College recognition, for a specified period of time.

3. In each case in which an Appellate Committee determines that a student has violated the Standards of Conduct, the sanction(s) shall be determined and imposed by the Administrator. In cases in which persons other than or in addition to the Administrator have been authorized to serve as the Appellate Committee, the recommendation of all members of the Appellate Committee shall be considered by the Administrator in determining and imposing sanctions. The Administrator is not limited to sanctions recommended by members of the Appellate Committee.
General Regulations

VII. Disciplinary Appeal Process

(Sanctions, 10-Day Suspensions, Long-term Suspensions, and Expulsions)

Before any disciplinary action to sanction, suspend, or expel a student is taken, the following procedures will apply.

A. Hearing and Disciplinary Appeal Procedures

1. Notification of Charges
   Students charged with violations of the Standards of Student Conduct shall be notified that they are required to meet with the Administrator to discuss such alleged violations and any disciplinary action that may or will result if such charges are found to be true. The student will be given ten (10) days from the receipt of notification of the charges.
   Any and all charges will be applied as if the student was notified and all relevant sanctions will be applied.

2. Preliminary Meeting
   The meeting with the Administrator shall consist of the following:
   a. The student will be given a copy of the Standards of Conduct.
   b. The student will be given a written statement of the alleged violation(s).
   c. The student will be given a reasonable opportunity to answer each alleged violation(s).
   d. The student will be informed of any possible disciplinary action(s) that may be taken.
   e. The student will be provided written notice of further meetings if the Administrator deems such action necessary.
   f. The student will be provided written notice of his/her right to appeal any adverse decision of the Administrator to the Disciplinary Appeal Committee for a hearing on the matter.

3. Administrator’s Actions
   If, after reviewing the situation with the student, the Administrator concludes that disciplinary action is appropriate, the Administrator shall deliver in writing one or more of the following types of disciplinary action, unless the Administrator and the student agree to another appropriate disciplinary action:
   a. Warning
   b. Probation
   c. Loss of Privileges
   d. Restitution
   e. Discretionary Sanctions*
   f. Hold on Records
   g. Summary Suspension*
   h. Suspension*
   i. Expulsion*

* A disciplinary hearing is required or by mutual agreement of the Administrator and student.

4. Time Limit for Appeal to Disciplinary Appellate Committee

From the date the student is notified of the Administrator’s decision, any request for a hearing before the Appellate Committee must be in writing and delivered to the office of Student Services. The student’s request must be either mailed to the Administrator, postmarked within ten (10) days of notice of the decision of the Administrator, or hand-delivered by the student or designee and received and receipted by the Administrator within ten (10) days from the date of notification to the student of the Administrator’s decision.

The letter notifying the student of the Administrator’s decision shall include a Certificate of Mailing, specifying the date the letter was mailed. The Administrator is deemed to have notified the student of his/her decision on the date of the Certificate of Mailing receipt.

In the event that the student requests a hearing before the Appellate Committee, the Administrator may suspend such disciplinary action until such requested hearing is completed. A suspension of disciplinary action shall be in writing, signed, and dated by the Administrator. In no event shall the Administrator suspend a Summary 10-Day Suspension.

5. Miscellaneous

Whenever the student to be suspended or expelled is under 18 years of age, his/her parent(s) or guardian shall be notified in writing by the Administrator.

Under Suspension or Expulsion of a student for violation of Penal Code 245 (assault with a deadly weapon likely to produce great bodily harm), the Administrator shall first notify the Mt. San Jacinto College Police or appropriate law enforcement agency if a sworn officer is not available.

Specified period of suspension or expulsion may be shortened or lengthened by mutual written agreement of all parties.

The fact of any disciplinary action and the reasons therefore, shall be documented in the student’s permanent file, subject to access, review, and comment by the student as authorized by the Family Educational Rights and Privacy Act, 10 U.S.C. 2332g and Education Code §76200 et seq. All access to or release of such records to members of the public shall also be in accordance with State and Federal Law.

VIII. Appellate Appeal Procedure

A. The Hearing Panel

There shall be an on-campus standing panel from which one or more Appellate Committees may be appointed. The panel shall be made up of the following:

Group 1: All students enrolled in nine (9) or more units with a cumulative grade point average of 2.0 or better.

Group 2: All tenured, contract certificated or regular classified personnel except those designated as management.

Group 3: All full-time, certificated, and classified management personnel with the exception of the Vice President of Student Services or designee.

From Group 1, the Student Government Association (SGA) President shall appoint one student and one alternate; from Group 2, the President of the Academic Senate shall appoint one certificated personnel and one alternate when appropriate,
or in the alternative, the President of the Classified Senate shall appoint one classified non-management employee and one alternate; and from Group 3, the Superintendent/President shall appoint one management person and one alternate.

B. Committee Composition

The hearing shall be convened by the Vice President of Student Services or designee. The Vice President of Student Services shall introduce the members of the Appellate Committee. All members of the Appellate Committee, including alternates, are required to maintain confidentiality concerning all aspects of the hearing that could reasonably identify the students and allegations set forth. Any violation of confidentiality will cause the committee member to be prohibited from the committee for an unspecified period of time.

The Vice President of Student Services or Administrator may recuse any committee member if a conflict of interest exists.

C. Selection of Committee Chairperson

The Vice President of Student Services shall designate a member to serve as Chairperson. The Chairperson shall preside over the hearing and make rulings as to its conduct. The chairperson shall have the privilege of voting on all issues.

Non-voting committee members: Vice President of Student Services and the Administrator.

D. Right to Representation

The student or Administrator may represent himself or herself or may be represented by an attorney. If represented by an attorney, the student or Administrator shall notify the Vice President of Student Services, in writing, of that fact no later than thirty-five (35) days prior to the date of the hearing. The Appellate Committee may then be provided District legal counsel. Such counsel may sit with the Appellate Committee in an advisory capacity but shall not be a member of the Committee nor vote with it.

E. Scope of Appellate Committee Hearing

All hearings will be closed to the general public and are considered to be confidential (see “Committee Composition”). In a closed hearing, witnesses shall not be present at the hearing when not testifying unless all parties and the panel agree to the contrary.

The hearing shall be recorded by the District either by tape, video, or stenographic recording, and shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. In the event the recording is by tape or video recording, the hearing panel chair shall, at the beginning of the hearing, ask each person present to identify himself or herself by name, and thereafter shall ask witnesses to identify themselves by name. The recording shall remain in the custody of the District at all times, unless released to a professional transcribing service. The student may request a copy of the recording.

All testimony shall be taken under oath; the oath shall be administered by the hearing panel chair. Written statements of witnesses under penalty of perjury shall not be used unless the witness is unavailable to testify.

The Appellate Committee shall limit the scope of their appeal hearing to the following:

1. Did the evidence support the findings of the Administrator?
2. Was the disciplinary action levied by the Administrator within the range of disciplinary actions delineated in the Standards of Conduct Policy?

F. The Hearing

1. Opening: The Committee meets to hear an appeal of disciplinary action against said student by the College and to take action as it deems appropriate within the scope of authority as defined in the Standards of Conduct Policy.
2. The Chairperson shall distribute copies of the charges and disciplinary action taken.
3. Plea: The student shall admit or deny each charge. If the student admits each charge and wishes to present no evidence of mitigating circumstances or other defense, the Committee shall retire to make its decision. If the student denies any or all of the charges or wishes to present evidence of mitigating circumstances, the hearing shall proceed.
4. Burden of Proof and of Producing Evidence: The student has the burden of proving the evidence did not support the Administrator’s findings and/or the Administrator acted outside the scope of his/her authority or arbitrarily in imposing the appealed disciplinary measure. The student may present evidence in support of his/her position, and then the Administrator may present evidence to refute such evidence.
5. Arguments: First the student and then the Administrator shall be afforded an opportunity to make or waive an opening statement. The Administrator may reserve his/her opening statement until after the student has presented his/her evidence. After the opening statements, first the student and then the Administrator shall have the opportunity to present witnesses and other relevant evidence.
6. Evidence

a. Oral evidence shall be taken only on oath or affirmation.
b. Each party shall have these rights: to call and examine witnesses; to introduce exhibits; to cross-examine opposing witnesses on any matter relevant to the issues even though the matter was not covered in the direct examination; to rebut the evidence against him/her. If the student does not testify in his/her own behalf, he/she may be called and examined as if under cross-examination.
c. The hearing need not be conducted according to technical rules relating to evidence and witnesses, except as hereinafter provided. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of the evidence over objection in civil actions. Hearsay evidence may be used for the purpose of supplementing or explaining the evidence but shall not be sufficient to support a finding unless it would be admissible over objection in civil actions, or if it is a signed and
H. Appeal to the Board of Trustees

Either the student or the Administrator may appeal the decision of the Superintendent/President to the Board of Trustees by filing an appeal with the Superintendent/President. Any such appeal shall be made in writing and either mailed, postmarked evidencing the date of such mailing, or hand-delivered, received and receipted by the Superintendent/President within ten (10) working days of the mailing of the decision by the Superintendent/President and shall state specifically the grounds for appeal. Any appeal shall be based only on the record of the Appellate Hearing. Both the student and the administrator may submit written statements on appeal. No personal appearances will be made before the Superintendent/President. The decision will be based upon the record.

The Board of Trustees shall consider appeals at any regularly scheduled public meeting held within thirty (30) working days of receipt of the appeal by the Superintendent/President.

The Board of Trustees shall consider the matter in closed session. Before calling such an executive session, the Board of Trustees shall, in writing, by registered or certified mail, notify the student and the Administrator of the intent of the Board of Trustees to call and hold such executive session. The final action of the Board of Trustees shall be taken at a public meeting and the result of such action shall be a public record.

The Board of Trustees’ review shall be limited to the record of the Appellate Hearing, and the decision of the Superintendent/President. The Board shall not consider any evidence outside the record.

The Board of Trustees’ action shall be final and binding on all parties.
STUDENT RIGHTS AND GRIEVANCE PROCESS

Statement of Philosophy

The Mt. San Jacinto Community College District believes that all students shall be afforded fair and equitable treatment in the application of all district procedures and regulations. Students who claim that there has been a violation or misapplication of the procedures or regulations set forth in the college catalog, board policies, or operating procedures of the college district, or who claim misapplication or denial of student due process may make a complaint and, if necessary, file a grievance.

The Mt. San Jacinto College Student Rights and Grievances procedures are provided as a means for students to resolve complaints and grievances in an expeditious and fair manner, as well as to educate students in constructive approaches to problem and conflict resolution. It is the policy of the Board of Trustees that there shall be no harassment of or retaliation towards students who file a complaint or grievance, toward the subject of the grievance, or toward those who participate in the process. All proceedings held in accordance with these procedures shall relate to a specific complaint or grievance, with an identified remedy or solution. Nothing in the district procedures prevents the grievant or subject of the grievance from appealing to the Board of Trustees.

Section I: Definition of Terms

• Complaint – A charge that may refer to an alleged misapplication of classroom procedures, an alleged disagreement in personal interactions, or an informal-level charge which alleges a violation or misapplication of the procedures or regulations set forth in the college catalog, board policies, or operating procedures of the college district or instructional procedures, or specific provisions of applicable federal or state law or applicable college district policy, or claims misapplication or denial of student due process.

• Complainant – A student who alleges that he or she has been personally wronged as a result of an alleged violation or misapplication of the procedures or regulations set forth in the college catalog, board policies, or operating procedures of the college district or instructional procedures, or specific provisions of applicable federal or state law or applicable college district policy, or claims misapplication or denial of student due process.

• Day – Unless otherwise specified in this policy, the term “day” shall refer to “working day,” which shall be defined as any day Monday through Friday on which the college offices are open.

• Decision – Any final outcome of the Grievance Committee. This includes tie votes or no decision.

• Grievance – A formal written charge filed by a student which alleges a violation of one or more specific provisions of applicable federal or state law or applicable college district policy. A grade assigned by an instructor is not a grievable matter, except as outlined in Education Code section 76224(a) which states that “when grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student’s grade by the instructor in the absence of mistake, fraud, bad faith, or incompetence, shall be final.”

• Grievant – A student who alleges that he or she has been personally wronged as a result of an alleged violation of applicable federal or state law, applicable district or college policy, or instructional procedures and the allegation utilizing the formal grievance format chooses to pursue.

• Grievance Committee – This committee of five members (two students, two faculty or staff and an administrator) hears grievances filed by students after they have gone through the informal process.

• Statute of Limitations – The filing of grievances shall be permitted only through the end of the sixth week of the semester following the semester in which the alleged incident occurred or two weeks following the posting of the grades from the previous semester, whichever is greater. Grievances occurring during the summer shall be handled on a calendar-day basis, and filing of such grievances shall only be permitted through the end of the first week after the end of the summer term.

• Student Advocate – An individual selected by the student to assist them through the process. This person cannot speak during hearings, but can give guidance and help explain the process as the student works through it.

• Subject of Complaint or Grievance – Any individual who is the alleged offending party. Please note: Student on student complaints or grievances will be pursued utilizing the Standards of Conduct process.

• Supervisor – An individual having the first line of jurisdiction over a staff member. It could be a supervisor, program coordinator or director, dean, or college administrator.

• Student Judicial Affairs Coordinator – An individual identified by the college to address matters within the federal regulations outlined under Title IX and provides support to students as an unbiased representative relative to gender-equity issues on campus. You may contact the Human Resources Department at (951) 487-3161 for the name and phone number of the Student Judicial Affairs Coordinator.

• Student Advocate – An individual selected by the student to assist them through the process. This person cannot speak during hearings, but can give guidance and help explain the process as the student works through it.

Section II: Procedures

Part A: General Provisions

The Mt. San Jacinto College Complaint and Grievance Procedures are provided as a means for individual students to resolve specific concerns in an expeditious and fair manner. Another purpose of the procedures is to help all students learn constructive approaches to problem and conflict resolution. Students who need help in understanding the procedures or determining their grievance may contact the Office of the Vice President of Student Services, the Student Government Association (SGA) office, or the Student Judicial Affairs Coordinator.
The District directs that there shall be no harassment or retaliation towards the grievant, the subject of the grievance, or others participating in the complaint and grievance process (or as a result of filing a complaint or grievance). This process shall take place within a collegial atmosphere and be aimed at conflict resolution.

The District requires that all reports of discrimination, including harassment on the basis of disability, be addressed by the District’s complaint procedure pursuant to California Code of Regulations, Title 5, section 59300 et seq. The District’s procedures for complaints of discrimination may be found on the district website under the student portal. Full discrimination policy and forms are located at the following:

http://www.msjc.edu/CollegeInformation/Administration/Documents/Discrimination-Policy.pdf

The District is responsible and has an affirmative duty to respond to complaints of discrimination in a timely manner. The District has identified the Vice President of Human Resources as its Responsible District Officer. All complaints of discrimination pursuant to section 59300 et seq, will be processed by the Vice President of Human Resources. The address for the Vice President of Human Resources office is as follows:

Vice President of Human Resources
1499 N. State St.
San Jacinto, CA 92583
(951) 487-3156

Students may grieve unfair acts by an employee against a student where the act has a negative impact on the student.

Students may not grieve the following:
A. Grades except with evidence of:
   1. Mistake – unintentional error on the part of the instructor;
   2. Fraud – intentional misrepresentation of any or all facts, which lead to a negative outcome;
   3. Bad Faith – includes fraud and any other intentional act of the instructor, which negatively impacts the grade of the student;
   4. Incompetence – there is evidence that the instructor does not have the knowledge skills and/or abilities to conduct and fairly grade the course. Incompetence is usually pervasive, and not restricted to one student or one incident.

B. Acts by another student (see Standards of Conduct).

C. Acts which, though deemed unfair, do not have a specific negative impact on the student. Included among non-grievable issues are situations which are deemed to be petty or to have no significant negative impact upon the student in question.

D. Acts which affect another student. Only the student affected by an act may file a grievance. A student may not file on behalf of another student.

It is the responsibility of any faculty member (instructor, counselor, or librarian), classified staff member, or administrator who receives a complaint or potential grievance from a student concerning any faculty or staff member to refer the student immediately to the subject of the grievance, except in cases of sexual harassment or discrimination, in which case the student shall be referred to the Office of Human Resources. Any person claiming discrimination based on a disability, including allegations of failure to accommodate, shall be referred to the Disabled Students Programs and Services office.

The complainant or grievant may bring a support person, such as, an officer of the SGA or any person appointed by the SGA President, any member of the Mt. San Jacinto College staff, or the Student Judicial Affairs Coordinator to any meetings or hearings of the complaint and grievance procedures. The subject of the grievance also has rights of bringing a support person to any meetings or hearings of the grievance. If any party involved in the complaint or grievance believes that the procedures are not being appropriately followed, that individual has the right to file a letter with the Superintendent/President, who within ten (10) school days upon receipt of this letter, shall make a decision regarding the letter’s allegations and determine at which level the process shall be resumed.

Nothing in the policy or procedures shall abridge the rights of faculty, staff, administrators, and students to the provisions of due process, just cause, and relevant provisions of the Education Code or the agreement between the Mt. San Jacinto Community College District and the Mt. San Jacinto College Faculty Association (CTA) or the Mt. San Jacinto Classified Association (CSEA).

Deadlines may be extended by mutual consent of the parties involved and shall be documented with the Vice President of Student Services. Missed deadlines may affect a grievant’s ability to proceed.

Part B: Complaint and Grievance Procedures

A complaint or grievance that occurs during the delivery of instruction, counseling, or library services within a scheduled class, library service, or counseling session by a faculty member to the student (grievant) or occurs during the delivery of a service (administrative or support) by a staff member to a student should follow the procedures outlined below.

All complaints directed against instructional faculty or librarians will go to the Vice President of Instruction. All complaints directed against the counseling faculty or staff members will go to the Vice President of Student Services.

Stage 1 – Informal Complaint (Informal process)

Prior to filing a formal grievance procedure, attempts shall be made to resolve the problem informally as a complaint. Any meetings, which take place during this stage, shall be conducted at a mutually agreed-upon private space, and the pertinent issues clearly defined so they may be discussed as objectively as possible. Failure to follow the timelines may affect a grievant’s ability to proceed.

A. Within the statute of limitations, the student is expected to contact the faculty/staff member directly to discuss the complaint during the semester in which the problem occurs. The filing of grievances shall be permitted only through the end of the sixth week of the semester following the semester in which the alleged incident occurred. Grievances occurring during the summer shall be handled on a calendar day basis, and filing of such grievances shall only be permitted through the end of the first week after the summer term.

1. STATUTE OF LIMITATIONS: The filing of grievances shall be permitted only through the end of the sixth week of the semester following the semester in which the alleged incident occurred. Grievances occurring during the summer shall be handled on a calendar day basis, and filing of such grievances shall only be permitted through the end of the first week after the summer term.
occurs. The student may bring a support person, who is not a participant but advisory to the student. Most matters can be resolved informally at this level.

B. If the issue is not resolved at this point, within the next ten (10) school days the student should discuss the matter next with the appropriate department chair/supervisor and the faculty/staff member together to attempt to resolve the complaint informally.

C. If the issue is not resolved at this point, within the next ten (10) school days the student may meet with the appropriate Dean to seek resolution. If the complaint cannot be resolved at this level, the student must inform the Dean and faculty/staff member of his or her plans to pursue a grievance.

Stage 2 - Grievance (Formal and written process)

The student submits the Summary of Informal Complaint Process (Appendix C) and the Student Grievance Form (Appendix D) to the Vice President of Instruction or Vice President of Student Services within ten (10) school days of the informal complaint meeting with the Dean and faculty/staff member. Failure to follow the timelines may affect a grievant’s ability to proceed.

The form must contain a specific description of the grievance and reference to any specific federal or state law or any applicable district or college policy which is the basis for the grievance. The names of the parties involved at Stage 1 and a proposed remedy or resolution shall also be included in the formal written grievance. The subject (faculty/staff member) of the grievance is encouraged to submit written rationale for his/her actions to the appropriate Vice President for consideration before making a decision on the grievance.

Based on the written material, the appropriate Vice President assumes the responsibility for making a decision regarding the validity of the grievance and appropriate action to be taken. Options for resolving the grievance include the following: (1) accept the grievant’s remedy or modification of the remedy; (2) refer the grievance to the Grievance Committee; or (3) determine the grievance to be without merit.

Within ten (10) school days upon receiving the written grievance, the decision and proposed action of the Vice President shall be communicated in writing to the student involved and the subject of the grievance involved.

Stage 3 – Grievance Committee Procedures (Formal and written process)

If either the grievant or subject of the grievance is not satisfied with the decision of the Vice President, within ten (10) school days upon receipt of the Stage 2 decision, an appeal may be submitted in writing to the Vice President of Student Services office requesting a hearing by the Grievance Committee.

The Grievance Committee shall be composed of at least three college staff members and two students. The committee members shall be identified by the Vice President of Student Services from a list provided by the Academic Senate, Student Government Association, Classified Senate, and administration prior to each hearing and based on availability and time of hearing.

It shall be the function of the Grievance Committee to conduct a hearing and make a decision that shall resolve the grievance. The hearing will take place no sooner than ten (10) days after the notice of hearing is mailed unless mutually agreed by both the grievant and the subject of the grievance; however, no more than twenty (20) school days after notice is mailed. The decision of the committee shall be made within ten (10) school days of the hearing. The written decision shall be distributed to the grievant; any Student Government Association (SGA) officer, or designee representing the student; the Vice President of Student Services, or Student Judicial Affairs Coordinator; and the subject of the grievance. The committee and the Vice President shall work within the following guidelines:

A. The Grievance Committee shall have no power to add to, subtract from, disregard, alter, or modify any of the terms of college policies, procedures or labor agreements.

B. Any decision by the Grievance Committee shall be in compliance with the provisions of the Education Code, all state and federal statutes, and accrediting agency regulations. The decision shall be final, unless appealed, and shall be based only on the pertinent and relevant written documents submitted and the recorded and pertinent oral testimony received in the hearing.

C. The appropriate Vice President or the Judicial Affairs Coordinator shall verify the existence of all written documents generated at Stage 2 and submit a list of them with attached copies to the committee.

D. After a hearing has taken place and both parties have had an opportunity to submit pertinent arguments and oral testimony, the Grievance Committee shall submit its findings and decision in writing within ten (10) school days.

E. All records, deliberations, and procedures of the Grievance Committee shall be filed with the Vice President of Student Services, or the Student Judicial Affairs Coordinator. The records shall be treated in a confidential manner.

Stage 4 – Grievance Appeal (Formal and written process)

If either the student or the faculty/staff member involved is not satisfied with the decision made or action taken by the Grievance Committee, an appeal may be made to the Superintendent/President within ten (10) school days after the receipt of the decision. This written appeal shall outline the nature and basis for the dissatisfaction with the decision or action taken. A copy of the appeal shall be sent to those involved as appropriate. Failure to follow the timeline may affect a grievant’s ability to proceed.

The Superintendent/President shall review the appeal and recommendation from the Grievance Committee and, within ten (10) school days upon receipt of the appeal, shall render a written decision. The appeal is considered based solely upon the written record. However, the Superintendent/President may conduct an investigation at his/her discretion. The Superintendent/President has the authority to uphold, reverse, or modify the action taken by the Grievance Committee with rationale for his/her action. His/her decision shall be final, unless appealed, and shall be delivered in writing to the student lodging the grievance with copies to all parties involved in the proceedings.

Stage 5 – Appeal to Board of Trustees
General Regulations

Either party may appeal the decision of the Superintendent/President. Appeals must be filed within ten (10) school days upon receipt of the decision. The appeal will be heard at the next available Board of Trustees meeting for which there is sufficient time to include the agenda item in the legal notice of the meeting. Failure to follow the timeline may affect a grievant’s ability to proceed.

A. Appeals are addressed to the Board of Trustees, c/o the Superintendent/President.

B. Appeals must cite one or more specific flaws in the implementation of the process of review. Merely disagreeing with the outcome of the appeal is not sufficient grounds to file a final appeal.

C. Appeals are conducted based solely on the written record. However, it shall be the right of the Board to call and question any individuals related to the issues at hand.

D. Hearings are held in closed session and the decision is announced in open session.

E. The Superintendent/President will respond within ten (10) school days of the Board’s action on the appeal.

F. Appeal to the Board is the final step in the student’s “due process” procedures.

Concerning requested remedy: Issues of remedy sometimes include requests for disciplinary action against one or more employees. It is not within the power of the grievance process to assign or implement any disciplinary action against college employees. Students are discouraged from listing disciplinary action as their sole remedy. Employee discipline is strictly governed by state and local laws and regulations as well as by employment contracts. Provided all other requirements are met, the results of a grievance may be included in an employee’s evaluation only to the degree permissible by contract and by law.
Student Rights and Grievance Process from AP5530

Stage 1A: Complaint
Student should discuss issue directly with faculty/staff member to resolve the issue.*

If resolved: End
If not resolved: Stage 1B
Student should meet with department chair/supervisor and faculty/staff member within the next ten (10) school days to resolve matter informally.*

If resolved: End
If not resolved: Stage 1C
Student may meet separately with the Dean to seek resolution and/or proceed with a formal grievance. Student must inform the Dean and faculty/staff member of his/her plan to pursue a formal grievance.*

If resolved: End
If not resolved: Stage 2 Grievance
Student files Summary of Informal Complaint Process (Appendix C) and Student Grievance Form (Appendix D) within ten (10) school days of Stage 1C with the appropriate Vice President who shall respond in writing within ten (10) school days.

If resolved: End
If not resolved: Stage 3 Grievance Committee
The matter is referred to the Grievance Committee who conducts a hearing and renders a decision within ten (10) school days.*

If resolved: End
If not resolved: Stage 4 Grievance Appeal
Student may appeal within ten (10) school days upon receipt of Stage 3 decision to the Superintendent/President who renders a final decision within ten (10) school days of receipt of the appeal.*

* Parties involved in a grievance may bring a support person to any meetings or hearings of the grievance.

Referral: Any faculty member, classified staff, or administrator who receives a grievance or complaint concerning any faculty member or staff member from a student, shall refer the student immediately to the subject of the grievance, except in the cases of sexual harassment or discrimination, where the student shall be referred to the Office of Human Resources.

Appendix B
Summary of Informal Complaint Process
(Stages 1A – 1C must be completed before a formal grievance can be filed.)

Stage 1–A (informal) of the process is for you to talk directly to the faculty/staff member.
Have you spoken to the faculty/staff member to try to resolve your complaint?
Yes _____ No _____ Date ______________
If not, why?
________________________________________________________________________________
________________________________________________________________________________
What is your desired outcome?
________________________________________________________________________________
________________________________________________________________________________

Stage 1–B (informal) of the process is to discuss the matter with the department chair or supervisor. If you need help finding out who that person is, call (951) 639-5201.
Have you spoken with the department chair or supervisor?
Yes _____ No _____ Date ______________
What was the result of the meeting?
________________________________________________________________________________

Stages 2 and 3: If not resolved, the issue now becomes a grievance and follows the process outlined in Administrative Procedures 5530.
MT. SAN JACINTO COLLEGE
Student Grievance Form

If you wish to file a grievance under Stage 2 of the Student Rights and Grievance process, complete all of the following questions and return this form to the Office of the Vice President of Student Services (room 131 on the Menifee Valley Campus) or to the Office of the Vice President of Instruction (room 1110 on the San Jacinto Campus). This form will be accepted only if the Summary of Informal Complaint Process (Appendix C) is completed and attached. If you have any questions or need assistance, contact the Office of the Vice President, Student Services at (951) 639-5201 or visit room 131 on the Menifee Valley Campus or the Student Government Association office on either campus.

Nondiscrimination Policy and Complaint Procedures Under Sections 59300 et seq.

Introduction and Scope

This is intended as notice and clarification of the grievance procedures that apply to different forms of unlawful discrimination, including disability harassment concerning the implementation of the District’s nondiscrimination policy and complaint procedures pursuant to California Code of Regulations, Title 5, sections 59300 et seq.

Unlawful Discrimination Policy

The policy of the Mt. San Jacinto Community College District is to provide an educational and employment environment including but not limited to access to its services, classes and programs in which no person shall be unlawfully denied full and equal access to, the benefits of, or be unlawfully subjected to discrimination on the basis of ethnic group identification, national origin, religion, age, sex, gender, gender identification, gender expression, race, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, or because he or she is perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics in any program or activity that is administered by, funded directly by, or that receives any financial assistance from the State Chancellor or board of governors of the California Community Colleges. Discrimination on the basis of sex or gender also includes sexual harassment.

Reports of Discrimination

The district requires that all reports of discrimination, including harassment on the basis of disability, be addressed by the district’s complaint procedure pursuant to California Code of Regulations, title 5, sections 59300 et seq. The district’s procedures for complaints of discrimination may be found on the district website under the student portal. The full discrimination policy and forms are located at the following: http://www.msjc.edu/CollegeInformation/Administration/Documents/Discrimination-Policy.pdf

District’s Response to Reports of Discrimination

The district is responsible and has an affirmative duty to respond to complaints of discrimination in a timely manner. The district has identified the Vice President of Human Resources as its Responsible District Officer. All complaints of discrimination pursuant to section 59300 et seq, will be processed by the Vice President of Human Resources. The address for the Vice President of Human Resources office is as follows:

1499 N. State St.
San Jacinto, CA 92583
(951) 487-3156

Statement Regarding Formal and Informal Complaint Procedures

The purpose of the informal resolution process is to allow an individual who believes she/he has been unlawfully discriminated against or sexually harassed to resolve the issue through a mediation process rather than the formal complaint process. Typically, the informal process will be invoked when there is a simple misunderstanding or the complainant does not wish to file a formal complaint. Resolution of an informal complaint may require nothing more than a clarification of the misunderstanding or an apology from the respondent and an assurance that the offending behavior will cease.

Informal Complaint Procedures

Whenever any person brings charges of unlawful discrimination to the attention of the Vice President of Human Resources in the form of an unwritten complaint or a complaint that is not submitted on the form prescribed by the State Chancellor, that officer shall undertake efforts to informally resolve the charges and advise the complainant that he or she need not participate in informal resolution. Additionally, the Responsible District Officer shall notify the person bringing the charges of his or her right to file a formal complaint and explain the procedure for doing so. The Responsible District Officer shall also advise the complainant that he or she may file a nonemployment-based complaint with the Office for Civil Rights of the U.S. Department of Education (OCR) where such a complaint is within that agency’s jurisdiction and that if the
General Regulations

A complaint is employment-related, the complainant should also be advised that he or she may file a complaint with the U.S. Equal Employment Opportunity Commission (EEOC) and/or the California Department of Fair Employment and Housing (DFEH) where such a complaint is within the jurisdiction of those agencies.

Efforts at informal resolution need not include any investigation unless the district’s responsible officer determines that an investigation is warranted by the seriousness of the charges. Accordingly, because the district is responsible for maintaining a safe and discrimination-free educational environment, serious allegations may need to be investigated even if the complaining party considers the matter resolved. Efforts at informal resolution may continue after the filing of a formal written complaint, but after a complaint is filed an investigation is required to be conducted pursuant to title 5, section 59334, and must be completed unless the matter is informally resolved and the complainant dismisses the complaint or the complainant files with the DFEH and the Chancellor elects not to require further investigation pursuant to title 5, section 59328(f)(2). Any efforts at informal resolution after the filing of a written complaint will not exceed the 90-day period for rendering the administrative determination pursuant to title 5, section 59336.

Formal Complaint Procedures

If a complainant decides to file a formal written unlawful discrimination complaint against the district, he or she must file the complaint on a form prescribed by the State Chancellor. These approved forms are available from the district and also at the State Chancellor's website, as follows:
http://www.extranet.cccco.edu/Divisions/Legal/Discrimination.aspx

The completed form must be filed with the district representative or mailed directly to the State Chancellor’s Office of the California Community Colleges.

Once a complaint is filed, the individual(s) accused of engaging in prohibited discriminatory conduct should be advised of that filing and the general nature of the complaint. This should occur as soon as possible and appropriate under the circumstances. The district will also advise the accused that an assessment of the accuracy of the allegations has not yet been made, that the complaint will be investigated, that the accused will be provided an opportunity to present his/her side of the matter, and that any conduct that could be viewed as retaliatory against the complainant or any witnesses must be avoided. A written response summarizing the district’s investigatory actions and investigative findings will be provided to the complainant.

Handling Discrimination Complaints

As stated above, in an informal process the district officer shall advise the complainant of his or her rights and responsibilities under both the formal and informal processes. If the complainant declares his or her preference for the informal process, the Vice President of Human Resources shall present the complainant with a document that describes the informal/formal process that contains the basics of complainant’s allegations of unlawful discrimination. This document will clearly indicate that the complainant opted for the informal resolution process and should be signed and dated by the complainant. The informal resolution process will not be made a predicate to the process and investigation of a formal complaint. If a formal complaint is filed, an investigation must be completed within the time required unless it is voluntarily rescinded by a complainant as a result of a successful informal resolution.

Selecting an informal resolution does not extend the time limitations for filing a formal complaint. Efforts at informal resolution may continue after the filing of a formal written complaint, but after a formal complaint is filed an investigation is required to be conducted pursuant to title 5, section 59334, and must be completed unless the matter is informally resolved and the complainant dismisses the complaint or the complainant files with the DFEH and the Chancellor elects not to require further investigation pursuant to title 5, section 59328(f)(2). Any efforts at informal resolution after the filing of a written complaint will not exceed the 90-day period for rendering the administrative determination pursuant to title 5, section 59336.

If an informal complaint is filed and an understanding cannot be reached by the parties involved, the Vice President of Human Resources will render a written decision to the complainant regarding the district’s actions and findings within 90-days of receiving the informal complaint. If the parties are able to come to an understanding and no investigation is necessary, no written decision regarding the complaint will be rendered to the complainant. However, if the informal complaint requires an investigation, regardless of any understanding reached by the parties, the will provide a written decision summarizing the results of the investigation to the complainant regarding the district’s actions and findings within 90-days of receiving the informal complaint. If a formal complaint is received by the Vice President of Human Resources, the district must investigate the complaint and a written decision summarizing the investigation results will be provided to the complainant within 90-days of receiving the informal complaint.

Sexual Harassment Policy

(Applies to all Students, Faculty and Staff)

Purpose and Philosophy

Sexual harassment is one of many forms of discrimination and abusive behavior. Other forms of discrimination, such as that based on race, color, sex, ancestry, national origin, disability (mental and physical), including HIV and AIDS, medical conditions such as cancer, age (40 and above), and marital status, are also prohibited. Sexual harassment is abusive and illegal behavior that harms victims and negatively impacts the district’s culture by creating an environment of fear, distrust and intolerance. Because the district is committed to provide a safe, healthy environment for all employees and students that promote respect, dignity, and equality, it is the purpose of this policy to create and preserve an educational environment free from unlawful sexual harassment and discrimination on the basis of sex.
General Regulations

Monitoring Responsibility

The Vice President of Human Resources and Student Judicial Affairs Coordinator as designated by the Board of Trustees, will be responsible for ensuring compliance with this policy. The Vice President of Human Resources will yearly evaluate, among other things: The frequency and nature of complaints under this policy, employee and student compliance with the policy; employee and student perceptions of the policy's effectiveness. Results of the evaluation will be used to modify or update the policy as appropriate, with an emphasis on remedying deficiencies.

Policy (BP 3430)

The policy of the Mt. San Jacinto Community College District is to provide an educational and employment environment including but not limited to access to its services, classes and programs in which no person shall subjected to unlawful harassment and where such environment is free from unwelcome sexual advances, requests for sexual favors, sexual favoritism, or other verbal or physical conduct or communications constituting sexual harassment. It shall also be free of other unlawful harassment, including but not limited to harassment based on: race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, sex, age, or sexual orientation of any person, or because he or she is perceived to have one or more of the foregoing characteristics.

Any student or employee who believes that he or she has been harassed or retaliated against in violation of this policy should immediately report such incidents by following the procedures described in Administrative Procedure 3410.

The Superintendent/President shall establish procedures that define harassment on campus or in with district-sponsored events. The Superintendent/President shall further establish procedures for employees, students, and other members of the campus community that provide for the investigation and resolution of complaints regarding harassment and discrimination, and procedures for students to resolve complaints of harassment and discrimination. All participants are protected from retaliatory acts by the district, its employees, students, and agents.

District Administrative Procedure 3410 contains information regarding the specific rules and procedures for reporting charges of sexual harassment and pursuing available remedies. The following applies for the distribution of this policy:

1. This policy shall be displayed in a prominent location in the main administrative building or other areas where notices regarding the institution's rules, regulations, procedures and standards of conduct are posted.
2. The policy shall be provided to students as part of any orientation program conducted for new students at the beginning of each quarter, semester, or summer session, as applicable.
3. This policy shall be provided to all faculty, administrators, and staff at the beginning of the first semester of the school year, or at the time there is a new employee hired.
4. This policy shall appear in any publication of the district that sets forth the comprehensive rules, regulations, procedures, and standards of conduct for the institution.

Definitions

“Sexual harassment” is defined as being unwelcome sexual advances, requests for sexual favors, other unwanted physical or verbal conduct or communications of a sexual nature, and any other gender-based harassment, whether initiated by students, district employees, or third parties, when:

- Submission to the conduct is made explicitly or implicitly a term of employment or condition of a student's education (including any aspect of the student’s participation in district-sponsored activities, or any other aspect of the student’s education);
- Submission to, or rejection of the conduct is used as the basis for decisions affecting employment status decisions, or a student's academic performance, or participation in district-sponsored activities or creates an intimidating, hostile, or offensive educational environment.
General Regulations

Unacceptable Conduct

Complaints received will be thoroughly investigated to determine whether the totality of the behavior and circumstances meet any of the elements of the definitions in 5.1 and should be treated as sexual harassment. Unacceptable conduct may or may not constitute sexual harassment. Normally, unacceptable behavior must be severe or pervasive to be considered sexual harassment.

In evaluating the totality of the circumstances and making a determination of whether conduct constitutes sexual harassment, employees who observe unacceptable behavior, as well as administrators conducting an investigation, should consider:

• Is the conduct sexual in nature?
• Is the conduct derogatory toward one gender?
• Is the conduct unwelcome?
• Would the behavior be offensive to a reasonable person of the same gender as the victim?
• The nature, severity, and scope of the incidents;
• The number of students or employees involved directly or indirectly;
• The relationship of the parties involved (i.e. employee/student, fellow students, etc.), and whether there is equal power between the parties;
• The past discipline history of the parties involved;
• The frequency and duration of the behavior;
• Whether there is a pattern of behavior;
• Whether the conduct is verbal or physical.

EXAMPLES: Campus-related conduct that the district considers unacceptable and often a part of sexual harassment includes, but is not limited to, the following:

• Rape, attempted rape, sexual assault, attempted sexual assault, forcible sexual abuse, hazing, and other sexual and gender-based activity of a criminal nature as defined under the California State Penal Code;
• Unwelcome sexual invitations or requests for sexual activity in exchange for grades, promotions, preferences, favors, selection for extracurricular activities, or job assignments, homework, etc.;
• Any unwelcome communication that is sexually suggestive, sexually degrading, or implies sexual motives or intentions, such as sexual remarks or innuendoes about an individual’s clothing, appearance or activities or exploits; sexual rumors and “ratings lists;” howling, catcalls, and whistles; sexually graphic computer files; messages or games, etc.;
• Unwelcome and offensive name-calling or profanity that is sexually suggestive, sexually degrading, implies sexual intentions, or that is based on sexual stereotypes or sexual preference;
• Unwelcome leers, stares, gestures, or slang remarks that are sexually suggestive, sexually degrading, or imply sexual motives or intentions;
• Unwelcome written or pictorial display or distribution of pornographic or other sexually explicit materials such as magazines, videos, films, Internet material, etc.;
• Any other unwelcome gender-based behavior that is offensive, degrading, intimidating, demeaning, or that is based on sexual stereotypes and attitudes.

Complaint Procedures

• In compliance with applicable federal and state law, it is the policy of the district to investigate promptly and resolve equitably all complaints of sexual harassment and discrimination on the basis of sex.
• Victims of sexual harassment shall be afforded avenues for filing complaints that are free from bias, collusion, intimidation, or reprisal.
• Victims of sexual harassment should document the harassment as soon as it occurs. In order to assist investigators, victims should document the harassment with as much detail as possible, including: the nature of the harassment; dates, times, and places it has occurred; name or names of harasser or harassers; witnesses of the harassment; and the victim’s response to the harassment.
• To the extent they feel safe and comfortable doing so, victims are first encouraged to confront the harasser, verbally or in a letter and/or with an advocate present, and tell the harasser to stop the conduct because it is unwelcome. Victims should document the incident or incidents of continuing harassment, and any conversations they have with the harasser, noting such information as time, date, place, what was said or done, and other relevant circumstances surrounding the incident(s) and the effect or impact of the behavior on the victim.
• If the victim’s concerns are not resolved satisfactorily by communicating with the harasser, or if the victim feels he or she cannot discuss the concerns with the harasser, the victim should directly inform a district employee of the complaint and should clearly indicate what action he or she wants taken to resolve the complaint.
• Any employee who receives a complaint of sexual harassment from a student or another employee shall inform them of their obligation to report the complaint to the district’s administration, and then shall immediately notify the Vice President of Human Resources and/or the school Student Judicial Affairs Coordinator.
• district employees who fail to report complaints of sexual harassment to appropriate administrators or law enforcement authorities may face disciplinary action, up to and including reprimand, suspension, or termination.
• district administrators, or other district officials who fail to report student or employee complaints of sexual harassment may also face disciplinary action, including reprimand, probation, or termination.
• Victims who contact a district employee with a complaint are encouraged to submit the complaint in writing. (See Attachment B – Discrimination Compliant Form available in the Human Resources Office.) However, complaints may be filed verbally. Alternate methods of filing complaints (such as tape recorders, scribes, etc.) shall be made available to individuals with disabilities who need accommodation.
• The district encourages all persons involved to report complaints as soon as possible (i.e. within ninety (90) days after the incident), in order that complaints can be effectively investigated and resolved.

• Reports/Complaints to Law Enforcement Authorities  
Consistent with district Policy, where a complaint contains evidence of violence or criminal activity, the employee and/or district Student Judicial Affairs Coordinator, shall refer the complaint to the district Vice President of Human Resources and/or law enforcement authorities for investigation.

The district encourages any individual who has knowledge of sexual harassment of a violent or criminal nature to independently report the information to law enforcement authorities.

• California Community Compliance and Enforcement (Discrimination Complaints). The district will comply with title 5 of the California Code of Regulations, Subchapter 5, Articles 3 and 4, §§59334 et. Al. (See Attachment A available in the Human Resources Office.)

• Complaints may be filed with the following individuals:  
  Vice President of Human Resources (employees or students)  
  Any administrator or supervisor (employees or students)

Confidentiality

It is district policy to respect the privacy and anonymity of all parties and witnesses to complaints brought under this policy. However, because an individual’s need for confidentiality must be balanced with the district’s obligations to cooperate with police investigations or legal proceedings, to provide due process to the alleged harasser, to conduct a thorough investigation, or to take necessary action to resolve a complaint, the district retains the right to disclose the identity of parties and witnesses to complaints to individuals only in appropriate circumstances.

Initial Investigation and (Informal) Resolution Procedures  
(See Attachment A available in the Human Resources Office.)

• The Vice President of Human Resources and/or designee has the responsibility of conducting a preliminary review when he, she or they receive a verbal or written complaint of sexual harassment, or if he, she or they observe sexual harassment. Except in the case of severe or criminal conduct, the Vice President of Human Resources and/or designee shall make all reasonable efforts to resolve complaints informally. The goal of informal investigation and resolution procedures is to end the harassment and obtain a prompt and equitable resolution to a complaint.

• As soon as possible, but no later than three (3) working days following receipt of a complaint, the Vice President of Human Resources shall commence an investigation of the complaint according to the following steps:

1. Interview the victim and document the conversation. Instruct the victim to have no contact or communication regarding the complaint with the alleged harasser. Ask the victim specifically what action he or she wants taken in order to resolve the complaint.

2. Review any written documentation of the harassment prepared by the victim. If the victim has not prepared written documentation, instruct the victim to do so, providing alternative formats for individuals with disabilities who have difficulty writing.

3. Interview the alleged harasser regarding the complaint and inform the alleged harasser that if the objectionable conduct has occurred, it must cease immediately. Document the conversation. Provide the alleged harasser an opportunity to respond to the charges in writing.

4. Instruct the alleged harasser to have no contact or communication regarding the complaints with the victim and to not retaliate against the victim. If the alleged harasser does not comply with this instruction, he or she shall be subject to immediate disciplinary action.

5. Interview any witnesses to the complaint. Where appropriate, obtain a written statement from each witness. Caution each witness to keep the complaint and his or her statement confidential.

6. Review all documentation and information relevant to the complaint.

7. Where appropriate, suggest mediation as a potential means of resolving the complaint. In addition to mediation, utilize appropriate informal methods to resolve the complaint, including but not limited to:

A. Discussion with the alleged harasser, informing him or her of the district’s policies and indicating that the behavior, if occurring, must stop;

B. Conducting training for the department or area in which the behavior occurred, calling attention to the consequences of engaging in such behavior;

C. Requesting a letter of apology to the complainant;

D. Writing letters of caution or reprimand;

E. Separating the parties.

F. Student or Employee Involvement and Notification

G. The representatives or advocates of students who file complaints are welcome to attend each stage of both informal and formal investigation and resolution procedures. Employees bringing complaints shall be informed of their right to be advised by union officials or other professional representatives.

8. Report back to both the victim and the alleged harasser, notifying them in writing, and also in person as appropriate, regarding the outcome of the investigation and the action taken to resolve the complaint. Instruct the victim to report immediately if the objectionable behavior occurs again or if the alleged harasser retaliates against him or her.

General Regulations
General Regulations

9. Notify the victim that if he or she desires further investigation and action, he or she may request a formal district investigation by contacting the Vice President of Human Resources or designee. Also, notify the victim of his or her right to contact the U.S. Department of Education’s Office for Civil Rights, the Department of Fair Employment and Housing (DFEH), and/or a private attorney.

Whenever a sexual harassment complaint is made, district administrators must take action to refer the complaint to the Vice President of Human Resources or designee for investigation, even if the student does not request any action or withdraws the complaint.

If the initial investigation results in a determination that sexual harassment did occur, and the harasser repeats the wrongful behavior or retaliates against the victim, the Vice President of Human Resources shall consult with the appropriate Vice President and the Superintendent/President to determine appropriate disciplinary action.

The Vice President of Human Resources must consider the severity or pervasiveness of the conduct and exercise discretion in determining whether a formal investigation is necessary. If a complaint contains evidence or allegations of serious or extreme harassment, such as criminal touching, or quid pro quo (e.g. offering an academic reward or punishment as an inducement for sexual favors), the complaint shall be investigated immediately. In addition, where there is reasonable suspicion that the alleged harassment involves criminal activity, the Vice President of Human Resources will immediately contact law enforcement authorities. Where criminal activity is alleged or suspected, the alleged harasser (employee) shall be placed on administrative leave pending the outcome of the investigation.

Formal Investigation

(See Attachment A and Section 7 available in the Human Resources Office.)

Right to Representation and Other Legal Rights

The victim and the alleged harasser have the right to be represented by a person of their choice, at their own expense, during sexual harassment investigations and hearings. Students who file complaints may elect to be accompanied by another student of their choice at each stage of the complaint procedure. Victims also have the right to register sexual harassment complaints with the U.S. Department of Education’s Office for Civil Rights (OCR).

Nothing in this policy shall be construed to limit the right of the complainant to file a lawsuit in either state or federal court.

Retaliation Prohibited

Any act of retaliation against any person who opposes sexually harassing behavior, or who has filed a complaint, is prohibited and illegal and, therefore, subject to disciplinary action. Likewise, retaliation against a person who has testified, assisted, or participated in any manner in an investigation, proceeding, or hearing of a sexual harassment complaint is prohibited. For purposes of this policy, retaliation includes but is not limited to: verbal or physical threats, intimidation, ridicule, bribes, destruction of property, spreading rumors, stalking, harassing phone calls, and any other form of harassment. Any person who retaliates is subject to immediate disciplinary action, up to and including suspension, probation or termination.

Discipline

Any individual, including an individual with disabilities, who violates this policy will be subject to appropriate disciplinary action under applicable Board Policies, Unit Bargaining Agreements, and Education Code discipline procedures. Disciplinary measures available to district authorities may include, but are not limited to, the following:

- Verbal warnings/reprimands;
- Written warning/reprimand in the employee or student’s file;
- Requirement of verbal and/or written apology to victim;
- Mandatory education and training on sexual harassment by means of reading assignments, videos, classes, or other presentations;
- Involvement of policy and/or other law enforcement authorities.

In addition, if the harassment is severe or persistent, an individual who violates this policy may be subject to suspension, expulsion, probation or termination. Moreover, students who violate this policy may lose the privilege of participating in
extracurricular activities such as athletics, student government, cheerleading, graduation ceremonies, etc. These penalties may be imposed even for first offenses, which are severe or extreme.

In determining what disciplinary or corrective action is appropriate, district officials shall consider the totality of the circumstances, including but not limited to:

- The number of victims and harassers involved;
- The prior disciplinary records of the harasser or harassers;
- The disability status of the victim and/or harasser or harassers;
- The threatened or actual harm caused by the harassment; and
- The frequency and/or severity of the harassment.

If district administrators have reasonable suspicion that the harassment involves sexual assault, rape, or any other activity of a criminal nature, they shall notify appropriate law enforcement authorities and immediately initiate appropriate due process proceedings to remove the alleged harasser party from the situation.

**False Complaints**

False or malicious complaints of sexual harassment will result in corrective or disciplinary action being taken against the complainant. The disciplinary measures available to the district are the same as those listed under the Discipline section of this policy.

**Training**

All students shall be informed of this policy in student handbooks, folders, and registration materials. A summary of this policy shall also be posted in a prominent location. All Associated Student Body officers shall receive district training about the policy at the beginning of each school year.

All new employees shall receive information about this policy at new employee orientation. All other employees shall be provided information annually and attend awareness training at least once every five (5) years regarding this policy and the district’s commitment to a harassment-free learning and working environment.

The Student Judicial Affairs Coordinator and other administrative employees who have specific responsibilities for investigating and resolving complaints of sexual harassment shall receive yearly training on this policy and related legal developments from the Vice President of Human Resources.

The Interim Vice President of Human Resources and department administrators shall be responsible for informing students and employees on a yearly basis of the terms of this policy, including the procedures established for investigation and resolution of complaints, general issues surrounding sexual harassment, the rights and responsibilities of students and employees, and the impact of sexual harassment on the victim.

**Records**

Separate confidential records of all sexual harassment complaints and investigations shall be maintained in the Vice President of Human Resources Office. Records of investigations shall be maintained in the office of the Vice President of Human Resources.

- Records of informal investigations and resolutions shall be retained for at least three (3) years.
- Records of investigations shall be retained for at least six (6) years.
- Records of complaints and investigations of blatant violations involving criminal touching, quid pro quo situations, or other criminal acts shall be retained permanently.

**Policy Dissemination and Review**

A summary of this policy and related materials shall be posted in a prominent place in each district facility. Notification of this policy, along with a summary, shall also be published in student registration materials, student handbooks, employee handbooks, and other appropriate district publications as directed by the Vice President of Human Resources.

The Academic Senate, Faculty and Staff Diversity Committee, Management Leadership Council and President’s Cabinet shall annually review this policy’s effectiveness. The Vice President of Human Resources and the district’s legal counsel shall review this policy annually to determine its compliance with applicable state and federal law, and shall update the policy accordingly.

**Acquired Immune Deficiency Syndrome**

Mt. San Jacinto Community College District is committed to provide a safe, fair, sensitive and nondiscriminatory environment for study. Toward these ends, the following guidelines will apply:

- An individual with Acquired Immune Deficiency Syndrome (AIDS), AIDS-Related Complex (ARC) or a positive Human-Immunodeficiency Virus (HIV) antibody test result will not be denied enrollment for instruction in any classroom activity as long as he or she is able to perform in accordance with established standards.
- Persons with AIDS or ARC or who are perceived to have such conditions are considered disabled under state and federal law and may be served through state-funded Disabled Students Programs and Services.
- The administration will develop and implement plans to provide up-to-date AIDS education to students and employees with the purpose of: (1) to prevent further spread of the virus; and, (2) to dispel myths and unreasonable fears about the disease.
General Regulations

Americans with Disabilities Act (ADA)

Mt. San Jacinto College is committed to compliance with both the spirit and the letter of the Americans with Disabilities Act, as well as the Rehabilitation Act of 1973, and other laws protecting the rights of persons with disabilities. The Board of Trustees has established compliance with the Americans with Disabilities Act as an institutional priority, where this will not pose an undue burden or fundamentally alter the programs of the institution. The Student Judicial Affairs Coordinator, or designee, is the Americans with Disabilities Act coordinator for the district. Student and community members with concerns related to access to the college’s facilities, programs and services should contact the Student Judicial Affairs Coordinator. Employees or employment applicants with ADA related concerns should also contact the Student Judicial Affairs Coordinator or Vice President of Human Resources.

Should an individual feel that there has been an inappropriate restriction of access to employment or educational opportunities for one or more qualified persons with one or more disabilities, and an adequate remedy has not been forthcoming from the appropriate college office, that individual may file a petition in accordance with the following procedures:

- Petition for Review of Access to Employment shall be filed with the Vice President of Human Resources or designee, who shall investigate each complaint and respond within ten (10) working days.
- Petition for Review of Access to Educational Opportunity shall be filed with the Student Judicial Affairs Coordinator or designee, who shall investigate each complaint and respond within ten (10) working days.
- The response to the petition shall include either a statement of what remedy to the complaint will be provided, or establish the date for a hearing by the A.D.A. Task Force.
  - Should a hearing be called, it will take place within thirty (30) working days from the date of notice.
  - Following the hearing, the A.D.A. Task Force will provide a written response within ten (10) working days following the hearing.
- If the response of the ADA Coordinator (or designee) or of the hearing does not resolve the concerns of the petition, an appeal may be filed with the Superintendent/President who shall respond to the petition within ten (10) working days.
- Should the Superintendent/President's response not satisfy the petitioner, the Board of Trustees shall be the last level of appeal. The decision of the Board of Trustees shall be final.

Freedom of Speech

The campuses of the Mt. San Jacinto Community College District are non-public forums, except for those areas designated as Free Speech areas, which are limited public forums. The Superintendent/President shall enact such administrative procedures, as are necessary to reasonably regulate the time, place and manner of the exercise of free expression in the limited public forums.

The administrative procedures promulgated by the Superintendent/President shall not prohibit the right of students to exercise free expression, including but not limited to the use of bulletin boards designated for such use, the distribution of printed materials or petitions in those parts of the college designated as Free Speech areas, and the wearing of buttons, badges, or other insignia. Students shall be free to exercise their rights of free expression, subject to the requirements of this policy. Speech shall be prohibited that is defamatory, obscene according to current legal standards, or which so incites others as to create a clear and present danger of the commission of unlawful acts on district property or the violation of district policies or procedures, or the substantial disruption of the orderly operation of the district.

Nothing in this policy shall prohibit the regulation of hate violence, so long as the regulation conforms to the requirements of the First Amendment to the United States Constitution, and of Section 2 of Article 1 of the California Constitution. Students may be disciplined for harassment, threats, intimidation, or hate violence unless such speech is constitutionally protected.

Campus Speaking Area

In order to permit a forum for discussion and advocacy of issues and ideas outside the college curriculum, a Free Speech area shall be designated on each campus. This area shall be:

- Readily accessible to all students;
- Located so as not to require students to travel through it;
- Open to use on a first come, first served basis;
- Scheduled through the Outreach Office where all visitors, once approved, will obtain a copy of Education Code, Section 76120 and MSJC Administrative Procedures 3990 and be expected to abide by its guidelines.

Speech in the designated Free Speech areas shall not be limited except that:

- There shall be no use of electronic or other sound amplification that interferes with the conduct of classroom, laboratory, library, or office activities on campus.
- There shall be no obscene or slanderous speech or distribution of obscene or libelous materials.
- No speech shall be permitted which advocates the overthrow of the government.
- No speech shall express or advocate racial, ethnic, religious, sex-based, other hate-based prejudice or other speech that incites students so as to create a clear and present danger of the imminent commission of unlawful acts or of the substantial disruption of the orderly operations of the college.
The Free Speech area shall not be used for any commercial activity. There shall be no solicitation of funds of any kind in the area, nor any implied solicitation of funds in the area.

Speakers are responsible to ensure that all printed and other materials brought into the Free Speech area are removed at the conclusion of the activity, and that college funds shall not be required to return the Free Speech area to its original condition as the result of any individual or group exercising their rights of Free Speech in this area.

Campus Posting/Distribution of Materials

All non-classroom materials posted or distributed on any Mt. San Jacinto College campus or in any Mt. San Jacinto College facilities, which are not published by Mt. San Jacinto College, must be approved in advance by the designee of the Student Government Association.

- The approval will include a stamp placed on the front of the material.
- The expiration date for the approval will be included on the stamp. Posted materials will be removed from bulletin boards after the expiration date. Flyers that do not have the MSJC logo on them will be approved for two weeks.
- Materials being distributed may only be distributed in the Free Speech area unless these materials are being distributed as part of an otherwise approved activity.
- No printed material may contain the name Mt. San Jacinto College or in any way imply sponsorship or approval by Mt. San Jacinto College without advanced approval in writing. Use of the institution's name requires advance approval of the Board of Trustees.

The posting of printed materials shall in no way deface or mar the surface or substance of college facilities or other property.

- All items posted will be posted on designated bulletin boards/kiosks.
- There is a size limit for all non-MSJC published flyers. They shall be no larger than 8.5” x 11”.
- Posting will be done with thumbtacks or pushpins only. No staples, brads, nails, tape or other objects will be used.
- No materials will be taped or in any way attached to walls, pillars, painted surfaces, windows or other glass surfaces, trees, doors or other surfaces not specifically designated for the purpose of posting printed materials.
- It is not permissible to enter a classroom or laboratory for the purpose of posting printed materials when the classroom or laboratory is in use.
- Individuals damaging college property as a result of violating the above rules shall be required to pay for appropriate repair/replacement of the damaged property.

No printed materials will be distributed on automobiles or other vehicles in Mt. San Jacinto College parking lots.

All printed materials posted or distributed at Mt. San Jacinto College shall conform to the following district requirements:

- Printed materials may not contain any obscene, slanderous or libelous content.
- Printed materials may not contain any material, verbal or graphic, which incites so as to create a clear and present danger of imminent commission of unlawful acts on college premises or of the violation of college regulations or the substantial disruption of college activities.
- Bulletin boards in the classrooms are designated for instructional and college materials only.
- Specific materials which benefit students, i.e. college book sales, local rooms for rent, health services, local employment opportunities, child care, secretarial services, tutoring services, carpooling information, etc., may be posted in designated areas.
- Books for Sale/Rooms for Rent forms are available as a courtesy in the Student Government Association Office. These forms will be approved and posted for thirty (30) days.

Students have the right to expect that all items approved for posting and/or distribution will be available through the expiration date assigned by the college. Individuals or groups who remove approved items without the permission of the individual or group approved to place the materials, and who remove these materials prior to the expiration date assigned by the college, shall be subject to discipline under the college’s Standards of Conduct. Should the charge be proven, the individual and/or group will lose any rights to post materials at any Mt. San Jacinto College site for the remainder of the academic year. Additional discipline may be required, per the Standards of Conduct.

Notice

The following notice will be posted on all bulletin boards:

“Mt. San Jacinto College cannot be held responsible for the truthfulness and accuracy of content, or the quality of services or products offered as it relates to any public speech or posted materials.”

Alcohol and Drug Free School

Mt. San Jacinto College is committed to maintaining a drug-free environment. State law and local regulation strictly prohibit the use, possession or distribution of drugs or alcohol on campus or at any college event, activity or on any college site. Violators will be subject to college discipline as well as arrest by local and/or state law enforcement agencies. Alcoholic beverages are only permitted on district property or facilities used for district-sponsored events in specific cases, as outlined in MSJCCD Board Policy/Administrative Procedures 3560.

Students are warned that the use of alcohol as well as the abuse of illegal drugs is hazardous to your health and the health of others. This notice is provided in compliance with federal laws and regulation. Further information can be obtained from the Riverside County Health Department, as well as other state and local agencies.
General Regulations

Children on Campus

Unsupervised minor children on campus constitute an unnecessary and unacceptable insurance risk. Therefore, minor children will not be permitted on campus unless enrolled in college courses or classes, participating in a college-approved event for which adult supervision is provided, or in the immediate supervision of their parent or guardian. This includes children of MSJC employees.

NOTE: Non-enrolled children will not be permitted to attend class, even if accompanied by parents or guardians. Exceptions in order to further the stated educational objectives of a course may be requested in writing through the office of the Vice President of Instructional Services.

Complaints

Any complaint about a grade, an instructor, or course content should be made to the instructor involved, then to that instructor’s Department Chair, then to the Division Dean, and if necessary, to the Vice President of Instructional Services. See the Student Grievance Policy for a more formal procedure that is also available.

Crime Awareness

Mt. San Jacinto Community College District is required by the United States Department of Education to post and/or publish crime statistics. Crime statistics are available on the college website at www.msjc.edu.

Smoking Policy

The Board of Trustees for Mt. San Jacinto College District recognizes the serious health problems associated with smoking tobacco or other non-tobacco products and the use of smokeless tobacco. It also recognizes that tobacco smoke poses a health risk to smokers and non-smokers alike.

Out of respect and concern for the health and welfare of the entire campus community comprised of students, faculty, staff and guests, the MSJC Board of Trustees establishes this policy to designate all properties owned, leased, or rented by the District as smoke-free and tobacco-free environments.

Repeated violators of the smoke-free and tobacco-free campus policy will be subject to appropriate disciplinary actions (see Administrative Procedure 3570).

Revision of College Regulations

Any regulation adopted by the Board of Trustees and the administration of Mt. San Jacinto College, subsequent to the printing of this catalog, shall have the same force as a printed regulation in the catalog and shall supersede any ruling on the same subject which may appear in the printed catalog or official bulletins of the college.
STUDENT SERVICES & ACTIVITIES

Athletics

Learning Outcomes
- Recognize the application of life skills learned as a competitive intercollegiate student athlete;
- Demonstrate pride in the team and/or individual athletic performance;
- Identify and apply the registration and transfer process required for intercollegiate student athletes;
- Identify and utilize student support services on campus.

Mt. San Jacinto College Eagles field intercollegiate teams in men’s football, basketball, baseball, golf and tennis; and women’s volleyball, soccer, basketball, tennis, golf and softball. The college is a member of the Pacific Coast Athletic Conference, which is governed by the California Community College Athletic Association (CCCAA).

To participate in athletics, a student must maintain enrollment in a minimum of 12 units. To be eligible for a second season of participation, a student must complete 24 units with a 2.0 (C) grade-point average between seasons of participation. Eligibility must be carefully verified based upon high school graduation date, residence and academic success. Additional information concerning athletic eligibility regulations is available from the Dean of Student Services, Physical Education and Athletics. Students must enroll in the appropriate section of physical education to receive 2 or 3 units of credit for the sport.

Career/Transfer Center

Career Services

Learning Outcomes
- Complete a career assessment and receive professional interpretation by a counselor to assist the student in exploring career choices;
- Apply career research skills based on current career information trends;
- Demonstrate employment readiness skills.

The Career/Transfer Centers on the San Jacinto and Menifee Valley campuses help individuals with their career development through career assessment, career education and employment related services.

The career planning process typically begins with scheduling an appointment with a counselor to discuss future goals and options. The Career/Transfer Centers offer interest inventories, values and skills tests as well as assessment of personality preferences. The results of these assessments are used as the basis for career exploration and counseling. Guidance courses are also offered to prepare for College Success, Career Life Planning, Creative Job Search and other related topics. Refer to theGuidance Section of the catalog for course descriptions.

Career resources are available for career planning, exploring career possibilities and researching employers. These resources include the computer based system Eureka, Career Café, California Career Zone, Eagle Career Connection and several other online career resources. To see all career resources available to MSJC students go to www.msjc.edu/StudentServices/CareerTransferCenter. The Career/Transfer Centers offer a variety of workshops, at no cost to students, to help students with their career needs. They include such workshops as Setting Goals, Job Search, Interview Skills, and Career vs Major. To register and see what is currently being offered visit the above internet link and click on the Campus Schedule of events.

The Career/Transfer Center posts current full and part-time job announcements at the San Jacinto Campus bulletin board in building 1150 and at the Menifee Campus in building 100. Additionally, employment announcements are posted on the Internet by means of the MSJC Eagle Career Connection as well as through e-mail, via E-mail Blast. To register for Email Blasts, sign up at the Career Transfer Centers at the San Jacinto Campus, building 1150 or the Menifee Campus, building 100.

Transfer Services

Learning Outcomes
- Evaluate transfer options to four year institutions;
- Formulate a comprehensive transfer Student Educational Plan with a counselor; and
- Apply the transfer process to a four year institution.

The Career/Transfer Centers provide support services for students interested in transferring to Baccalaureate Awarding colleges and universities. These services include counseling appointments with university representatives, workshops on admissions requirements, how to apply to universities, in-state, and private, public and out-of-state options. In addition the Centers sponsor an annual college fair on each campus with 40+ university recruiters participating. The Centers also have computers dedicated for the use of students interested in transferring. Students can access ASSIST an online articulation system that lets students know the major preparation requirements for California public universities both in the University of California (UC) and California State University (CSU) system. It also has general education requirements for UC (IGETC) and CSU (CSU Breadth). Eureka, a computerized library of careers also features an extensive collection of colleges and universities, short-term training options and many more valuable tools to guide student in their career and training decisions.

Child Development and Education Centers

The Mt. San Jacinto College Child Development and Education Centers (CDEC) are located on the San Jacinto and Menifee Valley campuses. The Centers provide an education and care program for children (ages 18 months to 5 years) of eligible MSJC students, staff and parents in the community, while also providing a model of early childhood education for the training of teachers in the Child Development and Education program.

Mt. San Jacinto College 2014-2015 Catalog
The counseling program provides assistance and information to individual students regarding academic, personal, transfer and career guidance concerns. Students who would like help with any of these issues are encouraged to contact the counseling center.

Additional services provided by the counseling staff include: 1) assistance to adults returning to school; 2) interpretation of aptitude and career assessments; 3) information and guidance for transfer to other colleges and universities; 4) information regarding completion of MSJC certificates and associate degrees; 5) personal and crisis counseling; 6) New Student Counseling Sessions; 7) assistance with development of a student educational plan; and 8) counseling for students who are on academic and/or progress probation.

The counseling staff utilizes the expertise of and can refer students to the Career/Transfer Center, Child Development and Teacher Training Centers, Extended Opportunity Programs & Services (EOP&S), Cooperative Agencies Resources for Education (CARE), Disabled Students Programs and Services (DSP&S), Financial Aid, and Learning Resource Center.

### Cultural Events

As part of the educational and community service offerings, MSJC provides a wide range of cultural events. Representative programs include: plays, musicals, musical concerts from a variety of genres, art festivals, art gallery displays, dance concerts and other activities that add to the intellectual and cultural life of the college community. These events include both day and evening programs and are open to students and the general public.

### Disabled Students Programs and Services (DSP&S)

#### Learning Outcomes

- Make and keep counseling appointments; plan their semester schedules effectively and problem solve when changes are needed;
- Communicate their needs with their instructors; meet regularly with DSP&S counselor to update progress and needs;
- Demonstrate improvement in both their ability to communicate their academic/disability needs and problem solve with their instructor/counselor through the obstacles that impact their progress; and
- Complete coursework using the adaptive hardware/software they have been trained in High Tech Center.

Mt. San Jacinto College provides equal opportunities and access to students with physical, visual, hearing, speech, psychological or learning disabilities, acquired brain injuries, developmentally delayed learners, and other disabling conditions, who pursue course work at the college.

Disabled Students Programs and Services (DSP&S) is a student services program that assists students with disabilities in gaining maximum access to college curriculum and programs while attaining their academic, vocational and personal goals in a mainstreamed setting.

Students may be referred to DSP&S by instructors, counselors, community agencies, high schools, a parent, or by self-referral. Students are eligible for appropriate and reasonable accommodations and support services upon completion of an application, verification of the disability, and an intake interview in DSP&S.

Once eligible for specific services, requesting services as needed for each semester is the responsibility of the student.

Examples of support services provided by DSP&S includes: disability-related counseling; priority registration; registration assistance; campus orientation; instructor contact; adapted
equipment; visual aids; assistive devices (such as the Assistive Listening Device for students who are hard of hearing); specialized equipment loans; interpreting services, note takers, classroom aides; test facilitation and proctoring; assisted computer technologies and workshops; and other services by request.

DSP&S assists instructors and students by providing access to alternate medial formats to meet a variety of student needs. These can include: large print, Braille, and electronic texts and course materials, captioned videos, books on tape, reader services, and tactile graphics.

DSP&S counselors work as liaisons for students to both on-campus learning resources and community agencies, such as the State Department of Rehabilitation and other allied health professionals. DSP&S counselors are available at both the Menifee Valley and San Jacinto campuses.

A student may be referred by DSP&S counselors for testing services on campus with Learning Skills specialists wherein a series of diagnostic assessments evaluating individual strengths and weaknesses in cognitive abilities, academic achievement and processing skills are given to determine the presence of specific learning disabilities. A Learning Disabilities Specialist is available at both the Menifee Valley and San Jacinto campuses.

Students with diagnosed disabilities should contact the DSP&S department regarding information on reasonable accommodations related to policies affecting academic completion.

**Course Substitution Policy**

When the severity of a documented and relevant disability prevents successful completion of a course required for the purpose of graduation or certification completion at Mt. San Jacinto Community College, the student may request a course substitution for specific math courses (90 A/B and/or 96 A/B) as an alternative method of meeting the graduation requirement. The course substitution policy, course substitutions list, and related documents are available upon request in the DSP&S office.

**Eagle Access Center**

The Eagle Access Center, accessible to all MSJC students and prospective students, is available at all campuses. Friendly staff and college mentors (students especially trained to offer “student-to-student” assistance) are available to assist in using the online admissions application, orientation and registration process. In addition, help is available in accessing the FAFSA (Free Application for Federal Student Aid) and searching for scholarship information online. Learn how to login and utilize the online portal www.mv.msjc.edu.

**Enrollment Services**

**Learning Outcomes**

- Identify and utilize departmental online services thereby demonstrating independence and responsibility pertaining to admissions and registration;
- Recognize procedure related documents connected to services, i.e., transcript request, petition submission, prerequisite evaluation, application for graduation, etc.; and
- Develop an awareness of the important date calendar via information in the online schedule of classes.

The Enrollment Services Office provides numerous services to students and members of the community. General information about the college is provided. Petitions to enter class late, transcripts, credit by examination and enrollment verification are all initiated in this office. Student academic records, courses taken, units attempted, units earned, grades, grade points, graduation date and other data are maintained in this office.

**Extended Opportunity Programs & Services (EOPS)**

**Learning Outcomes**

- Students will analyze, execute, and complete their personal goals;
- Students will analyze, execute, and complete their academic goals;
- Students will analyze, execute, and complete their vocational goals; and
- Students will comprehend and demonstrate personal responsibility by completing their mandated counseling requirements.

The Extended Opportunity Programs & Services (EOPS) was established as a result of Assembly Bill 164 passed by the California Legislature in 1969 to increase the enrollment of educationally disadvantaged and low-income students on community college campuses.

The Cooperative Agencies Resources for Education (CARE) is a program under EOPS that was established in 1982 as a means of providing supplemental educational support services for EOPS students who are single head-of-household with at least one child under the age of 14, who are welfare recipients and who desire job-relevant education to break the dependency cycle by becoming self-sufficient and productive members of society.

**Who is Eligible?**

To be considered for eligibility in the EOPS program, a student must:

- Be a resident of California;
- Be enrolled full-time (12 units) when accepted by the EOPS program;
- Qualify to receive a Board of Governor’s Grant A or B and apply for financial aid by filing a Free Application for Federal Student Aid (FAFSA);
- Be educationally disadvantaged as determined by the EOPS program; and
- Not have completed more than 70 units (or 6 consecutive semesters) of college level course work.

CARE has separate eligibility requirements to include:

- Current recipient of TANF/CalWORKs;
- Receive cash aid for themselves or their children;
Student Services

- Single head-of-household with at least one dependent child under the age of 14 years of age.

The following are special services that may be offered to qualified students based on availability of funds: book vouchers, priority registration, assessment (Myers-Briggs and Strong Interest), academic/vocational/personal counseling, textbooks, SGA and parking fees, starter kits, transportation vouchers, referrals and graduation packs.

How can I apply for EOP&S?

EOPS and CARE applications are available in the EOPS/CARE office in room 1113 on the San Jacinto Campus. Students can submit EOPS applications for the 2014-15 academic year until June 30, 2015, or until we reach our program enrollment capacity, whichever comes first.

Depending on program capacity EOPS may be able to admit eligible CARE students beyond the EOPS application deadline. In previous years, EOPS reached our program enrollment capacity in August and our CARE program enrollment capacity later in the academic year.

The EOPS/CARE office at the San Jacinto Campus will be open Monday through Thursday from 8:00 AM to 5:00 PM and on Friday from 8:00 AM to 12:00 noon. Additional information on the EOPS program will be posted on our website during the 2014-15 academic year at www.msjc.edu/eops. You may also contact the EOP&S/CARE staff by calling the San Jacinto office at (951) 487-3295.

Financial Aid

Learning Outcomes

- Demonstrate the ability to inquire and comprehend financial aid processes through technology, face-to-face contact, and publications;
- Demonstrate academic success by taking personal ownership in their educational planning and knowledge of financial aid requirements, policies and procedures;
- Identify inhibiting factors (i.e., job skills, financial needs, etc.) by utilizing college and community resources; and
- Manage their schedule, be responsible, and communicate effectively with their employers, co-workers and the public when participating in the Work Study Program.

While Mt. San Jacinto College subscribes to and supports the philosophy that primary responsibility for funding college expenses rests with students and their families, the college recognizes that some students and/or their families have limited financial resources and are unable to meet all of the expenses associated with higher education without supplemental assistance.

To help accommodate these supplemental student needs, the college provides a variety of financial assistance through the Financial Aid Office in the Student Center on the San Jacinto Campus or the Financial Aid Office in building 100 on the Menifee Valley Campus.

Available services range from: 1) administration of various Federal Financial Aid programs, including Pell Grant, Supplemental Educational Opportunity Grant (SEOG) and Federal Work Study; 2) State of California aid programs, including enrollment fee waivers through the Board of Governor’s Waiver (BOGW), and Cal Grants; 3) Bureau of Indian Affairs (BIA) Tribal Grants; 4) application for locally administered scholarships; and 5) Veterans Educational Benefits.

Application

Financial aid funds come from appropriations made by the federal and state governments and through scholarship awards made by individuals and other public and private agencies and organizations. Hence, each of these funds must be administered according to different sets of policies, regulations, and/or specific requirements.

To apply for financial aid from Mt. San Jacinto College, students must file the Free Application for Federal Student Aid (FAFSA). The FAFSA is a multi-purpose form that is used to apply for federal aid as well as California Grants from the California Student Aid Commission. The FAFSA is available online at www.fafsa.gov. Students are also required to file a grade-point average verification form with the California Student Aid Commission for a Cal Grant by March 2. Check with the Financial Aid Office for priority deadlines for the FAFSA.

Separate scholarship applications for a number of locally administered scholarships are also available in the Financial Aid offices on both campuses.

Student Eligibility

Policies relating to federal admission and academic progress of the college are described in this edition of the college catalog. Financial aid administered or approved by Mt. San Jacinto College under Federal Pell Grant, Federal Work Study (FWS) or Federal Supplemental Educational Opportunity Grant (SEOG) is based on the student meeting the following conditions:

- Be a U.S. citizen or eligible non-citizen;
- Be registered with Selective Service (if required);
- Be working toward a degree or certificate;
- Be making satisfactory academic progress;
- Not owe a refund on a Federal grant or be in default on a Federal educational loan;
- Have “financial need” as determined in part by submitting the FAFSA;

New Federal Student Aid (FSA) Regulations designate the amount of Federal Pell Grant funds a student may receive over his or her lifetime is limited by a new federal law to be the equivalent of six (6) years of Pell Grant funding. Since the maximum amount of Pell Grant funding a student may receive each year is equal to 100%, the six-year equivalent is 600%. This Federal Regulation is not appealable.

To be eligible for California grants, you must:

- Be a resident of California or be eligible for AB540, California Non-resident Tuition Exemption; and
- Have “financial need” based on the criteria for the Board of Governor’s Waiver or Cal Grant Program.
Additional information about financial aid is available on the Mt. San Jacinto College Financial Aid website at www.msjc.edu and in the Financial Aid office on both campuses.

**MSJC Standards of Satisfactory Progress for Financial Aid Eligibility**

This policy has been developed for students receiving Federal Financial Aid to assist in academic planning and success. Federal regulations require a student to move toward the completion of a degree or certificate when receiving financial aid.

Federal regulations state that Academic Progress Standards must include a review of periods of enrollment in which the student did not receive aid as well as the semesters they did receive aid. All students receiving Financial Aid will be expected to meet annual standards for academic progress and complete a degree or certificate program within 150% of the published unit requirements for the chosen program of study.

At Mt. San Jacinto College, the limit is 72 units for most programs. Information regarding the standards the student must maintain to be making satisfactory academic progress at Mt. San Jacinto College is available in the Financial Aid Office on the San Jacinto or Menifee Valley campuses or on the Mt. San Jacinto College website.

**Financial Aid Refund/Repayment Policy**

Federal Law requires students who receive federal Title IV aid and leave school before completing 60% of the term will be required to pay back some or all of the aid received. Information regarding any return of federal Title IV financial aid funds as required by regulations is available from the Financial Aid Offices at the San Jacinto and Menifee Valley campuses and on the MSJC Financial Aid website.

Federal Law also requires that students who received federal Title IV aid and drop classes will be required to pay back some of the aid received. Information regarding reduced enrollment as required by regulations is also available at the Financial Aid Offices at the San Jacinto and Menifee Valley campuses and on the Mt. San Jacinto College Financial Aid website at www.msjc.edu.

**Housing**

No housing facilities are available at the college and the college assumes no legal responsibility for providing or supervising housing facilities.

**Learning Center**

The Learning Resource Centers, located on both of Mt. San Jacinto College’s campuses at Menifee and San Jacinto (with limited services available at San Gorgonio Pass and Temecula), provide rich academic support for all MSJC students through a variety of mediums, including one-on-one tutoring, group study, resource materials, testing services, and homework drop-off, to name a few. Each center has a Math Center, a Writing Center, and a Computer Lab. Help is available in math, English, technology, and numerous other disciplines. Support is also provided to help students improve learning skills, such as time management and test anxiety. All services are provided free-of-charge and are available to all MSJC students. Although no appointment is necessary, students are required to bring their MSJC Student Identification cards for quick and easy check-in and check-out.

For additional information, visit: www.msjc.edu/learningresourcecenter

**Learning Skills Program (LSP)**

**Learning Outcomes**

- Analyze and critically evaluate functional limitations, select appropriate compensatory learning strategies, and evaluate use adaptive technologies appropriate for their individual remediation needs;
- Communicate effectively with instructors, staff and fellow students using appropriate methods of technology and select appropriate learning and compensatory strategies;
- Demonstrate personal responsibility, identify personal needs and goals, and select appropriate resources necessary to meet them; and
- Practice active learning and demonstrate measurable progress of course level learning outcomes defined in their educational study plan.

The Learning Skills Program (LSP) is an academic and instructional support program that offers specialized classes and services to students with a prior history of learning disabilities or students who are experiencing significant difficulty in classes.

The LSP offers an assessment workshop designed to assess learning strengths and weaknesses, provide instruction in learning strategies, determine educational limitations, and develop an educational plan based on diagnostic assessment. Specialized classes and tutoring in mathematics, adaptive computer technology, reading, written and oral expression, and study skills teach compensatory strategies designed to help students maximize their success in college classes. LD services include test facilitation and proctoring, assisted computer technologies, specialized tutoring, and educational advisement. A Learning Disability Specialist is available on both the San Jacinto and Menifee Valley campuses. Students with a prior history of learning disabilities, or students who are experiencing extreme difficulty in classes may request LD assessment by contacting the LD Specialist or the Disabled Students Programs and Services (DSP&S) office.

**Library Services**

**Learning Outcomes**

- Students will have an understanding of the types of material and resources available at the library, both print and electronic;
- Students will be able to navigate the library’s web site, select and search an appropriate catalog or database to fulfill information needs;
- Students will be able to demonstrate the ability to access the library’s resources remotely.

Mt. San Jacinto College 2014-2015 Catalog
**Student Services**

Mt. San Jacinto Community College is a single college, multicampus district with library facilities at both campuses. The library at the Menifee Valley Campus is located in the Learning Resource Center, building 800. The Milo P. Johnson Library at the San Jacinto Campus is located in building 300.

The libraries provide a large variety of resources and services in an advanced electronic environment. The services offered include reference and research assistance, bibliographic instruction on specific class subjects, general library orientations, and reserve materials.

The libraries’ collections include circulating and reference books, printed periodicals, eBooks, online databases and full-text periodicals, audio-visual media and streaming media collections.

Databases, full-text periodicals, and the library catalog are accessible on-line 24/7. The libraries have computers for research and Internet access including Wi-Fi. In addition, Microsoft Office Suite is available on all of the computers.

A current student picture ID is used as a library card at both libraries. Library hours and contact information are posted on each library webpage:
- Menifee Valley Campus Library: [www.msjc.edu/mvclibrary](http://www.msjc.edu/mvclibrary)
- San Jacinto Campus Library: [www.msjc.edu/sjclibrary](http://www.msjc.edu/sjclibrary)

**Puente Program**

**Learning Outcomes**

- Acquire and assess relevant information that will help design an educational plan that focuses on attaining an AA/AS and/or transfer requirements;
- Analyze social and cultural issues that inform their understanding of civic responsibility to prepare them to be more involved in the college and/or local community as mentors or leaders; and
- Develop academic skills (reading, writing, oral, and study) that will demonstrate their ability to be successful in a higher education environment.

The mission of the Puente Project is to increase the number of educationally underserved students who enroll in four-year colleges and universities, earn degrees, and return to the community as leaders and mentors to future generations.

Puente is designed to help students adjust to college life and prepare for transfer to four-year universities. The program is unique in that it explores the Latino/a experience. However, Puente is open to, and welcomes, all MSJC students. The program has three major components: Writing instruction, personal growth instruction and counseling, and mentoring. Puente’s goal is to provide students with a strong academic foundation and the support needed in order to be successful at MSJC.

For more information about the Puente Project contact:
- Alma Ramirez – Puente English Instructor
  (951) 487-3645 or alramirez@msjc.edu; or
- Rosalva Amezcua – Puente Guidance Counselor
  (951) 639-5254 or ramezcua@msjc.edu.

**Scholarships**

A number of different scholarships are awarded each year to qualified Mt. San Jacinto College students based upon academic merit and promise, major or vocational objectives, activities or other skills or affiliations, and sometimes, financial need as specified by the various donors. Both continuing and transferring students are eligible for these awards, dependent on specific eligibility criteria.

Applications are available on the MSJC website, under the scholarship tab, the first week of December of each year and must be submitted to the Foundation Office by the February deadline. (Please contact the Foundation Office for the specific dates).

Mt. San Jacinto College is fortunate to assist in the coordination and delivery of a number of outside or private scholarship awards from various civic groups, clubs and agencies. Potential donors are encouraged to contact the MSJC Foundation Office if assistance is needed in establishing or implementing a scholarship program.

For more information or for the scholarship application, please visit [www.msjc.edu/scholarships](http://www.msjc.edu/scholarships).

**Student Equity**

Every student attending Mt. San Jacinto College has the right to expect fair and equal access to all educational programs and services at the college. The college is committed to providing high quality educational experiences, supported by excellent services to enable every student to pursue an educational goal and be successful.

Mt. San Jacinto College continues to monitor student equity issues, and invites students to let the college know about their personal experiences. We want to know when we’ve been successful in meeting our equity goals, as well as those areas that can be the focus of improvement efforts. Students may submit their comments to the Vice President of Student Services office at any time.

**Student Life and Development Program**

**Learning Outcomes**

- Explore activities in individual and group settings for self-understanding and growth;
- Design and implement programs to enhance social, cultural, multicultural, intellectual, recreational, service, and shared governance involvement;
- Comprehend institutional policies and procedures and their relationship to individual and group interests and activities; and
- Develop the competencies required for effective leadership in the categories of personal, interpersonal, and the development of groups, organizations, and systems.

The Student Life and Development Program (SLDP) offer students various opportunities to learn through their involvement in campus life. Campus life is what occurs outside of the classroom. The program promotes the fact that a college
education includes more than what goes on in the classroom. Campus activities describe the combined efforts of clubs and organizations established for and/or by students. These activities include, but are not limited to governance, leadership, service, cultural, social, diversity, recreational, artistic, political, and religious activities.

SLDP offers students opportunities to participate in the following:

- **Student Government Association (SGA)**
  
  SGA is the representative organization of the MSJC student body. It is composed of elected and appointed student officers, each with designated duties assigned within three branches: executive, legislative, and judicial.

  SGA is designed to provide opportunities for the development of the social and cultural interests of students, to develop leadership and responsibility, and to promote college spirit and student morale. All students are encouraged to join and take an active part in SGA through participation in weekly meetings and/or SGA events.

- **SGA Sticker – The $7.00 MSJC SGA Sticker helps support a variety of important activities sponsored by SGA. The card further helps students by giving them discounts on purchases in the bookstore and cafeteria, free admission to all home athletic events and discounted tickets to some performing arts events. In addition, the SGA sticker provides various discount opportunities at surrounding businesses who participate in the Vendor Discount Program.**

- **SGA Barbeque Events – Come to the quad during College Hour and participate in the monthly SGA Barbeque events! Students can purchase a special BBQ meal provided by the cafeteria, connect with campus clubs, and get information and giveaways from vendors.**

- **Campus Clubs/ICC – SGA is the governing body that oversees the approval and activation of all campus clubs. Through the Inter-Club Council, SGA is able to monitor and support the activities of MSJC’s blossoming student groups.**

- **Inter-Club Council (ICC)**
  
  The ICC is a council composed of student leaders from the various MSJC Campus Clubs. The Council supports all Campus Clubs by providing training opportunities and facilitating collaboration among student organizations. In order for the Campus Clubs to conduct business (events, activities, and expenditures), they must participate consistently in the ICC meetings and submit all required documents to initiate the approval process.

- **Leadership Courses**
  
  Leadership courses allow students to further develop their leadership, people management, and communication skills. These courses assist students in obtaining practical tools for effective decision-making practices, discovering strengths, enhancing student capacities to lead ethically and effectively, and in obtaining practical knowledge of professionalism.

- **Student Life**
  
  Student Life provides opportunities for students to participate in co-curricular activities, campus governance, and advocate for their organizations and interests. Students will develop leadership abilities, healthy interpersonal relationships, and use time purposefully. In addition, students will develop ethical decision-making skills.

### Study Abroad

Mt. San Jacinto College students have the opportunity to study in Europe. Mt. San Jacinto College is a member of the study abroad consortium group which is led by Citrus College and the Southern California Foothills Consortium for Study Abroad. Students can participate in our study abroad programs as long as they meet eligibility requirements.

Semester length programs are offered in London, England (fall) and Salamanca, Spain (spring). Student can earn 12 units of college credit. Most courses are CSU/UC transferable and meet general education requirements. For more information, please contact the Counseling Department at (951) 639-5255.

### Talent Search

#### Learning Outcomes

- Acquire skills in math, English and science through offered tutorial services to pass to the next school grade and graduate with a high school diploma;
- Identify the key elements of becoming a college student, including: SAT/ACT Test Preparedness, A – G high school requirements, and college matriculation steps;
- Apply for college admittance and financial aid and enroll the fall term after high school graduation; and
- Maintain community ties through community service and outreach.

The Talent Search Program at Mt. San Jacinto College provides economically disadvantaged and first generation college-bound students with academic support, access and exposure to postsecondary education.

Talent Search is a team effort. This pre-college program, working in cooperation with four schools within the San Jacinto Unified School District, enables students to complete high school and enroll in a postsecondary educational program of their choice.

Talent Search is 100% federally funded by the U.S. Department of Education, and is part of the TRIO Program. Two-thirds of the applicants selected must be low-income and/or first generation college students. (This means that neither parent has graduated from a four-year university.)

#### Qualifications – How can I participate?

- Be a middle or high school student (Monte Vista and North Mountain Middle Schools, and San Jacinto High Schools);
- Complete and submit an application;
- Meet the Department of Education’s income guidelines and family educational requirements;
- Demonstrate commitment to complete middle school, attend high school and plan to enroll in college;
- Participate in activities, workshops, trips and events related to Talent Search;
Student Services

- Enroll in appropriate college preparatory classes;
- Maintain a 2.0 (C) or better in all academic course.
- Admission into the Mt. San Jacinto College Talent Search program is open to those who meet eligibility criteria, regardless of gender, race, national origin, color, age, religion or disability.

For more information about the Talent Search Program contact:
Robert Hill – Talent Search Director
(951) 487-3273 or rhill@msjc.edu
Eva Aceves – Talent Search Advisor
(951) 487-3272 or eaceves@msjc.edu

Upward Bound

Learning Outcomes
- Analyze and develop a 4-year plan to: Improve standardized test scores in reading, language arts, and math; graduate high school and enroll in higher learning institution the fall term following graduation;
- Understand pre-college preparation by attending a series of informational and interactive workshops covering: College entrance test preparedness, financial aid, A – G high school requirements; and
- Maintain community ties with service area schools through community service and referrals to programs available at MSJC.

Upward Bound Mission Statement
The purpose of the Upward Bound Project (UB) is to identify eligible youths who are from low-income and potential first-generation college students. UB will encourage project participants to remain and complete high school while setting higher standards for a college education. Furthermore, UB will provide the necessary tools to prepare students to enroll and succeed in college.

Students in Upward Bound at Mt. San Jacinto College will be encouraged to:
- Develop and improve academic skills;
- Successfully graduate from high school and enroll in postsecondary education;
- Explore and develop career choices; and
- Be motivated to reach their educational goals.

History of Upward Bound
Upward Bound Projects began in 1964 and have been funded by the U.S. Department of Education, Federal TRIO programs. About 872,032 low income Americans have been served through TRIO programs nationwide.

The first Upward Bound 5 Year Grant Cycle was awarded on 09/01/2003 and ended on 08/31/2008 with annual funds of $250,000. We are currently in our third Grant Cycle which was awarded on 09/01/2012 and will end 08/31/2017.

Upward Bound maintains and recruits 50 participants from San Jacinto High School only.

We at Upward Bound are dedicated to help students reach their educational goals and together we will make them a reality!

Qualifications:
- Students must be a 9th or 10th grade student at San Jacinto High School;
- Be the first individual in the family to attend college;
- Show low-income verification;
- Obtain four letters of recommendation from the following individuals: Teachers/counselors (math, science, English or foreign languages); and
- At least a 2.50 grade point average.

Upward Bound is 100% federally funded by the U.S. Department of Education, and is part of the TRIO Programs. Two-thirds of the applicants selected must be low-income and/or first generation college students (This means that neither parent has graduated from a four-year university).

Admission into the Mt. San Jacinto College Upward Bound program is open to those who meet eligibility criteria, regardless of gender, race, national origin, color, age, religion or disability.

For more information about the Upward Bound Program contact:
Marisa V. Mendoza – Upward Bound Director
(951) 487-3270 or mmendoza@msjc.edu;
Sebastian Rivera – Upward Bound Advisor
(951) 487-3271 or srivera@msjc.edu; or
Renee Jones – Upward Bound Administrative Associate
(951) 487-3275 or rjones@msjc.edu.
Veterans Educational Benefits

Mt. San Jacinto College is fully approved for the training of students under the various government educational programs for veterans and eligible dependents of deceased or disabled veterans.

After completing an application for admission, a veteran wishing to attend utilizing one of the VA Educational Assistance Bills should complete all necessary forms in the Veterans Resource Center located in buildings 1560 (San Jacinto Campus) and 1017 (Menifee Valley Campus). Veterans are required to choose a major and enroll in classes required of that major. Failure to take proper classes may lead to reduction or termination of benefits. Official transcripts from all previous schools, colleges and CLEP test must be submitted to Mt. San Jacinto College for evaluation before the end of the student’s second term of attendance.

The load requirements (fall and spring) for Chapter 30 (Montgomery GI Bill), Chapter 31 (Veterans Vocational Rehabilitation), Chapter 32 (Veterans 1966 Federal Veterans Education Act), Chapter 33 (Post 9–11 GI Bill), Chapter 35 (Dependents’ Educational Assistance), Chapter 1606 (Montgomery GI Bill – Selected Reserve), and Chapter 1607 (Montgomery GE Bill Selected Reserve) are:

- Full-time .............................................................. 12 units or more
- ¾ time ..................................................................... 9–11½ units
- ½ time ...................................................................... 6–8½ units
  (Chapter 33 must be enrolled in a minimum of 7 units in order to receive partial BAH Payments.)
- ¼ time ...................................................................... 3–5½ units

Summer Session: Full-time is considered 4 units in a six-week course or 6 units in an eight-week course.

Veterans taking a course that lasts less than a semester may be paid only for the actual enrollment period. If the veteran receives an “F” or “W” grade for non-attendance, he or she may be liable to repay the VA from the date he or she stopped participation in the class.

Continuing and returning students who were previously enrolled for VA assistance and wish to continue to receive benefits must submit a Veteran’s Statement of Responsibility Form to the Veteran Resource Center each semester. It is the veteran’s responsibility to promptly notify the Veterans Resource Center of any change of program, which would affect his or her VA assistance.

Veterans may be awarded 3 units of credit for the healthful living and physical education requirement of graduation by submitting an application for credit and a copy of their DD214, verifying 180 days active military duty, to the Enrollment Services Office. Students who are on active military duty and have completed boot camp may apply to receive the credit. This must be done upon admission to the college.

Veterans Resource Center (VRC)

The Veterans Resource Center (VRC) is located in buildings 1560 (San Jacinto Campus) and 1017 (Menifee Valley Campus) and provides a central location designated strictly for Veteran and Dependent needs, to include:

- An available Veterans Counselor for academic and career counseling;
- A full-time School Certifying Official for GI Bill benefits;
- VA Student Workers as assisting employees for resources and student support services;
- Free computer use and printing;
- A lounge area with sofas and matching tables, a flat screen TV, a DVD player, a coffee maker, and a microwave;
- Foosball Table (MVC location only); and
- A conference / study area.

MSJC serves more than 900 Veterans district wide and the VRC ultimately accommodates the influx of Veterans through a seamless and supportive transition into college life.

Veterans Standards of Progress

In order to receive Veterans Educational Benefits, The Veterans Administration (VA) requires that you must maintain satisfactory progress towards the completion of your education. VA has set standards that in this Satisfactory Standards of Progress; you will maintain an acceptable cumulative grade point average (GPA) of 2.0.

Failure to maintain this standard can result in a termination of your benefits here at Mt San Jacinto College (MSJC).

If you fail to maintain the 2.0 cumulative GPA for more than two semesters, your benefits will be terminated upon completion of your third semester in which the standard has not been met.

Once a termination for Unsatisfactory Standards of Progress has been submitted to the VA for failure to maintain the 2.0 grade point average, MSJC will not be able to submit any future certifications to the VA on your behalf until you have raised your GPA to the satisfactory standard of 2.0.

For further information, contact:
Veterans Resource Center – San Jacinto Campus, 1560 (951) 487-3247; or
Veterans Resource Center – Menifee Valley Campus, 1017 (951) 639-5237.

WEB Services ea.msjc.edu

EagleAdvisor is an online tool that allows you to view your grades, transcripts, and register for classes. Go to the MSJC website www.msjc.edu and click on the EagleAdvisor icon or go directly to ea.msjc.edu. Your login is your first initial along with your full last name (lower case, no spacing, no punctuation) and the last three digits of your Mt. San Jacinto College I.D. number (i.e. jsmith123). This number is located on your Eagle card. Your password is your six-digit birth date (mmddyy). You must change your password and keep the password in a safe place because we will not be able to retrieve the password once you change it. If you need to reset your password, you can do this by clicking on the reset password link on the EagleAdvisor login page.

**Graduation Requirements**

Mt. San Jacinto College provides occupational as well as general education for students who plan to complete their formal education at the community college level; and provides lower-division requirements in general education and in pre-professional concentrations for students who plan to transfer to four-year colleges and universities.

This section of the catalog describes the graduation requirements for the associate in arts degree, the associate in science degree and the requirements for certificate programs, as well as the types of courses and programs offered for credit at Mt. San Jacinto College. Coursework completed at other accredited colleges or institutions is evaluated based on today's standards.

This work may be reviewed by an evaluator, department chair, or Dean of Instruction. It is the student's responsibility to provide course descriptions on courses taken longer than 5 years ago.

**Evaluation Requirements for Associate Degree**

The Associate in Arts Degree and Associate in Science Degree are not automatically awarded when a student completes the requirements. Students must file an “Application for Graduation” in the Enrollment Services Office by the deadline date. The deadline to complete this form is found in the online class schedule. All official transcripts from other colleges and external examinations must be on file before an application for graduation can be filed.

**Graduation**

Formal graduation activities are held at the end of the spring semester. Students who complete degree requirements during the spring or preceding fall and summer terms are invited to participate in the commencement program.

**Continuous Enrollment Catalog Rights**

Graduation requirements contained in this catalog apply to students who enter during the 2014-15 academic year. Certificate and degree requirements are regularly reviewed and may undergo change while a student is pursuing a degree or certificate. A student who maintains continuous enrollment has the right to graduate based upon the requirements listed in the catalog when they first entered Mt. San Jacinto College or any catalog thereafter. Continuous enrollment is defined as enrollment in at least one semester excluding summer/winter sessions each calendar year (January 1 – December 31) as posted on the official college transcript. If there is a break in attendance, the student surrenders rights under previous catalogs, and must meet the requirements in effect when the student re-enters, or any one catalog which is in effect during continuous enrollment from the date of re-entry to the date of graduation. Any time there is a break in attendance, the student's catalog rights begin again with re-entry.

**NOTE:** While the student may graduate based on any one of the catalogs in effect during their continuous enrollment, all of the requirements in that one catalog must be met. In the event that required courses have been discontinued, students may petition for substitution. Petitions are available in the Enrollment Services Office. Students may not combine requirements from more than one catalog to satisfy the graduation requirements.
In order to maintain catalog rights based on the initial semester of enrollment at MSJC, a student may petition for coursework completed at another regionally accredited post-secondary institution to count as continuous enrollment as defined above, except at least one evaluative symbol must have been posted on the official college transcript. Evaluative symbols included but are not limited to grades of “A”, “B”, “C”, “D”, “F”, “P” or “NP” and may include +/- designations. Non-Evaluative symbols include but are not limited to grades of “I”, “IP”, “RD” or “W” and are not used in calculating grade point averages.

**AWARD OF MULTIPLE DEGREES**

**Instructional Programs**

Instructional programs are “an organized sequence of courses leading to a defined objective, a degree, a certificate, a license, or transfer to another institution of higher education (Title 5, Section 55000).” Instructional programs of study at Mt. San Jacinto College are designed to provide students with degrees, certificates, licensure and/or training for a variety of career and technical fields, and/or preparation for transfer to four-year colleges or universities. Mt. San Jacinto College’s currently active certificate and degree programs may be found on the following pages. Detailed information about each program’s coursework and additional requirements are found on Instructional Program pages.

**First Degree from MSJC**

Students seeking additional associate degrees after having previously received an associate degree from Mt. San Jacinto College may qualify for an additional degree if (1a) they have met the minimum requirements for the second major and (1b) at least 12 required units in the second major are separate and distinct from the required units of their first major; and (2) they have achieved a minimum grade point average of 2.0 for all units attempted in pursuit of the degree.

**First Degree from Another College**

Students seeking additional associate degrees after having previously received an associate degree from another college may qualify for graduation by (1) completing those general education requirements for which equivalents have not been completed; (2a) meeting the minimum requirements of the major and (2b) completing at least 12 units of the required units in the second major that are separate and distinct from the required units of their first major; (3) completing a minimum of 12 units in residence at MSJC; and (4) achieving a grade point average of 2.0 or above for all units attempted in the pursuit of the degree.

**DEGREE REQUIREMENTS**

The Board of Trustees, on recommendation of the superintendents/presidents and faculty of the college, is authorized to confer the Associate in Arts degree and the Associate in Science degree. The requirements for graduation with either degree represent both minimum state requirements and the firm commitment of Mt. San Jacinto College to the principles of general education. Requirements are designed to develop the full potential of each student, broaden his or her outlook and provide the basis for exemplary citizenship.

The minimum requirements for the Associate in Arts or Associate in Science Degree are specified by the Board of Governors of the California Community Colleges and the Mt. San Jacinto College Board of Trustees. The degree will be granted upon completion of 60 semester units of coursework and the fulfillment of the following specific requirements.

**Associate Degree for Transfer**

[www.adeegreewithaguarantee.com](http://www.adeegreewithaguarantee.com)

The Student Transfer Achievement Reform Act (California Education Code sections 66746-66749 - Senate Bill 1440) guarantees admission to a California State University (CSU) campus for any California Community College student who completes an “associate degree for transfer” (ADT), a variation of the traditional associate degree offered at community colleges.

The Associate in Arts (A.A.-T) or the Associate in Science (A.S.-T) for Transfer is intended for students who plan to complete a baccalaureate degree in a similar major at a California State University (CSU) campus. Students completing these degrees are guaranteed admission to the CSU system, but not a particular campus or major. In order to earn one of these degrees, students must complete a minimum of 60 required semester units of CSU-transferable coursework with a minimum GPA of 2.0. Students transferring to a CSU campus that accepts as similar the A.A.-T or A.S.-T will be required to complete no more than 60 units after transfer to earn a bachelor’s degree in a similar major (unless the major is designated “high-unit”).

These degrees may not be the best option for students intending to transfer to a particular CSU campus or a college or university that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements. Students should also complete campus specific major preparation courses as identified on ASSIST, even if these courses are not on the approved SB 1440 degree pattern.
Mt. San Jacinto College has 16 approved A.A./A.S.-T degrees and additional degree majors may be developed as appropriate. Please see a counselor for more information on these degrees.

The following is required for all A.A.-T or A.S.-T degrees:

1. Minimum of 60 CSU-transferable semester units
2. Minimum grade point average (GPA) of a least 2.0 in all CSU-transferable coursework. Students should keep in mind that while a minimum of 2.0 is required for admission most majors may require a higher GPA. Consult with a counselor for more information.
3. Completion of a minimum of 18 semester units in an A.A.-T or A.S.-T major as detailed in the Instructional programs section of this catalog. All courses in the major must be completed with a grade of “C” or better or a “P” if the course is taken on a “pass/not pass” basis (Title 5, section 55063).
4. Certified completion of the California State University General Education-Breadth pattern OR the Intersegmental General Education Transfer Curriculum pattern (Option B or Option C).

Associate Degrees

Mt. San Jacinto College also offers both Associate in Arts (AA) and Associate in Science (AS) degrees for non-transfer and for transfer that are not ADT’s. Associate in Arts degrees are two-year degrees in Liberal Studies disciplines that provide a broad exploration of a specific area of emphasis. Associate in Science degrees typically are two-year occupational degrees that prepare students for career and technical fields. Most AA degrees and many AS degrees provide a solid foundation for further academic study for students wishing to transfer. All Associate degrees include a rigorous general education pattern as identified below.

Certificates

Certificate programs focus on a specific vocational topic/subject area and are designed to provide students with knowledge and skills immediately applicable to employment. Certificate programs typically do not require or include general education type courses, and most can be completed in less than two years.

Certificates are awarded to students who have successfully completed the required sequence of courses in an occupational field. A minimum grade of “C” or “P” is required for every course approved in the certificate. All certificates have been evaluated and approved by the Mt. San Jacinto College Curriculum Committee, the Mt. San Jacinto College Board of Trustees and the California Community College Chancellor’s Office and are listed elsewhere in this catalog.

Mt. San Jacinto College offers two types of vocational certificates:

State Approved Certificates of Achievement

State-approved certificate programs consisting of 18 or more units of degree-applicable coursework. These certificates appear by name on student’s transcripts. Mt. San Jacinto College shall confer a certificate of achievement upon a student who satisfactorily completes the following requirements:

- Course requirement: Refer to specific program planning guides in this catalog
- GPA requirement: Cumulative GPA of 2.0 or higher
- Resident requirement satisfactory completion of 12 units at MSJC

Certificate programs are designed to provide educational experiences that will give students occupational competence as well as credit toward the Associate in Arts or Associate in Science degrees. In some cases, completion of certificate programs may partially meet lower-division requirements in the state colleges and universities that offer upper-division majors in the same occupational fields.

Certificate requirements vary from program to program, and applications of certificate program courses to associate degrees or transfer requirements also vary.

For more information, see the specific program planning guides in this catalog and visit the counseling center for program planning prior to initial enrollment.

Locally Approved Employment Concentrations

Locally approved certificate programs consisting of fewer than 18 units of degree-applicable coursework. These certificates do not appear on student’s transcripts. Mt. San Jacinto College offers quickly attainable specialization in a variety of subject areas and a locally approved certificate of completion in the form of Employment Concentration Certificates (ECC’s). Information about these specialized certificates can be found in the Instructional Programs pages of this catalog in great detail.

For more information, see the specific program planning guides in this catalog and visit the counseling center for program planning prior to initial enrollment.
Degrees, Certificates and Curricula

**General Education**

For a complete list of degrees and their satisfaction requirements, see the individual MSJC General Education Pattern Options A, B and C below. General Education requirements are different depending upon the degree.

**Explanation of General Education Options**

- **Option A:** Complete at least 60 degree-applicable semester units. Minimum overall GPA of 2.0 and a minimum of 24 semester units of Mt. San Jacinto College General Education from the Associate in Arts/Science General Education pattern. Used for local, non-transferable AA or AS degrees.

  For the Associate in Arts/Science Degree with transfer emphasis preparation for a four-year college or university please follow Options B or C below as well as the course requirements specified in the program of study for the declared major.

  For the Associate in Arts/Science Degree with transfer emphasis preparation for a four-year college or university please follow Options B or C below as well as the course requirements specified in the program of study for the declared major.

- **Option B:** Complete the California State University (CSU) General Education Breadth course pattern for an Associate in Arts or Associate in Science with Transfer Emphasis or an A.A.-T/A.S.-T degrees. Minimum overall GPA of 2.0 required for transfer. CSU GE Breadth can be used for transfer into CSU system, many California private universities and out-of-state universities.

- **Option C:** Complete the Intersegmental General Education Transfer Curriculum (IGETC) for an Associate in Arts or Associate in Science with Transfer Emphasis or an A.A.-T/A.S.-T degrees. Minimum overall GPA of 2.4 required for transfer. IGETC can be used for transfer into the UC, CSU and many California private universities and out-of-state universities.

**Basic Skills Competency Requirements for Graduation-Option A**

**Reading**

Collegiate-level reading competency may be demonstrated by passing ENGL-101 or ENGL-101H with a “C” grade or better or with an equivalent AP score or equivalent course work. This requirement is also met with certification of CSU GE Breadth or IGETC.

**Mathematics**

A minimum of 3 units required. This is demonstrated by passing an appropriate level math course with minimum grade of “C”. This requirement is also met with certification of CSU GE Breadth or IGETC.

**Scholarship Requirements for Graduation**

A minimum grade point average (GPA) of 2.00 (“C” average) in degree applicable units attempted is required. However, UC and CSU systems have specific GPA requirements for majors. Please see a counselor.

**Residence Requirements for Graduation**

A minimum of 12 units must be earned at Mt. San Jacinto College.

**Application for Graduation**

Students must file a formal application for graduation in Enrollment Services. Students may graduate from Mt. San Jacinto College at the end of any semester. Refer to the online schedule of classes for application deadline dates.

**General Education Certification for Transfer-Option B or Option C**

Verification by the College of a student’s completion of lower division CSU General Education Breadth requirements or the IGETC must be requested by the student at the time final transcripts are due to be sent to the university.

**Counseling**

All students pursuing certificate or degree programs, either Associate or Baccalaureate level, should see their counselor each semester to review their educational plan.
Transfer Programs

Transfer courses are designed to parallel lower-division offerings at four-year colleges and universities. Through the transfer curriculum, MSJC students may complete freshman and sophomore requirements in two years and transfer to the university with junior or upper division status.

A student may transfer a maximum of 70 transferable units from a community college to campuses of either the University of California or the California State University systems. It is advised that students transfer with at least 60 transferable units to ensure that they are admitted to the four-year institution with junior or upper division status. Most CSU’s and all UC’s require junior standing at time of transfer. Students who did not take the SAT or ACT during their senior year in high school MUST have a minimum of 60 transferable units. Please consult with the transfer institution for admission eligibility. Please see the Course Descriptions section of this catalog to determine which courses are transferable and see an MSJC counselor to create an educational plan.

NOTE: Unless otherwise posted, transfer agreements are intended for fall transfers.

Transfer and Articulation

Public Universities

California State University, San Bernardino

Dual Admissions Program:

Allows students to receive a waiver of California State University San Bernardino (CSUSB) admission application fee, receives a commitment of provisional admission for Fall admission provided all stated GPA minimums and prerequisites have been met by the student, receives specific and continuing advisement support by both CSUSB and MSJC clarifying course requirements and streamlining the transfer process, receives cross enrollment opportunities at CSUSB (1 course per term) and early contact by CSUSB major departments.

California State University, San Marcos-Temecula

Mt. San Jacinto College has entered an agreement with CSUSM – T to guarantee admission into the CSU San Marcos-Temecula Extended learning program upon completion of 60 transferable semester units and full general education certification.

University of California, Los Angeles

Mt. San Jacinto College has entered into a contractual Honors agreement with the University of California, Los Angeles. This Honors Agreement (TAP) provides MSJC Honor’s students with a blueprint for priority consideration for admission to UCLA’s College of Letters and Science. While this is not a guarantee for admissions to UCLA, it significantly increases a student’s potential for acceptance into UCLA, a specific major and scholarship opportunities at UCLA. Students must successfully complete MSJC’s Honors Enrichment Program to be eligible for a UCLA TAP contract. Please see the Honor’s Enrichment Coordinator for more details.

University of California Transfer Admission Guarantee Program (2014-15)

Six UC campuses offer guaranteed admission to California community college students who meet specific requirements. By participating in a Transfer Admission Guarantee (TAG) program, students can receive early review of their academic record, early admission notification, and specific guidance on major preparation and general education coursework. A link to eligibility criteria and special notes for each campus is provided below.

To pursue a TAG:

Stop by the Career/Transfer Center or meet with a MSJC counselor and request information on the University of California TAG agreement;

Meet all requirements and fill out the TAG document and review it with a community college counselor and/or UC campus TAG adviser before submitting it to the chosen campus, 1 TAG per student;

Once the TAG is approved, fulfill all remaining coursework and GPA requirements designated in the TAG agreement; and apply for admission to UC during the appropriate filing period see: http://admission.universityofcalifornia.edu/transfer.

Private Universities

Brandman University

Early Advantage Transfer Agreement

Mt. San Jacinto College and Brandman University/Chapman University agree to partner in offering enhanced opportunities to transfer students by allowing students currently enrolled at MSJC the opportunity to be admitted to Brandman University while attending MSJC and taking transferable coursework. MSJC and Brandman University also agree to provide academic and student services cooperatively so that the transition from MSJC to Brandman University will be seamless for Early Admits.

California Baptist University

TAG students will be guaranteed admittance into CBU, have the opportunity to be enrolled concurrently in both institutions and receive early academic review of records.

Both institutions will maintain articulation agreements for specific programs.

CBU will provide consistent student advising regarding degree requirements and course transfer information.
National University

The purpose of this Transfer Agreement and MOU establishes procedures and guidelines for students to transfer to National University degree programs following completion of an Associate Degree or coursework at a California Community College.

As part of the agreement, National University will waive the standard $60 application fee for transfer students. Additionally, to encourage students who have transferred from a California Community College, National University will provide scholarships to every community college transfer student which will pay for the student’s final two classes in his or her degree program, an amount worth $2,682 under the University’s tuition schedule. To be eligible, transferring students must:

- be in good academic standing at the time of application;
- have completed 30 semester units at a CCC or combination of CCCs; and,
- their last semester of enrollment must have been at a CCC.

University of Redlands

Schools of Business, Education, and Continuing Studies

Mt. San Jacinto College and University of Redlands agree to partner in offering enhanced educational opportunities for MSJC students and staff to transfer to one of the university’s undergraduate programs. In consideration of the above partnership and commitment, University of Redlands will offer 10% to 15% discounted tuition for coursework. Discounts apply to MSJC students and staff.

Out-of-State Universities

Arizona State University

Guaranteed Program for Admission: California Community College students:

Take advantage of the following benefits that are specific to the Guaranteed Program for Admission for California Community College students:

- guidance from ASU on which courses to take while attending the community college
- priority consideration for ASU’s New American University Scholarship program upon admission to the university
- acceptance of IGETC/CSU GE course work toward meeting the associated ASU lower-division General Studies requirements
- transfer of any articulated course work to the university
- access to the classes at ASU, during the semester they are needed
- free university resources that will help students stay on track toward graduation
- a university commitment for the catalog to be the year in which the agreement is signed rather than the year of admission to the university

Study at ASU. Earn a degree from a Pac-12 university that allows students to create an academic experience that is uniquely theirs. Choose from more than 300 undergraduate degrees, 300 study abroad programs and 1,000 student clubs.

Here, a student can conduct undergraduate research, develop entrepreneurial ideas, learn in state-of-the-art classrooms and labs, and receive career guidance and support as they seek internships and career opportunities upon graduation.

Western Undergraduate Exchange (WUE)

Western Undergraduate Exchange:

http://www.wiche.edu/ca

California students have enrolled in undergraduate programs beyond California’s borders through the Western Undergraduate Exchange (WUE) since 1997.

In 2013-14, 13,992 students from California are enrolled in out-of-state programs at reduced rates (150 percent of resident tuition), saving over $122.2 million in tuition and fees – the average student savings amounted to $8,731. Since California began participating in the exchange, students have saved $532.4 million.

Transferable Curriculum

Mt. San Jacinto College courses numbered 100 or above are generally accepted for transfer. These courses are designed to parallel lower-division offerings at four-year colleges and universities. Through the transfer curriculum at MSJC, students may complete freshman and sophomore level requirements in two years and transfer to the university with junior level or upper division status. These courses are intended as lower division transferable coursework only and may be used toward elective units, general education, in-lieu-of courses, prerequisite requirements, major preparation requirements, or direct course-to-course equivalence. Each receiving institution determines the transferability of a course and the maximum units accepted during the transfer process. Knowing the transfer status of a course does not inform the student if a particular course satisfies requirements for admissions, subject area, major preparation, general education, or other graduation requirements at each university. At the very least, course credit will equate to elective unit credit when transferred. Please refer to the UC Transfer Course Agreement or CSU Baccalaureate list for credit limitations. These documents are located at www.assist.org. For clarification make regular appointments with MSJC counselors or the Career/Transfer Center to expedite an educational goal.

A student may transfer a maximum of 70 transferable units from a community college to campuses of either the University of California or the California State University systems. Private
and Out-of-State Universities may accept more than the 70 unit maximum. It is advised that students transfer with a minimum of 60 transferable units to ensure that they are admitted to the four-year institution with junior or upper division status.

**General Education-Breadth Agreements for Transfer**

These agreements are the Intersegmental General Education Transfer Curriculum (IGETC) and the CSU General Education-Breadth Requirements (CSU-GE). These agreements are updated in late spring each year and the most current information is available in print or online in the MSJC General Catalog, at the MSJC Counseling Offices and Career/Transfer Centers.

IGETC is the pattern a California Community College student may follow to complete lower-division general education requirements for either the CSU or UC system's prior to transfer. A grade of “C” or better is required in each area of IGETC and when certified, a transfer student generally will not need to take additional lower-division general education after transfer unless the university requires a specific graduation requirement to be taken after transfer.

The IGETC transfer pattern is not recommended for high-unit majors like math, science or engineering. Students transferring to the UC system are not required to take Area 1C and students transferring to CSU are not required to take Area 6. The community college is responsible for certifying no more than 37 semester units on the IGETC pattern.

See the following pages for the acceptable MSJC courses on the 2014-2015 IGETC transfer patterns. **Note:** IGETC is not recommended for all colleges within each University of California campus.

CSU-GE Breadth is the pattern a California Community College student may follow for a smooth transition into the CSU system. When fully certified, the CSU-GE transfer pattern eliminates the CSU campus-specific lower-division general education requirements, unless the university requires a specific graduation requirement to be taken after transfer. While not required, it does allow transfer students the option of applying to any CSU campus. The community college is responsible for certifying no more than 39 semester units on the CSU-GE pattern.

See the following pages for the acceptable MSJC courses on the 2014-2015 CSU-GE Breadth transfer patterns.

**Non-Transferable Courses**

To achieve its goal of serving all students who desire to learn the curriculum, Mt. San Jacinto College includes both transfer and non-transfer courses. Non-transfer courses simultaneously fill a variety of purposes. Some are designed to provide remedial education for students not yet prepared to attempt college-level work in specific subject areas like English or mathematics.

Other courses are designed to meet the specific needs of an associate’s degree program or certificate program that has no parallel at the four-year level. Still others are intended to satisfy the requirements for an associate’s degree or certificate only.

**Special Projects (299’s)**

For students with previous course work in the specific program area, arrangements may be made with an instructor to supervise the special project. These projects are available for variable units (see individual Instructional Program Planning Guides for number of units) and involve research and special study in areas of interest within a given subject field.

The actual nature of the project MUST be determined in consultation with the supervising instructor. See specific subject areas for the course number of the special project class. Times are by arrangement. No student may claim more than 12 units of special project credits toward graduation.

**Work Experience, Cooperative Education Program (CWEE) (149’s)**

Cooperative Work Experience Education (CWEE) is a program of academic education integrated throughout the career and technical educational programs at the College.

This program allows students to apply knowledge gained in college courses to an actual work setting. In addition, students who qualify and enroll as occupational interns are able to acquire desirable job readiness skills and career awareness. This would be in an unpaid or paid work setting that provides elective college credit. Information regarding student eligibility requirements can be obtained from the CWEE Office by calling (951) 639-5567 or visit our website at [http://career.msjc.info](http://career.msjc.info).

**Transferable Courses**

CSU indicates that a course is Baccalaureate Certified to California State Universities. UC indicates that a course is transferable to the University of California.

**NOTE:** Not all courses have exact equivalents at every UC or CSU campus. Many courses may transfer as elective units only.

Students are advised to consult a counselor, the Transfer Center or other University representatives for more specific information.
Course Identification Numbering System (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from the course numbers assigned by local California Community Colleges. A C-ID number next to a course signals that participating California colleges and universities have determined that courses offered by other California Community Colleges are comparable in content and scope to courses offered on their own campuses, regardless of their unique titles or local course number.

The C-ID numbering system is useful for students attending more than one community college and is applied to many of the transferable courses students need as preparation for transfer. Because these course requirements may change and because courses may be modified and qualified for or deleted from the C-ID database, students should always check with a counselor to determine how C-ID designated courses fit into their educational plans for transfer. For information: www.c-id.net/course_compare.html

Students may consult the ASSIST database at www.assist.org for specific information on C-ID course designations. Counselors can always help students interpret or explain this information.

### Understanding Program Planning

#### Using the Guides

Program patterns contained in the following “Instructional Program Pages” are designed to guide students concerning courses normally required for various degrees and certificates. Patterns are based primarily on requirements for campuses of the California State University system, unless otherwise indicated. Requirements may change and can vary greatly among colleges and universities, so students are urged to consult counselors for current and accurate information.

#### Course Descriptions

Course descriptions are arranged by subject and area distinguished by identifying numbers and course titles. The credit value of each course is indicated in semester units. Each unit represents one hour per week of lecture or recitation or a longer time in laboratory or other activity not requiring outside preparation. Some courses may be repeated for credit, but only when explicitly indicated. Students wishing to repeat a course for the purpose of recalculating the grade-point average should refer to rules regarding “Repeating a Course.” Prerequisite organization and the course description are listed below each course title. Students should read this material carefully to be sure that they meet prerequisites and that course content meets their needs and interest. A schedule of classes issued at the opening of each term lists courses offered.

#### Course Numbering System

Courses numbered 100 or higher are full collegiate courses for which transfer articulation should exist unless otherwise noted. The courses are certified by the college to be of baccalaureate level and meet the criteria in Education Code-Title 5 termed “standards of rigor” for transfer-level courses.

Courses numbered 070-099 are not transferable to four-year institutions but are applicable to the associate’s degree. However, for purposes of associate-degree graduation, state regulation limit general math courses in the category to Math 096 only. Courses intended for students with learning disabilities are the only exceptions to this limitation.

Math and English courses numbered 070-079 are intended for students with learning disabilities. Students may count a maximum of six units from each program for graduation, but such courses do not replace other English or math requirements.

Courses below 070 are non-degree applicable and may not be used to meet graduation requirements. In rare cases they may be applied to certificates, but such courses used to fulfill a certificate requirement may not be applied to graduation. Units represented in the course MUST be replaced by (an) additional course(s).

#### Recommended Course Preparation

In order to enroll students in courses that best meet their needs and skills, the college has developed several levels of placement information.

If recommended preparation is listed, it means that the faculty strongly recommends that the student meet the recommended preparation before enrolling. The skill or course listed in the note has been determined to be an important preparation to the course. While the student may well pass the course without the skill or course listed, a better grade, better understanding and better performance are likely if the note is followed. Under some conditions, a student may be provisionally enrolled in a course while waiting to determine whether or not a pre-or corequisite has been met. If it is subsequently determined that the prerequisite or corequisite has not been met, the student may be dropped from the course administratively and enrollment fees related to the course refunded.
Prerequisite

A prerequisite is a course (or qualification) which must be taken before a student may register for a subsequent course. It is the student’s responsibility to comply with prerequisites of all courses for which he or she enrolls. Course prerequisites are listed in this catalog and in the online course search engine. The most stringent placement restrictions are prerequisites. If a prerequisite is listed for a course, it means that the discipline faculty and department via the curriculum process have determined that students who lack the prerequisite are highly unlikely to succeed in the course. Therefore, the student MUST meet the prerequisite listed before enrolling in the course.

Corequisite

A corequisite is a course which must be taken prior to or at the same time as another course. If a corequisite is listed for a course, it means that the discipline faculty and department via the curriculum process have determined that students who do not take the corequisite course are highly unlikely to succeed in the course. Therefore, the student either MUST have met the corequisite prior to enrollment in the course or MUST take the corequisite course in the same term.

Limitations on Enrollment

“Limitations on enrollment” means a student can be blocked from enrolling in a course for reasons other than not satisfying the prerequisite. Auditions, tryouts, and other limitations may be placed on a course, and if not met (i.e., not selected after an audition), the student may be administratively dropped from the course.

Mt. San Jacinto College would like students to be successful in their courses. One way to promote student success is by identifying the skills and knowledge a student must possess before enrollment in certain courses. These courses (primarily mathematics, English and performance courses) have included prerequisites, corequisites or other limitations on enrollment to ensure a student’s readiness for these courses of study.

A prerequisite is typically a course(s) students have completed prior to enrolling into a higher-level course. Assessment and Placement scores (see Assessment and Placement) may also be used to meet a prerequisite or corequisite requirement. Prerequisites are only satisfied when courses are completed with a grade of “CR”, “P” (pass), or “C” or better.

Prerequisites, corequisites and other limitations on enrollment are conditions of enrollment that must be met before a student can enroll in these courses.

For students who believe they have taken the prerequisite at another institution:

- Request that an official copy of the transcript be sent to Mt. San Jacinto College;
- Complete a “Request for Prerequisite Evaluation”

Both forms are available online and in the Enrollment Services Office. These forms should be completed prior to enrollment in courses with prerequisites and corequisites. Students registering for the next semester while also enrolled in a course to meet the prerequisite requirement and subsequently earn a grade of “D”, “F”, “I”, or “NP”, will be dropped from the course. A refund will be issued once the course is dropped.

Students who have satisfied a requirement at another institution through testing or assessment but have not been awarded course credit will not be granted credit at MSJC. Students are welcome to pursue the earning of course credit by the Credit by Exam process.

Courses requiring a corequisite have conditions of enrollment requiring that a course be taken during the same time as enrollment in another course.

All course prerequisites and corequisites will be enforced. Student registration will be blocked from courses where a prerequisite or corequisite has not been met.

Verifying Prerequisites and Corequisites

If a student believes that he or she has met prerequisites, but the information is not reflected in college records, it is the student’s responsibility to supply supporting evidence to Enrollment Services. Such evidence might typically be transcripts from another college and/or test scores from standardized examinations which would demonstrate that the student had indeed acquired the skills or information for which the prerequisite was established.

Challenging Procedure

If you feel that you have sufficient preparation to succeed in a course but have not completed the required prerequisite or corequisite, you may file a Challenge Form (available in the Enrollment Services Office or online at www.msjc.edu).

Students submitting a Challenge Form must be able to prove they currently have the required skills and knowledge to be enrolled in a higher-level course without completing the prerequisite, corequisite or having the appropriate Assessment and Placement scores. A student who challenges a prerequisite or corequisite may also be required to attach documentation to the Challenge Form.

A prerequisite/corequisite challenge is reviewed by the appropriate faculty members and may take up to 5 working days (holidays and weekends excluded) to process, so please plan ahead.

Challenging Prerequisites

Under very limited circumstances, a student may challenge either the legality of a prerequisite or the way in which the college has administered the prerequisites in his or her case. Forms are available from Enrollment Services Office. The grounds for challenge are limited to the following:

- The prerequisite is unlawfully discriminatory or is being applied in an unlawfully discriminatory manner;
- The district is not following its own policy;
- The basis for the prerequisite does not in fact exist.

In every challenge process, the student shall bear the burden of showing that grounds exist for the challenge. Challenges shall be handled in a timely manner and the prerequisite waived for the student in question if the challenge is upheld. In the case of challenges, students are hereby advised that, subsequent to the completion of a challenge process, they may file a formal complaint of unlawful discrimination pursuant to Subchapter 5 of Chapter 10 of the California Administrative Code; the completion of a challenge process, they may file a formal complaint of unlawful discrimination pursuant to Subchapter 5 of Chapter 10 of the California Administrative Code.
Areas: 

A. Natural & Physical Sciences

A minimum of 3 units required.

B. Social & Behavioral Sciences

A minimum of 6 units required, 3 units from B1 and 3 units from B2.

B1 - History 111, 112; Political Science 101

- Administration of Justice 101, 102, 111; Anthropology 102, 103A, 103B, 103C, 103D, 103E, 104, 115, 121*, 125; Child Development & Education 116, 118, 125; Communication 108, 110, 116; Dance 100*, 133;

C. Humanities

A minimum of 3 units required.

D. Language & Rationality

A minimum of 6 units is required, 3 units from D1 and 3 units from D2.

D1 - English Composition 101

- English 101 English English English English English

E. Healthful Living & Self-Development

A minimum of 3 units required. No double counting of Area E courses allowed.

F. Diversity

A minimum of 3 units is required however this course may be taken to fill other area requirements as designated, units count once.

- American Sign Language 110; Anthropology 102, 103A, 103B, 103C, 103D, 103E, 121+, 125; Art 104; Child Development & Education 118; Communication 108, 116; Dance 100+, 201; English 205, 240, 250, 260, 280; Geography 106; History 107, 108, 115, 121+, 140, 141, 142, 150, 151+, 160; Music 106, 108, 109; Political Science 102, 103; Psychology 104, 112; Sociology 106, 112+, 115

G. Math Competency

A minimum of 3 units. May be demonstrated by passing Math 096 or 096B or any higher-level math course with minimum grade of “C”. Math Math Math Math Math

H. Reading Competency

Collegiate-level reading competency may be demonstrated by passing ENGL-101 or ENGL-101H with a “C” grade or better or with an equivalent AP score or equivalent course work.
I. TOTAL UNIT REQUIREMENT - 60 degree applicable semester units
   A. General Education Option A = 24 unit minimum
   B. Major or Area of Emphasis (minimum) = 18 units minimum (Refer to catalog program pages for specific major requirements).
      1. In a defined major (Refer to 18 unit requirement list in the general catalog)
      2. In an interdisciplinary group major (Refer to 18 unit requirement list in the general catalog)
         a. Humanities
         b. Science
         c. Social & Behavioral Sciences
   C. Electives (as needed to total 60 degree applicable units)
   D. For Advanced Placement, CLEP or International Baccalaureate exam information please see charts in the current MSJC General Catalog.
   E. For the A.A. Liberal Arts Degree with Area of Emphasis use general education patterns Options B or C. Refer to the General Education Requirements for California State University and Colleges or the Intersegmental General Education Transfer Curriculum (IGETC) patterns, refer to the current MSJC catalog and make an appointment with an MSJC Counselor.
   F. For A.A.-T/A.S.-T (ADT or SB 1440 degrees), please use general education patterns Options B or C and refer to the current MSJC catalog.

II. GRADE POINT AVERAGE
   General Education applicable courses must have a cumulative grade point average of 2.0 ("C") or better.
   All 18 unit Major or Area of Emphasis courses must be at 2.0 ("C") or better.

III. ENGLISH COMPETENCY – Area D1
   A grade of "C" or better in: English 101, 101H or approved AP exam and score

IV. DIVERSITY – Area F
   Please read section "F" on reverse side of this form.

V. MATH COMPETENCY – Area G
   A grade of "C" or better in Math 096 or Math 096B or higher-level math course, Biology 201 or approved AP or IB exam and score

VI. READING COMPETENCY – Area H
   Collegiate-level reading competency may be demonstrated by passing ENGL-101 or ENGL-101H with a "C" grade or better or with an equivalent AP score or equivalent course work.

VII. RESIDENCY UNIT REQUIREMENT for A DEGREE
   A student must complete at least 12 units in residence at Mt. San Jacinto College.

NOTE:
   1. Course Numbering: Only courses numbered 070 or higher are applicable for the Local Non-Transfer AA or AS degree.
   2. For some defined majors, completion of the certificate course work will also satisfy the major requirements for the AA or AS degree.
   3. General education credit for a single course may be used in only one category A – D & E.
   4. Course work may double count for satisfaction of both the general education and major requirements, however, units may be counted only once.
   5. Honors sections of a course may be used in lieu of the regular approved course.

| D4 | Gender Studies: Communication 116; History 115; Psychology 109, 109H, 112+; Sociology 112+ |
| D5 | Geography: Geography 102, 107, 108, 111 |
| D7 | Interdisciplinary Social or Behavioral Science: American Sign Language 110; Child Development & Education 110, 110H, 125, 125H; Communication 108, 108H, 116; Education 136; Psychology 112+; Sociology 112+ |
| D8 | Political Science, Government and Legal Institutions: Administration of Justice 102, 111; Legal Assistant 100; Political Science 101, 101H, 102, 102H, 103, 103H, 104, 104H, 105, 105H, 106, 106H, 120, 120M |
| D10 | Sociology and Criminology: Psychology 105+, 105H+; Sociology 101, 101H, 102, 103, 105+, 105H+, 106, 108, 110, 115, 125, 130 |

E | LIFELONG LEARNING AND SELF-DEVELOPMENT - 3 units required |
| E1 | Dance 108+ (unit limitation, 1 unit max), 120 (unit limitation, 1 unit max), 124, 130 (unit limitation, 1 unit max), 131 (unit limitation, 1 unit max), 201; Environmental Studies 108, 101; Guidance 116; Health Science 121, 123; Nutrition 100, 100H, 101, 101H; Psychology 101, 102, 103, 103H, 104, 104H, 112+; Sociology 102, 103, 103H, 112, 122; Theater Arts 108* (unit limitation, 1 unit max); Form DD-214 (Basic Training Course) |

U.S. HISTORY, CONSTITUTION AND AMERICAN IDEALS – CSU Graduation Requirement Only

This CSU Graduation Requirement may be certified prior to transfer or taken at the CSU after transfer. (1 course from each U.S. 1, 2, 3 or PS 101 to clear U.S. 2 & 3)

US 1: History 111, 111H, 112, 112H
US 2 & 3: Political Science 101
US 3: Political Science 125, 125H

TOTAL UNITS

OVER . . .
Mt. San Jacinto Community College District
General Education Requirements for California State Universities and Colleges
A.A./A.S. GENERAL EDUCATION OPTION B – Transfer Emphasis
Transfer Pattern & Educational Plan 2014 –2015

APPLICATION FOR CERTIFICATION
Certification of lower division CSU General Education Breadth requirements must be requested by students at the time final transcripts are due at the university.

TOTAL UNIT REQUIREMENT
A minimum of 39 semester units in Areas A-E is required for full certification of lower-division general education requirements. Although partial certification is allowed, please discuss this option with the receiving CSU transfer institution.

GRADE POINT AVERAGE
A minimum of 2.0 ("C" average) or higher Grade Point Average (GPA) is required, please check college and university catalogs for GPA requirements. Areas "A1, A2, A3" and "B4" require a minimum of "C" grade and must be completed prior to applying to the CSU.

DOUBLE-COUNTING
Some California State Universities (CSU's) will allow History 111, 111H, 112, 112H or Political Science 101, 101H, 120 or 120H to double count in Areas D6 or D8 and the U.S. History, Constitution and American Ideals section. Students should consult the receiving CSU transfer institution about double counting. For our purposes, MSJC will allow double counting of these courses for Associate in Arts/Science degrees.

COURSES COMPLETED AT OTHER COLLEGES:
Courses completed at any California Community College can be used in the CSU-GE Breadth certification. Students should be aware however that coursework from other California Community Colleges would be applied in the CSU-GE Breadth category determined by the original college. If courses are denied for certification, students may submit a petition to Enrollment Services Office to use courses taken at UC, CSU, private or out-of-state schools for CSU-GE Breadth certification. Petitions will be evaluated to determine if these courses are equivalent courses approved for MSJC's CSU-GE Breadth pattern.

AP SCORES: AP scores of 3, 4, or 5 can be used to satisfy any CSU-GE Breadth subject area where acceptable. Area A3, the Critical Thinking/English Composition requirement does not have an acceptable AP exam or out-of-state equivalent. Please see catalog chart for approved courses.

IB SCORES: A score of 5, 6 or 7 on Higher Level exams is required to grant credit for CSU-GE Breadth certification. An acceptable IB score for CSU-GE equates to either 3 semester or 4 quarter units for certification purposes. Students who have earned credit from an IB exam should not take a comparable college course because transfer credit will not be granted for both. Please see an MSJC Counselor for approved courses.

MILITARY SERVICE: CSU Executive Order 1036 encourages campuses to use evidence of military training to satisfy Area E for their students who enroll without a prior certification in GE. Typically the evidence is the completion of basic training as listed on the veteran's discharge papers, Form DD-214. All CSU campuses have elected to honor GE Breadth transfer certifications that clear Area E Lifelong Learning with a DD-214.

TRANSFER PLANNING
Students who plan to transfer to a four-year university are urged to begin their planning as early as possible. All colleges and universities have specific admissions requirements and many have special course and unit requirements, as well as minimum grade averages that must be met prior to transfer. Effective transfer planning requires the following steps:

I. Selecting an appropriate college or university for transfer to meet your educational goal.
II. Selecting an appropriate A.A.-T or A.S.-T transfer degree, appropriate transfer pattern or Liberal Arts "Area of Emphasis" to meet your educational goal.
III. Developing and completing an appropriate course of study in preparation for admission into university and major.
IV. Completing the application process by going to www.csumentor.edu for application and deadline dates.

GENERAL EDUCATION OPTION B- see catalog for current Transfer Degrees
This general education option provides the opportunity to complete transfer curriculum while completing an Associate Degree at Mt. San Jacinto College. These Degrees require sixty (60) CSU transferable semester units with an overall G.P.A. of 2.0 and a minimum of 18 units within a specific degree pattern of designated courses located in the General Catalog for A.A./A.S.-T (ADT or SB 1440) or a Liberal Arts with "Area of Emphasis" degrees and must be completed with grades of A, B, C or P. Of these 60 semester units, 12 units must be completed at Mt. San Jacinto College for residency. The approved general education courses are listed on the reverse and any remaining units should be selected from the intended major preparation for the intended transfer institution or as elective coursework. Please see an MSJC Counselor for an educational plan to expedite these degree options.

### Anticipated Major(s):

**Course Options**

**ENGLISH COMMUNICATION**

- CSU - 3 courses required one from each group A, B, C.
- UC - 2 courses required, from each group A, B, C.

**AREA 1**

#### GROUP A: ENGLISH COMPOSITION - (1 course, 3 semester units)

- **English**
  - 101, 101H
  - Course from other college or AP

#### GROUP B: CRITICAL THINKING - ENGLISH COMPOSITION - (1 course, 3 semester units)

- **English**
  - 103, 103H
  - Philosophy 112, 112H
  - Course from other college

#### GROUP C: ORAL COMMUNICATION (CSU requirement only)

- (1 course, 3 semester units)
  - Communication
  - 100, 100H, 104, 104H, 201
  - Course(s) from other college(s) or AP

**AREA 2**

#### MATHMATICAL CONCEPTS AND QUANTITATIVE REASONING

- (1 course, 3 semester units)
  - Computer Science 213; Mathematics 105, 105H, 110, 115, 135, 140, 211, 212, 212H, 213, 213H, 215, 218
  - Course from other college or AP

**AREA 3**

#### ARTS AND HUMANITIES

- (At least 3 courses, 1 from the ARTS and 1 from the HUMANITIES: 9 semester units)
  - **ART**: Art 100, 101, 101H, 102, 102H, 103, 103H, 104, 104H; Dance 100+, 125, 133, 225; History 151+
  - **Humanities**: 137+, Music 100, 100H, 106, 107, 107H, 108, 108H, 109; Theater Arts 101, 101H, 137+, 155
  - Course(s) from other college(s) or AP

#### HUMANITIES

- American Sign Language 101, 103, 104, 110; Anthropology 145, 145H; Chinese 102, 201; Dance 100+;
- 102, 103, 103H, 104, 104H, 106, 106H, 107, 107H, 111H, 112H, 246+, 140, 151+, 154+; Humanities 101, 101H, 102,
- 102H; Italian 102, 201, 202, 201H, 202; Philosophy 101, 101H, 104, 105, 105H, 109, 110, 111, 111H; Portuguese
- Theater Arts 102+, 135, 136+, 150+
- Course(s) from other college(s) or AP

**AREA 4**

#### SOCIAL BEHAVIORAL SCIENCES

- (At least 3 courses from at least two disciplines or an interdisciplinary sequence: 9 semester units)
  - Anthropology 102H, 103H, 103B, 103C, 103D, 104, 104H, 115, 121+, 125; Child Development & Education
  - 110, 110H; Economics 201, 201H, 202, 202H; Geography 102, 107, 108, 111; History 101, 102, 103,
  - 124, 125, 136+, 140, 141, 142, 150, 150H, 160, 160H, 161, 161H, 162, 162H; Political Science 101, 101H, 102,
  - 105H, 106, 110, 112+, 115, 125, 130; Theater Arts 136+
  - Course(s) from other college(s) or AP

**AREA 5**

#### PHYSICAL AND BIOLOGICAL SCIENCES

- (At least 2 courses (1 Physical Science, 1 Biological Science) 1 course must include a laboratory; 2 courses (7 semester units)
  - **SA: PHYSICAL SCIENCE**: Astronomy 101+, 111; Chemistry 100+, 101+, 102+, 107*, 112+, 113*; Environmental
    Studies 100, 100H; 101, 101H, 102*, 102H; Geography 101, 104H; 106, Geology 100H, 103, 103H, 110, 111H,
    112; Physics 100, 100H, 101, 101H, 102*, 102H, 202H, 203*
  - **SB: BIOLOGICAL SCIENCE**: Anatomy & Physiology 100+, 101+, 102*; Anthropology 101, 101H, 111* (concurrent
    or previous enrollment in ANTH 101 or 101H required); Biology 100*, 115, 115H, 116*, 117, 125H, 130*,
    131*, 134, 135, 140*, 144*, 146, 150*, 150H, 151*, 151H*; Nursing 100+
  - SC: LAB: Identified with * above
  - Course(s) from other college(s) or AP

**AREA 6**

#### LANGUAGE OTHER THAN ENGLISH - (UC requirement only)

- (# indicates courses with proficiency equivalent to 2 years’ high school study in the same language. High school
  coursework equivalent to 2 years with a grade of “C” or better in the last semester of the 2nd year. EXCEPTION:
  If a grade lower than a “C” is earned in the second year second semester, a “C” grade or higher in a higher level
  course will satisfy the requirement. (Other options apply please note a counselor for more information).
  American Sign Language 100; Chinese 101*, French 101*; Italian 101*, 101H*; Portuguese 101*, 101H*;
  Spanish 101*, 101H*, 101H#, 103#

- Completed at high school. Course from other college, or AP

**U.S. HISTORY, CONSTITUTION, AND AMERICAN IDEALS – (CSU Graduation Requirement Only)** This is not a part of IGTC; these courses may be completed prior to transfer or taken at the CSU after transfer. (1 course from each U.S. 1, 2, 3 or PS 101 to clear U.S. 2 & 3)

US 1: History 111, 111H, 112, 112H
US 2 & 3: Political Science 101
US 3: Political Science 120, 120H
Course(s) from other college(s) or AP

---

Every effort is made to keep this information current. Articulation is an ongoing project and subject to modification. Please use this form as a guideline and consult with a university representative or Mt. San Jacinto College Counselor. Also refer to www.assist.org for the current IGTC list for MSJC.
UC ELIGIBILITY: Students NOT eligible for the UC at the time of High School graduation must complete 60 transferable semester units with a minimum G.P.A. of 2.4:
• Students must also complete two transferable college courses in English Composition (English 101 or 101H + English 103 or 103H or Philosophy 112 or 112H).
• One transferable college course (3 semester units) in mathematical concepts and quantitative reasoning.
• Four transferable college courses (3 semester units each) chosen from a least two of the following subject areas: Arts and humanities, social and behavioral sciences, or the physical and biological sciences. All math and composition courses must be completed in the spring term preceding planned enrollment in the fall (i.e. no summer course work accepted).

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) with a grade of "C" or better will permit a student to transfer from a California community college to a campus in either the California State University (CSU) or the University of California (UC) system without the need after transfer to take additional lower-division general education courses. It should be noted that completion of the IGETC is not a requirement for admission to the CSU or UC system.

WHEN THE IGETC PATTERN SHOULD NOT BE USED: The IGETC is not advisable for all transfer students. The IGETC is most advantageous for transfers who have not yet decided on a major or a campus. Once a student has identified a major, it is important to give priority toward fulfilling all required major preparation courses, particularly in "high unit" majors that select applicants on the basis of satisfaction of lower division major requirements. If a student is pursuing a major that requires extensive lower division preparation, they may be better served by taking courses which fulfill the CSU General Education/Breadth requirements or the general education of the specific UC campus or college to which they plan to transfer, examples of such majors include, but are NOT LIMITED to: Computer Science, Business, Engineering, Pre-professional schools, and Sciences. (Note: Students transferring to UC San Diego's Eleanor Roosevelt and Revelle Colleges may complete IGETC, but they must also meet specific general education requirements of those colleges). IGETC is not a good option for students intending to transfer into a high-unit major or one that requires extensive lower division preparation, such as engineering or some of the physical and natural sciences. Consult with a counselor or an admissions representative at the UC campus(es) that you plan to attend for information about whether completing the IGETC is advisable. Restrictions: A student who is initially enrolled at a UC and is returning to the same UC campus (after attending a community college) is considered a "readmit" and cannot use IGETC. However, students who initially enroll at a UC, attend a community college and return to a different UC campus, may be able to use IGETC, but should check with the campus they wish to attend. This restriction does not apply to students who have taken UC summer session or Extension classes only.

COURSES COMPLETED AT OTHER COLLEGES: Courses completed at any California Community College can be used in the IGETC certification. Students should be aware however that course work from other California Community Colleges would be applied in the IGETC category determined by the original college. The majority of coursework should originate from a California Community Colleges. If courses are denied for certification, students may petition in the Enrollment Services Office to use courses taken at UC, CSU, private or out-of-state schools for IGETC certification. Petitions will be evaluated to determine if these courses are approved.

COURSES TAKEN AT FOREIGN INSTITUTIONS: Foreign coursework may be applied to IGETC if the foreign institution has United States regional accreditation. All foreign other coursework cannot be applied to IGETC. Exception: Language Other Than English (LOTE).

CERTIFICATION: Certification is done by the last Community College attended. Certification of lower division Intersegmental General Education Transfer Curriculum requirements must be requested by students at the time final transcripts are due at the university. It is the student's responsibility to request “certification” during the last semester of attendance at MSJC prior to transfer. Full completion of the IGETC is expected. Partial certification of up to two (2) classes in any area is allowed however, “students need to meet minimum UC/CSU transfer admission requirements. Therefore, partial certification that acknowledges a deficiency in IGETC Area 1 and/or 2 especially may also indicate a student does not meet minimum transfer requirements for admission. Community colleges should make every effort to notify students of this potential problem.”

AP SCORES: AP scores of 3, 4, or 5 can be used to satisfy any IGETC subject area where acceptable. Area 1B, the Critical Thinking/English Composition requirement does not have an acceptable AP exam or out-of-state equivalent. Please see catalog chart for approved AP exams.

IB SCORES: A score of 5, 6 or 7 on Higher Level exams is required to grant credit for IGETC certification. An acceptable IB score for IGETC equates to either 3 semester or 4 quarter units for certification purposes. Students who have earned credit from an IB exam should not take a comparable college course because transfer credit will not be granted for both. Please see catalog chart for approved IB exams.

DOUBLE COUNTING: Double counting within IGETC is not allowed. Although a course may be listed in more than one subject area, a single course may be used just once. Only C grades or better will be accepted, and credit/no credit courses are acceptable only if the college catalog defines credit as equivalent of a letter grade of D or better. UC will allow requirements completed as preparation for the major to be used in the IGETC wherever they appear.

PROFICIENCY IN A LANGUAGE OTHER THAN ENGLISH: Verification of this requirement will be based on official records (either high school or college) indicating completion of course work (with grades of C or better) equivalent to two years in high school of the same foreign language. Students can also meet this requirement by providing evidence of appropriate scores on AP exams (scores of 3 or more are acceptable), by earning a minimum score of 550 on the College Board Achievement Test or showing proficiency in a higher-level foreign language course.

GENERAL EDUCATION OPTION C- see catalog for current Transfer Degrees

This general education option provides students the opportunity to complete transfer curriculum while completing an Associate Degree at Mt. San Jacinto College. These Degrees require sixty (60) CSU transferable semester units with an overall G.P.A. of 2.0 or sixty (60) UC transferable semester units with a G.P.A. of 2.4 and a minimum of 18 units within a specific transfer degree pattern of designated courses located in the General Catalog for A.A./A.S.-T (ADT or SB 1440) or a Liberal Arts with “Area of Emphasis” degrees and must be completed with grades of A, B, C or P. Of these 60 semester units, 12 units must be completed at Mt. San Jacinto College for residency. The approved general education courses are listed on the reverse and any remaining units should be selected from the intended major preparation for the intended transfer institution or as elective coursework. Please see an MSJC Counselor for an educational plan to expedite these degree options.

Honors Enrichment Program

Enrollment in the Honors Enrichment Program is by special application only.

To complete the Honors Enrichment Program, students must complete a minimum of 15 credits in 5 honors courses that stress in-depth study, research, and challenging exploration of various areas of study. The 15 honors credits also count toward a student’s credits leading to Associate in Arts degree or the Associate in Science degree and are transferable as students continue their education toward a higher degree at a senior university. Honors courses are listed alphabetically by Subject.

Admission Requirements

For new students without earned college units

> Official transcripts demonstrating an unweighted 3.5 or better GPA or SAT 1890 (of 2400), or SAT 1260 (of 1600) or ACT 28 (of 36)
> A letter of recommendation from a teacher, counselor or principal familiar with your academic work or, for students returning to college after a period of time away from the classroom, a letter from an employer or community member who can attest to your work habits and motivation
> A personal letter responding to the questions in the application form

For returning students

> Unofficial transcripts demonstrating completion of at least 12 units of transfer-applicable coursework at MSJC with a 3.3 GPA
> A personal letter responding to the questions in the application form
> The names of two faculty who will comment on behalf of your application to the program.

Completion Requirements

Completion Requirements:

> Completion of Honors Enrichment Seminar with a letter grade of “C” or better
> Completion of 4 additional courses in a minimum of 3 disciplines with a letter grade of “C” or better
> Completion of English 101 or 101H by the first semester in the program
> Completion of Math 96 by the second semester in the program
> Maintenance of a 3.0 GPA in all honors course work
> Maintenance of the qualifying GPA
> Completion of 200 Honors points for participation in recognized honors events (see website for details)

Benefits for the honors students include close interactions between students in the program and professors, challenging courses with fellow honors students, the exploration of current issues in the interdisciplinary seminar, and specific guidance from counselors and faculty advisers concerning the course of studies most suitable for transferring to a four-year university and for achieving professional objectives. Upon completion of the program, honors students are actively recruited by public and private universities, often offered scholarships, and frequently given special university-admissions consideration because of Mt. San Jacinto College’s honors transfer alliances with major universities. Honors students also attend and participate in honors conferences, and have publication opportunities in Scribendi, the Western Regional Honors Council publication dedicated to student work as well as the annual edition of Building Bridges: Selected Abstracts of the HTCC Student Research Conference.

To Apply to the Program

Complete the Honors Enrichment Program application available at stands in the Counseling Offices, Learning Resource Centers and directly from the Honors Enrichment Program Coordinators. Submit application and required documentation to either Honors Enrichment Program Coordinator or drop off at either Learning Resource Center. Applications are accepted year-round. (Please see page heading for contact information).

Learning Outcomes

• Improve transfer opportunities for student members.
• Develop lifelong skills that can be used both inside and outside the classroom, including such skills as critical thinking, scholarly writing, research and presentation skills.
• Foster a community of scholars, both faculty and students, who support the educational endeavors of Honors students.

Cooperative Work Experience Education (CWEE)

The Cooperative Work Experience Education (CWEE) Program is a unique program that has been integrated into academic departments throughout the College. The program allows students to apply knowledge gained in their college courses with practical work experience to develop job readiness skills. This would be in a paid or unpaid work setting that provides elective college credits.

Enrollment Requirements

STEP 1: You must be enrolled as a Mt. San Jacinto College student.

STEP 2: You must be working or have identified a job in a paid or unpaid position directly related to your major or occupational goals.

STEP 3: You must have completed at least one course in your major.

STEP 4: You must attend a mandatory Orientation session to receive information about the program and to complete the necessary paperwork.

Mandatory Orientations are held just prior to the beginning of the semester.

The maximum total units that can be earned are 16 units.

Learning Outcomes

• Apply critical thinking, research, analysis and resolution for work-related and personal objectives.

• Convert classroom instruction to the employment environment through the development and attainment of three (3) learning objectives.

• Write specific, measurable, achievement, relevant and time objectives to new or expanded workplace responsibilities.

• Develop and apply personal skills, attitudes, and competencies in the workplace and within the course-related activities.

• Demonstrate effective communication and technological awareness through the use of technologies (Internet, email, and telephone) in ways appropriate to the course.

• Demonstrate accountability for their personal actions at work and as it relates to the course.

• Research resources for education and/or career options.

P r o g r a m D e s c r i p t i o n

The scope of the program in administration of justice and corrections is designed to prepare the student for entry into careers in the criminal justice system. The program provides the student with a basic understanding of a variety of criminal justice positions at the federal, state, county and municipal level. The course of study involves an introduction to law enforcement, criminal law and evidence, juvenile and criminal procedures, public safety report writing, traffic control, community relations, criminal investigations, correctional courses, vice and narcotics control. These courses provide the student with a base of knowledge that will serve them well regardless of the criminal justice field they choose, i.e., police officer, deputy sheriff, corrections, FBI and civilian support.

For individuals currently working in the field there may be potential for salary and/or career advancement. Many agencies require entry level and current personnel to possess a certain level of education to be hired or to be eligible for promotion. The Certificate/Associate degree (AS) provide that level of education.

C a r e e r O p p o r t u n i t i e s

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Transfer A.S. Degree(s)
Students will be prepared to work in a variety of fields, including public law enforcement agencies such as municipal police, probation officers, county deputy sheriffs, correctional officers, game wardens, park rangers, and private security. Those completing the A.S.-T in Administration of Justice degree will be able to transfer to the California State University system and be prepared to study in the following areas: Administration of Justice, Law Enforcement, Correctional Administration, Social Science, and Pre-Law. For any BA/BS careers, please see your transfer institution.

Non-Transfer A.S. Degree(s)
Fingerprint Classifier, FBI Agent, Detective, Investigator, Deportation Officer, Customers Inspector, Custom Canine Specialist, Bailiff, Animal Control Officer, Air Marshal, Fish and Game Warden, Fugitive Recovery Agent, Highway Patrol Officer, Immigration Inspector, Insurance Adjuster, Law Enforcement Officer, Polygraph Examiner, Private Investigator, Security Screener, US Marshal, Treasury Enforcement Gents/AFT Special Agent, Security Guard

Administration of Justice (Transfer)
MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Administration of Justice (Non-Transfer)
MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their
own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

### Learning Outcomes

- Communicate verbally and in writing effectively.
- Demonstrate respect for social and cultural diversity.
- Critical thinking in applying the law.
- Demonstrate personal and civic responsibility in daily activities.

### Degrees

#### Transfer A.S. Degree(s)

##### Administration of Justice

An Associate in Science in Administration of Justice for Transfer will fulfill the requirements for students to transfer to a CSU institution as an Administration of Justice or Criminal Justice major. The courses in the A.S.-T in Administration of Justice for Transfer degree allow for the development of depth in one of the subject’s substantive subsystems (i.e. law enforcement, juvenile, courts or corrections). The main objective is to familiarize students with the processes involved in the interaction of the criminal justice system as a whole.

The major requirements for an A.S.-T in Administration of Justice for Transfer to CSU may be met by:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.

#### Units for Major

- CSU General Education or IGETC Pattern: 37-39
- Possible double counting: 12
- Transferable Electives (as needed to reach 60 CSU transferable units): 60 units

This Associate in Science in Administration of Justice for Transfer degree is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.

#### Non-Transfer A.S. Degree(s)

In addition to completing the certificate program, students MUST complete all other MSJC General Education Option A requirements for the Associate in Science degree in Administration of Justice.

### Certificate

A certificate will be issued for completion of five core courses and three elective courses for a total of 24 units. Students may submit a student petition to enrollment services to substitute credit for completion of a P.O.S.T. Basic Peace Officers Academy through an accredited institution. Students must attach official college transcripts and an academy course outline or syllabus to the student petition. The Administration of Justice Department Chair will determine the amount of credit to award the student. Four Administration of Justice courses must be completed at MSJC to earn a certificate.

**Program Description**

**CNA**

This non-transfer program introduces students to the basic information and nursing skills needed to pass the state exam required for Nurse Aide Certification.

**EMT**

This non-transfer program provides the knowledge and skills required to care for the ill or injured person(s) in the pre-hospital care setting. It is also a first step for those individuals who would prefer to work in an emergency room as an emergency room technician. Students are taught how to perform a complete patient assessment and provide multiple life saving interventions based on their assessment of the ill or injured patient. This course is primarily taken by individuals who intend to work in the field of prehospital emergency medicine and with critically ill or injured patients.
This course can also be taken by individuals currently working in a similar medical employment within the medical field and there may be potential for salary and/or career advancement. Individuals who wish to take this course must have a criminal free background due to licensing restrictions imposed by national, state and local licensing agencies. The potential student must be 18 years of age. Hospital clinical and field internship hours are required. This course is a positive attendance course due to national, state and local mandates.

**Career Opportunities**

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

**Employment Concentration**

**Certified Nursing Assistant/Home Health Aide**
Nursing Assistant, Hospital Attendant, Nurses Aide, Orderly

**Emergency Medical Technician**
Fire Service, Ambulance Service, Emergency Room Technician, State of California Volunteer EMT, Special Event EMT

**Emergency Medical Technician, Advanced**
Fire Service, Ambulance Service, Emergency Room Technician, State of California Volunteer EMT, Special Event EMT

**Transfer Preparation**

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

**Learning Outcomes**

**Certified Nursing Assistant**
- Prepare to successfully pass the State of California Department of Health N.N.A.A.P. exam.
- Demonstrate the fundamental nursing skills instructed in the state approved nursing assistant training program with 100% accuracy.
- Qualify to be employed as a nursing assistant.

**Emergency Medical Technician**
- Use clinical reasoning when verbalizing and demonstrating the proper techniques when used when ventilating an adult manikin.
- Pass the National Emergency Medical Technician exam.
- Explain and demonstrate how to use all the medications that are in the EMT scope of practice.
- Synthesize and explain the physiological effects of hypoxia on both the molecular and cellular level in a patient that presents with hypoxia.
- Analyze and employ safe scene practices while working at the scene of a traffic collision on the freeway.
- Demonstrate professional behavior and respect for all patients, coworkers, bystanders and assisting agencies in the performance of their duty as cited in the National Emergency Medical Technician code of ethics and behavior.

**Telemetry**
- Demonstrate skills appropriate to the level of knowledge required for entrance into employment related to the medical field.
- Analyze and evaluate cardiac rhythms through a systematic approach comparing electrophysiology to electrocardiogram wave patterns.
- Demonstrate ethical behavior in the clinical setting and maintain patient confidentiality at all times.

**Employment Concentrations**

PROGRAM DESCRIPTION

The core and elective courses provide grounding in knowledge about cultural and genetic diversity, about various life ways, and about American Indian heritage. The articulated transfer major is intended to enhance student progress toward bachelor programs in American Indian Studies. Courses in the program are selected to prepare students for transfer successfully to four-year colleges.

CAREER OPPORTUNITIES

Transfer A.A. Degree(s)

For any BA/BS careers, please see your transfer institution.

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

• Evaluate the complex interrelationship between individual American Indian cultures and the history of invasion, immigration and settlement by others in North and South America.

• Analyze the interrelationship between human societies and their physical environment.

• Apply the principles of cultural relativism to observations of human behavior.

• Recognize the validity of people’s variable language histories and experiences.

• Be able to recognize the value of the archaeological & historical records.

• Utilize the scientific method in observations of human attributes (biology, behavior, language, artifacts).

• Analyze the interrelationship between the history, beliefs, and cultural distinctions as they are depicted in oral and written literatures.

Note: Every effort has been made to keep program information current. Please use this information as a guide and consult with the chair of the department/program or an MSJC counselor.
**DEGREE**

An Associate in Arts (AA) degree in American Indian Studies prepares students for transfer to four-year colleges offering a Bachelor of Arts (BA) in American Indian Studies or related fields. The major requirement for an AA in American Indian Studies may be met by completing the pattern described below plus all MSJC General Education Option B (CSU-GE breadth) and/or Option C (IGETC) requirements.

**A.A. in American Indian Studies (18 units)**

**Required Courses (12 units)**
- ANTH-101 Physical Anthropology 3 units
  or ANTH-101H Honors Physical Anthropology 3 units
- ANTH-102 Cultural Anthropology 3 units
  or ANTH-102H Honors Cultural Anthropology 3 units
- ANTH-103A North American Indians 3 units
- ENGL-240 American Indian Literature 3 units
  or ENGL-240H Honors American Indian Literature 3 units

**Elective Courses (6 units)**
- ANTH-103B Northwest Coast Indian Cultures 3 units
- ANTH-103D Latin American Cultures 3 units
- ANTH-121/HIST-121 California Indians 3 units
  or ANTH-125 Magic, Witchcraft and Religion 3 units
  or ANTH-145 Introduction to Language and Linguistics 3 units
  or ANTH-145H Honors Introduction to Language and Linguistics 3 units
- COMM-108 Intercultural Communication 3 units
  or COMM-108H Honors Intercultural Communication 3 units
- HIST-150 Race and Ethnicity in U.S. History 3 units
  or HIST-150H Honors Race and Ethnicity in U.S. History 3 units
- PS-103 Ethnic Politics in America 3 units
  or PS-103H Honors Ethnic Politics in America 3 units
- SOCI-106 Intercultural Relations 3 units

Honors course may be acceptable in lieu of regular course, check transfer institution or www.assist.org.

Additional major preparation or elective courses may be required by each university or to meet the 60 semester units required for the UC, CSU and Associate degree. These units must be transferable to the CSU and or UC for appropriate credit. Please see a counselor for details. Up to 12 units may be double counted on the CSU GE option B pattern.

**Program Description**

The study of American Sign Language (ASL) offers students the chance to communicate in and understand another language while familiarizing themselves with the community and culture of the target language group. Students are exposed to a variety of learning situations to increase their understanding of American Sign Language and Deaf culture. Audiovisual, computer software, and field trips to deaf culture events are used extensively to help students develop their ASL skills.

**Career Opportunities**

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Students who complete this program will have career opportunities, including but not limited to, Community, Theater, Education, and with advanced training, VRS, VRI,
Medical and Legal, either Freelance or through an Agency. As well as other situations where Deaf/ Hard of Hearing/ Hearing individuals need an interpreter.

**TRANSFER PREPARATION**

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

**LEARNING OUTCOMES**

- Demonstrate expressive and receptive competence of ASL grammatical features when communicating with the Deaf/Hard of Hearing people.
- Demonstrate expressive and receptive competence and interpersonal communication using visual language between individuals.
- Acquire information and recognize distinctive viewpoints that are only available through American Sign Language and Deaf culture.
- Engage in one-to-one conversations using ASL with the Deaf community to access information about Deaf culture that will lead to lifelong learning experiences.
- Examine expected social behaviors when interacting with mixed groups of Deaf/Hard of Hearing and hearing individuals at Deaf events (e.g., handwaving to show enjoyment of entertainment).

**CERTIFICATE**

**Certificate in Interpreter Preparation Program (32 units)**

The Interpreter Preparation Program is designed to prepare for a career in interpreting for Deaf and hearing communities. Students will prepare to interact and interpret effectively with Deaf, Hard of Hearing, and hearing people, with an appreciation of diversity in a variety of communities and settings in which they will work. To receive a certificate from MSJC with a specialization in Interpreter Preparation Program, students must complete the required Interpreter Preparation Program courses (32 units) and must already have a BA/BS or higher in any field as is currently required by RID. This certificate prepares individuals to work as ASL/English interpreters within a variety of settings. In addition, the Interpreter Preparation Program courses meet the Registry of Interpreters for the Deaf’s (RID) requirements for national certification.

**Required Courses (32 units)**

**COMM-100 and ANTH-145 are required for students who have not taken these courses.**

- ASL-110 Deaf Culture and Community 3 units
- ASL-150 American Sign Language Linguistics 3 units
- IPP-101 Introduction to ASL/English Interpreting 3 units
- IPP-103 Processing Skills Development 3 units
- IPP-104 ASL to English Interpreting I 3 units
- IPP-105 English to ASL Interpreting I 3 units
- IPP-201 Ethical & Professional Standards of Interpreting 3 units
- IPP-204 ASL to English Interpreting II 3 units
- IPP-205 English to ASL Interpreting II 3 units
- IPP-210 Specialized Interpreting 3 units
- IPP-250 Practicum and Seminar 2 units

PROGRAM DESCRIPTION

The A.A.-T Anthropology degree at MSJC was developed to provoke student interest in human issues. It provides basic information about humankind. It is also designed to stimulate critical thinking about existing stereotypes regarding the people around us in the world now and those who came before.

Anthropology is the study of ancient and modern human beings and their ways of living. This study is based upon several kinds of information and is divided into four sub-disciplines which attempt to understand basic aspects of humankind. Cultural Anthropology studies human behavior to understand the cultural values that guide the behaviors. Archaeology examines the material record of human activity in order to understand how ideas change over time. Anthropological Linguistics is the study of the human capacity for language and its use. Physical Anthropology (also called Biological Anthropology) is the study of human evolution which includes human biological diversity.

It would be difficult to find a college major or a career that would not benefit from the study of anthropology. This is the discipline that studies both the biological diversity inherent in the human species and the cultural diversity that has developed in human populations over time. For most of the possible careers involving a major in anthropology it is likely that students will have to complete bachelor, masters or even doctorate degrees.

CAREER OPPORTUNITIES

Transfer A.A. Degree(s)
For any BA/BS careers, please see your transfer institution.

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

• Explain Natural Selection and Evolutionary Theory.
• Recognize the interrelationship between humans and their physical environment.
• Suspend judgment and understand people within the context of their opportunities and challenges.
• Recognize and appreciate as valid people’s variable language histories and experiences.
• Recognize the value of the archaeological and fossil records.
• Utilize the scientific method in observations of human attributes (biology, behavior, language, artifacts).

DEGREE

An Associate in Arts in Anthropology for Transfer will fulfill the requirements for students to transfer to a four-year college or university as an Anthropology major.

The major required for an A.A.-T in Anthropology for Transfer may be met by:

• Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
• A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
• Obtainment of a minimum grade point average of 2.0.
**A.A.-T in Anthropology for Transfer** (19 units)

**Required Core (9 units)**

**Program Description**

The MSJC Art Department offers five different awards. For students who intend to transfer to a four-year university, MSJC offers Associates of Art degrees in Art History, Studio Arts and Visual Communication (Graphic Design). For students who wish to earn an Associate of Art for personal enrichment, employment or any other reason than to transfer to a Bachelor of Art program, MSJC offers an Associates of Art degree in Art and an employment certificate in Graphic Design. We highly encourage that the employment certificate is taken in conjunction with one of the colleges’ Associates degrees like...
the A.A. in Art, A.S. in Multimedia, A.A. in Photography or any other Associates of Art or Science that are offered by other departments.

Both campuses offer a broad range of art courses including: Art History and Art Appreciation, Drawing, Painting, Design, Ceramics and Sculpture. The Menifee campus houses a robust ceramics studio as well as a state-of-the-art digital lab for Graphic Design. The San Jacinto campus houses a bronze casting facility that supports more advanced, media specific courses in sculpture and ceramic-shell bronze casting. The art program at the San Jacinto campus is supported by an art gallery that hosts monthly exhibitions, introducing students to a culturally diverse range of visual art and serves as a venue for students from both campuses to display their work.

The MSJC Art Department serves a diverse group of students, including those who are taking their first art instruction, as well as those who plan on transferring to pursue degrees in art. The study of studio art at MSJC is an ideal way for students to understand their creative potential, and to be introduced to a variety of art disciplines. Art History and Appreciation courses can be used to satisfy Humanities requirements, and are designed to introduce students to important works and artists from both Western and world art traditions.

CAREER OPPORTUNITIES

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

HIST-102 Western Civilization II: from 1500 to the Present Era 3 units
HIST-103 History of World Civilizations to 1500 3 units
or HIST-103H Honors History of World Civilizations to 1500 3 units
HIST-104 History of World Civilizations: Since 1500 3 units
or HIST-104H Honors History of World Civilizations: Since 1500 3 units
HIST-107 The History of East Asia Before 1600 3 units
HIST-108 The History of East Asia Since 1600 3 units
PHIL-104 World Religions 3 units
PHIL-109 Ancient and Medieval Philosophy 3 units
ANTH-102 Cultural Anthropology 3 units
or ANTH-102H Honors Cultural Anthropology 3 units
ANTH-103A North American Indians 3 units
ANTH-103B Northwest Coast Indian Cultures 3 units
ANTH-103C Cultures of the Pacific Islands 3 units
ANTH-103D Latin American Cultures 3 units
ANTH-103E Cultures of Africa 3 units
ANTH-115 Introduction to Archaeology 3 units
ANTH-121/HIST-121 California Indians 3 units

Units for Major 18-19
CSU General Education or IGETC Pattern 37-39
Possible double counting 9
Transferable Electives (as needed to reach 60 CSU transferable units) 21-31

Total Units for A.A.-T Degree 60 units

This Associate in Arts in Art History for Transfer degree is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.

Studio Arts

An Associate in Arts in Studio Arts for Transfer will fulfill the requirements for students to transfer to a CSU institution as a Studio Arts major and prepare students with a cohesive body of work so that they may begin development of their artist portfolio while they work towards a BA or BFA. The A.A.-T in Studio Arts for Transfer degree may be met by completing the course pattern described below plus all MSJC General Education Option B (CSU-GE Breath) and or Option C (IGETC) requirements.

The major requirements for an A.A.-T in Studio Arts for Transfer to CSU may be met by:
- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.

A.A.-T in Studio Arts for Transfer (24 units)

Required Core (12 units)
ART-102 Art History: Renaissance to 20th Century Art 3 units
or ART-102H Honors Art History: Renaissance to 20th Century Art 3 units

Units for Major 24
CSU General Education or IGETC Pattern 37-39
Possible double counting 6
Transferable Electives (as needed to reach 60 CSU transferable units) 16-21

Total Units for A.A.-T Degree 60 units

Note: Every effort has been made to keep program information current. Please use this information as a guide and consult with the chair of the department/program or an MSJC counselor.
This Associate in Arts in Studio Arts for Transfer degree is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.

**Visual Communication**

The Associate of Arts degree program in Visual Communication is designed for students who are interested in transferring to a 4-year university that specializes in professional design practices like Graphic Design, Multimedia, etc. The academic emphasis of the program is for students to develop creative solutions to solve visual problems by combining research, concept, and production. Visualization, research, as well as proficiency in technology, are all important elements in the education required within the A.A. in Visual Communication.

PROGRAM DESCRIPTION

The Audio & Video Technology Program is a non-transfer program offering two A.A. degrees and two certificates. Many courses do, however, transfer; however, this program is not usually associated with a four-year degree. The program features a radio station, television station and studio, and three recording studios. This program prepares students for a “hands on” and theoretical applications in audio and video. Students will become familiar with devices used in television, radio, film, recording studios, and educational institutions. Some Protools certifications may be available. Most audio classes are cross-listed under music. For many individuals currently working within these fields, there may be potential for salary and/or career advancement.

CAREER OPPORTUNITIES

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

• Operate audio and video components.
• Apply the theories of audio and video.
• Apply critical thinking skills in audio and video applications.
• Prepare to enter the work force in the audio and video area.

DEGREES

A.A. in Audio Technology (18 units)
In addition to the 18 units of the Audio Technology Certificate Program, students may complete MSJC General Education Option A requirements for the Associate in Arts (AA) degree in Audio Technology.

A.A. in Advanced Audio Technology (27 units)
In addition to the 27 units of the Advanced Audio Technology Certificate Program, students may complete MSJC’s General Education Option A requirements for the Associate in Arts (AA) degree in Advanced Audio Technology.
CERTIFICATES

Certificate in Audio Technology (18 units)

Required Courses (12 units)
- AUD-140 / MUS-140 Beginning Studio Recording 3 units
- AUD-141 / MUS-141 Intermediate Studio Recording 3 units
- AUD-142 / MUS-142 Advanced Studio Recording I 3 units
- AUD-143 / MUS-143 Computer Audio Editing 3 units

Elective Courses (6 units)

Automotive Technology is a career oriented non-transfer occupational program that prepares students to work in today's highly automated repair shops, and provides the background for career advancement in the automotive industry. Students get hands-on training and instruction in automotive repair and maintenance. Our Automotive Technology program prepares students for employment in many areas of the automotive field including dealerships, independent garages, fleet shops, service stations, and specialty shops.

C A R E E R O P P O R T U N I T I E S

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Non-Transfer A.S. Degree(s)
- First-Line Supervisor, Manager of Mechanics, Heating and Air Conditioning, Refrigeration Mechanic
- Automotive Service Technician and Mechanic, Electrical and Electronics Installer and Repairer

Note: Every effort has been made to keep program information current.
Please use this information as a guide and consult with the chair of the department/program or an MSJC counselor.
Transfer Preparation
MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Learning Outcomes
- Pass all eight areas in the ASE certification.
- Complete all NATEF (National Automotive Technician Education Foundation) task sheets.
- Prepare to enter the workforce in the automotive industry.

Degree
The major for an Associate in Science (AS) degree in Automotive/Transportation Technology may be met by completing the certificate in the Automotive/Transportation program. In addition, students must complete all MSJC General Education Option A requirements for the Associate in Science degree in Automotive/Transportation Technology.

Certificate
Certificate in Automotive/Transportation Technology (20 units)
Required Courses (20 units)
AUME-100  Basic Auto Mechanics  4 units
AUME-119  Automotive Brake Systems  4 units

Program Description

The Business Department offers an Associate in Science in Business Administration for Transfer degree. The Business Administration curriculum is designed for students who are interested in an encompassing formal business education. The A.S.-T in Business Administration for Transfer degree will assure preparation and readiness for transfer to the CSU system.

The Business Department also offers a non-transfer Associate degree in Business Administration structured around a set of core courses enabling students to develop a general business perspective and skills. The program offers students the knowledge and skills necessary to understand the changing global and domestic business environment and to prepare students for success in their professional careers.

The non-transfer Certificate in Business Administration provides a broader theoretical overview and approach to the business world while the non-transfer Certificate in Small Business Operations provides a focus on practical small business operation skills and techniques. The Business Department is committed to providing a broad and flexible professional education. Recognizing the importance of Accounting, Business Law, Economics, Finance, and Marketing in the business community; these areas provide students with learning opportunities relevant to everyday business and consumer decisions.

Transfer students may earn an Associate degree in Liberal Arts with an area of emphasis that includes Business and Technology. This degree path is designed to accommodate the differing requirements for a wide variety of transfer institutions and provides an efficient means to achieve transfer goals and career success.

For individuals currently working within these listed fields, there may be potential for salary and/or career advancement.

Career Opportunities

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Transfer Degree
For BA/BS careers, please see your transfer institution.

Non-Transfer A.S. Degree(s)

Business Administration
Top Executive, Chief Operating Officer, Budget Analyst, Chief Executive, Wholesale and Retail Buyer, Purchasing Agent (except wholesale, retail and farm products), Load Counselor, Tax Preparer, Financial Specialist, Account Manager, Sales Manager, Sales Representative, Small Business Managers

Certificate

Business Administration
Bank Teller, Claims Adjuster, Examiner, Sales Representative, Investigator, Account Manager, Sales Manager, Small Business Manager

Small Business Operations
Small Business Manager, Banking Center, Financial Manager, Business Development Director, Personal Financial Advisor, Owner Operator, Business Operation Specialist (No formal college degree is required, but training and college courses are recommended.)
DEGREES

A.S.-T in Business Administration for Transfer
(25-26 units)

An Associate in Science degree in Business Administration for Transfer will fulfill the requirements for students to transfer to a four-year college or university as a Business Administration major.

The major required for an A.S.-T in Business Administration for Transfer may be met by:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.

Required Courses (15 units)

ACCT-124 Financial Accounting – Principles of Accounting I 3 units
or
ACCT-124H Honors Financial Accounting – Principles of Accounting I 3 units
ACCT-125 Managerial Accounting – Principles of Accounting II 3 units
or
ACCT-125H Honors Managerial Accounting – Principles of Accounting II 3 units
ECON-201 Principles of Macroeconomics 3 units
or
ECON-201H Honors Principles of Macroeconomics 3 units
ECON-202 Principles of Microeconomics 3 units
or
ECON-202H Honors Principles of Microeconomics 3 units
BADM-201 Legal Environment of Business 3 units

Additional Required Courses

List A (4 units from this list)
MATH-135 Calculus for Social Science and Business 4 units
MATH-140 Introduction to Statistics 4 units

List B (6-7 units from this list)
Any course from List A not already used above can be selected.
MATH-135 Calculus for Social Science and Business 4 units
MATH-140 Introduction to Statistics 4 units
CSIS-101 Introduction to Computers and Data Processing 3 units
BADM-103 Introduction to Business 3 units
or
BADM-103H Honors Introduction to Business 3 units
Units for Major 25-26
CSU General Education or IGETC Pattern 34-35
Possible double counting 10
Transferable Electives (as needed to reach 60 CSU transferable units) 10
Total Units for A.S.-T Degree 60 units

This Associate in Science in Business Administration for Transfer degree is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.
Business Administration Major (18 units)

The 18 units in the major plus all MSJC General Education Option A requirements for a total of 60 units is required to earn a non-transfer Associate in Science degree in Business Administration.

Required Courses (6 units)
ACCT-124 Financial Accounting - Principles of Accounting I 3 units
or
ACCT-124H Honors Financial Accounting - Principles of Accounting I 3 units
ECON-201 Principles of Macroeconomics 3 units
or
ECON-201H Honors Principles of Macroeconomics 3 units

Additional Required Courses (9 units from this list)
BADM-103 Introduction to Business 3 units
or
BADM-103H Honors Introduction to Business 3 units

Program Description

The Business Department offers a non-transfer Associate degree in Office Administration designed to introduce the student to the study of a wide range of subjects related to positions and careers in the modern office. The program includes the training necessary to successfully perform in the many and varied Office Technician and Administrative Assistant type positions available in the job market.

The non-transfer Certificate in Business, Clerical focuses more on the clerical aspect of the office. The non-transfer Certificate in Business, Office Administration Technician focuses more on the technical aspect of the office. The non-transfer Certificate in Microsoft Applications Specialist focuses on the application of several Microsoft products used in today’s business environment.

The Business Department is committed to providing a broad and flexible professional education. Recognizing the importance of office communications, office computer applications, records management, and virtual technology in the business community, these areas provide students with learning opportunities relevant to everyday business.

For individuals currently working within these listed fields, there may be potential for salary and/or career advancement.

Career Opportunities

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Non-Transfer A.S. Degree(s)
Office Administration
Administrative Assistant, Executive Secretary
Transfer Preparation

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Learning Outcomes

- Communicate effectively through appropriate modes of communication (listening, speaking, reading, writing) as they pertain to the business environment with emphasis on the use of computer technology.
- Analyze data to determine relevant information needed to produce reports, visual presentations, and other business documents.
- Identify and solve business problems, assess results, and determine alternative courses of action.

Degree

The 18 units in the major plus all MSJC General Education Option A requirements for a total of 60 units is required to earn an Associate in Science degree in Office Administration.

**Program Description**

The Child Development and Education (CDE) Program offers a transfer degree in Early Education Studies, a non-transfer degree and Certificate in Child Development and Education as well as Early Intervention and Inclusion. The CDE major includes required courses in child development and general education electives.

Child Development Education is the study of the physical, psychosocial and cognitive growth and development of the child from conception through adolescence. The purpose of this major is to provide a sound academic program in Child Development and to prepare students to work with and advocate for children and families in a variety of school and community settings.

In addition to theoretical principles, the curriculum offers practical skills and on-site training that will prepare students for employment in the field of Education.

Child Development and Education students pursue careers in childcare, preschool teaching and administration, early intervention services, parent education, primary, secondary and post-secondary education, teaching and supporting children with special needs or working with a variety of counseling, service and community agencies.

The program fulfills the required child development course work for the State issued Child Development Permit. Information regarding this permit and/or the Child Development and Education and Early Intervention and Inclusion Certificates is available from the CDE Department. All course work leading to a certificate or degree must be completed with a minimum grade of “C” (2.0) or better.

**Career Opportunities**

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. ([See: www.onetonline.org](http://www.onetonline.org))

TRANSFER PREPARATION

A.S.-T in Early Childhood Education for Transfer

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation, major preparation, and admissions. Prospective transfer students are advised to research careers, degrees, universities and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Child Development and Education/Early Intervention and Inclusion (Non-Transfer)

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

• Develop and effectively communicate a philosophy of education based on research and developmental theories that demonstrate a commitment to developmentally appropriate and responsive practice.

• Become permit and/or transfer eligible and thus prepared to enter the workforce.

• Demonstrate a commitment to lifelong learning including personal and professional development and responsibility.

• Demonstrate an understanding of and advocate for the diverse needs of children and families within the context of a rapidly changing and highly diverse society.

• Demonstrate professionalism based upon the NAEYC Code of Ethics.

DEGREES

A.S.-T in Early Childhood Education for Transfer (24 units)

An Associate in Science degree in Early Childhood Education for Transfer will fulfill the requirements for students to transfer to a four-year college or university as a Early Childhood Education major.

The major required for an A.S.-T in Early Childhood Education for Transfer may be met by:

• Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.

• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.

• A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.

• Obtainment of a minimum grade point average of 2.0.

Required Courses (24 units)

Units for Major: 24

CSU General Education or IGETC Pattern: 37-39

Possible double counting: 6

Transferable Electives (as needed to reach 60 CSU transferable units): 60 units

Total Units for A.S.-T Degree: 60 units

This Associate in Science in Early Childhood Education for Transfer degree is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.
A.S. in Child Development and Education (43 units)
An Associate in Science (AS) degree in Child Development and Education may be earned by completing the 43 units required for the MSJC Child Development and Education Certificate, and all MSJC General Education Option A requirements.

A.S. in Early Intervention and Inclusion (43 units)
An Associate in Science (AS) degree in Early Intervention and Inclusion may be earned by completing the 43 units required for the MSJC Child Development and Education Certificate, and all MSJC General Education Option A requirements.

Certificate in Child Development and Education (43 units)

- Indicates that these courses are recommended for the 12-unit Title XXII licensing requirement for employment in privately owned early childhood education programs.

- Indicates that prior TB and criminal record clearance must be shown. (It is recommended that students begin this clearance process while enrolled in CDE-101).

Required Courses (27 units)

- CDE-101* Principles of Early Childhood Education 3 units
- CDE-102 Language and Literacy Experiences for Young Children 3 units
- CDE-103* Appropriate Curricula for Young Children 3 units
- CDE-110* Child Development 3 units
- or
- CDE-110H Honors Child Development 3 units
- CDE-111 Child Health, Safety and Nutrition 3 units
- CDE-125* Child, Family and Community 3 units
- or
- CDE-125H Honors Child, Family and Community 3 units
- CDE-140 Children and Youth with Exceptional Needs 3 units
- CDE-147 Observation and Assessment in Early Childhood Education 3 units
- CDE-148** Supervised Field Experience: Student Teaching 3 units

General Education Courses (16 units)
Students must complete one or more courses from each of the following areas: 1) Humanities, 2) Social Sciences, 3) Science and/or Mathematics (96 or above), and 4) English (101 or above).

Certificate in Early Intervention and Inclusion (43 units)

Required Courses (27 units)

- CDE-101 Principles of Early Childhood Education 3 units
- CDE-103 Appropriate Curricula for Young Children 3 units
- CDE-110 Child Development 3 units
- or
- CDE-110H Honors Child Development 3 units
- CDE-119 Infant and Toddler Growth and Development 3 units
- or
- CDE-119H Honors Infant and Toddler Growth and Development 3 units
- CDE-140 Children and Youth with Exceptional Needs 3 units
- CDE-143 Supporting Children Who Have Challenging Behaviors 3 units

Child Development Permit

Upon completion of requirements for the certificate program, including the 16 units of general education, the student has fulfilled the course requirements for the Teacher Level of the Child Development Permit and some of the work experience requirements. See the State of California guidelines for more information on the experience qualifications and talk to your CDE instructors regarding new permit requirements.
EMPLOYMENT CONCENTRATIONS

** Indicates that prior TB and criminal record clearance must be shown. (It is recommended that students begin this clearance process while enrolled in CDE-101).

PROGRAM DESCRIPTION

The Communication Studies Program offers lower division preparation for students who plan to transfer to pursue a bachelor’s degree in Communication Studies.

The Communication transfer program major provides students with an opportunity to improve their personal and professional lives. Students will study communication dynamics in interpersonal relationships, groups and public settings. By studying how, why, and with what consequences people communicate, students themselves will become more competent communicators. Students will develop broad based competencies in oral and written communication as well as critical analysis. This major will prepare students for further studies in international relations, intercultural studies, rhetoric, public relations, advertising, journalism, corporate communications, mass media, and a variety of other disciplines.

Communication is a discipline with its roots in ancient Greek and Roman oratory. Oral communication skills have been important throughout the history of western culture and essential in the rise of democratic forms of government. During the Twentieth Century, the discipline has broadened from its original focus on public speaking to include the teaching of communication skills needed in all aspects of daily life: family, friendships, work groups, social contacts, intercultural relations, politics, and mass media production and consumption. Currently, the discipline plays a key role in the technologically driven Information Age.

Communication courses involve the student in the process of learning both theory and skills. Students learn by engaging in class activities that allow for application of theory to everyday experiences, development of critical thinking abilities, and practice of oral communication skills.

CAREER OPPORTUNITIES

Transfer Degree
For any BA/BS careers, please see your transfer institution.

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

• Recognize and discuss the ways in which communication, both verbal and nonverbal, affects lives in various social contexts (e.g., intrapersonal, interpersonal, intercultural, group, organizational, mass, and mediated communication among others).

• Locate, read, and critically evaluate research (traditional and electronic), comparing and contrasting research methodologies used in the discipline.

• Construct and responsibly present different types of speeches both individually and group, demonstrating effective communication practices (e.g., active listening, self-presentation).

• Explore, compare and evaluate the basic communication theories of small group, public, organizational and mass communication, the ways in which technology affects communication, as well as the rhetorical foundations of the field of Communication studies.
DEGREE

An Associate in Arts in Communication Studies for Transfer will fulfill the requirements for students to transfer to a CSU institution as a Communication Studies major. The Communication Studies courses in A.A.-T in Communication Studies will provide students with the practical skill of effective communication, both publicly, inter-personally, and professionally. Additionally, the student will gain specific knowledge in a variety of other communication subtexts: intercultural, media, argument, organizational, persuasion, gender, public relations, and/or performance.

The major required for an A.A.-T in Communication Studies for Transfer may be met by

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.

**Program Description**

Computer Information Systems are the tools that facilitate the effective and efficient transformation of data into information. MSJC’s CIS program is designed to provide students with the knowledge and skills required to gain entry level employment as computer programmers, and/or software/system administration technicians.

The requirement and knowledge and hands-on experience in microcomputer applications, programming, operating systems, and networking. The program in Computer Information Systems offers students an opportunity to earn a transfer degree in Computer Science, a non-transfer CIS Associate degree, State Approved Certificate, or locally approved Employment Concentration. The program offers students the choice of pursuing a transfer degree in Computer Science, an Associate in Science (A.S.) degree in Computer Information Systems or certificate(s) with emphasis in General Track, Internet Authoring, Networking and Programming. The program also offers a transfer preparation. The courses offered will transfer to California State University/University of California systems, and other four year colleges.

These programs offer students a well-equipped technical environment for instruction and lab. CIS courses are taught in computer equipped classrooms, allowing hands-on experience in the use of industry-standard hardware, application software, operating systems, networking, and programming tools.

**Career Opportunities**

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. ([See: www.onetonline.org](http://www.onetonline.org))

**Transfer Degree**

For any BA/BS careers, please see your transfer institution.

**Non-Transfer A.S. Degree(s)**

- Computer and Information Systems Manager - Emphasis in General Track: Networking Technologies Apprentice or Service Desk Hardware Support
- Computer Forensic Investigators - Emphasis in General Track: Computer Forensics
- Information Researcher - Emphasis in Internet Authoring: Internet and Web Technologies
- Network Control Technician - Emphasis in Programming: C++ Programming, Java Programming, SQL Programming, Database Programming or Database Developer
- Office and Administrative Support Supervisors and Managers - Emphasis in General Track: Computer Hardware Specialist, Networking Technologies Apprentice or Service Desk Hardware Support

**General Track Certificate**

This Certificate is a viable program of study for working professionals who are looking to improve their standing in the workplace by 1) gaining a better understanding of information technologies or 2) by the acquisition of specific job skills.

- Computer Forensic Investigator, Computer Systems Analyst, Software Engineer, System Architect, System Designer

**Internet Authoring Certificate**

This Certificate is a viable program of study for working professionals who are looking to improve their standing in the workplace by 1) gaining a better understanding of information technologies or 2) by the acquisition of specific job skills.

- Web Developer, Internet Developer, Web Designer, Web Publisher, Web Technologies

Programming Certificate

This Certificate is a viable program of study for working professionals who are looking to improve their standing in the workplace by 1) gaining a better understanding of information technologies or 2) by the acquisition of specific job skills.

Computer Forensic Investigator, Software Engineer, System Architect, Computer Systems Analyst, System Designer

General Track Employment Concentrations

Students who are interested in obtaining an advanced degree in one of the Computing & Information Technology disciplines are encouraged to supplement their bachelors/masters programs with a program of study that may be pertinent to their career interest.

Computer Forensics
Private Detective, Investigator

Computer Hardware Specialist

Data Analysis and Modeling
Administrative Assistant, Computer Specialist, Computer Support Technician, Data Entry and Information Processing Worker, Help-Desk Technician, Statistical Assistant

Internet Authoring Employment Concentrations

Students who are interested in obtaining an advanced degree in one of the Computing & Information Technology disciplines are encouraged to supplement their bachelors/masters programs with a program of study that may be pertinent to their career interest.

Internet Authoring Apprentice
Web Developer, Internet Developer, Web Designer, Web Developer, Web Publisher, Web Technologies

Internet and Web Technologies
Electronic Publishing, Web Developer

Learning Outcomes

• Recognize that a system consists of people, procedures, hardware, software, and data within a global environment.
• Apply systems concepts in the investigation, evaluation, and resolution of information technology problems.
• Recognize how the very large amounts of data collected by modern organizations can be used to review, redesign, and improve processes.
• Employ applications software and software tools in the application of information technologies to help individuals, groups, and organizations achieve their goals.
• Analyze existing processes based on interviewing, observation, documentation, analysis and other similar methods.
• Research and apply industry reference models and best practices in order to improve process designs.
• Assess, manage, and control IT risks.
• Demonstrate working effectively as a member of the team to accomplish common goals.
• Analyze technical information, as well as listen effectively to, communicate orally with, and prepare memos, reports and documentation for a wide range of audiences.
• Investigate and assess new sources of information and learning opportunities to stay abreast of emerging information and computing technologies.
• List career paths related to the program of study, as well as any qualifications and/or professional certifications that may be associated with those careers.

Transfer Preparation

Computer Science

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Computer Information Systems

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Degrees

Computer Science

The curriculum in Computer Science is designed to provide the transfer student the opportunity to earn an Associate in Science in Computer Science for Transfer degree. Computer Science is the study of computers, their design, and their uses for computation, data processing, and systems control, including...
design and development of computer hardware and software, and programming. Computer Science provides a foundation of knowledge for students with career objectives in a wide range of computing and computer-related professions.

The major required for an A.S.-T in Computer Science for Transfer may be met by:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.

A.S.-T in Computer Science for Transfer (28 units)

**Required Core (28 units)**

- CSIS-113A C++ Programming - Level 1 3 units
- or
- CSIS-113B Java Programming - Level 1 3 units
- CSIS-118B Computer Organization & Assembly Language 3 units

### Program Description

The Dance Program at MSJC provides a two-year concentration for students pursuing academic studies in dance, culminating in a non-transfer Associates of Art degree in Dance and/or a Certificate in Musical Theater. Multi-faceted curricula in the theory and practice of the discipline facilitate matriculation to a four-year institution. Challenging coursework, touring and production opportunities are presented in order to prepare the serious student. A hallmark of the program is the ability for students to commit to professional technical training, choreographic inquiry, performance and historical studies of dance within a nurturing, liberal arts college environment. Course offerings include dance history, ballet, modern, jazz and tap dance techniques, augmented by social dance forms including ballroom, hip hop, and world dance, as well as conditioning and alignment for dance. Additionally, the program provides extended training of the emerging choreographic and performing artist through advanced coursework in dance composition and technique, annual Dance on Camera screenings and numerous concerts and informal showings throughout the year.
A balanced program of critical thinking, choreographic inquiry and performance contextualizes the student’s understanding of the impact of dance within the contemporary world. For individuals currently working within these fields, there may be potential for salary and/or career advancement.

CAREER OPPORTUNITIES

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Non-Transfer A.A. Degree(s)
Dancer, Dance Teacher, Choreographer, Recreation Specialist

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Develop an awareness of the history, diversity, and cultural significance of dance.
- Apply knowledge and skills gained to new and varied situations through dance expression.
- Discover and evaluate movement through the use of aesthetic tools gained.
- Compose, perform and evaluate works of artistic expression.
- Examine anatomical ideas and discover the connections required to demonstrate depth of knowledge and technical ability.

RELATED-CONTENT GROUPS

(4 attempts within a related-content group each course 1 time for credit)

Ballet (DAN-121, 128)
Choreography (DAN-108, 125, 225)
Dance Production (DAN-212, 213, 214)
Jazz Dance (DAN-123, 127)
Miscellaneous (DAN-120, 130, 131, 201)
Modern Dance (DAN-122, 126)
Tap Dance (DAN-124, 129)

DEGREE

An Associate in Arts (AA) degree in Dance is available by completing the 21 required units in the major and all MSJC General Education Option A requirements.

Required Courses (12 units)

Degree(s)
Transfer: None
Non-Transfer:
A.S. in Diagnostic Medical Sonography* (with General Education Requirements Option A)

Certificate(s)
None

Employment Concentration Certificate(s)
None

Program Description

The Diagnostic Medical Sonography Program is a non-transfer program. This degree program provides an opportunity for student to be educated and trained the healthcare career of Diagnostic Medical Sonography. The objective of the program is to graduate students who are competent and confident in providing excellent patient care in the field of sonography.

The goal of our DMS program is to graduate students who demonstrate a high competency in anatomy and pathology, as seen on the ultrasound exam and the skills necessary to perform the ultrasound exam. Students will be evaluated on didactic learning in Ultrasound Physics and Instrumentation, hands on scanning skills, communication skills, patient care and critical thinking ability.

Students will practice ultrasound scanning skills with ultrasound equipment in the campus lab. Those skills will be carried out and enhanced in an affiliated medical center by training on the job, scanning patients.

The didactic education will prepare the student for taking the American Registry of Diagnostic Medical Sonography Physics and Instrumentation examination. After graduation the student will be required to work an additional year in the sonography field before taking the ARDMS specialty examination.

With completion of Associate in Science required course work the student will receive an Associate in Science in Diagnostic Medical Sonography

Career Opportunities

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Non-Transfer A.S. Degree(s)
Diagnostic Medical Sonographer

Transfer Preparation

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Learning Outcomes

- Complete the American Registry of Diagnostic Medical Sonographers Ultrasound Physics and Instrumentation exam, and after an additional year of work experience complete the ARDMS abdomen and small parts, and the obstetrics gynecology specialty examinations.
- Apply knowledge of proper use of ultrasound equipment and demonstrate image improvement through manipulating the instrumentation of the equipment.
- Document proper imaging of the abdomen, small parts, obstetrics and gynecology ultrasound exams.
- Use effective communication with patients, staff, and physicians.
- Show discretion with and implement HIPPA laws for all patients.
- Demonstrate professional and ethical behavior in the workplace.
### DEGREE

The 60 units list below plus all MSJC General Education Option A requirements is required to earn an Associate in Science degree in Diagnostic Medical Sonography. See counselor for recommended vocational and academic courses.

**Program Prerequisites:** 20 units
- ANAT-101 Human Anatomy & Physiology I 5 units
- ANAT-102 Human Anatomy & Physiology II 5 units
- COMM-103 Interpersonal Communication 3 units
or
- COMM-103H Honors Interpersonal Communication 3 units
- MATH-090 Elementary Algebra 4 units
(or higher)
- PHY-100 Conceptual Physics 3 units

**DMS Program Courses (60 units)**

**Degree(s)**
- None

**Transfer:**
- A.A. in Liberal Arts - Business & Technology Emphasis

**Non-Transfer:**
- A.S. in Engineering: Drafting Technology 4402 AS.ENGR (with General Education Requirements Option A)

**Certificate(s)**
- Certificate in Engineering: Drafting Technology 22130 CT.ENGR

**Employment Concentration Certificate(s)**
- Green Collar Manufacturing 99999 ECC.ENGR.GCM
- Manufacturing Quality Assurance 99999 ECC.ENGR.QA
- Small Wind Energy Technology 99999 ECC.ENGR.SWET
- Solar Photovoltaic Technology 99999 ECC.ENGR.SPT
- Solar Thermal Technology 99999 ECC.ENGR.STT
- Surveying 99999 ECC.ENGR.S

### PROGRAM DESCRIPTION

The Engineering: Drafting Technology Program is a non-transfer program offering an A.S. degree, one certificate, and six employment concentration certificates. Many courses do, however, transfer to four year college and universities. The program will prepare students for a career in civil engineering, architecture, surveying, and manufacturing processing. Students become familiar with computer hardware and software programs which will assist in the aerospace industry to construction. The manufacturing courses allow students to step into jobs which concentrate in Small Wind Energy Technology, Solar Photovoltaic Technology, Solar Thermal Technology, Green Collar Manufacturing and Manufacturing Quality Assurance. For individuals currently working within these fields, there may be potential for salary and/or career advancement.
CAREER OPPORTUNITIES

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. [See: www.onetonline.org]

Non-Transfer Degree
Surveying Technician, Engineering Technician, CAD Technician, GIS Technician

Certificate
Engineering Technician, Surveying Technician, CAD Technician, Geographic Information System Technician

Employment Concentrations
As these fields continue to emerge current occupational information will become available.

Green Collar Manufacturing
Manufacturing Quality Assurance
Small Wind Energy Technology
Solar Photovoltaic Technology
Solar Thermal Technology
Adjuster, Distributor, Electrician helper, Installer, Maintenance, Repairer, Retrofitter, Salesperson, Tester
Surveying
Surveyor, Surveying and Mapping Technician, Geographic Information System Technician

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Demonstrate knowledge of mathematics, surveying, computer automated drafting, and machining to apply this knowledge to proper engineering use within the workforce.
- Solve surveying engineering problems in practice by applying fundamental knowledge of mathematics, statistics, and science by using modern surveying engineering techniques, skills, and tools.
- Demonstrate knowledge and understanding of important characteristics of traditional manufacturing production methods including both basic engineering and technological aspects.

DEGREE

An Associate in Science degree in Engineering: Drafting Technology is available to students completing the certificate in Engineering: Drafting Technology and meeting all other MSJC General Education Option A requirements.

CERTIFICATE

Certificate in Engineering: Drafting Technology (19 units)

Competency in English and math is required prior to completing a certificate. This may be accomplished by testing or completion of ENGL-101 and MATH-096.

Required Courses (16 units)
- ENGR-154 Computer Aided Drafting I 3 units
- ENGR-155 Computer Aided Drafting II 3 units
- ENGR-164 Plane Surveying I 4 units
- GEOG-115 Introduction to Geographic Information Science 3 units
- PHOT-125 Digital Photography Production I 3 units

Elective Courses (3 units)
- ENGR-156 SolidWorks I 3 units
- ENGR-157 Microstation I 3 units
- ENGR-167 Global Positioning Systems 4 units
- ENGR-180 Introduction to Engineering 3 units
- ENGR-181 Statics 3 units
- ENGR-182 Strength and Materials 4 units

EMPLOYMENT CONCENTRATIONS

Green Collar Manufacturing (15 units)
- ENGR-106 M.S.S.C. High-Performance Manufacturing 3 units
- ENGR-107 Total Quality Management 3 units
- ENGR-114 Machine Tool Technology 3 units
- ENGR-116 Energy Efficiency and Construction Methods 3 units
- SEMA-100 Our Sustainable Future 3 units

Manufacturing Quality Assurance (12 units)
- ENGR-106 M.S.S.C. High-Performance Manufacturing 3 units
- ENGR-107 Total Quality Management 3 units
- ENGR-108/MGT-108 Organizational Behavior 3 units
- ENGR-109 Manufacturing Inspection Techniques and Applications 3 units

Small Wind Energy Technology (15 units)
- ENGR-107 Total Quality Management 3 units
- ENGR-114 Machine Tool Technology 3 units
- ENGR-116 Energy Efficiency and Construction Methods 3 units
- ENGR-119 Small Wind Energy Installation 3 units
- SEMA-100 Our Sustainable Future 3 units
PROGRAM DESCRIPTION

English, a transfer program, is an academic discipline focusing on the development of language skills through composition, critical thinking, and the study of literature and writing. Language skills provide an essential foundation for academic and career success. The study of English enhances a wide variety of intellectual skills while exposing students to a major source of cultural enrichment. The scope of the English program includes Freshman Composition, Critical Thinking and Composition, Introduction to Literature, American Literature, English Literature, World Literature, Survey of Drama, Analysis of Fiction, Analysis of Poetry, Survey of Shakespeare, World Folklore, Introduction to Creative Writing, Creative Writing: Fiction, Adolescent Literature, Children’s Literature, Introduction to African American Literature, American Indian Literature, Women and Literature, Latin American Literature in Translation, Multiethnic Literature, and Film and Literature.

CAREER OPPORTUNITIES

Transfer Degree
For any BA/BS careers, please see your transfer institution.

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Present a clear, reasoned, well supported, clearly organized argument, demonstrating college-level writing skills.
- Recognize writing as a process of developing, drafting, revising, and editing.
- Conduct research appropriate to a narrowly specific topic, understanding how to find and evaluate the credibility of sources, incorporating information, concepts and ideas from outside sources through summarizing, paraphrasing, and quoting to develop strong, well-supported arguments, citing sources according to Modern Language Association guidelines.
- Analyze text, recognizing the arguments presented, and construct an effective, argumentative or persuasive response, synthesizing information, concepts, and ideas from various sources and including that knowledge in effective, well-reasoned arguments.
- Demonstrate understanding of acknowledged methods of critical thinking and analysis of literature.
• Analyze a variety of literary genres in their social, cultural and historical context.
• Evaluate the artistic contributions made by writers in the English, American and world literary traditions by analyzing the stylistic, formal, and thematic elements of their works.

**DEGREE**

An Associate in Arts in English for Transfer will fulfill the requirements for students to transfer to a four-year college or university as an English major. The courses in the A.A.-T in English for Transfer provide students with an ability to write academic analyses and arguments, to conduct research, and to read and think critically. The literature courses in this degree provide students with an understanding of diverse cultures and historical time periods and seek to stretch students’ abilities to think critically about texts and ideas they encounter and to communicate insightful ideas through the means of well-written academic discourse.

The major required for an A.A.-T in English for Transfer to CSU may be met by:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.

**A.A.-T in English for Transfer (19 units)**

**Required Core (7 units)**
- ENGL-103 Critical Thinking and Writing 4 units
- or ENGL-103H Honors Critical Thinking and Writing 4 units
- or ENGL-106 Introduction to Literature 3 units
- or ENGL-106H Honors Introduction to Literature 3 units

**List A (6 units)**
- ENGL-207 American Literature: Pre-Colonial to 1865 3 units
- or ENGL-207H Honors American Literature: Pre-Colonial to 1865 3 units
- ENGL-208 American Literature: 1865 to Present 3 units
- or ENGL-208H Honors American Literature: 1865 to Present 3 units
- ENGL-230 English Literature: Anglo-Saxon to 1775 3 units
- or ENGL-230H Honors English Literature: Anglo-Saxon to 1775 3 units
- ENGL-231 English Literature: 1775 to Present 3 units
- or ENGL-231H Honors English Literature: 1775 to Present 3 units

It is recommended students complete a sequence of literature survey classes (e.g., both halves of American or British Literature) to meet “depth of study.” Please refer to major preparation for each major at transfer institution for appropriate major preparation.

**List B (3 units)**
Any course from List A not used above or one of the following courses:
- ENGL-130 Introduction to Creative Writing 3 units
- or ENGL-130H Honors Introduction to Creative Writing 3 units
- ENGL-203 Survey of Shakespeare 3 units
- or ENGL-203H Honors Survey of Shakespeare 3 units
- ENGL-280 Multiethnic Literature 3 units
- or ENGL-280H Honors Multiethnic Literature 3 units

**List C (3 units)**
Any course from List A or B not used above or one of the following courses:
- ENGL-132/ED-132H Adolescent Literature 3 units
- or ENGL-132/ED-132H Honors Adolescent Literature 3 units
- ENGL-205 World Folklore 3 units
- or ENGL-205H Honors World Folklore 3 units
- ENGL-220 Analysis of Fiction 3 units
- or ENGL-220H Honors Analysis of Fiction 3 units
- ENGL-225 Film and Literature 3 units
- or ENGL-225H Honors Film and Literature 3 units
- ENGL-240 American Indian Literature 3 units
- or ENGL-240H Honors American Indian Literature 3 units
- ENGL-250 Women and Literature 3 units
- or ENGL-250H Honors Women and Literature 3 units
- ENGL-260 Introduction to African American Literature 3 units
- or ENGL-260H Honors Introduction to African American Literature 3 units

**Units for Major** 19

**CSU General Education or IGETC Pattern** 37-39

**Possible double counting** 9

**Transferable Electives (as needed to reach 60 CSU transferable units)**

Total Units for A.A.-T Degree 60 units

This Associate in Arts in English for Transfer degree is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.
ENGL-092 Accelerated English Fundamentals and Skills (determined by Accuplacer placement score or successful completion of ENGL-061 or ENGL-062)

ENGL-061 Basic Grammar & Usage (determined by Accuplacer placement score)

ENGL-062 Basic Writing Skills (determined by Accuplacer placement score or successful completion of ENGL-061)

ENGL-098 English Fundamentals (determined by Accuplacer placement score or successful completion of ENGL-062)

ENGL-101 Freshman Composition (determined by Accuplacer placement score or successful completion of ENGL-092 or 098 or ESL-098 or appropriate assessment test score)

ENGL-103 Critical Thinking & Writing (determined by Accuplacer placement score or successful completion of ENGL-101)
English as a Second Language

San Jacinto Campus
(951) 487-MSJC (6752)

Program Description

The credit, non-transfer English as a Second Language program consists of academically focused courses for students who speak a language other than English at home or whose first language is not English. English and critical thinking skills are taught to prepare students to successfully take transfer level English and many other 100 level courses. Writing, reading, speaking, and listening are core components of this credit program. Students’ educational, vocational, and personal goals are supported and encouraged. Dedicated ESL tutors are available in the learning resource centers. The writing sequence (ESL-050, ESL-051, ESL-62W and ESL-98W) gives a direct pathway to transfer level English and equips students with vital writing skills for further college and professional success. Two ESL certificates provide students with clear pathways to complete the ESL program. The ESL Certificate Level 1 is 12 units, consisting of ESL-050, ESL-051, and ESL-063R. The ESL Certificate Level 2 is 11 units; students complete ESL-056, ESL-064R, and ESL-098W. The Combined English Skills Assessment Test (CELSA) is used for placement into the credit ESL program; students meeting the minimum score for the ESL credit program are eligible to take ESL-050, ESL-063R, ESL-055, and ESL-056.

Learning Outcomes

- Produce effective, clear, reasoned, well-supported, and well-organized five paragraph essays.
- Extract meaning from various texts by identifying the author’s intent, main points, and supporting details.
- Express ideas and opinions verbally in response to spoken communication in the classroom environment in a coherent and effective manner.

English As A Second Language (ESL) Sequence

Recommended sequence of English as a Second Language courses:

Semester 1:
ESL-050 English as a Second Language Level 1 (4 units)
(determined by placement score into the ESL credit program)

ESL-063R ESL Reading & Vocabulary Level 1 (4 units)
(determined by placement score into the ESL credit program/ may be taken at any point in the ESL sequence)

Semester 2:
ESL-051 English as a Second Language Level 2 (4 units)
(determined by placement score or the completion of ESL-050)

ESL-056/COMM-056 English Conversation and Culture (3 units)
(determined by placement score into the ESL credit program/ may be taken at any point in the ESL sequence)

Required courses for the ESL Certificate Level 1 (12 units)
- ESL-050
- ESL-051
- ESL-063R

Semester 3:
ESL-064R ESL Academic Reading & Vocabulary Level 2 (4 units)
(determined by placement score or the completion of ESL-063R)

ESL-062W Basic Writing Skills (4 units)
(determined by placement score or the completion of ESL-051)

Semester 4:
ESL-098W English Writing Fundamentals (4 units)
(determined by placement score or the completion of ESL-062W)

Required courses for the ESL Certificate Level 2 (11 units)
- ESL-056/COMM-056
- ESL-064R
- ESL-098W

Note: Every effort has been made to keep program information current. Please use this information as a guide and consult with the chair of the department/program or an MSJC counselor.

Distance Learning

Program Description

The Environmental Studies transfer and non-transfer programs draw on a multi-disciplinary curriculum that emphasizes the impact of human civilizations on environmental systems. The disciplines represented draw from the physical, life and social sciences as well as the humanities. Environmental science is largely issues-based and relies heavily on the critical thinking skills necessary to understand contemporary issues and propose meaningful solutions to complex problems. Successful completion of the degree requirements entails a broad scientific background, which provides a foundation for continued academic and career success.

Learning Outcomes

- Describe the scientific method and explain how environmental science is related to the various traditional sciences of physics, chemistry, biology, geology, and anthropology.
- Analyze physical problems using the laws of physics and appropriate mathematical techniques.
- Demonstrate a knowledge and understanding of the fundamental principles governing matter and energy and their transformations via chemical reactions.
- Explore and appreciate the facts and principles concerning heredity, variation and diversity, the cell, evolution and natural selection.
- Analyze the interrelationship between humans and their physical environment.

Degree

An Associate in Science (AS), degree in Environmental Studies prepares students for transfer to four-year colleges offering a Bachelor of Science (BS) in Environmental Studies or related fields. The major requirements for an AS in Environmental Studies can be met by completing the pattern described plus all MSJC General Education Option B (CSU-GE breadth) and/or Option C (IGETC) requirements.

Transfer Preparation

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Learning Outcomes

- Describe the scientific method and explain how environmental science is related to the various traditional sciences of physics, chemistry, biology, geology, and anthropology.
- Analyze physical problems using the laws of physics and appropriate mathematical techniques.
- Demonstrate a knowledge and understanding of the fundamental principles governing matter and energy and their transformations via chemical reactions.
- Explore and appreciate the facts and principles concerning heredity, variation and diversity, the cell, evolution and natural selection.
- Analyze the interrelationship between humans and their physical environment.

Degree

An Associate in Science (AS), degree in Environmental Studies prepares students for transfer to four-year colleges offering a Bachelor of Science (BS) in Environmental Studies or related fields. The major requirements for an AS in Environmental Studies can be met by completing the pattern described plus all MSJC General Education Option B (CSU-GE breadth) and/or Option C (IGETC) requirements.

Water and Soil Technologies & Environmental Engineering Emphasis

This emphasis is not intended to transfer. It is geared towards students intending to pursue careers in industrial environmental consulting, water or soil quality analysis, environmental engineering, or agricultural, fire, or wastewater technology fields. Emphasis is placed on obtaining hands-on training for students at wastewater treatment plants, water quality analysis industries, and turf management companies.

Fire Apparatus Operator Preparation ECC.FIRE.FAOP

PROGRAM DESCRIPTION

The non-transfer Certificate/Associate degree (AS) in Fire Technology involves the study of fire behavior, protection and control techniques which for individuals currently working within these fields, there may be potential for salary and/or career advancement. This program prepares the student for an entry-level career in the fire service by providing a foundation of core concepts, practices, vocabulary, culture, safety and requirements for the fire service. This program is designed to prepare students for the entry-level career in public or private fire protection agencies, to survey career options, and to upgrade fire personnel. This program follows the Fire and Emergency Services Higher Education (FESHE) model from the National Fire Academy in Emmetsburg, Maryland and is a component of accreditation from the California State Fire Training.

CAREER OPPORTUNITIES

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. [See: www.onetonline.org]

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

• Analyze Fire Service theories and techniques as well as conduct research on specific topics related to the Fire Service.
• Exhibit a working knowledge of the various aspects of the Fire Service to include but not limited to Fire Department structure, operations, educational and experiential requirements for firefighting jobs.
• Use technology to process information to identify and address problems.
• Develop good oral and written communication skills.
• Demonstrate the ability to address problems while working as part of the team.
**Degree**

Students wishing to obtain the Associate in Science (AS) degree should complete the required core courses (18 units) and two additional elective courses (6 units) in the Fire Technology program to establish a major (24 units total). In addition to the 24 units of the certificate program, students must complete all the MSJC General Education Option A requirements for the Associate in Science (AS) degree in Fire Technology.

**Certificate**

Certificate in Fire Technology (24 units)

**Required Core Courses (18 units)**

- FIRE-101 Introduction to Fire Technology 3 units
- FIRE-102 Fundamentals of Fire Prevention 3 units
- FIRE-106 Fundamentals of Fire Behavior and Combustion 3 units
- FIRE-109 Fundamentals of Fire Protection and Equipment 3 units
- FIRE-115 Building Construction for Fire Protection 3 units
- FIRE-122 Principles of Fire and Emergency Services Safety and Survival 3 units

**Elective Courses (6 units)**

- EMS-120 Emergency Medical Technician 6 units
- FIRE-103 Fire Hydraulics 3 units
- FIRE-107 Fire Apparatus and Equipment 3 units
- FIRE-108 Fundamentals of Fire Investigation 3 units
- FIRE-117 Hazardous Materials First Responder Operational 1 unit
- FIRE-121 Fundamentals of Wild Land Fire Fighting 3 units
- FIRE-149 Occupational Internship: Fire Technology 1-4 units
- FIRE-299 Special Projects: Fire Technology 1-3 units

**Employment Concentrations**

**Fire Academy Preparation (9 units)**

Students completing this certificate will have completed the material required to apply for entrance into a Fire Academy. Some Academies may have additional requirements such as passing a physical abilities test. For specific requirements and further information, contact the Fire Academy you wish to attend.

- EMS-120 Emergency Medical Technician 6 units
- FIRE-101 Introduction to Fire Technology 3 units

**Fire Apparatus Operator Preparation (9 units)**

Students completing this certificate will have completed the courses to prepare them to operate fire apparatus.

- FIRE-101 Introduction to Fire Technology 3 units
- FIRE-103 Fire Hydraulics 3 units
- FIRE-107 Fire Apparatus and Equipment 3 units

**Program Description**

The A.A.-T in Geography transfers to a four-year college and prepares students for a future in a field related to Geography. The Geographic Information Science (GIS) non-transfer Certificate and AS degree prepares students for GIS related careers which are enhanced by completion of a bachelor or graduate program. For students currently working within these fields there may be potential for salary and/or career advancement.

From local to global scales, geographers study political organization, transportation systems, marketing, economics, climate and weather, urban planning, land use development, globalization, and more. They examine distribution of land forms, study soils and vegetation, analyze limited resources such as water, and human impacts on the surface of the planet.
In general, Geographers work in government research, public agencies, and are environmental consultants for nonprofit organizations. Geographic Information Science (GIS) involves basic to advanced analysis and scientific research methods for identifying patterns, trends and relationships that are represented spatially and temporally on maps, large databases, reports and animations. Recent advancements make it possible to analyze, interact and produce maps using cloud technology. Students enrolled in our GIS courses online have the advantage of learning advanced communication and mapmaking skills that prepare them for a career in GIS, anywhere.

**CAREER OPPORTUNITIES**

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. ([See: www.onetonline.org](http://www.onetonline.org))

**Transfer A.A. Degree(s)**

**Geography**

For any BA/BS careers, please see your transfer institution.

**Non-Transfer A.S. Degree(s)**

**Geographic Information Science**

Geospatial Information Scientists and Technologists, Geographic Information Systems Technicians, Remote Sensing Scientists and Technologists, Remote Sensing Technicians, Precision Agriculture Technicians, Geodetic Surveyors, Surveyors, Surveying Technicians, Mapping Technicians, Cartographers and Photogrammetrists, and many discipline related fields with “GIS skills” as an occupational description.

**Certificate**

**Multimedia**

Multimedia Specialist, Multimedia Designer, Multimedia Producer

**Programming**

GIS Programmer, Database Manager

**Visual Design**

Computer Graphic Specialist, Cartographic Technician

**TRANSFER PREPARATION**

**Geography**

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

**Geographic Information Science**

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

**LEARNING OUTCOMES**

- Explain the interrelationship between humans and the physical environment.
- Appreciate different cultural and ethnic perspectives within the context of environmental opportunities and challenges.
- Apply the scientific method to objective and subjective analysis of cultural and physical environments.
- Explore and critically appreciate spatial relationships at different scales from local, regional to global.
- Integrate spatial thinking with applied technology to analyze physical and cultural patterns, trends and relationships.

**DEGREES**

An Associate in Arts in Geography for Transfer will fulfill the requirements for students to transfer to a four-year college or university as a Geography major.

The major required for an A.A.-T in Geography for Transfer may be met by:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
A. A.-T in Geography for Transfer (18-21 units)

Required Core (6 units)
- GEOG-101 Physical Geography 3 units
- GEOG-102 Cultural Geography 3 units

List A: Select two to three (6-8 units)
- GEOG-103 Field Studies in Geography 2-4 units
- GEOG-104 Physical Geography Lab 1 unit
- GEOG-105 Map Interpretation and Spatial Analysis 3 units
- GEOG-106 Introduction to Weather and Climate 3 units
- GEOG-108 World Regional Geography 3 units
- GEOG-111 Geography of California 3 units
- GEOG-115 Introduction to Geographic Information Science 3 units

List B: Select two (6-7 units)
- ANTH-102 Cultural Anthropology 3 units
- or ANTH-102H Honors Cultural Anthropology 3 units
- GEOL-100 Physical Geology: Dynamic Planetary Systems of Spaceship Earth 4 units
- GEOG-107 Urban Geography 3 units

Units for Major 18-21
CSU General Education or IGETC Pattern 37-39
Possible double counting 10
Transferable Electives (as needed to reach 60 CSU transferable units) Total Units for A.A.-T Degree 60 units

This Associate in Arts in Geography for Transfer degree is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.

Degree in Geographic Information Science (18 units)

An Associate in Science degree in GIS may be earned by completing the 18 units for the GIS Certificate, as well as all MSJC General Education Option A requirements (for a total of 60 units)

CERTIFICATES

Certificate in Geographic Information Science (18 units)

Required Courses (12 units)
- GEOG-105 Map Interpretation and Spatial Analysis 3 units
- GEOG-115 Introduction to Geographic Information Science 3 units
- GEOG-120 Intermediate Geographic Information Science 3 units
- GEOG-125 Advanced Geographic Information Science 3 units

Elective Courses (minimum 6 units)

Elective courses are identified under the following concentration areas. Students must complete 6 units (any combination) under one concentration area to earn a Certificate in GIS. Once a Certificate in GIS has been earned, additional Certificates in GIS may be awarded for completion of 6 units in other concentration areas.

PROGRAM DESCRIPTION

The History program at MSJC is structured under a world history umbrella that encourages students to explore change over time through area and regional studies, comparative analysis, and multi-disciplinary investigations. US History courses emphasize critical analyses of basic American institutions, values, and traditions, covering the nation's past by emphasizing cultural and ethnic diversity and multi-faceted analysis (social, political, economic, military, gender, ethnic, and cultural history). In each history course, students will be asked to analyze critically major historical problems and issues and to master primary and secondary sources. The history program encourages students to approach their world with curiosity and informed critical analysis and to do so with an awareness of how a particular subject fits into a larger pattern or context.

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Demonstrate through coursework and discussion a breadth of knowledge of historical developments and trends related to the courses taken.
- Demonstrate the ability to analyze, evaluate, and synthesize historical data into independent interpretations.
- Demonstrate the ability to evaluate, analyze and synthesize the impact of class, gender, ethnicity, culture and politics as they relate to the process of history.

DEGREE

An A.A.-T in History for Transfer will fulfill the requirements for students to transfer to the CSU system as a History major. The major required for an A.A.-T in History for Transfer may be met by:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.
### A.A.-T in History for Transfer (18 units)

#### Required Core (6 units)

- **HIST-111** U.S. History to 1877 3 units
- **HIST-111H** Honors U.S. History to 1877 3 units
- **HIST-112** U.S. History Since 1865 3 units
- **HIST-112H** Honors U.S. History Since 1865 3 units

#### List A: Select two (6 units)

- **HIST-103** History of World Civilizations to 1500 3 units

Program Description
This non-transfer interdisciplinary degree offers a range of coursework to prepare students who want to explore the arts, ideas, values, and cultural expressions of the world’s peoples as a foundation for lifelong learning or as an introduction to the related fields of Humanities, Interdisciplinary Studies, Art History, Music Appreciation, Theater Arts, Philosophy, English Literature, Modern and Classical Languages, or Religious Studies. For additional information, please see an MSJC counselor.

Transfer Preparation
MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Learning Outcomes
- Evaluate and Analyze major cultural artifacts (in art, literature, philosophy, film, and other forms).
- Explore questions of fundamental importance to human beings.
- Connect issues raised in major cultural artifacts (in art, literature, philosophy, film, and other forms).

Degree
Satisfactory completion of Mt. San Jacinto College’s General Education Requirements Option A, 60 degree-applicable units including at least 18 units in Area C.

Leadership Development

PROGRAM DESCRIPTION

The Leadership courses provide students opportunities interested in elected and appointed campus or community positions. It also attracts students interested in career oriented positions specifically in management and political positions. The courses emphasize leadership theories, governing structures, policies, and operations within an organization. Personnel interactions are also introduced (through application and role-playing scenarios) to understand leadership roles and responsibilities, leadership decisions affecting an organization, and managing/resolving conflicts. Students will obtain practical leadership experience through participation in campus committees and community activities. Leadership training will also be provided through outside organizations and conferences. Leadership courses are designed to provide opportunities for social and cultural interactions among students, to develop leadership and responsibilities.

LEARNING OUTCOMES

- Learn to lead and develop a strong foundation for chosen endeavors.
- Develop and display personal communication and leadership skills.
- Support and engage in student life and campus for community leadership.
- Analyze, plan and organize complex problems and complex settings cooperatively to promote teamwork and community involvement.

EMPLOYMENT CONCENTRATIONS

The Leadership Development Employment Concentration Certificate is a 12 unit certificate for MSJC students interested in further developing their leadership, people management, and communication skills. Completion of this ECC helps students to obtain practical tools for effective decision making, discover strengths, enhance student capacity to lead ethically and effectively, and obtain practical knowledge of professionalism. The Leadership Development ECC recipients are recognized at the end of the year Student Recognition Celebration (with many other leaders and student organization).

Leadership Development (12 units)

Required Courses (9 units)

LEAD-101 Leadership Development 3 units
LEAD-102 Personal Leadership Development 3 units
COMM-100 Public Speaking 3 units
or
COMM-100H Honors Public Speaking 3 units

Elective Courses (3 units)

LEAD-105/CDE-105 Service Learning Leadership 1.5 units
LEAD-299 Special Projects: Special Topics in Leadership 1-3 units
ENGL-101 Freshman Composition 4 units
or
ENGL-101H Honors Freshman Composition 4 units

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

If you have any questions about this program, please contact the chair of the department/program or an MSJC counselor.

Certificate in Legal Assistant
Employment Concentration Certificate(s)
Legal Office Support

PROGRAM DESCRIPTION

The non-transfer Certificate/Associate in Science (AS) degree program in Legal Assistant studies is designed to prepare students for a paraprofessional career in generalized or specialized areas of paralegal services. This program provides the student with the theoretical knowledge and practical skills necessary to enter the job market as a legal assistant in private law offices, government agencies or corporations. A legal assistant works under the direction of an attorney in performing legal services to meet the client’s needs. The Associate in Science degree provides students with the educational foundation helpful for transfer to a baccalaureate pre-law program or related field of study.

Although most employers do not require certification, earning a voluntary certification from a professional society may offer advantages in the labor market. The National Association of Legal Assistants (NALA), for example, has established standards for certification requiring a combination of education and experience. Paralegals who meet those standards are eligible to take a two-day examination given by NALA. Those who pass the exam will earn a Paralegal Certification.

CAREER OPPORTUNITIES

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Non-Transfer Degree
Paralegal, Legal Assistant

Certificate
Paralegal, Legal Assistant

Employment Concentration

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Conduct legal and non-legal research using correct legal methods.
- Explain the theoretical foundation of the legal environment to understand the legal system.
- Analyze information and legal considerations to assist the attorney in decision-making and advise to clients.
- Draft commercial documents, agency filings, court pleadings and agreements using correct formatting and editing skills.

DEGREE

In addition to the 27 units of the certificate program, students must complete all of the MSJC General Education Option A requirements for the Associate in Science (AS) Legal Assistant degree.

PROGRAM DESCRIPTION

The transfer Associate degree in Liberal Arts is designed for students who wish to have a broad knowledge of liberal arts and sciences plus additional coursework in an “Area of Emphasis”. This area of emphasis would be an ideal choice for students who plan on transferring to the California State University (CSU) or University of California (UC) as students can satisfy general education requirements, plus focus on transferable course work that relate to majors at these institutions. Please consult with a counselor for information regarding your intended major at the specific college or university of your choice.

CAREER OPPORTUNITIES

Transfer Degree
For BA/BS careers, please see your transfer institution.

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Assess many different situations, involving diverse people and viewpoints, and compose appropriate responses in writing and speaking.
- Analyze the substance of others’ comments through active listening.
- Evaluate and analyze texts through active reading, writing, and discussion.
- Locate and evaluate information by selecting and using appropriate research methods and tools.
- Propose solutions to problems by thinking logically and critically; explaining conclusions; and evaluating, supporting, or critiquing the thinking of others.
- Identify and analyze real or potential problems and develop, evaluate, and test possible solutions and hypotheses.
- Compose an understandable, organized and supported written or spoken explanation of ideas, feelings, and conclusions.

DEGREES

Choose either Option B: CSU General Education Breadth or Option C: IGETC (Intersegmental General Education Transfer Curriculum) for the General Education pattern which relates to your educational goal.

Complete 18 units in one “Area of Emphasis” from those outlined below. More than one area of emphasis may be awarded. (Note: Where appropriate, courses in the “Area of Emphasis” may also apply towards General Education areas on the General Education pattern).
Instructional Programs

All classes listed below transfer to the CSU system and courses in BOLD also transfer to the UC system. Please refer to www.assist.org for articulation agreements and transfer details for each course.

I. ASSOCIATE DEGREE IN LIBERAL ARTS:
A. General Education CSU-GE Breadth or IGETC:
   34-39 units

Units necessary to meet CSU-GE Breadth or IGETC Certification requirements only.

B. Areas of Emphasis:
   18 units

- A minimum of 18 units are required in one Area of Emphasis listed below. For depth of study, 2 or more courses in one discipline are required. More than one area of emphasis may be awarded.
- Courses selected may also be used to fulfill GE areas, refer to each transfer institution’s double counting policy.

C. Electives:
   3-9 units

Elective units may be necessary to total 60 overall units required for the Associate Degree. These units must be transferable to the CSU and/or UC for appropriate credit.

Total Units 60 units

Note on courses listed below:
* refers to lecture/lab combined courses.
+ refers to crosslisted courses.

1. ARTS, HUMANITIES & COMMUNICATIONS:
   These courses emphasize the study of cultural, literary, humanistic activities and artistic expression of human beings. Students will evaluate and interpret the ways in which people through the ages in different cultures have responded to themselves and the world around them in artistic and cultural creation. Students will also learn to value aesthetic understanding and incorporate these concepts when constructing value judgments.

2. SOCIAL & BEHAVIORAL SCIENCES:
   These courses emphasize the perspective, concepts, theories and methodologies of the disciplines typically found in the vast variety of disciplines that comprise study in the Social and Behavioral Sciences. Students will study about themselves and others as members of a larger society. Topics and discussion to stimulate critical thinking about ways people have acted in response to their societies will allow students to evaluate how societies and social subgroups operate.

3. MATHEMATICS & SCIENCE:
These courses emphasize the natural sciences which examine the physical universe, its life forms and its natural phenomena. Courses in Math emphasize the development of mathematical and quantitative reasoning skills beyond the level of intermediate algebra. Students will be able to demonstrate an understanding of the methodologies of science as investigative tools. Students will also examine the influence that the acquisition of scientific knowledge has on the development of the world’s civilizations. (Students following the CSU GE or IGETC must complete two science courses with at least 1 lab AND at least 1 transferable math to get certified. If a student is transferring in a science or math major more math and/or science courses must be completed.)

PROGRAM DESCRIPTION

The Management/Supervision Department offers a non-transfer Associate degree and a non-transfer Certificate in Management/Supervision designed to prepare the student to direct the work of others. The program offers students the opportunity to acquire practical skills, technical knowledge and experience, and improve conceptual abilities and theory in the areas of analyses, evaluation, selection, communication, production, and follow-up. Both the Associate degree and the Certificate share the same lists of required, recommended elective, and elective discipline specific coursework with the difference being the required general education pattern for the degree.

The Management/Supervision Department is committed to providing a broad and flexible professional education. The studies introduce the student to dynamic processes of goals and objectives setting, planning, and achieving results for the organization. Also emphasized are the recognition of, and the leadership for, changing environments and relationships. Although emphasis is on business and economics of the organization, the learning is relevant to individual daily life.

Transfer students may earn an Associate degree in Liberal Arts with an area of emphasis that includes Business and Technology. This degree path is designed to accommodate the differing requirements for a wide variety of transfer institutions and provides an efficient means to achieve transfer goals and career success.

For individuals currently working within these fields, there may be potential for salary and/or career advancement.

CAREER OPPORTUNITIES

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Non-Transfer Degree

Certificate
Leasing and Property Management, Retail Management and Supervision, Small Business Management, Sales Manager, Advertising and Promotions Manager, Marketing Manager, Public Relations Manager, Administrative Services Manager, Compensation and Benefits Manager, Training and Development Manager, Industrial Production Manager, Purchasing Manager, Transportation, Storage and Distribution Manager, Construction Manager, Other Management Occupations

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Note: Every effort has been made to keep program information current. Please use this information as a guide and consult with the chair of the department/program or an MSJC counselor.
LEARNING OUTCOMES

- Encourage students to expand their knowledge and depth of understanding of Business and Management.
- Use technology to achieve proficiency in Business.
- Utilize business information systems for the purpose of research, organizing and developing legitimate business models.

DEGREE

An Associate in Science (AS) degree with a major in Management/Supervision is available to students completing the certificate requirements in Management/Supervision, and completing all other MSJC General Education Option A requirements.

CERTIFICATE

Competency in English and Math is required prior to completing a certificate. This may be accomplished with testing or by completing ENGL-098 (English Fundamentals) and MATH-090 (Elementary Algebra).

Certificate in Management/Supervision (24 units)

Degree(s)

Transfer:
A.S.-T in Mathematics for Transfer (using General Education Requirements Option B or C)

See Also:
A.A. in Liberal Arts - Mathematics & Science Emphasis

Non-Transfer:
None
Program Description

The A.S.-T in Mathematics for Transfer consists of a clear sequence of courses which prepares students for transfer into the major. The study of mathematics concerns the nature and manipulation of known and unknown quantities. The MSJC mathematics transfer degree is designed to provide students with an appreciation of the nature, scope and power of mathematics, as well as an understanding of how mathematics is applied to business, engineering, science and daily life.

Career Opportunities

Transfer Degree

For BA/BS careers, please see your transfer institution.

Transfer Preparation

MSJC offers a range of coursework to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Learning Outcomes

- Develop the ability to express ideas and reason logically regarding abstract situations.
- Synthesize ideas and apply mathematical reasoning and logic to the real world.
- Set up and solve problems using arithmetic, algebraic, and geometric models.
- Write mathematical information symbolically, visually, and numerically.
- Develop problem-solving and modeling skills.

Degree

A.S.-T in Mathematics for Transfer (18 units)

An Associate in Science degree in Mathematics for Transfer will fulfill the requirements for students to transfer to a four-year college or university as a Mathematics major.

The major required for an A.S.-T in Mathematics for Transfer may be met by:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.

Note: Every effort has been made to keep program information current. Please use this information as a guide and consult with the chair of the department/program or an MSJC counselor.

Video Production

Assistant to Camera Operator, Editor’s Assistant, Production Assistant

Web Design

Web Developer, Social Media Marketer, Information Architect, Computer Programmer, Network Systems and Data Communications Analyst, Web Design and Development

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Demonstrate professional level production skills effectively.
- Apply information and graphic design concepts.
- Communicate verbally and visually, demonstrating creativity and innovation.
- Demonstrate professional accountability, task completion and appropriate team interaction.
DEGREE

The major requirement for an Associate in Science degree (AS) in Multimedia may be met by completing 24 units of those required for the Multimedia certificate. Students planning to transfer should major in General Education and consult with instructors and counselors; since some Multimedia courses may satisfy MSJC General Education Option A requirements.

Degree(s)

Transfer:

A.A.-T in Music for Transfer

Non-Transfer:

Certificate(s)

Employment Concentration Certificate(s)

PROGRAM DESCRIPTION

The music program is designed with two ends in mind—to prepare students to transfer to music major programs at four-year institutions, and to develop the skills and knowledge to pursue activities in the music profession. The A.A.-T in Music for
Transfer provides students with preparation in the areas of music theory, musicianship, individual performance (applied music), and ensemble performance. These skills and abilities can also be used for integration into other majors, such as multi-media, early childhood, and audio technology.

The areas of study presented in the music program are designed to align with the required areas prescribed by transfer institutions. Specifics required to transfer differ among many public and private four-year institutions, so students in the music department are encouraged to work with the institution to which they wish to transfer to ensure they complete all of the required courses. These requirements frequently exceed the requirements established for the associate degree in music. Many universities require diagnostic, or placement exams to determine a student’s level of preparation in the various areas of music instruction. Students are recommended to develop piano skills in MUS 111 and 112, to participate in applied music during every semester of enrollment at the college, and to take courses in music history and appreciation (MUS 100, 106, 107, 108, and 109).

**CAREER OPPORTUNITIES**

**Transfer A.A. Degree(s)**

For any BA/BS careers, please see your transfer institution.

**TRANSFER PREPARATION**

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

**LEARNING OUTCOMES**

- Build performance skills in instrumental music, voice, piano, and/or guitar.
- Discover how musical works are composed through the study of foundational elements: melody, harmony, rhythm, form, instrumentation, and texture.
- Develop an awareness of the aesthetic values in music and the roles music plays in the aesthetics of various time periods, styles, and world regions.
- Explore how music has evolved throughout history, and in specific styles and world regions.
- Explore various career paths in music and the expectations of each field.
- Enrich the community through interaction in the Arts.

**RELATED-CONTENT GROUPS**

(4 attempts within a related-content group/each course 1 time for credit)

**Group Lessons (MUS-114, 115, 116, 125, 127, 150)**

**Keyboard Skills (MUS-111, 112)**

**Musicianship (MUS-175, 176, 177, 178)**

**DEGREE**

An Associate in Arts in Music for Transfer will fulfill the requirements for students to transfer to a CSU institution as a Music major. The courses in the A.A.-T in Music for Transfer degree give students the basic skills and abilities in music to prepare them for involvement in musical activities and careers in performance, education, composition, and other related fields.

The major requirements for an A.A.-T in Music for Transfer to CSU may be met by:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.

**A.A.-T in Music for Transfer (22 units)**

**Required Core: (16 units)**

60 units

Note: Every effort has been made to keep program information current. Please use this information as a guide and consult with the chair of the department/program or an MSJC counselor.
This Associate in Arts in Music for Transfer degree is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.

**Program Description**

The Musical Theatre Program is a non-transfer program offering an A.A. in Musical Theatre and a Certificate in Musical Theatre. The Musical Theatre Program at MSJC gives the serious student an opportunity to commit to an active and challenging program of class work and play production in a small liberal arts college environment in addition to providing students a path to facilitate matriculation to a four-year college. For many individuals currently working within these fields there may be potential for career advancement.

**Career Opportunities**

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

**Non-Transfer Degree**

Director, Actor, Entertainer

With further education:
- Scenic and Lighting Designer, Costume Designer, Stage Manager, Children's Theater Director, Theater Management Specialist, Theatre Arts Instructor, Music Instructor, Dance Instructor, Agent, Playwright

**Certificate**

Director, Actor, Entertainer

With further education:
- Scenic and Lighting Designer, Costume Designer, Stage Manager, Children's Theater Director, Theater Management Specialist, Theatre Arts Instructor, Music Instructor, Dance Instructor, Agent, Playwright

**Transfer Preparation**

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

**Learning Outcomes**

- Develop an appreciation for theatre through critical analysis of the performing arts.
- Develop an aesthetic awareness through theater.
- Develop essential skills in the craft of theater.
- Develop knowledge regarding the cultural, artistic and expressive contexts of theater.
- Develop skill and gain experience in musical performance.
**DEGREE**

In addition to the 22 units of the certificate program in Musical Theater, students must also complete all MSJC General Education Option A requirements (a total of 60 units) for the Associate in Arts Degree in Musical Theater.

**CERTIFICATE**

Certificate in Musical Theater (22 units)

**PROGRAM DESCRIPTION**

The Associate in Science degree in Registered Nursing provides courses that are transferable to four year colleges and universities. The program is accredited by the California State Board of Registered Nursing. Graduates are eligible to take the National Council Licensure Examination (NCLEX). The program pass rates are consistently above the state and national averages.

The Associate in Science degree in Nursing is a 78-unit degree program which requires four semesters (40 units in nursing) of study beyond completion of prerequisite courses. In addition, Mt San Jacinto College offers a LVN-RN articulation option for completion of the Associate in Science degree in Nursing or a non-degree 30-unit option.

**CAREER OPPORTUNITIES**

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)
Health care providers, especially new graduate nurses, are positioned in this nation to have excellent employment opportunities especially with the Affordable Care Act. The Inland Empire continues to build health care facilities to provide care for the increase in population.

Health care reform and changes to legislation regarding health care has a direct impact on nursing. According to the Institute of Medicine, registered nurses will be in demand with a projected number of 500,000 employment opportunities nationwide by 2016.

**TRANSFER PREPARATION**

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

**LEARNING OUTCOMES**

- Prepare to take and pass the NCLEX State Board Examination utilizing the concept of the current NCLEX Test Plan.
- Prepare for entry level jobs in nursing practice settings utilizing the concept of: therapeutic written, oral, and nonverbal communication skills; critical thinking and the nursing process to direct and manage client care; drug and intravenous therapy for promoting a safe, effective care environment; growth and development and socio-cultural to view the client as a holistic person; and evidence-based practices and principles of education to promote, maintain, and restore optimum health for clients with acute and chronic alterations in health.
- Act as a professional Registered Nurse by utilizing professional nursing ethics and accepted standards of care to comply with the scope of practice as defined by the Board of Registered Nursing in the state of California.

**DEGREE**

Note: Graduates from the A.S. in Nursing Program meet the requirement of Physical Education and Healthful Living.
LVN to RN Transition
[Degree/Non-Degree Candidate]

Students choosing this option are Licensed Vocational Nurses (LVN’s) or Licensed Practical Nurses (LPN’s) who would be eligible to enter the third semester of the Associate in Science in Nursing program after completing the recommended LVN to RN Transition courses. Students can opt to meet all of the requirements for the Associate in Science in Nursing degree (degree candidate) or to satisfy the course requirements for only those courses that are required by the California State Board of Registered Nursing as content required for RN licensure (non-degree candidate). Students can apply for advanced placement if he/she has completed courses at another college. Students will be admitted once a year in the fall semester.

LVN to RN Transition [Degree Candidate]

Admission Requirements:
30.5 units of course work

Prerequisites:
(For admission into the third semester of the program)
Minimum cumulative college level GPA of 2.5 on 4.0 scale with a grade of “C” or better in the following courses:

Required Prerequisites (30.5 units)
ANAT-101 Human Anatomy & Physiology I 5 units
ANAT-102 Human Anatomy & Physiology II 5 units
BIOL-125 Microbiology 5 units
or
BIOL-125H Honors Microbiology 5 units
ENGL-101 Freshman Composition 4 units
or
ENGL-101H Honors Freshman Composition 4 units
MATH-096 Intermediate Algebra 5 units
NURS-072 Basic Medical Surgical Nursing Skills Lab .5 unit
NURS-232 Role Transition 3 units
PSYC-101 Introduction to Psychology 3 units
or
PSYC-101H Honors Introduction to Psychology 3 units

LVN, licensed in California or proof of LVN program graduate awaiting licensure.

3rd Semester (10.5 units):
NURS-073 Intermediate Nursing Skills Lab 0.5 units
NURS-234 Intermediate Medical-Surgical Nursing III 5 units
NURS-236 Mental Health Nursing 3 units
NURS-238 Gerontology and Community Nursing 2 units

4th Semester (7 units):
NURS-074 Advanced Nursing Skills Lab 0.5 units
NURS-244 Advanced Medical-Surgical Nursing IV 4 units
NURS-248 Preceptorship 2.5 units

Additional Associate Degree and Requirements:
(9 units)
Political Science 101 (B1) 3 units
Communication 100 or 103 (D2) 3 units
Humanities/Multicultural Gender Studies (Any course from Area C (Humanities) or Area F (Multicultural Gender Studies) Many courses will satisfy both requirements: 3 units
(See the MSJC General Education Breadth Pattern)

Note: Graduates from the A.S. in Nursing Program meet the requirement of Physical Education and Healthful Living.

LVN to RN [30 Unit Non-Degree Option]

Students choosing this option are Licensed Vocational Nurses (LVN’s) or Licensed Practical Nurses (LPN’s) who would be eligible to enter the third semester of the program after the LVN to RN Transition course (NURS-232). Students can opt to meet all of the requirements of the Associate Degree in Science in Nursing degree (degree candidate) or to satisfy the course requirements for only those courses that are required by the California Board of Registered Nursing as the content required for RN licensure (non-degree candidate). Students can apply for advanced placement into the LVN-RN option if he/she has completed courses at another college. This student will be required to satisfy 30-semester units in nursing and physical sciences in order to qualify them to apply for RN licensure in California. This option is recognized only in the state of California. Students will be admitted once a year in the fall semester.

Admission Requirements:
High School graduate (or equivalent)

Prerequisites:
Minimum cumulative college level GPA of 2.5 on 4.0 scale with a minimum grade of “C” in the following courses:

ANAT-104 Survey of Human Anatomy and Physiology 5 units
BIOL-125 Microbiology 5 units
or
BIOL-125H Honors Microbiology 5 units
NURS-072 Basic Medical Surgical Nursing Skills Lab .5 unit
NURS-232 Role Transition 3 units

LVN, licensed in California or proof of awaiting licensure.

Note: Special Projects (299’s) can be arranged for individuals who have exceeded the 7 year recency requirements for ANAT-101, ANAT-102, and BIOL-125.

Nursing Courses

3rd Semester:
NURS-234 Intermediate Medical-Surgical Nursing III 5 units
NURS-236 Mental Health Nursing 3 units
NURS-238 Gerontology and Community Nursing 2 units

4th Semester:
NURS-244 Advanced Medical-Surgical Nursing IV 4 units
NURS-248 Preceptorship 2.5 units

PROGRAM DESCRIPTION

Philosophy courses provide lower division preparation for those who plan to major in Philosophy at a university. Comprehensive survey course content along with substantive courses in logic, ethics and comparative religion are designed to acquaint students with the distinctive nature of philosophical ideas and to help increase skills in critical thinking about matters of fundamental philosophical concerns, the nature of correct reasoning, the scope and limits of human knowledge, the generic and pervasive characteristics of reality and the sources of value and obligation. Philosophy courses meet general education requirements and also provide a foundation of lifelong learning.

CAREER OPPORTUNITIES

Transfer Degree

For BA/BS careers, please see your transfer institution.

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Identify and assess the central figures, questions and themes of philosophy.
- Analyze and assess arguments and approaches to philosophical problems.
- Articulate and defend complex arguments using written and oral communication.

DEGREE

An Associate in Arts in Philosophy for Transfer degree will fulfill the requirements for students to transfer to the CSU System as a Philosophy major. Logic and critical thinking courses provide students with an ability to analyze arguments, assess philosophical questions, and to read and think critically. History of philosophy and ethics classes guide students to an understanding of the central figures, questions, and themes throughout the history of philosophy. All courses seek to develop and enhance students’ abilities to think critically about texts and philosophical ideas and to articulate and defend arguments through both written and oral academic discourse.

The major requirement for an A.A.-T in Philosophy for Transfer to CSU may be met by:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.

A.A.-T in Philosophy for Transfer (18-21 units)

Required Core (6 units)

PHIL-101 Introduction to Philosophy 1 3 units
or
PHIL-101H Honors Introduction to Philosophy I 3 units
PHIL-103 Logic 3 units
or
PHIL-103H Honors Logic 3 units

List A: Select one (3-4 units)

Any course from Required Core not used above or one of the following:

PHIL-109 Ancient and Medieval Philosophy 3 units
PHIL-110 Renaissance and Modern Philosophy 3 units
PHIL-112 Critical Thinking and Composition 4 units
or
PHIL-112H Honors Critical Thinking and Composition 4 units

Note: Every effort has been made to keep program information current. Please use this information as a guide and consult with the chair of the department/program or an MSJC counselor.
List B: Select two (6-7 units)
Any course from List A not used above or one of the following:

- HIST-101 Western Civilization I: to 1500 3 units
- HIST-102 Western Civilization II: from 1500 to the Present Era 3 units
- PHIL 104 World Religions 3 units

List C: Select one (3-4 units)
Any course from List A or List B not used above or one of the following:

- ENGL-103 Critical Thinking and Writing 4 units
- ENGL-103H Honors Critical Thinking and Writing 4 units

Units for Major 18-21
CSU General Education or IGETC Pattern 37-39
Possible double counting 12
Transferable Electives (as needed to reach 60 CSU transferable units)
Total Units for A.A.-T Degree 60 units

This Associate in Arts in Philosophy for Transfer degree is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.

**PROGRAM DESCRIPTION**

The MSJC Photography program offers non-transfer certificate and Associate degree opportunities that respond to new-media industry standards in the digital paradigm. This immersive path of study includes extensive technical and creative production guidance and skill sets. The career-oriented student will study the ubiquitous nature of photographic visual communication while gaining a comprehensive understanding of digital photography workflow and digital asset management.

The digital fixing of the photographic image with electronic light sensors and computer software rivals milestones in history like the invention of paper, the printing press, or chemistry-based image fixing. Extinct is hand calligraphy in advertising, illuminated manuscripts in printing or the emulsion-based image on tin, for example. Emulsion-based photography has methodically given way to a digital era in image production – an evolution akin to dinosaurs evolving into birds – only faster. For these reasons a versatile and truly state-of-the-art digital studio, light room, and imaging lab has been designed and constructed to facilitate the photography department’s industry-responsive digital curriculum. Beginning through advanced students will avail themselves of a 1,325 square foot digital imaging studio with high ceilings and versatile photographic environments - all networked to a digital light room and other adjoining learning facilities.

Students will benefit from hands-on exposure to real-world tools. These tools are fast, high-resolution capture, manipulation and output devices that will allow students to fully explore the photographic realm. For individuals currently working within these fields, there may be potential for salary and/or career advancement.

---

**CAREER OPPORTUNITIES**

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

**Non-Transfer Degree**
Free Lance Photographer, Studio and Location Photographer

**Certificate**
Free Lance Photographer, Studio and Location Photographer

**TRANSFER PREPARATION**

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

**LEARNING OUTCOMES**

- Demonstrate professional-level understanding of exposure essentials and photographic principles.
- Employ current photographic workflow and skill sets in the digital paradigm.
- Demonstrate the ability to analyze, evaluate, synthesize, and defend photographic production techniques in the studio and on location.
• Conceptualize and produce creative photographic solutions to client and self-assigned photographic challenges.
• Have knowledge of a historical perspective of photography and significant photographers.

**DEGREE**

The major requirement for an Associate in Science degree in Photography may be met by completing the core photography curriculum and any electives totaling 18 units and meeting all other MSJC General Education Option A requirements.

**CERTIFICATE**

Certificate in Photography (18 units)

**Program Description**

The Physical Education Department offers a non-transfer degree program. It offers extensive courses including fitness and activity courses, and theory courses to increase understanding of competitive sports.

Physical Education is both an activity curriculum and an academic area of study emphasizing the physical and psychological aspects of human movement and performance. Exercise, activity and sports are an important component in the development of well-rounded individuals interested in physical and mental well-being and the productive use of leisure time.

**Career Opportunities**

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

**Non-Transfer Degree**

- Coaching, Referee, Umpire, Events Broadcasting, Scouts, Sports, Competitor, Amusement and Recreation Attendant, Recreation and Fitness Worker, Recreation Industries
TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four-year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Explore and prepare for educational and career options in Physical Education, Kinesiology, Exercise Science, Nutrition, and Athletic Coaching.
- Explore the anatomical, biomechanical and physiological components of human movement.
- Design and perform a safe and appropriate exercise program to increase and measure the five components of fitness (cardiovascular endurance, muscle strength, muscle endurance, flexibility, body composition) for diverse populations.
- Design and perform a safe and appropriate practice program to increase and measure the six components of sport performance (agility, balance, ordination, speed, reaction time and power) for diverse populations.
- Apply the principles of exercise testing and prescription to customize the principles of exercise, nutrition, and behavioral modification to create a long-term sustainable healthy lifestyle.
- Demonstrate proficiency, knowledge, skills and abilities to compete in various individual and team sports as an athlete, official, or a coach.
- Develop the body, mind, social connections and spirit through human movement.
- Develop and write an effective plan of initial treatment, rehabilitation, and preventative care for common athletic injuries and other emergency situations.
- Examine and critique scientific literature, exercise methods, services and products, and understand and synthesize relevant information from it, and be able to convey findings both orally and in writing.

PROGRAM DESCRIPTION

Political Science is the study of politics that examines the relationship of citizens to government, the interaction of different governments, and the acquisition and use of political power. Those who major in political science at a four year university or college might work for a government agency, run for political office, manage a political campaign, go to law school, or teach.

LEARNING OUTCOMES

• Analyze and critique current political topics and issues.
• Analyze and evaluate the behavior of political institutions, organizations, and individuals.
• Evaluate the validity of their political opinions and the opinions of others.
• Engage in political participation, including but not limited to, participation in community and political organizations.

DEGREE

An Associate in Arts degree in Political Science for Transfer will fulfill the requirements for students to transfer to a four-year college or university as a Political Science major.

The major required for an A.A.-T in Political Science for Transfer may be met by:
• Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
• The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
• A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
• Obtainment of a minimum grade point average of 2.0.

- Total Units for A.A.-T Degree: 60 units

This Associate in Arts in Political Science for Transfer degree is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.

---

**Program Description**

The Psychology program at MSJC is designed to develop skills and knowledge consistent with the study of psychology in a multicultural, global context. Successful students will master the writing, reading and research skills required for psychology inquiry and provide the necessary background to be successful in the major at the university level.

**Career Opportunities**

**Transfer Degree**

For BA/BS careers, please see your transfer institution.

**Transfer Preparation**

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four-year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

**Learning Outcomes**

- Apply the various psychological theories and concepts, including personality theory, consciousness, learning theory, and others, to our own personal and professional lives.
- Develop a tolerance, acceptance, and appreciation of the diversity of others’ thoughts, backgrounds, and self-concepts.
- Explore various topics and concepts within psychology, and integrate these into a whole concept of individuals and groups.
- Apply the learning outcome goals provided by the American Psychological Association.

**Degree**

The Associate in Arts in Psychology for Transfer degree is designed to fulfill the undergraduate requirements for students planning to major or minor in psychology or transfer to the CSU system. The patterns of courses offered for the degree are designed to prepare students to study, understand and to think critically about behavior and mental processes of humans and other organisms under a scientific paradigm. The areas of study encompasses consciousness, cognition, motivation and emotion, human development, the psychobiological foundations of behavior, the nature of psychological disorders, and the
application of psychological principles to promote the quality of people’s lives founded on sound psychological models and research.

The major requirements for an A.A.-T in Psychology for Transfer to CSU may be met by:

- Completion of 60 semester units or 90 quarter units that are eligible for transfer to the California State University.
- The Intersegmental General Education Transfer Curriculum (IGETC) or the California State University General Education-Breadth Requirements.
- A minimum of 18 semester units or 27 quarter units in a major or area of emphasis, as determined by the community college district.
- Obtainment of a minimum grade point average of 2.0.

This Associate in Arts in Psychology for Transfer degree is intended for students who plan to complete a bachelor’s degree in a similar major at a CSU campus. A student completing this degree is guaranteed admission to the CSU system, but not a particular campus or major. Students should meet with a counselor to develop an educational plan and receive university admission and transfer requirements.

PROGRAM DESCRIPTION

The MSJC Real Estate program offers the opportunity to earn a non-transfer certificate or degree. This program also provides the educational requirements for the real estate broker's license and real estate salesperson's license (issued by the State of California Department of Real Estate). Coursework prepares students for work in this dynamic profession. Essential success skills are emphasized including: ethics, professionalism, sales, financing, property valuation, law, and economics.

For individuals currently working within these fields, there may be potential for salary and/or career advancement.

CAREER OPPORTUNITIES

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Entry level career positions in real estate include sales agent, rental agent, property manager, escrow officer, and loan officer. Appraiser, real estate broker, mortgage broker and land developer are specializations within the industry.

Non-Transfer Degree
Real Estate Salesperson

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

• Apply the basic principles of California real estate regulations and laws.
• Demonstrate and differentiate best practices in real estate transactions.
• Describe the ethical standards and responsibilities of real estate professionals.
• Analyze and justify the basic principles of real estate property valuation.
• Identify key real estate terms and procedures.

DEGREE

An Associate in Science degree in Real Estate is available to students completing the 24 unit certificate in Real Estate and completing all other MSJC General Education Option A requirements for a total of 60 units. See a counselor for recommended vocational and academic courses.

EMPLOYMENT CONCENTRATION

Real Estate Appraisal (9 units)
- RE-144 Basic Appraisal Principles and Procedures 3.5 units
- RE-155 Residential Real Estate Appraisal 3.5 units
- RE-156 Residential Appraisal Report Writing 1 unit
- RE-157 Uniform Standards of Professional Appraisal Practice (USPAP) 1 unit

Completion of these courses meets the Appraiser Qualifications Board (AQB) 2008 basic education requirements for the OREA Trainee (AT) or Residential (AL) license.

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

- Analyze real or potential problems and develop, evaluate, and test possible solutions and hypotheses using the scientific method where appropriate.
- Analyze and evaluate alternative points of view and accurately interpret evidence, statements, graphics, questions etc.
- Analyze and explain issues in quantitative terms using college-level mathematical concepts and methods, where appropriate.
- Apply their knowledge and skills to new and varied situations.
- Apply technology competently, selecting and using tools appropriate to the task.
- Explore complex issues and discover the connections and correlations among ideas to advance toward a valid independent conclusion.

DEGREE

Satisfactory completion of Mt. San Jacinto College’s General Education Requirements Option A, 60 degree-applicable units, at least 2 science lab classes including at least 18 units in Area A.

PROGRAM DESCRIPTION

This non-transfer interdisciplinary degree offers a range of coursework to prepare students who want to explore the world of science at the introductory level. The Science major courses will work as lower division major preparation for specific transfer degrees in biological sciences, botany, ecology, genetics, environmental sciences, physiology, chemistry, toxicology and medicine – all fields. Many science courses are also required for engineering fields. For additional information, please see an MSJC counselor.

**Learning Outcomes**

- Analyze the historical and philosophical foundations of the United States and California constitutions.
- Analyze and critique the theory and practice of the politics and government of the United States and California.
- Analyze and critique current political topics and issues.
- Examine the historical development of issues pertaining to race, gender, and immigration; and explain the legislative actions taken in response to them at the federal and state level.
- Analyze how historical developments have affected the rights, responsibilities, and choices of modern US citizens.
- Examine complex issues and discover the connections and correlations among ideas to advance toward a valid independent conclusion.
- Analyze real or potential problems and develop, evaluate, and test possible solutions and hypotheses using the scientific method where appropriate.
- Evaluate information by selection and using appropriate research methods and tools.
- Develop individual responsibility, personal integrity, and respect for diverse people and cultures.

**Degree**

Satisfactory completion of Mt. San Jacinto College’s General Education Requirements Option A, 60 degree-applicable units including at least 18 units in Area B.

**Program Description**

This non-transfer interdisciplinary degree offers a range of coursework to prepare students who want to explore the social and behavioral sciences as a foundation of lifelong learning, or as an introduction to the related fields of Sociology, Psychology, Anthropology, Economics, History, Social Sciences and Political Science. For additional information, please see an MSJC counselor.

**Transfer Preparation**

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Human Services (ECC.SOCI.HUMAN.SVCS)

Program Description
The sociology program at Mt. San Jacinto College is designed to benefit students pursuing transfer or non-transfer preparation or certificate programs in preparation and careers in sociology or related social sciences, as well as students pursuing personal understanding of group interaction and social institutions.

Sociology is the systematic study of the development, structure, interaction and collective behavior of organized human beings, social structure and social institutions. Sociologists examine the patterns and arrangement of societies, the processes through which they develop and change and the interplay between these patterns and processes in the behavior of individuals and institutions.

Career Opportunities
All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

In addition to the 21 units of the major coursework, students must complete all MSJC General Education Option A requirements for the Associate in Arts (AA) degree in Theater Arts.

A.S. in Technical Theater (18 units)

In addition to the 18 units of the certificate program in Technical Theater, students must complete all MSJC General Education Option A requirements for the Associate in Science degree in Technical Theater.

The Certificate/Associate in Science (AS) degree program in Technical Theater will prepare students for a career in performing arts productions specifically entailing set construction, lighting rigging, costume construction, makeup application, and sound recording and reproduction. Students will develop practical and aesthetic skills necessary for employment in scene shops, costume shops, and recording studios in professional theaters, college theaters, film-television studios, theme parks, and other venues. Students will also build the foundation necessary for transfer to a baccalaureate program or related field of study.

PROGRAM DESCRIPTION

The non-transfer Certificate/Associate degree (AS) in Turf & Landscape Management is primarily designed to prepare the student for entry into careers associated with golf course management and turf management. This program specifically provides students with a strong foundation in turf management,
**Instructional Programs**

**Note:** Every effort has been made to keep program information current. Please use this information as a guide and consult with the chair of the department/program or an MSJC counselor.

**Water Usage, Fertility, Soils, Horticulture and Human Resource Management for Golf Courses, Recreational Parks, Sports Fields and General Landscape Areas.** This program also prepares students to enter the job market as a golf course superintendent, field crew supervisor, irrigation technician, equipment manager, grounds person for parks, cities, and school districts, or field crew foreman for landscape contractors. The Certificate/Associate degree (AS) program in Turf & Landscape Management prepares students with the technical and analytical skills necessary for managing a golf course or turf/horticultural area. For individuals currently working within these fields, there may be potential for salary and/or career advancement.

**Career Opportunities**

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

**Non-Transfer Degree**

First-Line Supervisor/Manager of Landscaping, Lawn Service, Grounds Maintenance Worker, Pesticide Handler, Sprayer, Applicators

**Certificate**

First-Line Supervisor/Manager of Landscaping, Lawn Service, Grounds Maintenance Worker, Pesticide Handler, Sprayer, Applicators

**Employment Concentrations**

First-Line Supervisor/Manager of Landscaping, Lawn Service, Grounds Maintenance Worker, Pesticide Handler, Sprayer, Applicators

**Transfer Preparation**

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

**Learning Outcomes**

- Demonstrate knowledge of soil profiles, soil nutrients, water sources and industry practices, i.e. soil testing to solve problems involving soil compaction, lack of proper nutrients, and improper watering practices.
- Inventory career and professional opportunities in the green industry.
- Compare and contrast procedures used in soil test and plant selection and uses.
- Discover and employ basic botanical vocabulary and style to evaluate plant, soil, and water problems.
- Compare and contrast the growth and development pattern of plants.
- Assemble and synthesize information regarding plant, soil, water, air, and organisms as they relate to maintenance of golf courses and other landscape projects.

**Degree**

An Associate in Science (AS) degree may be earned by completing the 18 unit certificate requirements in Turf & Landscape Management and all MSJC General Education Option A requirements.

**Certificate**

The Turf & Landscape Management certificate includes 9 units of foundational courses and 9 units of elective courses per employment concentration.

**Certificate in Turf & Landscape Management (18 units)**

Viticulture, Enology and Winery Technology Concentration

PROGRAM DESCRIPTION

The Viticulture, Enology and Winery Technology is a program that introduces the student to a variety of disciplines included in the winemaking industry. From basic winemaking (enology), grape cultivation (viticulture), event organization and service (hospitality) to marketing and selling of wine (business principles). This program seeks to inform the student at an introductory level to the many fields encompassing the winery industry.

CAREER OPPORTUNITIES

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Employment Concentration

Winery Production Worker, Formal Waiter/Waitress, Head Waiter/Waitress, Host/Hostess, Restaurant Host/Hostess, Wine Steward, Wine Sommelier

TRANSFER PREPARATION

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four-year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

LEARNING OUTCOMES

• Define and understand viticulture terminology and identify morphology.
• Identify and understand the difference between grape species including Vitis vinifera and hybrids.
• Describe modern vine training and trellis systems and how they impact vine growth and management.
• Understand the causes of poor fruit set and berry development.
• Define vine balance and understand the link between reproductive and vegetative potential of the vine on end fruit quality.
• Identify site characteristics needed for successful commercial wine grape production based on vine physiology.
• Interpret information learned in lecture for use in critical thinking during discussion and journal article review.

EMPLOYMENT CONCENTRATION

Viticulture, Enology and Winery Technology (12 units)

VEW-100 Introduction to Viticulture 3 units
VEW-102 Introduction to Enology 3 units
VEW-106 Hospitality in the Winemaking Industry 3 units
VEW-108 Introduction to Winery Business Principles 3 units

Note: Every effort has been made to keep program information current. Please use this information as a guide and consult with the chair of the department/program or an MSJC counselor.
Water Technology

Dean of Instruction, Career Education & Categorical
Programs (951) 639-5352

Program Description

Water Technology is a career oriented non-transfer vocational program offering courses leading to a certificate and/or an Associate degree. The Water Technology program at MSJC emphasizes a real world approach to diagnostic skill building and a thorough understanding of system theory and operations. Professionalism, workplace skills and responsibilities are stressed along with safety and an awareness of hazardous materials control. Graduates are primarily employed by cities, counties, federal agencies and industry that operate and maintain water treatment, water distribution, wastewater collection and/or wastewater treatment systems. They may also find employment in support roles such as equipment sales. For individuals currently working within these fields, there may be potential for salary and/or career advancement.

Career Opportunities

All career opportunities listed are representative careers in each field. There are no guaranteed positions for students completing these programs. (See: www.onetonline.org)

Our courses can directly prepare our students to take the following certification tests: Water Distribution Water Operator certification (Grades 1-5 ), Water Treatment Plant Operator (Grades 1-5 ) The tests are administered by the state independent of our classes.

Non-Transfer Degree

Water Distribution Operator, Water Treatment Operator, Wastewater Treatment Operator, Mechanics, Customer Service Representative, Utility Personnel, Conservation Technician, Meter Readers

Certificate

Water Distribution Operator, Water Treatment Operator, Wastewater Treatment Operator, Mechanics, Customer Service Representative, Utility Personnel, Conservation Technician, Meter Readers

Transfer Preparation

MSJC offers a range of course work to prepare students to transfer to four-year colleges and universities. Courses that fulfill major requirements for an associate degree in this program might not be the same as those required for transfer into the major at a four year university. All four-year institutions prescribe their own standards for course evaluation and admissions. Prospective transfer students are advised to research careers, degrees and majors in the Career/Transfer Center, access www.assist.org, review the MSJC catalog and meet with a counselor to expedite their transfer plan.

Learning Outcomes

• Follow safe practices in the laboratory and in plant operations.
• Apply chemical, microbiological and mechanical knowledge and skills to maintain proper plant operations.
• Apply math and hydraulics skills in proper water and wastewater plant, collection system and distribution system operations.
• Understand regulations and operate plant accordingly.
• Interact effectively in oral and written communication.
• Use computers in water and wastewater plant operation.
• Demonstrate work ethic and model professional interaction with the public.

Degree

The 18 units in the certificate plus all MSJC General Education Option A requirements for a total of 60 units is required to earn an Associate in Science degree in Water Technology. See counselor for recommended vocational and academic courses.
### Certificate

**Certificate in Water Technology (18 units)**

#### Required Core Courses (3 units)
- **WATR-100** Introduction to Water/Wastewater Operations 1 unit
- **WATR-090** Basic Waterworks Mathematics 2 units

#### Elective Courses (any 15 units)
- **WATR-103** Water Treatment Plant Operations I & II 3 units
- **WATR-105** Water Treatment Plant Operations III, IV & V 3 units
- **WATR-107** Water Distribution I & II 3 units
- **WATR-109** Water Distribution III, IV & V 3 units
- **WATR-120** Wastewater Treatment Plant Operations I & II 3 units
- **WATR-122** Wastewater Plant Operations III, IV & V 3 units
- **WATR-125** Laboratory Procedures for Water and Wastewater 3 units
- **WATR-130** Environmental Laws and Regulations 3 units
- **WATR-140** Wells, Pumps and Motors 3 units
Course Descriptions

AJ-101  3 units
Criminal Law  LEC 48-54
This course studies the history, philosophy, constitutional provisions of
law, and the classification of crimes. This course also examines the
application of criminal law in the criminal justice system through
review of case-law, methodology, and concepts of law in society. Course
material also categorizes and evaluates specific crimes and analyzes the
most frequently used sections of the Penal Code. Prerequisite: None. Recommended Preparation: ENGL-062.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--Transfers to CSU only
--C-ID AJ 120

AJ-102  3 units
Introduction to Criminal Justice  LEC 48-54
(formerly Introduction to Law Enforcement)
This course introduces students to the components of the criminal
justice system in the United States. Crime measurement, theories on
the causes and responses to crime, components of the system, and current
challenges are examined. The course also examines the evolution of the
principles, approaches, and the evolving forces which have shaped the
criminal justice system.
Students discover the origins and development of criminal law, legal process, and sentencing and incarceration policies.
Prerequisite: None. Recommended Preparation: ENGL-062.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--CSU Area(s): D8

AJ-103  3 units
Criminal Evidence  LEC 48-54
This course provides fundamental information about the rules governing
the admissibility of evidence in court. The essential information includes
rules of evidence, presumptions and inferences, character or reputation, proof of other acts and offenses, hearsay evidence,
statements, admissions and confessions, conspiracy, documentary and
best secondary evidence. Identification of evidence in criminal cases
and the collection and preservation of evidence are also examined.
Prerequisite: None. Recommended Preparation: ENGL-062.
--Transfers to CSU only
--C-ID AJ 124

AJ-105  3 units
Public Safety Report Writing  LEC 48-54
This course provides the student with skills to communicate effectively
in a clear and logical manner in a critical area in public safety. This
course is highly recommended by hiring agencies for all public safety
personnel due to the factual nature of the reports and other written
and verbal expression required in the profession. Prerequisite: None. Recommended Preparation: ENGL-062.
--Transfers to CSU only

AJ-106  3 units
Juvenile Procedures  LEC 48-54
This course describes the philosophy of juvenile law and detention. The
knowledge and application of laws defined in the Welfare and Institution
Codes, Civil Code and other special and relevant laws affecting youth
are clarified as well as investigation into the causes and assertions
regarding juvenile delinquency. Techniques of investigation into
incorrigible, dependent and delinquent juveniles, and the correlation of
drugs and their abuse regarding juvenile delinquency are also discussed.
Prerequisite: None. Recommended Preparation: ENGL-062.
--Transfers to CSU only
--C-ID AJ 220

AJ-108  3 units
Criminal Investigation  LEC 48-54
This course addresses the techniques, procedures, and ethical issues in
the investigation of crime. Focus is on organization of the investigative
process, crime scene searches, interviewing and interrogating,
surveillance, source of information, evidence utility, scientific analysis
and the role of the investigator in the trial process. Prerequisite: None. Recommended Preparation: ENGL-062.
--Transfers to CSU only
--C-ID AJ 140

AJ-109  1.5 units
Interview and Interrogation Techniques  LEC 24-27
This course provides students with a review of the techniques for
effective interviewing and interrogation. This course also includes
an examination of case-law that relates to the admissibility in court
of solicited statements in order to comply with the 4th, 5th and 14th
Amendment requirements. Prerequisite: None. Recommended Preparation: ENGL-062.
--Transfers to CSU only

AJ-110  1.5 units
Crime Scene Sketching and Note Taking  LEC 24-27
This course presents the fundamentals of accurate techniques for
searching patterns, crime scene sketching, diagrams and effective note
taking. Focus will be directed at analysis and evaluation of methods
of crime scene measurements, map legends, interviewing techniques,
as well as preparation for courtroom presentation. An overview of the
latest technology in this area will also be explored. Prerequisite: None. Recommended Preparation: ENGL-062.
--Transfers to CSU only

AJ-111  3 units
Criminal Procedures  LEC 48-54
This course covers criminal procedures from arrest to the final
adjudication of the case. The principles of constitutional, federal, state
and civil laws are examined as they apply to law enforcement. The course
also focuses on the procedural aspects of the court system from the
arraignment, preliminary hearing, jury selection, trial, jury instructions,
acquittal or finding of guilt and sentencing. Other procedural topics
such as direct and cross examination are also examined. Prerequisite: None. Recommended Preparation: ENGL-062.
--AA/AS General Education: AA/AS B2
--Transfers to CSU only
--CSU Area(s): D8
--C-ID AJ 122

AJ-112  3 units
Introduction to Criminology  LEC 48-54
This course is the study of crime in America including theories of the
causes of criminal behavior, nature, extent, control and prevention
of crimes. It focuses on the person and the group, criminal behavior
systems, police behavioral response to criminal activity and its nature
and causes. Prerequisite: None. Recommended Preparation: ENGL-062.
--Transfers to CSU only

AJ-115  3 units
Introduction to Probation and Parole  LEC 48-54
This course provides the history and role of probation and parole and its
interaction with the various components of the criminal justice system.
The course will include the history and duties of probation officers and
parole agents and their supervision of the probationer and parolee in the
community. Prerequisite: None. Recommended Preparation: ENGL-062.
--Transfers to CSU only

**AJ-118** Community and the Justice System

This course examines the complex, dynamic relationship between communities and the justice system in addressing crime, including the conflicts, challenges, and prospects of administering justice within a diverse multicultural population. Topics may include the consensus and conflicting values in culture, religion, and law. Prerequisite: None. Recommended Preparation: ENGL-062.

--Transfers to both UC/CSU
--C-ID AJ 160

**AJ-125** Vice and Narcotics Control

This course provides the history and statutory case laws that relate to narcotic and vice enforcement. The identification and definitions of narcotic drugs and addiction, gambling, prostitution, pornography and alcohol violations will be examined. This course also examines the relationship linking narcotics and vice to organized crime and the negative impact on the community. Prerequisite: None. Recommended Preparation: ENGL-062.

--Transfers to CU only

**AJ-128** Traffic Control, Enforcement and Investigation

This course is designed to prepare the student to understand the basic concept of traffic flow, traffic index, control and enforcement as well as factors contributing to the problem. The causal factors of accidents, their investigation, proper scene management, relevant factors of prevention, and the study of vehicle code laws including inventory, storage and seizure of vehicles will also be examined. Prerequisite: None. Recommended Preparation: ENGL-062.

--Transfers to CU only

**AJ-149** Occupational Internship: Administration Of Justice

The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.

--Transfers to CU only

**AJ-299** Special Projects: Administration Of Justice

Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Administration of Justice classes; a contract must be completed with the instructor prior to enrollment.

--Transfers to CU only

**CORR-101** Introduction to Correctional Science

This course provides an overview of the history and trends of corrections. It focuses on the legal issues, statutory law, and general operations in correctional institutions. The relationship between corrections and other components of the Criminal Justice System are examined as well as employment opportunities and entry requirements in the Correctional Science field. Prerequisite: None. Recommended Preparation: ENGL-062.

--C-ID AJ 200

**CORR-102** Control and Supervision in Corrections

This course provides an overview of the methods, practices, and theory related to custodial supervision of incarcerated persons in Federal, State, and local correctional facilities. The course examines and considers the issues of custodial control and the interaction between the offender and the correctional employee. Other topics include the effects of violence, overcrowding, gangs, and substance abuse within the correctional system. Prerequisite: None. Recommended Preparation: ENGL-062 and CORR-101.

--Transfers to CSU only

**CORR-103** Correctional Interviewing and Counseling

This course offers the fundamentals of interviewing and counseling in the correctional science field. This course provides the formula for both informal and structured interview techniques in order to maximize the opportunity for investigations, information, and intelligence gathering. Prerequisite: None. Recommended Preparation: ENGL-062 and CORR-101.

--Transfers to CSU only

**CORR-104** Legal Aspects of Corrections

This course provides students with an awareness of the historical framework, concepts, and case law that direct correctional science practice. The course material gives the student a perspective of the correctional environment in relation to security issues, search and seizure, plea-bargaining, prisoner religious issues, as well as the responsibilities and liabilities of correctional staff. Prerequisite: None. Recommended Preparation: ENGL-062, AJ-101 and AJ-103.

--Transfers to CSU only

**ADS-101** Foundations of Alcohol and Drug Studies (formerly Introduction and Overview of Alcohol and Drug Studies)

This course will provide students with an introduction and overview of substance abuse treatment. Students will examine the history, myths, and sociocultural factors which contribute to use and abuse of substances. Prerequisite: ENGL-098 or ENGL-092 (with a grade of C or better).

--Transfers to CSU only

**ADS-102** Pharmacology and Biomedical Aspects of Alcohol and Other Drugs

This course examines the effects of alcohol and other mind-altering drugs on the body, highlighting the resulting impairment to the body's organs. Students will learn the pharmacology of addiction and how it affects behavior and diagnostic procedures used to measure these effects. In addition, this course provides information on the effects on human sexual functions, pharmacological and physiological treatment and recovery programs available. Prerequisite/Corequisite: ADS-101 (with a grade of C or better).

--Transfers to CU only

**ADS-103** Drug and Other Drugs

This course provides an overview of the history and trends of substance abuse. It focuses on the legal issues, statutory law, and general operations in correctional institutions. The relationship between corrections and other components of the Criminal Justice System are examined as well as employment opportunities and entry requirements in the Correctional Science field. Prerequisite: None. Recommended Preparation: ENGL-062.

--Transfers to CU only

**ADS-104** Foundations of Alcohol and Drug Studies

This course provides an overview of the methods, practices, and theory related to custodial supervision of incarcerated persons in Federal, State, and local correctional facilities. The course examines and considers the issues of custodial control and the interaction between the offender and the correctional employee. Other topics include the effects of violence, overcrowding, gangs, and substance abuse within the correctional system. Prerequisite: None. Recommended Preparation: ENGL-062 and CORR-101.

</tr>
</tbody>
</table>
Course Descriptions

AH-073  4 units
Medical Assistant: Clinical Procedures
(formerly Medical Office Assistant Technician: Back Office)
This class prepares students for employment in solo-practitioner, multi-physician, outpatient clinics, managed care facilities and other medical offices. Training will prepare students to perform clinical medical assisting functions including taking and recording vital signs, sterilization and disinfection, routine and specialty physical exams, gynecologic and prenatal care, minor office surgery, administration of medication, urinalysis, interview and document patient complaints, and perform CPR and first aid. Prerequisite: None.
--Not transferable

AH-078  3 units
Medical Assistant Computerized Office Procedures
This course familiarizes the student with the computerized office skills necessary to become a successful user of medical account management software. Students will also learn a variety of other computerized administrative tasks including billing, building patients files, posting entries, and appointment scheduling. Prerequisite: None.
--Not transferable

AH-082  3.5 units
Telemetry Technician
This course is designed to teach the student the basic concepts of cardiac rhythm analysis and to develop an understanding of the 12 lead ECG. Students will analyze and evaluate cardiac rhythms through a systematic approach comparing electrophysiology to electrocardiogram save patterns. Training will prepare students to function as telemetry technicians. Prerequisite: None.
--Not transferable

AH-122  3 units
Medical Ethics
The allied health care student will learn about laws related to patient rights, intentional torts, negligence, and malpractice litigation. The course will alert the students of their rights, duties, and legal responsibilities within the context of their function as a member of the allied health care team. Prerequisite: None.
--Transfers to CSU only

AH-124  3 units
Pathophysiology
This course provides a survey of general principles of the disease process of organs and systems of the human anatomy. It includes chronic and acute diseases; respiratory, bone, and gastrointestinal tract diseases; diseases of the genitourinary systems and reproductive organs; and infectious diseases and neoplasms. Prerequisite: None.
--Transfers to CSU only

AH-126  3 units
Techniques in Patient Care
This course is designed to teach the student basic patient care techniques including the responsibilities and relationships of various allied health departments in a health care setting. Aseptic and surgical techniques will be discussed along with universal precautions. Emergency conditions and procedures are included. Prerequisite: None. Other Enrollment Criteria: CPR Healthcare Provider Card.
--Transfers to CSU only

AH-149  1-4 units
Occupational Internship: Medical Assisting Clinical
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.
--Transfers to CSU only

EMS-120  6 units
Emergency Medical Technician
(formerly AH-120 Emergency Medical Technician I)
This course provides the student with the knowledge to assess, treat and care for the ill or injured public. This course also provides the student with an opportunity to do a short field and hospital internship. The student will be able to provide emergency care for the public. Prerequisite: None. Recommended Preparation: ANAT-100. Other Enrollment Criteria: Immunizations and TB clearance along with a physical exam, must be 18 years of age and complete a required background check.
--Transfers to CSU only

EMS-120B  5 units
Emergency Medical Technician (Refresher)
(formerly Advanced Emergency Medical Technician)
This course is intended for the Emergency Medical Technician (EMT) who has successfully completed an EMT course, is currently certified as an EMT, or is taking EMT concurrently. This course is designed to give the EMT student more advanced skills beyond the standard EMT course. The student will be given the opportunity to develop skills which are desired by employers of Emergency Medical Technicians. Prerequisite: None. Corequisite: EMS-120. Other Enrollment Criteria: The student must present a State of California Emergency Medical Technician Certification card or a National EMT card.
--Transfers to CSU only

EMS-121  2.5 units
Emergency Medical Technician
(formerly AH-121 Emergency Medical Technician I Basic (Refresher))
This course is designed for students who currently practice as an Emergency Medical Technician or have previously passed the Emergency Medical Technician course and require this course for certification renewal. Offered as pass/no pass only. Prerequisite: None. Recommended Preparation: EMS-120 or equivalent such as the California State EMT certification or the National registry EMT certification.
--Transfers to CSU only

EMS-127  3 units
Infant to Adult Basic and Advanced Life Support
(formerly AH-127)
This course is designed for students who want to increase their current medical knowledge. Advanced topics in resuscitation are taught. The student will be graded on their performance during mock resuscitation of an infant, child and adult. The student will identify
lethal arrhythmias. Students will be able to present a clear, reasoned, well-supported, argument for resuscitating an adult with ventricular fibrillation. Prerequisite: None. Recommended Preparation: Medically related educational background or employment in the field of medicine such as the hospital, Emergency Medical Services or medical clinic. AH-082 or ANAT-100.

ANAT-100 3 units
Introduction to Anatomy and Physiology
LEC 48-54
This course provides a basic overview of the structure and function of the body for allied health students or those who desire a basic understanding of the human body. The content includes the anatomy and physiology as systems approach and includes selected homeostatic mechanisms and pathologies where appropriate. *Cross-listed as NURS-100. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5B
--CSU Area(s): B2

ANAT-101 5 units
Human Anatomy & Physiology I
LEC 48-54/LAB 96-108
This course is the first in a two part series covering the topics of the chemical, cellular, and tissue levels of organization. In addition this course provides a systematic study of the anatomy and physiology of the following systems: integumentary, reproductive, skeletal, muscular, digestive and metabolic. Prerequisite: None. Recommended Preparation: BIOL-115.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5B, 5C
--CSU Area(s): B2, B3

ANAT-102 5 units
Human Anatomy & Physiology II
LEC 48-54/LAB 96-108
This course is the second in a two part series and covers the nervous, endocrine, cardiovascular, lymphatic, respiratory, and urinary systems as well as fluid and electrolyte homeostasis. Prerequisite: ANAT-101 (with a grade of C or better).
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5B, 5C
--CSU Area(s): B2, B3

ANAT-104 5 units
Survey of Human Anatomy and Physiology
LEC 48-54/LAB 96-108
This course is a survey of human anatomy and physiology and is specifically intended for the student who is transitioning between being an LVN to an RN. This course covers the entire human study of anatomy and physiology in a systems approach. Prerequisite: None.

Other Enrollment Criteria: This course is limited to only those students who are currently licensed vocational nurses (LVN) who are exercising the college's 30 unit option where students matriculate from LVN to RN status.
--AA/AS General Education: AA/AS A
--Transfers to CSU only

ANAT-299 1-3 units
Special Projects: Anatomy & Physiology
IS 16-54
This is an arranged class to study a selected topic or experimental design by contract with the instructor for students with previous course work in the specific program area. Arrangements may be made with the instructor to supervise the special project. These projects are available for variable units and involve research and special study in areas of interest within a given subject field. The actual nature of the project MUST be determined in consultation with the supervising instructor. Prerequisite: Previous Anatomy classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

Anthropology

ANTH-101 3 units
Physical Anthropology
LEC 48-54
This is an introductory course from a scientific perspective about human evolution and human biological diversity. This course includes discussions of human genetics, natural selection, living primates, fossil evidence of human evolutionary change, and modern human variation. This course is designed to improve a student's understanding of modern human diversity and the processes involved in our species' adaptation. A field trip may be required. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5B
--CSU Area(s): B2

ANTH-101H 3 units
Honors Physical Anthropology
LEC 48-54
This is an introductory course from a scientific perspective about human evolution and human biological diversity. This course includes discussions of human genetics, natural selection, living primates, fossil evidence of human evolutionary change, and modern human variation. This course is designed to improve a student's understanding of modern human diversity and the processes involved in our species' adaptation. A field trip may be required. Prerequisite: Acceptance into the Honors Enrichment Program.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5B
--CSU Area(s): B2

ANTH-102 3 units
Cultural Anthropology
LEC 48-54
This introductory course explores the nature of culture and how culture guides human behavior. Cultural anthropologists study cultural phenomena such as language, subsistence, economics, social and political organization, marriage, kinship, religion, the arts, and culture change. This course focuses on an analysis of human behavior from a cross cultural perspective. Prerequisite: None.
--AA/AS General Education: AA/AS B2 or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 4A
--CSU Area(s): D1
Course Descriptions

**ANTH-102H** 3 units
Honors Cultural Anthropology  LEC 48-54
This introductory course explores the nature of culture and how culture guides human behavior. Cultural anthropologists study cultural phenomena such as language, subsistence, economics, social and political organization, marriage, kinship, religion, the arts, and culture change. This course focuses on an analysis of human behavior from a cross cultural perspective. Prerequisite: Acceptance in the Honors Enrichment Program.

--Transfers to both UC/CSU
--IGETC Area(s): 4A
--CSU Area(s): D1

**ANTH-103A** 3 units
North American Indians  LEC 48-54
This course is an overview of the American Indian societies of North America from prehistoric times to the present. Ethnohistory, archaeology, language studies and cultural anthropology are used to understand diverse adaptations to the complex North American landscape, as well as the changes that occurred when Europeans invaded the continent. All of this is background for understanding current issues in American society. Prerequisite: None.
--AA/AS General Education: AA/AS B2 or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 4A
--CSU Area(s): D1

**ANTH-103B** 3 units
Northwest Coast Indian Cultures  LEC 48-54
This is an anthropological study of the Native American societies of the Northwest Coast of North America. Ethnohistory, archaeology, linguistics, and cultural anthropology combine to produce a comprehensive picture of these societies. Prerequisite: None.
--AA/AS General Education: AA/AS B2 or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 4A
--CSU Area(s): D1

**ANTH-103C** 3 units
Cultures of the Pacific Islands  LEC 48-54
This course uses ethnohistory, archaeology, linguistics, and cultural anthropology to understand the cultures and societies of the Pacific Islands from their beginnings to the present. Current issues for Pacific Islanders make sense in this context. Prerequisite: None.
--AA/AS General Education: AA/AS B2 or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 4A
--CSU Area(s): D1

**ANTH-103D** 3 units
Latin American Cultures  LEC 48-54
This course is an overview of Latin American culture and societies from prehistoric times to the present. Archaeology, ethnohistory, ethnography and linguistics are used to understand diverse cultural adaptations to the varied landscapes of Latin America by societies such as the Maya, Aztec and Inka. Prerequisite: None.
--AA/AS General Education: AA/AS B2 or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 4A
--CSU Area(s): D1

**ANTH-103E** 3 units
Cultures of Africa  LEC 48-54
This course uses ethnohistory, archaeology, linguistics, and cultural anthropology to understand the cultures and societies of Africa from their prehistoric times to the present. Prerequisite: None.
--AA/AS General Education: AA/AS B2 or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 4A
--CSU Area(s): D1

**ANTH-104** 3 units
World Prehistory  LEC 48-54
This course provides an introduction to the archaeological record documenting the development of civilizations- beginning with fully modern human beings. Topics that are studied include the origins of agriculture, the origins of writing and the development of cities and states. Cultures from around the world will be studied including China, the Andes, Mesopotamia, Sub-Saharan Africa, Northern Europe and North America among others. Prerequisite: None.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 4A
--CSU Area(s): D1

**ANTH-104H** 3 units
Honors World Prehistory  LEC 48-54
This course provides an introduction to the archaeological record documenting the development of civilizations- beginning with fully modern human beings. Topics that are studied include the origins of agriculture, the origins of writing and the development of cities and states. Cultures from around the world will be studied including China, the Andes, Mesopotamia, Sub-Saharan Africa, Northern Europe and North America among others. **ANTH-111** 1 unit
Physical Anthropology Lab  LAB 48-54
This course is an introductory laboratory course that investigates human evolution and human biological diversity from a scientific perspective. This includes human genetics, principles of natural selection, physical and behavioral characteristics of primates, fossil evidence of human evolutionary change, and modern human variation. A field trip may be required. Prerequisite/Corequisite: ANTH-101 (with a grade of C or better).
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5C
--CSU Area(s): B3
Mt. San Jacinto College 2014-2015 Catalog 191

ANTH-115  
Introduction to Archaeology  
LEC 48-54

This course is an introduction to the field of archaeology, a sub-discipline of anthropology, in which artifacts and archaeological sites are examined in order to understand how culture has changed over time. Students in this course will be introduced to laboratory, survey and excavation techniques. Prerequisite: None.

--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 4A  
--CSU Area(s): D1  
--C-ID ANTH 150

ANTH-121  
California Indians  
LEC 48-54

This is a survey course about the culture and society of Native Californians in the prehistoric period, during the Spanish occupation, during the Mexican occupation, and under the government of the United States. Emphasis is given to effects of introduced diseases, imposed religions, and invader governments upon the Native Californians from contact times to today. "Cross-listed as HIST-121. Prerequisite: None.

--AA/AS General Education: AA/AS B2 or AA/AS F  
--Transfers to both UC/CSU  
--IGETC Area(s): 4A, 4F  
--CSU Area(s): D1, D3

ANTH-125  
Magic, Witchcraft and Religion  
LEC 48-54

This course examines different supernatural beliefs and associated rituals from a cross-cultural perspective. Using an anthropological perspective, students will study magic, witchcraft and religion in various societies from around the world, both past and present. Emphasis is placed on examining beliefs from the social context of the society in which it is practiced. Topics shall include creation myths, healing, sorcery, totemism, ancestor worship, shamanism and cults. Prerequisite: None.

--AA/AS General Education: AA/AS B2 or AA/AS F  
--Transfers to both UC/CSU  
--IGETC Area(s): 4A  
--CSU Area(s): D1

ANTH-145  
Introduction to Language and Linguistics  
(formerly ENGL-245)  
LEC 48-54

This course is an introduction to the study of language. This includes semantics, sociolinguistics, language acquisition, phonology, morphology, and pragmatics. Students learn how language influences their thinking and affects their lives. Prerequisite: None. Recommended Preparation: ENGL-101.

--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--IGETC Area(s): 3B  
--CSU Area(s): C2

ANTH-145H  
Honors Introduction to Language and Linguistics  
(formerly ENGL-245H)  
LEC 48-54

This course is an introduction to the study of language. This includes semantics, sociolinguistics, language acquisition, phonology, morphology, and pragmatics. Students learn how language influences their thinking and affects their lives. Prerequisite: Acceptance in the Honors Enrichment Program. Recommended Preparation: ENGL-101.

--AA/AS General Education: AA/AS C

ANTH-149  
1-4 units

Occupational Internship: Anthropology  
OI 16-72

The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.

--Transfers to CSU only

ANTH-201  
Introduction to Forensic Anthropology  
LEC 48-54

Forensic Anthropology is the application of standard, scientific, anthropological techniques to identify human remains and to assist in the detection of a crime. This course provides a basic overview of the field of forensic anthropology; human osteology; the techniques used to make estimations of age, sex, ancestry and stature; recovery techniques and the analytic techniques and procedures used in the medico-legal framework. Prerequisite: None. Recommended Preparation: ANTH-101.

--AA/AS General Education: AA/AS A  
--Transfers to CSU only

ANTH-205  
Archaeological Excavation  
LEC 16-18/LAB 96-108

This class is about the systematic and legitimate recovery of artifacts from surface and/or buried archaeological sites. The focus is on techniques designed to preserve provenience and context of the artifacts for future scientific analysis. A field trip may be required. Prerequisite/Corequisite: ANTH-115 (with a grade of C or better). Recommended Preparation: MATH-090 and ENGL-098.

--Transfers to CSU only

ANTH-210  
Archaeology Laboratory  
LEC 16-18/LAB 96-108

This course is an introduction to the laboratory processing and preliminary analyses carried out in archaeological investigations. Students will learn to care for and catalog artifacts collected from buried or surface sites. Students will learn to identify and classify various artifacts while handling them appropriately and protecting the provenience information that accompanies the artifacts. Prerequisite/Corequisite: ANTH-115 (with a grade of C or better). Recommended Preparation: MATH-090 and ENGL-098.

--Transfers to CSU only

ANTH-215  
Archaeological Survey  
LEC 16-18/LAB 96-108

This course prepares students to professionally identify, assess, locate, and record archaeological sites. Use of compass, GPS, and topographic maps will be stressed. This is an active field class which may require strenuous walking over rough terrain. Prerequisite/Corequisite: ANTH-115 (with a grade of C or better). Recommended Preparation: MATH-090 or MATH-090B and ENGL-098 or ENGL-092 or ESL-098W.

--Transfers to CSU only
Course Descriptions

ANTH-299 1-3 units
Special Projects: Anthropology IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Anthropology classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

Art

ART-093 1 unit
Graphic Design Practicum LAB 48-54
This course explores and reinforces design theory, processes and techniques taught in the Graphic Design, Digital Art and Multimedia lecture classes. Offered as pass/no pass only. Prerequisite: None.
--Not transferable

ART-095 1 unit
Typography Practicum LAB 48-54
This course explores and reinforces the theory, processes and techniques taught in the Typography lecture classes but can also be used for students seeking better Typography skills in projects from other courses or portfolio development. Offered as pass/no pass only. Prerequisite: None.
--Not transferable

ART-100 3 units
Art Appreciation LEC 48-54
This course introduces students to significant media, styles, periods and artists, with the intention of enhancing their appreciation of art and aesthetics. Students will learn by studying, analyzing and writing about a wide range of art forms. This course provides an overview for the student who has an interest in the context and history of art and culture. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1
--C-ID ARTH 100

ART-101 3 units
Art History: Prehistoric Through Medieval Art LEC 48-54
This course is a survey class that provides a base of art historical knowledge covering the development of art from the Paleolithic era through the Middle Ages. Students will study a variety of art forms in the context of cultural, and historical developments. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

ART-101H 3 units
Honors Art History: Prehistoric Through Medieval Art LEC 48-54
This course is a survey class that provides a base of art historical knowledge covering the development of art from the Paleolithic era through the Middle Ages. Students will study a variety of art forms in the context of cultural, and historical developments. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

ART-102 3 units
Art History: Renaissance to 20th Century Art LEC 48-54
This course is a survey class that provides a base of historical knowledge covering the development of art from the Renaissance through the mid 20th century. Students will study a variety of art forms in the context of cultural and historical developments. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

ART-102H 3 units
Honors Art History: Renaissance to 20th Century Art LEC 48-54
This course is a survey class that provides a base of historical knowledge covering the development of art from the Renaissance through the mid 20th century. Students will study a variety of art forms in the context of cultural and historical developments. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

ART-103 3 units
Introduction to Modernism LEC 48-54
This course surveys Modernist art, architecture and design. Students will study a variety of forms and artists in the context of cultural and historical developments, with an emphasis on Modernist culture and products in the United States and Europe. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

ART-103H 3 units
Honors Introduction to Modernism LEC 48-54
This course surveys Modernist art, architecture and design. Students will study a variety of forms and artists in the context of cultural and historical developments, with an emphasis on Modernist culture and products in the United States and Europe. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

ART-104 3 units
World Art LEC 48-54
World Art is a survey class that introduces students to the art and architecture of Asia, the Islamic world, early America, Africa and Oceania. The course covers a variety of art forms in the context of their cultural settings, iconography, purpose, and style. Prerequisite: None.
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

ART-121  3 units
Color Theory  LEC 32-36/LAB 48-54
(formerly Design and Color)
This course focuses on the organization of visual elements in accordance with the principles of design and color choices. Emphasis is placed on the study of the principles, theories, and applications of additive and subtractive color in two dimensions. Topics will include major historical and contemporary color systems, production of projects in applied color, and the elements of design as they apply to color. Prerequisite: None.
  --AA/AS General Education: AA/AS C
  --Transfers to both UC/CSU
  --CSU Area(s): C1

ART-122  3 units
3D Design  LEC 32-36/LAB 48-54
This course introduces the student to the organizing elements of design as they pertain to three-dimensional objects and spatial environments. The course includes both representational and non-representational design outcomes. Students explore design principles through visual analysis, problem solving exercises and project revision. A range of media and both traditional and contemporary approaches to design are explored. Prerequisite: None. Recommended Preparation: ART-120.
  --AA/AS General Education: AA/AS C
  --Transfers to both UC/CSU

ART-123  3 units
Graphic Design I  LEC 32-36/LAB 48-54
This course develops conceptual thinking and visual representation skills in the graphic design process by using thumbnail sketches through full size layouts of analog to digital graphic concepts. The emphasis is on various approaches to problem solving in advertising and design for two-dimensional spaces. Markers and colored pencils will be used for concept development while industry standard software will be used for digital production. Prerequisites: ART-131 or MUL-110 (with a grade of C or better). Recommended Preparation: ART-120 and ART-108.
  --AA/AS General Education: AA/AS C
  --Transfers to both UC/CSU

ART-124  3 units
Time Based Media  LEC 32-36/LAB 48-54
This course investigates multiple contexts of video from an artistic point of view. The student will gain a clear understanding of the relationship between the narrative and the visual structure of film/video. Lectures will show many developments and movements of the video medium as well as design elements used to control the narrative content. Students will also develop a work that is experimental in nature, focusing on the sequential process and editing decisions in Time Based Media. *Cross-listed as MUL-126. Prerequisite: None.
  --AA/AS General Education: AA/AS C
  --Transfers to both UC/CSU

ART-125  3 units
Typography I  LEC 32-36/LAB 48-54
This course covers the history and development of basic letterforms. In studio work, lettering is explored as a design form through handmade and experimental typeface use and development, mechanical typography and page layout techniques. Class projects are oriented towards development of knowledge in typographical theories. Prerequisite: None. Recommended Preparation: ART-120.
  --Transfers to CSU only

ART-131  3 units
Introduction to Digital Art  LEC 32-36/LAB 48-54
This course is an introduction to fundamental concepts, practices, and theories of digital art production. Topics include integration of traditional design, color, motion and compositional principles with contemporary digital tools. Prerequisite: None.
  --AA/AS General Education: AA/AS C
  --Transfers to CSU only

ART-141  3 units
Illustration  LEC 32-36/LAB 48-54
This course will investigate illustration as a specific form of visual communication and its relationship to written information. Imagery generation and refinement in both black and white and color will be explored as well as the historical development of illustration in advertising, informational applications and propagandizing. The course will focus on traditional studio methods, involving drawing and painting, as well as the materials and techniques most compatible with publishing. Prerequisite: ART-108 (with a grade of C or better).
  --Transfers to CSU only

ART-151  3 units
Ceramic Arts  LEC 32-36/LAB 48-54
This course is designed to familiarize students with the skills, methods and aesthetics of Fine Art Ceramics. Students will learn and practice a variety of ceramics processes, including surface decoration, and critically evaluate the forms they create. Ceramic Arts introduces clay as a significant medium in the context of historical, traditional and contemporary three-dimensional art and design. Prerequisite: None. Recommended Preparation: ART-122.
  --AA/AS General Education: AA/AS C
  --Transfers to both UC/CSU

ART-160  3 units
Sculpture  LEC 32-36/LAB 48-54
Sculpture is designed to familiarize students with the skills, methods and aesthetics of sculpture. The course is designed to develop skills in modeling in clay from direct observation. Students learn and practice various sculpture processes that include construction of an armature, bas-relief, mold making, carving and casting. Sculpture introduces these processes in the context of historical, traditional and contemporary three-dimensional art and design. Prerequisite: None. Recommended Preparation: ART-122.
  --AA/AS General Education: AA/AS C
  --Transfers to both UC/CSU
  --CSU Area(s): C1

ART-170  3 units
Intermediate Sculpture  LEC 16-18/LAB 96-108
(formerly Foundry-Ceramic Shell Casting)
This course introduces intermediate-level, three-dimensional design principles, and a variety of traditional techniques and contemporary theory. Students create contemporary, original designs with an emphasis on material and personal expression. Instruction provides knowledge of bas-relief carving, modeling, mold-making, the lost wax method of bronze casting and surface patina. Prerequisite: ART-160 (with a grade of C or better).
  --AA/AS General Education: AA/AS C
  --Transfers to CSU only
  --CSU Area(s): C1
ART-223 3 units
Graphic Design II LEC 32-36/LAB 48-54
This course expands on the tools and procedures used by professional graphic designers. Using real-world oriented projects, students will execute production of concept development in packaging, three dimensional solutions, and design theory. Prerequisite: ART-123 and ART-125 (with a grade of C or better).
--Transfers to both UC/CSU

ART-249 3 units
Portfolio and Professional Development LEC 48-54
This is a capstone course that will prepare students with a cohesive body of work that would be presentable in interviews and portfolio reviews as well as the development of knowledge of the business in creative entrepreneurship. Prerequisite: None.
--Transfers to CSU only

ART-299 1-3 units
Special Projects: Art IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Two Art classes must be completed prior to enrollment; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

ASTR-101 4 units
Introduction to Astronomy LEC 48-54/LAB 48-54
This course introduces students to the science of astronomy. It examines the history of astronomy, tools and methods used by astronomers, planetary and stellar evolution, cosmology, and current topics such as quasars, black holes, etc. Field trips may be required. Prerequisite: None. Recommended Preparation: ENGL-098 or ENGL-092 and MATH-090.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5A, 5C
--CSU Area(s): B1, B3

ASTR-111 3 units
Planetary Astronomy LEC 48-54
This course is an introductory course to Planetary Sciences, and is an interdisciplinary scientific exploration of the solar system. Studies will use the scientific method to examine properties and processes of solar system function and formation, including the current hypotheses regarding the creation and evolution of the Earth and planetary bodies moons, asteroids, comets, meteors and the Sun. *Cross-listed as GEOL-111. Prerequisite: None.
--AA/AS General Education: AA/AS A

ASTR-299 1-3 units
Special Projects: Astronomy IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Astronomy classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

Audio & Video Technology

AUD-140 3 units
Beginning Studio Recording LEC 48-54
This course offers instruction in the basic concepts of multi-track recording. Instruction includes an examination of basic acoustics, microphones, mixers, monitors, signal processors, and recording techniques. *Cross-listed as MUS-140. Prerequisite: None.
--Transfers to CSU only
--CSU Area(s): C1

AUD-141 3 units
Intermediate Studio Recording LEC 48-54
This course offers instruction in multitrack recording techniques, equalization, mixing, microphone techniques, Foley, signal processing, and 3-dimensional recording. *Cross-listed as MUS-141. Prerequisite: MUS/AUD-140 (with a grade of C or better).
--Transfers to CSU only
--CSU Area(s): C1

AUD-142 3 units
Advanced Studio Recording I LEC 48-54
This course is the study of techniques used for audio-for-video and film. Study will include: multi-track recording, mixing, Foley, signal processing and ADR. *Cross-listed as MUS-142. Prerequisite: MUS/AUD-141 (with a grade of C or better).
--Transfers to CSU only

AUD-143 3 units
Computer Audio Editing LEC 48-54
(formerly Advanced Studio Recording II)
This course offers students experience in digital editing using computers and software. The class includes digital recording techniques. *Cross-listed as MUS-143. Prerequisite: AUD/MUS-140 (with a grade of C or better).
--Transfers to CSU only

AUD-145 3 units
Midi & Computer Recording LEC 48-54
This course offers instruction in music software and basic audio concepts. The primary focus is on recording, mixing, and editing. *Cross-listed as MUS-145. Prerequisite: AUD/MUS-143 (with a grade of C or better).
--Transfers to CSU only
### Course Descriptions

**AUD-146**
**Recording Music and Live Sound**
LEc 48-54
This course offers instruction in microphone techniques for vocals, acoustic musical instruments and electronic musical instruments. Students will also receive instruction in advanced mixdown techniques and in the use of public address systems as applied to live sound (concert and theater) situations. *Cross-listed as MUS-146. Prerequisite: MUS/ AUD-141 (with a grade of C or better). --Transfers to CSU only

**AUD-147**
**The Music & Audio Business**
LEc 48-54
This course acquaints students with business practices in the music and audio industries. Students taking this course will be educated in areas such as contracts, copyrights, publishing and industry trends. Other topics covered by this course include the differences between bootlegging, piracy and counterfeiting. *Cross-listed as BADM-147 and MUS-147. Prerequisite: None. --Transfers to CSU only

**AUD-148**
**Radio Production**
LEc 48-54
This course acquaints students with the major aspects of radio production and broadcasting. The course includes information regarding the broadcast process, the on-air and production studios, and various types of hardware and software. Students will be introduced to the protocols and etiquette of being an on-air personality. Prerequisite: AUD-143 or MUS-143 (with a grade of C or better).

**AUD-152**
**Video Production I**
LEc 48-54
This course introduces students to the theoretical concepts and equipment operations of video production. Students will learn basic camera operations, lighting techniques, production techniques, audio-for-video techniques and video editing. Other topics covered in this class include iris/depth-of-field relations, framing for depth perception, applicable frame rates, pre-production paper work, and final authoring to DVD. *Cross-listed as MUL-123. Prerequisite: None. Recommended Preparation: MUL-110 or AUD-140.

**AUD-153**
**Video Production II**
LEc 48-54
This advanced course will cover the use of digital video production software and hardware (editing, effects, filters, color correction, compression output processes). Students work on projects using non-linear video editing software techniques. Related topics include preparing video production for television broadcasting and DVD authoring. *Cross-listed as MUL-223. Prerequisite: AUD-152/MUL-123 (with a grade of C or better).

**AUD-299**
**Special Projects: Audio Technology**
15 8-72
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Audiology classes; a contract must be completed with the instructor prior to enrollment.

### Automotive/Transportation Technology

**AUME-100**
**Basic Auto Mechanics**
LEc 48-54/LAB 48-54
This course covers the theory of operation of common road vehicles. The eight basic automotive systems are explored with minor maintenance tasks required. Emphasis is on an overview of automotive technology as a career choice. Prerequisite: None.

**AUME-101**
**Maintenance Light Repair I**
LEc 16-18/LAB 48-54
This course is specifically designed to meet American Honda PACT program requirements for car care service technicians. Students wishing to become a Honda Dealership Express Service technician must successfully complete this course. Prerequisite: None. Other Enrollment Criteria: Students must meet the following criteria to be selected for this manufacturer training program. Must attend the Honda PACT orientation. Have a valid CA Drivers license with Zero points, a valid social security number, must be 18 years old, must pass a drug test and have no felony.

**AUME-109**
**Light Repair II (MLR)**
LEc 32-36/LAB 96-108
This course covers the theory of operation of common road vehicles. The eight basic automotive systems are explored with minor maintenance light repair. Emphasis is on overview of automotive technology as a career choice related to the Honda - Fast Track Program. Prerequisite: AUME-101 (with a grade of C or better). Other Enrollment Criteria: Students must meet the following criteria to be selected for this manufacturer training program. Must attend the Honda PACT orientation. Have a valid CA Drivers license with Zero points, a valid social security number, must be 18 years old, must pass a drug test and have no felony.

**AUME-110**
**Basic and Advanced Clean Air Car Course**
LEc 80-90/LAB 48-54
This course prepares the student to perform Smog Testing on vehicles that are in the California State Smog Check Program. Successful completion qualifies students to take the State Smog Test Exam. Students learn the use of five gas analyzers with State Certified dynamometer, gauges, ignition analyzers and in-flight recorders/Scan tools to troubleshoot, diagnose and repair the Power-train Control Module on both domestic and import vehicles. Prerequisite: None. Recommended Preparation: AUME-111, AUME-122 and AUME-126.

**AUME-111**
**Emission Controls A6/A8/L1**
LEc 80-90/LAB 48-54
(formerly Emission Controls Part II A6/A8/L1)
This course prepares the student to perform Vehicle Emissions Diagnosis & Repair procedures subject to the California State Smog Check Program. Successful completion meets three of the five requirements for State the Exam. Students learn the use of Scan tools, lab scopes, five gas analyzers, dynamometer and ignition analyzers to troubleshoot, diagnose and repair the Powertrain Control Module and sub systems used on domestic and import vehicles. Prerequisite: None.

<tr>
<td>AUME-149</td>
<td>1-4</td>
<td>Occupational Internship: Auto Mechanics</td>
<td>OI 16-72</td>
</tr>
<tr>
<td></td>
<td></td>
<td>The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Previous Auto Mechanics classes; each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information. --Transfers to CSU only</td>
<td></td>
</tr>
<tr>
<td>AUME-175</td>
<td>4</td>
<td>Automatic Transmissions &amp; Transaxles</td>
<td>LEC 48-54/LAB 48-54</td>
</tr>
<tr>
<td></td>
<td></td>
<td>This course covers the principles and operation of hydraulically and electronically controlled transmissions and transaxles. Topics include planetary gearing, hydraulic theory, transmission controls, component function and application. Appropriate lab activities include: removal, disassembly, inspection, and reassembly of hydraulically and electronically controlled transmissions/transaxles. This course applies a systematic approach to diagnosis and repair. The student will achieve the skills that are needed to properly diagnose and repair transmission faults that could affect transmission operation. Prerequisite: None. Recommended Preparation: AUME 100. --Transfers to CSU only</td>

<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
</table>
| **AUME-185** | 4 units | Manual Transmissions & Transaxles | LEC 48-54/LAB 48-54  
This course presents the fundamentals of manual transmissions, transaxles, clutches, differentials, drive shafts and Four-wheel/All-wheel drive operation and repair. Appropriate lab activities include: disassembly, inspection, and reassembly of transmissions/transaxles, transfer cases, clutches, four-wheel drive systems, drivelines, and differentials. The student will achieve the skills that are needed to properly diagnose and repair manual transmission and drive train faults. Prerequisite: None. Recommended Preparation: AUME 100.  
--Transfers to CSU only |
| **AUME-299** | 1-6 units | Special Projects: Auto Mechanics | LEC 48-54/LAB 48-54  
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Auto Technology classes; a contract must be completed with the instructor prior to enrollment.  
--Transfers to CSU only |
| **BIOL-100** | 4 units | Human Biology | LEC 48-54/LAB 48-54  
(formerly Introduction to Human Biology)  
This course is an introduction to scientific and biological principles presented in a human context. Topics covered include the scientific method, cell structure and function, biochemistry, metabolism, nutrition, cell division, genetics, biotechnology, disease processes, evolution, ecology, and anatomy and physiology of the human body. Prerequisite: None.  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5B, 5C  
--CSU Area(s): B2, B3 |
| **BIOL-115** | 4 units | Topics in Biology | LEC 48-54/LAB 48-54  
This introductory course includes a lecture and lab component and is designed for non-science majors and those who need a biology foundation before entering science major’s curriculum. This course emphasizes scientific inquiry in investigation of biological principles presented in an evolutionary context and an ecological framework. Principles covered include molecular and cellular biology, biochemical processes, genetics, classification, diversity of life, ecosystems, evolution, and current issues. Field trips may be required. Prerequisite: None.  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5B, 5C  
--CSU Area(s): B2, B3 |
| **BIOL-115H** | 4 units | Honors Topics in Biology | LEC 48-54/LAB 48-54  
This introductory course includes a lecture and lab component and is designed for non-science majors and those who need a biology foundation before entering science major’s curriculum. This course emphasizes scientific inquiry in investigation of biological principles presented in an evolutionary context and an ecological framework. Principles covered include molecular and cellular biology, biochemical processes, genetics, classification, diversity of life, ecosystems, evolution, and current issues. Field trips may be required. Prerequisite: Acceptance in the Honors Enrichment Program.  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5B, 5C  
--CSU Area(s): B2, B3 |
| **BIOL-116** | 4 units | Natural History and Biodiversity | LEC 48-54/LAB 48-54  
(formerly Natural History and Biodiversity)  
This course presents the ecological concepts of biodiversity and natural history. The course emphasizes relationships of local geology to the flora and fauna of represented in California. Topics in this field-trip-based laboratory include field recognition of plants, and identification of major mammals, reptiles and birds of the areas studied. Multiple field-trips may be required. Although the course concentrates on California ecosystems in some cases ecosystems in areas other than California may be used as examples. Prerequisite: None.  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5B, 5C  
--CSU Area(s): B2, B3 |
| **BIOL-117** | 3 units | Conservation Biology | LEC 48-54  
Conservation biology is the science of preserving biodiversity and sustaining the earth. This is an interdisciplinary, introductory course that examines the human impact on biodiversity and the earth. The course synthesizes the fields of ecology, evolution, genetics, philosophy, economics, sociology, and political science, with emphasis on the development of strategies for preserving populations, species, biological communities, and entire ecosystems. Prerequisite: None.  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5B  
--CSU Area(s): B2 |
| **BIOL-125** | 5 units | Microbiology | LEC 48-54/LAB 96-108  
This course is an intensive study of microbiological principles designed for those majoring in the biological sciences or various health professions. The course will emphasize concepts related to microbial morphology, physiology, genetics, growth, control, role in disease and their application to mankind. Prerequisite: CHEM-100 or CHEM-107 or equivalent and BIOL-100 or BIOL-115 or BIOL-150 or BIOL-151 or ANAT-101 or ANAT-102 (with a grade of C or better).  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5B, 5C  
--CSU Area(s): B2, B3 |
BIOL-125H 5 units
Honors Microbiology
LEC 48-54/LAB 96-108
This course is an intensive study of microbiological principles designed for those majoring in the biological sciences or various health professions. The course will emphasize concepts related to microbial morphology, physiology, genetics, growth, control, role in disease and their application to mankind. Prerequisite: Acceptance in the Honors Enrichment Program; CHEM-100 or CHEM-107 or equivalent and BIOL-100 or BIOL-115 or BIOL-150 or BIOL-151 or ANAT-101 or ANAT-102 (with a grade of C or better).
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5B, 5C
--CSU Area(s): B2, B3

BIOL-130 4 units
Marine Biology
LEC 48-54/LAB 48-54
Marine Biology explores marine organisms, the ocean environment, and the basic biological principles by which marine organisms and ecosystems function. Topics include: the physical and chemical environment of the ocean, characteristics of living organisms, diversity of marine organisms, comparative anatomy and physiology, marine ecosystems and interactions, adaptations to the marine environment, and human impacts on the oceans. Students may be required to attend two Saturday field trips. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): B2, B3

BIOL-131 4 units
Introduction to Biotechnology I
LEC 48-54/LAB 48-54
This introductory course examines a variety of topics in biology related to Biotechnology. Topics emphasized include the biochemical processes common in prokaryotic and eukaryotic biology, biochemistry, cellular and molecular biology, immunology, classical and molecular genetics, gene expression and genetic engineering. The laboratory addresses skills and techniques common to biotechnology including measuring activity and quantity of proteins, growth and manipulation of bacteria, genetic engineering and antibody methods. Field trips may be required. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5B, 5C
--CSU Area(s): B2, B3

BIOL-132 5 units
Biotechnology II
LEC 48-54/LAB 96-108
This course introduces students to biochemical and microbial academic aspects of biotechnology. The course develops entry-level laboratory skills common to the biotechnology industry, such as aseptic techniques, laboratory safety, and biological media and solution preparation. Students also develop hands-on experience with microbial growth, solutions, buffers, separation of cellular components, and macromolecules. Prerequisite: BIOL-131 or BIOL-150 (with a grade of C or better).
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--CSU Area(s): B2, B3

BIOL-133 5 units
Biotechnology III
LEC 48-54/LAB 96-108
In this advanced biotechnology course, students are provided a depth and breadth of knowledge of DNA and RNA transformation, restriction analysis of DNA, protein analysis, and immunological applications. Medical application and bioethical considerations are discussed. In the laboratory, students master current techniques used in the biotechnology industry including medical and criminal justice applications. Prerequisite: BIOL-132 (with a grade of C or better).
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5B
--CSU Area(s): B2

BIOL-134 3 units
Human Heredity and Evolution
LEC 48-54
This is an introductory course in basic human genetics and evolution emphasizing their relationship to biochemical processes, molecular and organismal genetics, physical development and social and behavioral expression. This course introduces students to the basic principles of biological scientific study using the chemical and biological aspects of human genetics as its main theme. In addition students are introduced to the political, philosophical and ethical implications of human heredity and evolution. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5B
--CSU Area(s): B2

BIOL-135 3 units
Introduction to Evolution
LEC 48-54
This introductory course explores the concepts, history, and controversy surrounding evolutionary theory. This course introduces students to the basic principles of scientific study using evolution as its main theme. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5B
--CSU Area(s): B2

BIOL-135H 3 units
Honors Introduction to Evolution
LEC 48-54
This introductory course explores the concepts, history, and controversy surrounding evolutionary theory. This course introduces students to the basic principles of scientific study using evolution as its main theme. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5B
--CSU Area(s): B2

BIOL-139 1 unit
Introduction to Biotechnology Lab
LAB 48-54
This course examines laboratory technology related to biotechnology. The laboratory introduces skills and techniques common to the biotechnology industry including measuring activity and quantity of proteins, growth and manipulation of bacteria, genetic engineering, polymerase chain reaction and antibody methods. In addition to hands on skills, the course provides context for how and why these techniques are used in the industry. This course enhances the laboratory skills of students seeking employment in the biotechnology industry. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to CSU only

</thead>
</table>
| **Biol-140** | 4 units | Ecology LEC 48-54/LAB 48-54  
A study of ecological principles with a focus on biodiversity, ecosystem function, and the inter-relationship of the biotic and abiotic components of the environment. The course entails four field trips to major ecosystem types, including ocean, mountain, chaparral, and desert biomes. Prerequisite: None.  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5B, 5C  
--CSU Area(s): B2, B3 |
| **Biol-143** | 3 units | Animal Behavior LEC 48-54  
This course introduces students to the basic principles of scientific study using animal behavior as its main theme. Topics include an exploration of genetic, environmental, and evolutionary mechanisms as causes of animal behavior. Prerequisite: None.  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU |
| **Biol-144** | 4 units | Plant Biology LEC 48-54/LAB 48-54  
This course surveys plants, other photosynthetic organisms and selected other groups including land plants, bacteria, fungi, algae, and other protists. The structure, function, evolution, reproduction, genetics, and ecological role of plants and their importance to people are investigated. Labs provide experience with plant anatomy, morphology, growth, metabolism, reproduction, and propagation. Prerequisite: None.  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5B, 5C  
--CSU Area(s): B2, B3 |
| **Biol-146** | 3 units | Biodiversity LEC 48-54  
This course examines the biodiversity of life, past and present. An introduction to the three Domains of life and a review of extinct life-forms creates the basis for study of the current biotic communities on Earth. Basic principles of biodiversity are reviewed in this introductory course, with emphasis on current threats to biodiversity by human activity. Prerequisite: None.  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5B  
--CSU Area(s): B2 |
| **Biol-148** | 4 units | Field Studies in Tropical Ecology LEC 48-54/LAB 48-54  
(formerly Field Studies in Tropical Ecology of Costa Rica)  
This introductory course explores topics in ecology and conservation, using tropical ecology as its main theme. Topics include identification, conservation, and interpretation of behavioral and ecological interrelationships of organisms with their living and non-living environment. Students are required to attend lectures and a 9-day field trip to a region of the tropics. A fee will be charged. Prerequisite: None.  
--AA/AS General Education: AA/AS A  
--Transfers to CSU only |

| **Biol-150** | 5 units | General Biology I LEC 48-54/LAB 96-108  
This course is the first of a two semester sequence of intensive modern biology study designed to prepare science majors for upper-division science courses. Topics include the biochemical, molecular, metabolic, genetic, and evolutionary aspects of cells and organisms with related issues such as genetic engineering, bacterial roles in nature, human ecosystems, structural complexities and levels of classification. Course principles are applied through laboratory exercises using experimental investigations in biology. A field trip may be required. Prerequisites: CHEM-101 (with a grade of C or better). Recommended Preparation: Additional high school or college Biology and Chemistry courses.

Mt. San Jacinto College 2014-2015 Catalog
BADM-085  
**Business Math**  
LEC 48-54  
This is an introductory course that focuses on the role mathematics plays in the business decision making process. Students will be presented with business scenarios that require mathematical analysis. They will learn how to perform the calculations, then interpret the results to formulate business decisions. This course blends mathematical calculations with business operation principles. Prerequisite: None.  
--Not transferable

BADM-098A  
**Developing Effective Time Management Techniques**  
LEC 8-9  
This course provides students practical and contemporary ways to manage personal time by identifying goals and objectives, prioritizing actions, tackling time management roadblocks and utilizing technology and adopting an approach to maximize productivity and achieve goals. Prerequisite: None.  
--Not transferable

BADM-098B  
**Reducing Stress and Improving Performance**  
LEC 8-9  
This course provides practical ways to reduce stress and improve performance by identifying the causes and symptoms of stress, monitoring one's response to pressure, and implementing coping strategies. This course shows how to manage stress in one's personal life as well as how to reorganize work practices and use techniques for dealing with problems and potential problems in the workplace. Prerequisite: None.  
--Not transferable

BADM-098C  
**Developing Leadership in Organizations**  
LEC 8-9  
This course provides guidelines for developing and refining practical leadership skills that will enhance all business and personal relationships. This course examines the roles and responsibilities of the leader as a supervisor and guides development of abilities to work as a team within groups of people. Prerequisite: None.  
--Not transferable

BADM-098D  
**Dynamics of Successful Teamwork**  
LEC 8-9  
This course provides guidelines for utilizing the team concept for meeting the challenges in an organization that require a wide variety of skills, judgments, and experiences. This course examines the role of the team leader, essential elements of a winning team, and how to develop the team concept. Prerequisite: None.  
--Not transferable

BADM-098E  
**Raising Performance Levels Through Motivation**  
LEC 8-9  
This course provides guidelines for using the art of motivation to create and sustain a positive environment in the workplace. This course examines methods for getting the most from yourself and your staff, how to raise performance levels, and achieve high quality work from employees. Prerequisite: None.  
--Not transferable

BADM-098F  
**Developing Customer Relations and Rapport**  
LEC 8-9  
This course provides guidelines for business students, business leaders, and anyone dealing with the public for enhancing their business and personal relationships. This course offers building blocks for developing a rapport with customers and clients, and resolving problems and conflicts. Prerequisite: None.  
--Not transferable

BADM-098G  
**Business Ethics**  
LEC 8-9  
This course provides guidelines for identifying, analyzing, and systematically solving ethical dilemmas in a business setting. Students will be introduced to a variety of business scenarios for which they will learn how to identify the ethical issue and then systematically analyze the dilemma in order to reach an ethical solution. Prerequisite: None.  
--Not transferable

BADM-103  
**Introduction to Business**  
LEC 48-54  
U.S. businesses operate in a constantly changing global business environment. This is an introduction to that environment. Students completing the course should be capable of analyzing various forms of business ownership and sizes or organizations, understanding ethics and social responsibility of businesses in a global market, analyzing the economic challenges facing businesses, understanding global competitive methodologies, and understand domestic and international labor-management relations issues and the use of technology and information in business. Prerequisite: None.  
--Transfers to both UC/CSU  
--C-ID BUS 110

BADM-103H  
**Honors Introduction to Business**

Mt. San Jacinto College 2014-2015 Catalog
### CAPP-131  
**Using Microsoft Outlook**  
(Formerly CAPP-131D Using Microsoft Outlook 2007)  

Students will learn how to use specific functions and features of MS Outlook, including how to send and manage email messages, create and manage to-do lists and projects, create and maintain contact and mailing lists, and use the features of the calendar to schedule appointments, tasks and events. This course will prepare students to take the MS Office Specialist (MOS) Expert-level exam in Outlook. Prerequisite: None  

--Transfers to CSU only

### CAPP-132  
**Using Acrobat - Level 1**  

In this beginning course, students will learn the role of electronic documentation in the professional and personal sector. Students will use Adobe Acrobat Reader to view and navigate through PDF files. Acrobat Professional will be used to: view, navigate, create, manage, and share electronic documents. The course will emphasize current uses of electronic documents in professional and personal settings. Prerequisite: None.  

--Transfers to CSU only

### CAPP-135  
**Using Microsoft Project**  
(Formerly CAPP-135D Using Microsoft Project 2007)  

This course introduces students to Microsoft Project as a project management tool. Within the framework of the project management life cycle, the following activities will be examined: integration and scope management, time, cost, and quality management, and communications and risk management. This course is designed for the student who needs a working knowledge of project management tools and techniques. Prerequisite: None.  

--Transfers to CSU only

### CAPP-140  
**Using Microsoft Office - Level 2**  
(Formerly CAPP-140D Using Microsoft Office 2007 - Level 2)  

This course is designed to acquaint students with the proper procedures to create more advanced documents, workbooks, databases and presentations suitable for course work, professional purposes, and for personal use. Prerequisite: CAPP-120 (with a grade of C or better).  

--Transfers to CSU only

### CAPP-140M  
**Using OpenOffice - Level 2**  
(Formerly Using OpenOffice v2-Level 2)  

This course is designed to acquaint students with the proper procedures for creating more advanced documents, workbooks, databases and presentations using the OpenOffice suite. Prerequisite: CAPP 120M (with a grade of C or better).  

--Transfers to CSU only

### CAPP-143  
**Using Microsoft Access - Level 2**  
(Formerly CAPP-143D Using Microsoft Access 2007 - Level 2)  

This course continues the student’s inquiry into database applications by presenting advanced features of the MS Access application. The focus in this course will be on multiple-table relations, and students will design and build complex forms, reports and queries with an emphasis on Visual Basic for Applications (VBA). This course is designed for the student who wants to learn how to develop effective database solutions for single-user and workgroup applications. Prerequisite: CAPP-123 (with a grade of C or better).  

--Transfers to CSU only

### CAPP-152  
**Using Acrobat - Level 2**  

This course is designed for the professional seeking to enhance electronic documents. In this advanced course, students will learn how to use Acrobat to create and manage business documents. Students will create fill-in forms, use advanced editing tool, document review tools, discuss security issues, and produce quality output. Prerequisite: CAPP-132 (with a grade of C or better).  

--Transfers to CSU only

### CAPP-160  
**Using Microsoft Office - Level 3**  
(Formerly CAPP-160D Using Microsoft Office-Level 3)  

This course introduces students to the Visual Basic for Applications programming environment and how this programming facility can be used to automate many desktop application functions. Emphasis in the course will be on using the object models in the Microsoft Word. Prerequisite: CAPP-140 (with a grade of C or better).  

--Transfers to CSU only

### FIN-200  
**Financial Management**  

This course is designed for business and accounting majors. Emphasis is placed on the financial aspects of corporate finance and managerial decisions and its application to the areas of financial statement analysis, financial markets and institutions, time value of money, risks and rates of returns, stocks and bonds valuations, cost of capital budgeting, working capital management, capital structure and leverage, dividend policy, financial planning and forecasting, derivatives and risk management, and multinational finance. Prerequisite: ACCT-125 (with a grade of C or better).  

--Transfers to CSU only

### OTEC-050  
**Keyboarding & Application Software Lab**  

This course reviews and reinforces the theory and applications taught in Keyboarding and Microsoft application courses. This course offers assignment assistance with current course work. Offered as pass/no pass only. Prerequisite: None.  

--Not transferable

### OTEC-095  
**Business English**  

A study of the principles of editing written communication applicable to business. The course emphasis is on fundamentals of grammar, number usage, punctuation, spelling, and modern business vocabulary. The course provides a thorough treatment of current English usage needed in the business office environment. The basic principles of business writing are introduced. *Cross-listed as ENGL-095. Prerequisite: None.  

--Not transferable
Course Descriptions

OTEC-131 1 unit
Filing Techniques
LEC 16-18
Using a hands-on approach, students learn filing rules and techniques established by the Association of Records Managers and Administrators (ARMA) to create and maintain files. This course will cover alphabetic, geographic, subject, and numeric filing. Students review the basics of records management and the role of filing in the office. Prerequisite: None.
--Not transferable

OTEC-144 3 units
Keyboarding and Document Formatting
LEC 48-54
Students learn the basic techniques of the touch system in the mastery of the keyboard and develop speed and accuracy in keyboarding data. They also develop the basic formatting skills necessary to produce letters, memorandums, reports, and tables. Prerequisite: None.
--Not transferable

OTEC-146 2 units
Keyboarding Speed and Accuracy
LEC 16-18/LAB 48-54
This course focuses on diagnosis of problem keys, key sequences, and drilling techniques to improve student speed and accuracy. Emphasis is on building speed and reducing errors through drilling exercises. Prerequisite: OTEC-144 (with a grade of C or better) or ability to key 30 wpm.
--Not transferable

OTEC-150 2 units
Records and Information Management
LEC 32-36
This course introduces students to the field of records management, specifically physical records. Students will explore the purpose of records management, identify the role of the records manager, research related methodology and technology, and explore the role and maintenance of a records center. Prerequisite: None
--Transfers to CSU only

OTEC-178 3 units
Office Procedures and Systems
LEC 48-54
This course develops administration professionals in effective office processes including customer service, time, organizational, follow-up, and work life balance skills necessary for employment as a receptionist, clerk, administrative assistant, office manager, and executive assistant. Students enhance file management, business correspondence, and presentation skills through the use of current technologies. Soft skills will be incorporated in the curriculum as well as resume and interview technique development. Prerequisite: None.
--Transfers to CSU only

OTEC-180 3 units
Research Analysis and Presentation
LEC 48-54
This course develops effective strategies and organizational skills in collecting and analysis of information to be utilized in written and oral reports. Emphasis is on analyzing the research for proficient business practices, cost efficient business expenses, and well-organized communication of findings. Students will enhance their business writing skills and oral presentation skills. Students will gain experience in working individually, face-to-face groups, and virtual groups. Prerequisite: None.
--Transfers to CSU only

SEMA-100 3 units
Our Sustainable Future
LEC 48-54
This course introduces the principles of Sustainability within global and domestic business environments. This course will increase student awareness of the ecosystem, human society, and the economy. Discussions will include innovative uses of renewable resources, production processes, human capital, alternative forms of energy, transportation, building materials, food production, media, education, urban planning, new ways to build coalitions and foster community trust. Prerequisite: None.
--AA/AS General Education: AA/AS B2
--Transfers to CSU only

SEMA-101 3 units
Fundamentals of Energy Assessment In Business
LEC 48-54
This course introduces students to the systematic study of energy consuming processes, the flow of energy, and efficient energy utilization. The course will focus on business energy assessment surveys and will include analysis of the different opportunities and impacts of energy systems that exist. The range of current and future energy choices will be examined, and the role of renewable energy in developing cohesive business policies and processes will be explored. Prerequisite: SEMA-100 (with a grade of C or better).
--AA/AS General Education: AA/AS A
--Transfers to CSU only

SEMA-110 3 units
Managing Sustainability Business Practices
LEC 48-54
This course introduces the concepts of natural resources management with an emphasis on sustainable energy resources and business practices. Topics will include basic natural resources management practices; past, present, and future usage and demand of energy resources; the role of sustainable energy resources in current and future energy policies within the business environment; and the management of sustainable energy resources. Prerequisite: SEMA-100 (with a grade of C or better).
--Transfers to CSU only

CHEM-100 4 units
Introduction to Chemistry
LEC 48-54/LAB 48-54
This is an introductory course in the basic concepts of chemistry. Topics covered are: metric system and numbers, chemical view of matter, periodic table and elements, atomic theory, chemical bonds, stoichiometry and chemical equations, solutions and organic chemistry. Prerequisite: MATH-090 (with a grade of C or better) or equivalent or two years of high school algebra.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5A, 5C
--CSU Area(s): B1, B3
Course Descriptions

**CHEM-101**  5 units  
**General Chemistry I**  
LEC 48-54/LAB 96-108  
This course covers principles of chemistry with special emphasis on atomic structure, stoichiometry, chemistry of aqueous solutions, balancing reactions, thermochemistry, periodic relationships among the elements, chemical bonding, geometry of molecules, hybridization and molecular orbital theory. Prerequisite: Two years of high school algebra or MATH-096 or MATH-096B or equivalent (with a grade of C or better).  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5A, 5C  
--CSU Area(s): B1, B3

**CHEM-102**  5 units  
**General Chemistry II**  
LEC 48-54/LAB 96-108  
This class is a continuation of Chemistry 101. Special emphasis is given to chemical kinetics and equilibrium, thermodynamics, acid-base equilibria, electrochemistry, common reactions of metals and non-metals with an introduction to qualitative analysis. Prerequisite: CHEM-101 (with a grade of C or better).  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5A, 5C  
--CSU Area(s): B1, B3

**CHEM-107**  5 units  
**Chemistry of Life**  
LEC 64-72/LAB 48-54  
This course introduces basic concepts of general (structure of atoms, molecules, states, energy, solutions, acid/bases, equations) organic (structure and properties of major classes of organic molecules) and biological chemistry (carbohydrates, proteins, lipids, nucleic acids, metabolism) of a living cell. Prerequisite: MATH-090 or higher (with a grade of C or better).  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5A, 5C  
--CSU Area(s): B1, B3

**CHEM-112**  5 units  
**Organic Chemistry I**  
LEC 48-54/LAB 96-108  
This course is the first of a two-semester sequence in organic chemistry. The topics covered include molecular properties, structure and bonding, stereochemistry, reactions and synthesis of alkane, alkenes, alkynes and alkyld halides, NMR and IR spectroscopy, and the chemistry of benzene and aromatic compounds. Prerequisite: CHEM-102 (with a grade of C or better).  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5A, 5C  
--CSU Area(s): B1, B3

**CHEM-113**  5 units  
**Organic Chemistry II**  
LEC 48-54/LAB 96-108  
This course in organic chemistry includes a systematic study of the nomenclature, properties, preparation, reactions and uses in synthesis of alcohols, ethers, aldehydes, ketones, carboxylic acids, acid derivatives and amines, and a study of biological molecules. Prerequisite: CHEM-112 (with a grade of C or better).  
--AA/AS General Education: AA/AS A  
--Transfers to both UC/CSU  
--IGETC Area(s): 5A, 5C  
--CSU Area(s): B1, B3

**CHEM-299**  1-3 units  
**Special Projects: Chemistry**  
IS 16-54  
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Chemistry classes; a contract must be completed with the instructor prior to enrollment.  
--Transfers to CSU only

**Child Development & Education**

**CDE-101**  3 units  
**Principles of Early Childhood Education**  
LEC 48-54  
This course is an examination of the historical and current principles and developmentally appropriate practices applied to different types of educational settings serving children aged birth to eight years. Special emphasis will be given to staff roles, appropriate learning environments and curricula, home-school partnerships, advocacy, professional ethics and career options. Prerequisite: None. Recommended Preparation: ENGL-101.  
--Transfers to CSU only  
--C-ID ECE 120

**CDE-102**  3 units  
**Language and Literacy Experiences for Young Children**  
LEC 48-54  
This course is designed to familiarize students with theories of the acquisition and development of language in young children from birth. Emphasis is placed on observation, assessment, and instructional strategies teachers and care providers can use to help young children develop their receptive and expressive language skills and to facilitate the development of emerging literacy. Prerequisite: CDE-101 or CDE-110 (with a grade of C or better. Recommended Preparation: ENGL-101.  
--Transfers to CSU only

**CDE-103**  3 units  
**Appropriate Curricula for Young Children**  
LEC 48-54  
This course addresses creative teaching methods and curriculum development for children with and without disabilities or other special needs. Students learn to observe children's play and to use it as a foundation for planning, implementing and evaluating meaningful learning experiences. Emphasis is given to creating a responsive curriculum, aligned to state and professional guidelines, that provides integrated activities supporting developmental and individual needs. Prerequisite: CDE-101 or CDE-110 (with a grade of C or better). Other Enrollment Criteria: To gain employment in the field of early childhood education the state of California requires a negative TB and Criminal Record Clearance. It is recommended that students begin this process while enrolled in this class.  
--Transfers to CSU only  
--C-ID ECE 130

This course provides students the opportunity to utilize leadership theories outside the classroom in community service and take part in the active education while addressing concerns and needs of the community. The goals of this course are to connect the relevance of academic theories to community life experience, enhance student’s confidence and self-esteem, and assist in the development, coordination, and participation of community events. Recommended Preparation: ENGL-101. Prerequisite: None.

This course will examine the development of social identities in diverse societies through the examination of the five equity filters of culture, gender, ability, socioeconomic status, and family structure. Self-reflection of one’s own understanding of educational principles will be used to integrate the anti-bias approach within educational practices and/or program development. Prerequisite: CDE-110 and CDE-125 (with a grade of C or better). Recommended Preparation: ENGL-101.

Mt. San Jacinto College 2014-2015 Catalog
CDE-119 3 units
Infant and Toddler Growth and Development
LEC 48-54
The course examines current theories and research about typical and atypical developmental patterns of children, birth to 36 months. Emphasis is given to physical, cognitive, and social-emotional growth and to childrearing techniques supporting optimal development. Prerequisite: CDE-110 (with a grade of C or better). Recommended Preparation: ENGL-101.
--Transfers to CSU only

CDE-120 3 units
Infant and Toddler Education and Care
LEC 48-54
This course provides a framework for infant/toddler care in a childcare setting. Developmental care giving strategies are emphasized. These include designing and implementing developmentally appropriate practices that meet accreditation standards set by the National Association for the Education of Young Children and learning about high quality practices that are recommended by California State Department of Education and WestEd. Prerequisite: None. Recommended Preparation: CDE-119.
--Transfers to CSU only

CDE-125 3 units
Child, Family and Community
LEC 48-54
This course examines the developing child in a societal context which focuses on the interrelationships of family, school, peers, community and media, including culture, religion, economics, politics and change. The processes of socialization and identity development will be highlighted as well as an emphasis on historical and sociocultural factors that may affect typical and atypical development. Prerequisite: None. Recommended Preparation: ENGL-101.
--AA/AS General Education: AA/AS B2
--Transfers to CSU only
--CSU Area(s): D7
--C-ID CDEV 110

CDE-125H 3 units
Honors Child, Family and Community
LEC 48-54
This course examines the developing child in a societal context which focuses on the interrelationships of family, school, peers, community and media, including culture, religion, economics, politics and change. The processes of socialization and identity development will be highlighted as well as an emphasis on historical and sociocultural factors that may affect typical and atypical development. Prerequisite: Acceptance in the Honors Enrichment Program. Recommended Preparation: ENGL-101.
--AA/AS General Education: AA/AS B2
--Transfers to CSU only
--CSU Area(s): D7
--C-ID CDEV 110

CDE-126 3 units
Administration and Supervision of Early Childhood Education Programs I
LEC 48-54
This course is designed to introduce students and administrators in Early Childhood Education to the principles of organizing and administering programs. Emphasis is placed on developing a program philosophy, as well as considering budgeting and staffing issues, and compliance with state regulations. This course meets Title 22 licensing regulations for center directors and it applies towards the Child Development Site Supervisor and Program Director Permits issued by the California Commission on Teacher Credentialing. Prerequisite: CDE-101 (with a grade of C or better). Recommended Preparation: CDE-103, CDE-110, and CDE-111.
--Transfers to CSU only

CDE-128 3 units
Administration and Supervision of Early Childhood Education Programs II
LEC 48-54
This course provides in-depth study of the components of high quality early childhood programs and of the director's role in developing and administrating such programs. Emphasis is placed on personnel policies, working with parents, the development of leadership skills, fiscal operations, and the effects of current trends and legislation on early childhood programs. This course meets Title 22 requirements for center directors and it applies toward the Child Development Site Supervisor and Program Director Permits. Prerequisite: CDE-126 (with a grade of C or better).
--Transfers to CSU only

CDE-129 3 units
Family Child Care Home
LEC 48-54
This course is designed to meet the specific needs of the family child care provider. Topics include licensing regulations, record-keeping, developing contracts and creating partnerships with parents. Emphasis will be given to creating appropriate environments, using appropriate guidance techniques, and planning and implementing appropriate curricula for mixed-age groups of children. Prerequisite: None.
--Transfers to CSU only

CDE-131 3 units
Children's Literature
LEC 48-54
This course is a general survey of children's literature from picture books to novels. Students will examine literary elements developed in poetry and prose for children, children's responses to books, the development of literature-based activities for children, genres of children's literature as well as literary approaches to the literature. *Cross-listed as ENGL-131. Prerequisite: ENGL-098 or ENGL-092 (with a grade of C or better). Recommended Preparation: ENGL-101.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C2

CDE-131H 3 units
Honors Children's Literature
LEC 48-54
This course is a general survey of children's literature from picture books to novels. Students will examine literary elements developed in poetry and prose for children, children's responses to books, the development of literature-based activities for children, genres of children's literature as well as literary approaches to the literature. *Cross-listed as ENGL-131H. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-098 or ENGL-092 (with a grade of C or better). Recommended Preparation: ENGL-101.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C2

CDE-134 2 units
Adult Supervision
LEC 32-36
This course covers the methods and principles of supervising adults in the early childhood setting. Emphasis is given to the role of experienced teachers and administrators who function as mentors to student teachers and to new staff while, simultaneously, addressing the needs of children, parents and other staff. Prerequisite: None. Recommended Preparation: Completion of at least 24 units in Child Development and Education courses and two years teaching experience.
--Transfers to CSU only
Course Descriptions

CDE-137  3 units
Curriculum and Program Planning  LEC 48-54
for School-Age Child Care

This course will explore issues related to organizing, operating, and working in a Before and After School-Age Care program. Emphasis will be placed on program planning, curriculum development, behavior management, developmentally appropriate practice, and quality standards. Prerequisite: None. Recommended Preparation: ED-136.
--Transfers to CSU only

CDE-140  3 units
Children and Youth With Exceptional Needs  LEC 48-54

This course provides an overview of the unique characteristics and needs of exceptional children and their families from birth through age twenty-one. This course includes the historical and legislative foundation for civil rights and education services for individuals with disabilities. Emphasis is given to professional roles and collaboration, locating community resources, and developing an awareness of cultural issues and considerations. Prerequisite: CDE-110 (with a grade of C or better). Recommended Preparation: ENGL-101.
--Transfers to CSU only

CDE-143  3 units
Supporting Children Who Have Challenging Behaviors  LEC 48-54

This course provides an overview of the developmental, environmental and cultural factors that impact the behavior of young children (family stressors, child temperament, violence, attachment disorders and other exceptional needs) and proactive intervention and prevention techniques. Topics include addressing why children demonstrate challenging behaviors (including those that are aggressive, anti-social, disruptive, destructive, emotional and dependent), child observation, creating positive environments that encourage appropriate behavior, and effectively addressing different types of behaviors by meeting children's needs. Prerequisite: CDE-140 (with a grade of C or better).
--Transfers to CSU only

CDE-144  3 units
Supervised Field Experience/Internship  LEC 32-36/LAB 48-54
in Early Intervention and Inclusion

This course provides a supervised field experience in an early intervention special education setting with young children. It explores the characteristics and distinctive developmental needs of infants and young children with disabilities and other special needs as well as the role that families, teachers and community agencies play in meeting those needs. Special attention will be given to early intervention services in the natural environments, adaptation of curriculum, inclusion and identification and assessment. Prerequisite: CDE-125, CDE-143 and CDE-147 (with a grade of C or better). Other Enrollment Criteria: Students must teach at a college approved setting for 3 hours per week and students must meet state requirements for TB and criminal record clearance.
--Transfers to CSU only

CDE-147  3 units
Observation and Assessment in Early Childhood Education  LEC 48-54
(formerly Supervised Field Experience in Observation and Assessment)

This course provides an overview of the observation and assessment techniques used to understand the development of children from infancy to eight years of age. Students will learn how to interpret and use the information to plan curricula and environments that are responsive to and supportive of children's typical and atypical learning and developmental needs. Prerequisite: CDE-101 and CDE-110 (with a grade of C or better). Recommended Preparation: ENGL-101.
--Transfers to CSU only

CDE-148  3 units
Supervised Field Experience:  LEC 32-36/LAB 48-54
Student Teaching
(formerly Supervised Field Experience II: Student Teaching)

This course provides a student teaching experience in which students plan, implement, and evaluate developmentally appropriate curriculum in a laboratory setting under the supervision of CDE Faculty and Master Teacher within the laboratory setting. Students will prepare for the workforce by creating a professional portfolio and practicing interview skills. Prerequisite: CDE-147 and CDE-103 (with a grade of C or better). Other Enrollment Criteria: Students must teach at a college approved setting for 4 hours per week and students must meet state requirements for TB and criminal record clearance.
--Transfers to CSU only

CDE-149  1-4 units
Occupational Internship: Child Development & Education  OI 16-72

The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences, which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.
--Transfers to CSU only

CDE-299  0.50-3 units
Special Projects: Child Development and Education  IS 8-54

Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Offered as pass/no pass only. Prerequisite: Previous Child Development and Education classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

ED-132  3 units
Adolescent Literature  LEC 48-54

This course is a survey of classic and contemporary works of literature written for and about adolescents. Students will read, analyze, and evaluate a diversity of works of poetry and prose and will explore the various genres and issues relevant to adolescent reading. Texts will be analyzed from a variety of psychological, moral, literary, and other developmental perspectives. *Cross-listed as ENGL-132. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2
Course Descriptions

ED-132H  Honors Adolescent Literature  3 units
LEC 48-54
This course is a survey of classic and contemporary works of literature written for and about adolescents. Students will read, analyze, and evaluate a diversity of works of poetry and prose and will explore the various genres and issues relevant to adolescent reading. Texts will be analyzed from a variety of psychological, moral, literary, and other developmental perspectives. *Cross-listed as ENGL-132H. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ED-135  Introduction to Education  3 units
LEC 48-54
This course is for students considering a career in elementary and secondary education. It examines professions in education, and provides an overview of teacher and paraprofessional roles and responsibilities in school age classrooms and related settings. Prerequisite: None.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU

ED-136  Child Growth and Development During the School Years  3 units
LEC 48-54
This course introduces the basic concepts of physical, cognitive, social/emotional development of the growing child, with emphasis given to development during the school age years (ages 5-12). Topics include developmental issues specific to the kindergarten through eighth grade child, the school age child as a learner, child guidance, diversity and anti-bias, working with parents and community outreach. Prerequisite: None.
--AA/AS General Education: AA/AS B2
--Transfers to CSU only
--CSU Area(s): D7

Communication Studies

COMM-055  English Pronunciation  2 units
LEC 32-36
English Pronunciation allows students for whom English is not their native language to practice and develop their overall English speaking proficiency and focus on specific areas of pronunciation difficulty. Regular attendance, language contact assignments, discussions, and student presentations are required to receive class credit. Offered as pass/no pass only. *Cross-listed as ESL-055. Prerequisite: ESL students test for credit-level English through the CELSA placement test 9 or other approved ESL placement instrument or has appropriate English skill level of participation in college courses. Students test for ESL-050 or above.
--Not transferable

COMM-056  English Conversation and Culture (formerly ENGL-056 - English As a Second Language Listening and Conversation)  3 units
LEC 48-54
This course is an English conversation class that develops listening and speaking skills in the context of acquiring academic content. Students acquire academic skills while learning about American culture and communication. Classes consist of listening exercises, pair/small group discussion and student presentations. A basic knowledge of English is required. Offered as pass/no pass only. *Cross-listed as ESL-056. Prerequisite: Appropriate placement on the CELSA placement instrument (or other approved ESL placement instrument) or ESL-050 or higher.
--Not transferable

COMM-100  Public Speaking  3 units
LEC 48-54
This course is an introduction to fundamental theories and skills of public speaking. It emphasizes the preparation and delivery of formal presentations to an audience. Students will learn to choose and narrow topics, research and organize materials, and practice and present speeches that are adapted to various audiences, purposes, and occasions. Prerequisite: ENGL-098 (with a grade of C or better).
--AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU
--IGETC Area(s): 1C
--CSU Area(s): A1
--C-ID COMM 110

COMM-100H  Honors Public Speaking  3 units
LEC 48-54
This course is an introduction to fundamental theories and skills of public speaking. It emphasizes the preparation and delivery of formal presentations to an audience. Students will learn to choose and narrow topics, research and organize materials, and practice and present speeches that are adapted to various audiences, purposes, and occasions. Prerequisite: Acceptance into the Honors Enrichment Program and ENGL-098 (with a grade of C or better).
--AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU
--IGETC Area(s): 1C
--CSU Area(s): A1
--C-ID COMM 110

COMM-103  Interpersonal Communication  3 units
LEC 48-54
This course develops and applies theories of interpersonal communication. It is intended to increase a student's understanding of and competence in one-to-one interactions. Topics include self-concept, perception, language, nonverbal communication, listening, conversation, self-disclosure, friendship, intimacy, conflict management, and intercultural communication. The student will practice communication skills that develop and maintain relationships occurring in work, social, and nonpublic settings. Prerequisite: None.
--AA/AS General Education: AA/AS D2
--Transfers to CSU only
--CSU Area(s): A1
--C-ID COMM 130

COMM-103H  Honors Interpersonal Communication  3 units
LEC 48-54
This course develops and applies theories of interpersonal communication. It is intended to increase a student's understanding of and competence in one-to-one interactions. Topics include self-concept, perception, language, nonverbal communication, listening, conversation, self-disclosure, friendship, intimacy, conflict management, and intercultural communication. The student will practice communication skills that develop and maintain relationships occurring in work, social, and nonpublic settings. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS D2
--Transfers to CSU only
Course Descriptions

COMM-104  
Advocacy and Argument  
LEC 48-54  
This course develops skills of critical inquiry and advocacy. Through the analysis and development of oral and written arguments, the student will gain experience in evaluating reasoning, identifying logical fallacies, testing evidence and sources of information, advancing a reasoned position, and refuting arguments. Prerequisite: ENGL-098 (with a grade of C or better).  
--AA/AS General Education: AA/AS D2  
--Transfers to both UC/CSU  
--IGETC Area(s): 1C  
--CSU Area(s): A1, A3  
--C-ID COMM 120

COMM-104H  
Honors Advocacy and Argument  
LEC 48-54  
This course develops skills of critical inquiry and advocacy. Through the analysis and development of oral and written arguments, the student will gain experience in evaluating reasoning, identifying logical fallacies, testing evidence and sources of information, advancing a reasoned position, and refuting arguments. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-098 (with a grade of C or better).  
--AA/AS General Education: AA/AS D2  
--Transfers to both UC/CSU  
--IGETC Area(s): 1C  
--CSU Area(s): A1, A3  
--C-ID COMM 120

COMM-105  
Voice and Diction  
LEC 48-54  
This course covers voice and speech production for students of theater arts and communications and anyone who wishes to learn to use the voice effectively in a variety of performance situations. Special focus is placed on breath support, vocal relaxation, habitual use, optimum pitch, diction, phonetics and regional dialects. Students will work on developing skills in effective oral communication performance as well as character voice work. *Cross-listed as THA-105. Prerequisite: None.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU

COMM-106  
Small Group Communication  
LEC 48-54  
This course studies communication in small group contexts. Topics include the development of group rules and norms, the emergence of leadership and other roles, and the importance of diversity in decision making. Through participation in group simulations and discussions, the student will learn creativity and critical thinking in problem solving and will develop skills of listening, leadership, consensus building, and conflict management. Prerequisite: None.  
--AA/AS General Education: AA/AS D2  
--Transfers to CSU only  
--CSU Area(s): A1  
--C-ID COMM 140

COMM-108  
Intercultural Communication  
LEC 48-54  
This course studies communication and culture. It is designed to develop the student's understanding of intercultural communication between/among people from different cultures across a variety of contexts. This course focuses on the development of cultural awareness (self and others), knowledge, appreciation, and current theoretical intercultural perspectives. It examines potential sources of intercultural understanding and conflict, and explores ways to enhance the effectiveness of communication. Prerequisite: None.  
--AA/AS General Education: AA/AS B2 or AA/AS F  
--Transfers to both UC/CSU  
--CSU Area(s): D7  
--C-ID COMM 150

COMM-108H  
Honors Intercultural Communication  
LEC 48-54  
This course studies communication and culture. It is designed to develop the student's understanding of intercultural communication between/among people from different cultures across a variety of contexts. This course focuses on the development of cultural awareness (self and others), knowledge, appreciation, and current theoretical intercultural perspectives. It examines potential sources of intercultural understanding and conflict, and explores ways to enhance the effectiveness of communication. Prerequisite: Acceptance in the Honors Enrichment Program.  
--AA/AS General Education: AA/AS B2 or AA/AS F  
--Transfers to both UC/CSU  
--CSU Area(s): D7  
--C-ID COMM 150

COMM-110  
Communications Media Survey  
LEC 48-54  
This course provides a survey of communications media and the interrelationships of media, individuals, and society including the history, structure and trends in newspapers, magazines, radio, television, recorded music, film, home video, and the Internet. Students will apply theories and analyze media effects within the context of economics, technology, law and ethics, and social issues. The course is designed to meet associate degree and transfer requirements. Prerequisite: None.  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--C-ID JOUR 100

COMM-113  
Oral Interpretation of Literature  
LEC 48-54  
This course analyzes the art of communicating works of literary merit to an audience; it is an introduction to performance studies. Appropriate literary selection and the use of vocal skills, along with facial and body expression will be developed in order to present works of literature to a theatrical audience. Individual and group performances of poetry, prose, and drama are included. *Cross-listed as THA-113. Prerequisite: None.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--C-ID JOUR 100

COMM-115  
Persuasion  
LEC 48-54  
This course is designed to provide a better understanding of the theory, practice, and strategies of persuasion on a variety of human contexts. Knowledge of the persuasion process and social influence should enable one to make more informed decisions as a sender and receiver of persuasive messages. This course will help students become more effective at influencing others. Prerequisite: None  
--Transfers to both UC/CSU
COMM-116  
Gender and Communication  
LEC 48-54  
3 units
This course examines the gender differences in communication, theories concerning gender differences, issues of gender in a variety of contexts such as families, relationships, the workplace, the media and school. Prerequisite: None.  
--AA/AS General Education: AA/AS B2 or AA/AS F  
--Transfers to both UC/CSU  
--CSU Area(s): D4, D7

COMM-117  
Professional Communication  
LEC 48-54  
3 units
The purpose of this course is to examine and understand the role of communication within organizations. Concern will be given to theories and application pertaining to communication in the workplace. Areas such as technologies, leadership, teamwork, culture, diversity, global organizations, and ethics will be examined in the course. Prerequisite: None.  
--AA/AS General Education: AA/AS C  
--Transfers to CSU only

COMM-119  
Public Relations  
LEC 48-54  
3 units
This course is an introduction to the field and practice of Public Relations. It examines the origins and evolution of the role of the PR practitioner. Students will learn to identify trends and use research and respond ethically to the many challenges facing organizations today. Strategic management, choice of media tactics, and types of campaigns, are scrutinized and analyzed as are crisis communication and credibility. Prerequisite: None  
--Transfers to CSU only

COMM-120  
Survey of Communication Studies  
LEC 48-54  
3 units
This course examines the range of theoretical approaches to the field of communication studies. Course provides an introduction to the field of communication by addressing public, rhetoric, interpersonal, intercultural, group, organizational, mass, and mediated communication. Individual and group presentations help students identify and analyze communication patterns and their effects as well as develop strategies for becoming better communicators. Prerequisite: None.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--C-ID COMM 180

COMM-129  
Reader's Theater  
LEC 48-54  
3 units
This course focuses on the theories and techniques of oral performance of literature and drama through solo, small group, and ensemble speaking. Students study script preparation/adaptation, staging/directing techniques, and vocal skills. This course culminates in public performance. *Cross-listed as THA-127. Prerequisite: None.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU

COMM-149  
Occupational Internship: Communication  
01 16-72  
1-4 units
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.  
--Transfers to CSU only

COMM-201  
Advanced Public Speaking  
LEC 48-54  
3 units
This course develops advanced principles and skills of public speaking, including application of rhetorical theory, advanced research skills, in-depth audience analysis, and the art of clear, precise, and articulate delivery. In addition to fostering eloquence, consideration is paid to information competency and advanced critical analysis of oratory. Prerequisite: COMM-100 (with a grade of C or better).  
--Transfers to both UC/CSU  
--IGETC Area(s): 1C  
--CSU Area(s): A1

COMM-299  
Special Projects: Communication  
IS 16-54  
1-3 units
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Communication classes; a contract with the instructor must be filled out prior to enrollment.  
--Transfers to CSU only

Computer Information Systems

CSIS-039A  
Database Vendor Certification Test Review  
LEC 16-18  
1 unit
The focus of this course is on reviewing database vendor technology concepts and taking practice exams in preparation for database vendor professional certification. This course is designed for students who already have some experience in the exam content area, but are looking for a refresher course to better prepare for the certification exam. Prerequisite: None.  
--Not transferable

CSIS-101  
Introduction to Computers and Data Processing  
LEC 48-54  
3 units
This course provides a general introduction to computers and information technology. Students will explore the information processing cycle, with an emphasis on understanding the role of input, output, processing, and storage in modern information systems. Topics for this class include the history of computers, and contemporary issues in information technology. Students will learn to use word processing, spreadsheets, and database applications as a tool for improving personal productivity in an organizational setting. Prerequisite: None.  
--Transfers to both UC/CSU

CSIS-103  
Introduction to the Internet  
LEC 48-54  
3 units
The course provides an overview of the computing and networking technologies that support the Internet and the World Wide Web. Students will learn and use various web services and have the opportunity to create a simple web page. No prior computing experience required. Prerequisite: None.  
--Transfers to CSU only
Course Descriptions

CSIS-104 3 units
Introduction to E-Commerce Infrastructure LEC 48-54
This course introduces students to the fundamental concepts of
e-commerce infrastructure including communication protocols,
web programming and markup languages, and website security
and management. The course will examine the functional requirements
of e-commerce websites, and illustrate principles of implementing
e-commerce systems using appropriate technology. This course is
designed for the student who is interested in learning about E-commerce
as well as the career options that are available in this field. Prerequisite:
None.  --Transfers to CSU only

CSIS-111B 3 units
Fundamentals of Computer Programming LEC 48-54
This course will introduce students with no prior programming
experience to the fundamentals of computer programming. These are
foundation concepts for nearly all modern programming languages
including Visual Basic, C++, C# and Java. Topics include sequence,
repetition, and selection control structures. Advance topics include
arrays, file I/O, and an introduction to the principles of object-oriented
programming. One or more high-level programming languages will be
used to reinforce the general concepts presented in this course. Prerequisite:
None.  --AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU

CSIS-113A 3 units
C++ Programming - Level 1 LEC 48-54
This course introduces the principles of object-oriented programming
using the C++ programming language. Students will investigate and
evaluate various programming design methodologies and apply them
to programming problems in C++. C++ features that will be
covered include language syntax, class definitions, control structures,
function definitions, and basic data structures. No prior programming
experience required. Prerequisite: None.  --AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU
--C-ID COMP 122

CSIS-113B 3 units
Java Programming - Level 1 LEC 48-54
(formerly JAVA Programming - Level 1)
This course introduces the principles of object-oriented programming
using the Java programming language. Students will investigate and
evaluate various programming design methodologies and apply them
to programming problems in Java. Java features that will be covered
include language syntax, class definitions, control structures, function
definitions, and basic data structures. No prior programming experience
required. Prerequisite: None.  --AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU
--C-ID COMP 122

CSIS-113C 3 units
C# Programming - Level 1 LEC 48-54
(formerly C# Programming)
This is an introductory course that will provide students with the
basic knowledge and skills they need to develop applications with the
C# programming language and the .NET development framework.
This course will focus on program structure, language syntax, Basic
Graphical User Interfaces, and implementation details. Prerequisite:
None. Recommended Preparation: CSIS-111B.  --AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU

CSIS-114A 3 units
SQL Programming - Level 1 LEC 48-54
This course introduces the SQL programming language and covers all
of the features of the language that are needed to create and maintain
single-table database systems. SQL features that will be covered include:
language syntax, data query language (DQL) elements, data
manipulation language (DML) elements, and basic data definition
language (DDL) elements. No prior programming experience required. Prerequisite: None.  --AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU

CSIS-115A 3 units
Web Development - Level 1 LEC 48-54
This course teaches students the basic skills needed to create a Web
page with an emphasis on the Hypertext Markup Language (HTML)
and Cascading Style Sheets (CSS). Students are also introduced to,
the Hypertext Transfer Protocol (HTTP), Uniform Resource
Locators (URLs), how to write code using an integrated development
environment (IDE), and publishing to a Web server using the file
transfer protocol (FTP). Prerequisite: None.  --Transfers to CSU only

CSIS-115B 3 units
XML Design - Level 1 LEC 48-54
This course teaches students to the eXtensible Markup Language
(XML) and the eXtensible Style Language. XML syntax features will be
covered as well as document type definitions (DTDs), schemas, and
document rendering. This course is designed for students who wish to
learn about advanced internet publishing technologies. Prerequisite: None.  --AA/AS General Education: AA/AS D2
--Transfers to CSU only

CSIS-116A 3 units
Developing ASP.NET Web Applications LEC 48-54
This course is an introduction to ASP.NET Web Development using the
Microsoft .NET programming languages Visual Basic and C#. Students will
utilize ASP.NET to deliver dynamic content to a Web Application.
Topics include Web Forms, User Controls, Server Controls, and
Database Integration. Prerequisite: None. Recommended Preparation:
CSIS-115A.  --Transfers to CSU only

CSIS-116B 3 units
PHP Web Development LEC 48-54
This course is designed to teach students how to configure and code
using one of the web design community’s most popular open-source
web server extensions, PHP Hypertext Processor. Students will also
learn how to create dynamically generated web pages using PHP and
database connectivity. Prerequisite: CSIS-115A or CSIS-117C (with a
grade of C or better).  --Transfers to CSU only

CSIS-116D 3 units
Python Programming - Level 1 LEC 48-54
This course introduces the principles of object-oriented programming
using the Python programming language. Students will investigate and
evaluate various programming design methodologies and apply them
to programming problems in Python. Python features that will be
covered include language syntax, class definitions, control structures,
function definitions, and basic data collections. No prior programming
experience required. Prerequisite: None.  --AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU

Mt. San Jacinto College 2014-2015 Catalog
CSIS-117D 3 units
Using Microsoft Expression Web - Level 1
(Formerly Dynamic Web Development and Administration Using Microsoft Web Tools)
This course introduces students to Web site development and Web site administration using Microsoft's Expression Web integrated development environment (IDE). Students will learn how to create and enhance web pages with hyperlinks, graphics, tables, behaviors and cascading style sheets (CSS). Students will also learn how to publish, manage, and administer their Web site. This course is designed for students who are interested in an Information Technology career in Web site development, administration, or e-commerce. Prerequisite: None. Recommended Preparation: Students should have knowledge of Web browsers and the Internet.
--Transfers to CSU only

CSIS-118A 3 units
Embedded Systems Programming
LEC 48-54
An introductory course in embedded systems programming. Students will learn programming at the micro processor level using C and assembly programming languages. Topics include programming in a real time operating system environment, device drivers, boot loading, remote debugging, and real time communications. Prerequisite: None. Recommended Preparation: Previous high-level programming language experience.
--AA/AS General Education: AA/AS D2
--Transfers to CSU only

CSIS-118B 3 units
Computer Organization & Assembly Language
LEC 32-36/LAB 48-54
This course is an introduction to the hardware organization and assembly language of the Intel processor. Topics include memory hierarchy and design, CPU design, pipelining, addressing modes, subroutine linkage, polled input/output, interrupts, high level language interfacing and macros. Prerequisite: None.
--Transfers to both UC/CSU
--C-ID COMP 142

CSIS-119A 3 units
ActionScript Programming - Level 1
LEC 48-54
This course is an introduction to the ActionScript programming language used for creating Flash animations. This course will focus on program structure, language syntax, event driven programming, integration of graphics and video, and implementation details. Prerequisite: None.
--Transfers to CSU only

CSIS-123A 3 units
C++ Programming - Level 2
LEC 48-54
This course presents advanced programming concepts in the C++ programming language. Advanced aspects of program design methodologies will be studied, evaluated, and applied in the design of complex C++ programs. C++ features that will be covered include classes and data abstraction, operator overloading, inheritance, polymorphism, templates, exception handling, and file structures. Prerequisite: CSIS-113A (with a grade of C or better).
--AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU

CSIS-123B 3 units
Java Programming - Level 2
(Formerly JAVA Programming - Level 2)
LEC 48-54
This course introduces advanced concepts of object-oriented programming (OOP) using the Java programming language. Students will investigate and evaluate various program design methodologies and apply them to programming problems using Java. Java features that will be covered include language syntax, encapsulation, inheritance, polymorphism, advanced O-O design principles, and exception handling. Prerequisite: CSIS-113B (with a grade of C or better).
--AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU

CSIS-123C 3 units
C# Programming - Level 2
LEC 48-54
This course introduces the student to advanced concepts of object-oriented programming (OOP) using the C# programming language. Students will investigate and evaluate various program design methodologies and apply them to programming problems using C#. C# features that will be covered include language syntax, encapsulation, inheritance, polymorphism, graphics, multi-threading, files, streams, and networking. This course is designed for students who wish to further develop their C# programming skills. Prerequisite: CSIS-113C (with a grade of C or better).
--Transfers to both UC/CSU

CSIS-124A 3 units
SQL Programming - Level 2
LEC 48-54
This course presents advanced concepts in the SQL programming language to cover multi-table database, and advanced query options. The data definition language (DDL) elements will be fully covered, including working with Entity-Relationship (ER) diagrams and options for implementing indexes. Prerequisite: CSIS-114A (with a grade of C or better).
--AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU

CSIS-125A 3 units
Web Development - Level 2
LEC 48-54
This is an extensive course on the advanced technologies used in Web Development including client-side behaviors and Web-based tools like YUI and JQuery. Students will learn about Dynamic HTML (DHTML), client-side scripting, the Document Object Model (DOM), Asynchronous JavaScript and XML (AJAX), and the Web-based tools available for developing professional Web pages including technologies used for: form validation, adding Flash-embedded objects, adding Web widgets, and much more. Prerequisite: CSIS-115A or MUL-112 (with a grade of C or better).
--Transfers to both UC/CSU

CSIS-126E 3 units
Python Programming - Level 2
LEC 48-54
This course continues the investigation of the Python programming language. Python features that will be covered include object-oriented design, advanced data collections, modules and packages, file handling, and features and services available in the Python standard library. Prerequisite: CSIS-116E (with a grade of C or better).
--AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU
### Course Descriptions

**CSIS-134A** 3 units  
**SQL Programming - Level 3**  
LEC 48-54  
This is an advanced course in SQL programming and will introduce the tuning techniques and tools used to improve SQL performance. Transaction integrity will also be covered using the ACID model, and stored procedures will be introduced. Prerequisite: CSIS-124A (with a grade of C or better).  
--AA/AS General Education: AA/AS D2  
--Not transferable

**CSIS-149** 1-4 units  
**Occupational Internship: Computers**  
OJ 16-72  
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Previous Computer courses; each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.  
--Transfers to CSU only

**CSIS-150** 3 units  
**Using Microsoft Windows**  
LEC 48-54  
This course introduces students to the basic mechanics of operating a windows operating system. The course is an introductory level course that helps students learn to efficiently navigate and manage the windows environment. Topics covered will include desktop customization, file and folder management, and software and hardware installations. Prerequisite: None.  
--Transfers to CSU only

**CSIS-151** 3 units  
**Using the OS Command Line Interface**  
LEC 48-54  
This course introduces the student to the command-line interface in popular operating systems (e.g. DOS, Windows, and Linux). Concepts to be covered include the shell interface, disk management, batch files, backup and recovery, and file and system security issues. Prerequisite: None.  
--AA/AS General Education: AA/AS D2  
--Transfers to CSU only

**CSIS-153** 3 units  
**Using Unix-Based Operating Systems** *(formerly Using UNIX)*  
LEC 48-54  
This course introduces the fundamental features of UNIX operating systems. Students will be introduced to command line basics, file and directory management, text editors, and shell programming. Prerequisite: None.  
--AA/AS General Education: AA/AS D2  
--Transfers to CSU only

**CSIS-154** 3 units  
**Using and Configuring Windows Operating Systems**  
LEC 48-54  
This course introduces the student to system administration concepts and MS Windows system administration tools. Concepts to be covered include system and software installation, user and profile management, disk management, backup and recovery, and security issues. Prerequisite: None.  
--Transfers to CSU only

**CSIS-171** 3 units  
**Service Desk Concepts**  
LEC 48-54  
This course introduces students to Service Desk concepts and technology. Within the context of the incident management and problem management life cycles, students will examine: service desk concepts, operations, roles and responsibilities, and processes and procedures. Prerequisite: None.  
--Not transferable

**CSIS-181** 4 units  
**Computer Hardware - Level 1**  
LEC 64-72  
This course introduces the basics of computing hardware technologies and the tear-down and assembly of a computer system. The features and functions of all major computing system hardware components are covered along with techniques for their installation and configuration. Operating system fundamentals are studied, especially in relation to hardware configuration and troubleshooting. Prerequisite: None.  
--Transfers to CSU only

**CSIS-182** 3 units  
**Computer Forensics**  
LEC 48-54  
This course introduces students to the techniques and tools of computer forensics investigations. Students will receive step-by-step explanations on using the most popular forensic tools. Topics include coverage of the latest technology secondary devices including hard drives, PDAs, cell phones, and thumb drives. Prerequisite: CSIS-181 (with a grade of C or better) or equivalent assessment.  
--Transfers to CSU only

**CSIS-183** 2 units  
**Green Computing**  
LEC 32-36  
This course introduces techniques and methodologies that can be used to reduce the carbon footprint of an organization’s IT resources. Green IT policies and standards will also be covered. Prerequisite: CSIS-181 (with a grade of C or better).  
--Transfers to CSU only

**CSIS-188** 3 units  
**Introduction to Digital Circuits**  
LEC 48-54  
This course is an introduction to the basics of digital electronic devices and methodologies used in digital circuit design. Students will analyze, design, and troubleshoot logic gates, counters, registers, input/output, memory units, pulse and switching circuits, and control circuits. The course will also compare digital TTL integrated circuits along with other families of logic devices. Prerequisite: None.  
--Transfers to CSU only

**CSIS-190** 3 units  
**Network Media**  
LEC 48-54  
This course introduces students to the theory and concepts of guided (cable-based) and unguided (wireless) network media. Students will build cables, implement small networks and use network tools to identify and troubleshoot problems. Wireless technologies and tools will be used. Prerequisite: None.  
--Transfers to CSU only

**CSIS-191** 4 units  
**Network Hardware - Level 1**  
LEC 64-72  
This course introduces fundamental data communication concepts and networking hardware. A hands-on approach will reinforce concepts in: network protocols and architectures, media and hardware. Students will have the opportunity to install, configure and troubleshoot network hardware. Prerequisite: CSIS-181 (with a grade of C or better).  
--Transfers to CSU only
Course Descriptions

CSIS-201  
System Analysis and Design  
LEC 48-54  
This course introduces the basic concepts and principles of information systems analysis and design within the content of an enterprise information architecture. Various systems development lifecycles will be studied and students will apply a systems methodology in modeling an information system. Project management techniques specific to information technology projects will also be covered. Prerequisite: CSIS-101 (with a grade of C or better).  
--AA/AS General Education: AA/AS D2  
--Transfers to both UC/CSU

CSIS-202  
Networks and Data Communications  
LEC 48-54  
This course introduces students to fundamental data communication concepts including voice and data communications, networking hardware, the OSI model, and network design. Network management and security issues are also covered. This course is designed for the student who is interested in learning about data communications and networking as well as the career options that are available in this field. Prerequisite: None.  
--Transfers to CSU only

CSIS-211  
Introduction to Data Structures and Algorithms  
LEC 48-54  
This course is intended to introduce students to the concept of data structures and algorithms. Basic topics in this course include arrays, lists, stacks and queues. Advanced topics such as dictionaries including binary search trees, hashing, priority queues, and heaps will also be covered. In addition, this course will introduce analysis of algorithms, sorting algorithms, and object-oriented programming techniques including: abstract data types, inheritance, and polymorphism. Prerequisite: CSIS-123A or CSIS-123B (with a grade of C or better).  
--Transfers to both UC/CSU  
--C-ID COMP 132

CSIS-213  
Discrete Structures  
LEC 48-54  
This course is an introduction to the discrete structures used in Computer Science with an emphasis on their applications. Topics covered include: Functions, Relations and Sets; Basic Logic; Proof Techniques; Basics of Counting; Graphs and Trees; and Discrete Probability. Prerequisite: MATH-211 (with a grade of C or better).  
--Transfers to both UC/CSU  
--IGETC Area(s): 2A  
--CSU Area(s): B4  
--C-ID COMP 132

CSIS-214  
Principles of Database Management Systems  
LEC 48-54  
This course introduces the theory and principles of relational database management systems. Students will apply these concepts in the design and development of a simple database application. Topics to be covered include data modeling, logical and physical database design, normalization and denormalization, and client-server and distributed database architectures. Prerequisite: None.  
--Transfers to CSU only

CSIS-223A  
Linux System Administration - Level 1  
LEC 48-54  
This course introduces system administration concepts and Linux system administration tools. Concepts to be covered include system and software installation, kernel building and configuration, system startup and shutdown, and user and group management issues. Prerequisite: None. Recommended Preparation: CSIS-153.  
--AA/AS General Education: AA/AS D2  
--Transfers to CSU only

CSIS-223A  
Linux System Administration - Level 2  
LEC 48-54  
This course focuses on advanced Linux system administration concepts and tools and introduces techniques for managing a Linux platform in a networked environment. System log files will be examined and used to support system admin and security needs. Prerequisite: CSIS-223A (with a grade of C or better).  
--Transfers to CSU only

CSIS-241A  
Database Server Administration - Level 1  
LEC 48-54  
This course introduces the tools and methodologies of database administration. Database architectures will be studied, especially in regard to installation and configuration issues. Students will install and configure a functioning multi-user database system. Prerequisite: None.  
--Transfers to CSU only

CSIS-241A  
Database Server Administration - Level 2  
LEC 48-54  
This course introduces advanced tools, techniques and methodologies tools and methodologies of database administration. The emphasis in this course is on managing and administering the day-to-day operations of a multi-user database system. Topics that will be covered include: backup and recovery, user management, and performance tuning. Prerequisite: CSIS-241A (with a grade of C or better).  
--Transfers to CSU only

CSIS-261A  
Database Server Administration - Level 2  
LEC 48-54  
This course introduces advanced tools, techniques and methodologies tools and methodologies of database administration. The emphasis in this course is on managing and administering the day-to-day operations of a multi-user database system. Topics that will be covered include: backup and recovery, user management, and performance tuning. Prerequisite: CSIS-241A (with a grade of C or better).  
--Transfers to CSU only

CSIS-298A  
CIS Special Topics: Programming  
LEC 8-54  
This course permits students to study relevant programming topics within the field of computer information systems. Topics and credit will vary. (May be taken for additional credit with new content). Prerequisite: None.  
--Transfers to CSU only

CSIS-298B  
CIS Special Topics: Database Technologies  
LEC 8-54  
This course introduces the student to new and emerging database tools and technologies. Students will have the opportunity to develop and build prototypes for the concepts, procedures, and methodologies covered in class. Topics and credit will vary. (May be taken for additional credit with new content) Prerequisite: CSIS-114A (with a grade of C or better).  
--Transfers to CSU only

CSIS-299  
Special Projects: Computers  
IS 16-54  
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous computer courses; a contract must be completed with the instructor prior to enrollment.  
--Transfers to CSU only

<thead>
<tr>
<th>Course Code</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>NET-100</td>
<td>3 units</td>
<td>Network Fundamentals (formerly Local Area Network Design and Switch Management) This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. The course uses the OSI and TCP layered models to examine the nature and roles of protocols and services at the application, network, data link, and physical layers. The principles and structure of IP addressing and the fundamentals of Ethernet concepts, media, and operations. Prerequisite: None. --Transfers to both UC/CSU</td>
</tr>
<tr>
<td>NET-101</td>
<td>3 units</td>
<td>Routing Protocols and Concepts (formerly Layer 3 Routing and Router Management) This course describes the architecture, components, and operation of routers, and explains the principles of routing and routing protocols. Students analyze, configure, verify, and troubleshoot the primary routing protocols RIPv1, RIPv2, EIGRP, and OSPF. By the end of this course, students will be able to recognize and correct common routing issues and problems. Prerequisite: NET-100 (with a grade of C or better). --Transfers to CSU only</td>
</tr>
<tr>
<td>NET-102</td>
<td>3 units</td>
<td>LAN Switching and Wireless (formerly Wide Area Network Design and Protocol Configuration) This course provides a comprehensive, theoretical, and practical approach to learning the technologies and protocols needed to design and implement a converged switched network. Students learn about the hierarchical network design model and how to select devices for each layer. The course explains how to configure a switch for basic functionality and how to implement Virtual LANs, VTP, and Inter-VLAN routing in a converged network. Prerequisite: NET-101 (with a grade of C or better). --Transfers to CSU only</td>
</tr>
<tr>
<td>NET-103</td>
<td>3 units</td>
<td>Accessing the WAN This course discusses the WAN technologies and network services required by converged applications in enterprise networks. The course uses the Cisco Network Architecture to introduce integrated network services and explains how to select the appropriate devices and technologies to meet network requirements. Students learn how to implement and configure common data link protocols and how to apply WAN security concepts, principles of traffic, access control, and addressing services. Prerequisite: NET-102 (with a grade of C or better). --Not transferable</td>

</thead>
<tbody>
<tr>
<td>DAN-100</td>
<td>3 units</td>
<td>History and Appreciation of Dance This course explores the universal human activity known as dancing from a cross-cultural perspective, examining the myriad ways in which dance functions in societies. The histories, theories, techniques, and purposes of various theatrical, religious, and social dances from around the world are compared, contrasted, and interrelated. The culture-specific nature of the dancing body and its audiences are analyzed to discover the meanings carried within these dances. *Cross-listed as HIST-151. Prerequisite: None. --AA/AS General Education: AA/AS B2 or AA/AS C and AA/AS F</td>
</tr>
<tr>
<td>DAN-108</td>
<td>3 units</td>
<td>Improvisation for Dance and Theater This course explores unscripted theater using techniques found in viewpoints, action theater, mask work, contact improvisation, theater games, and dance. Students will develop as whole performers through learning intuitive response techniques in all performance situations. *Cross-listed as THA-108. Prerequisite: None. --AA/AS General Education: AA/AS C</td>
</tr>
<tr>
<td>DAN-120</td>
<td>2 units</td>
<td>Conditioning and Alignment for Dance This special conditioning needs of dancers are addressed through a variety of movement disciplines, theories and practices (e.g., Pilates, Bartenieff Fundamentals, Alexander Technique, Release Technique, Structural Reintegration, weight training, aerobics and Yoga.) Exercises for strength, flexibility, neuromuscular coordination, and cardiovascular coordination augmented with conditioning for alignment, neuromuscular coordination, and relaxation. Students learn to assess their own conditioning needs for dance. Individual plans will be created and implemented. Prerequisite: None. --CSU Area(s): E1</td>
</tr>
<tr>
<td>DAN-121</td>
<td>2 units</td>
<td>Beginning Ballet An introduction to the classical dance techniques of ballet emphasizing alignment, strength, flexibility, balance and musicality. Historical perspectives, terminology, basic barre and center combinations are learned. Throughout the course, particular attention is placed on the development of a body capable of moving in the ballet aesthetic (the development of a strong core, uplifted stance, turn-out, epaulement, a frontal presentation of the body) and on the recognition of that aesthetic as part of the Western tradition. May be taken 2 times for credit. Prerequisite: None. --CSU Area(s): C1</td>
</tr>
<tr>
<td>DAN-122</td>
<td>2 units</td>
<td>Beginning Modern Dance This beginning level study of modern dance techniques focuses on the inner impulse of modern dance and draws upon the movement vocabularies of classical, post-modern, and contemporary styles. Techniques which may be covered are: Graham, Holt, Humphrey-Weidman, Limon, Cunningham, Horton, Hawkins, Taylor, Tharp, Hay, Farber, and contemporary styles of current modern dance artists. The development of dynamic alignment suppleness flexibility rhythmicality musicality endurance balance modern dance movement vocabulary and historicity is emphasized. May be taken 2 times for credit. Prerequisite: None. --CSU Area(s): C1</td>
</tr>
</tbody>
</table>
Course Descriptions

DAN-123 2 units
Beginning Jazz Dance LEC 24-27/LAB 24-27
This course is an introduction to the highly stylized dance form known as jazz which incorporates African, Latin, Theatrical and Contemporary movement and music styles. Since jazz dance is the dominant American vernacular dance genre, the most current trends in television, film and stage dance may be included. The historical roots and development of jazz as a fusion dance form of North America will be studied. Prerequisite: None.
--AA/AS General Education: AA/AS C or AA/AS E
--Transfers to both UC/CSU
--CSU Area(s): C1

DAN-124 2 units
Beginning Tap Dance LEC 24-27/LAB 24-27
This beginning level course introduces students to the uniquely American dance form known as tap dance. Basic steps, rhythms, vocabulary, beginning musicality and movement skills are introduced. This course emphasizes fundamental tap dance skills and introduces students to the historical and cultural context of tap dance. Prerequisite: None. Other Enrollment Criteria: Students must purchase tap shoes for their own use.
--AA/AS General Education: AA/AS C or AA/AS E
--Transfers to both UC/CSU
--CSU Area(s): E1

DAN-125 3 units
Choreography I LEC 48-54
(formerly Introduction To Choreography)
The study of the art of choreography emphasizes analysis of the evocative language of movement as a form of human expression. Various means of instruction are employed to introduce choreographic forms and principles, history, and the elements of space, time, energy, motion and stasis in this entry-level course. Personal investment and individual creativity are stressed. Prerequisite: None.
--AA/AS General Education: AA/AS C or AA/AS E
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

DAN-126 2 units
Intermediate Modern Dance LEC 16-18/LAB 48-54
This course facilitates the development of modern dance technique beyond a beginning level. Emphasis is placed upon deepening the dancer's technical and expressive skills through more complex movement combinations and improvisations. Rhythmic, spatial and dynamic movement skills are fostered as well as the understanding of the historical and cultural context of the modern dance canon. May be taken 2 times for credit. Prerequisite: DAN-122 (with a grade of C or better) or by audition. Recommended Preparation: Modern dance experience.
--AA/AS General Education: AA/AS C or AA/AS E
--Transfers to both UC/CSU
--CSU Area(s): C1

DAN-127 2 units
Intermediate Jazz Dance LEC 16-18/LAB 48-54
This course facilitates the study of jazz dance technique on an intermediate level, focusing on the student's development of technical skills and vocabulary specific to the jazz dance genre. A variety of classical and contemporary presentational styles will be explored as well as the historical and cultural context of jazz dance. This course facilitates the student's examination of movement dynamics, musicality and rhythm as they apply to technical and expressive movement skills. Prerequisite: DAN-123 (with a grade of C or better) or by audition.
--AA/AS General Education: AA/AS C or AA/AS E
--Transfers to both UC/CSU
--CSU Area(s): E1

DAN-128 2 units
Intermediate Ballet LEC 24-27/LAB 24-27
This course facilitates the study of ballet technique and aesthetics beyond a beginning level. The development of the dancer's technical, artistic and expressive dance skills are a primary focus within both classical and contemporary ballet styles. The historical and cultural context of ballet, including the European aesthetic will also be discussed. May be taken 2 times for credit. Prerequisite: DAN-121 (with a grade of C or better) or by audition. Other Enrollment Criteria: Students must supply their own ballet slippers for this course.
--AA/AS General Education: AA/AS C or AA/AS E
--Transfers to both UC/CSU
--CSU Area(s): C1

DAN-129 2 units
Intermediate Tap Dance LEC 24-27/LAB 24-27
This course presents a continuation of skills learned in DAN 124 and emphasizes the development of rhythmic and dynamic tap dance technique beyond a beginning level. Increased dance proficiency is gained specific to the analysis and practice of syncopated and swing rhythms within extended combinations and improvisations. Intermediate vocabulary is utilized and the historical and cultural context of tap dance is discussed. Prerequisite: DAN-124 (with a grade of C or better) or by audition. Other Enrollment Criteria: The student must provide tap shoes for their own use.
--AA/AS General Education: AA/AS C or AA/AS E
--Transfers to both UC/CSU
--CSU Area(s): C1

DAN-130 2 units
Beginning Ballroom Dance LEC 24-27/LAB 24-27
This beginning course in ballroom dance introduces selected dances such as the cha cha, foxtrot, hustle, mambo, merengue, rumba, tango, and the waltz. Emphasis is on alignment, etiquette, leading and following, performance techniques and presentation of simple dance phrases. Cultural and social origins of each style are explored with emphasis on historical development. Ballroom dance as art, social history, popular dance, professional competition, and dance sport is studied. Prerequisite: None.
--AA/AS General Education: AA/AS C or AA/AS E
--Transfers to both UC/CSU
--CSU Area(s): E1

DAN-131 2 units
Beginning Hip Hop LEC 24-27/LAB 24-27
This beginning course in hip hop introduces the movement vocabularies of street dancing as well as its historical context. The most current trends in film, stage dance and television may be included. The course emphasizes the development of coordination, strength, stamina, and rhythm necessary to meet the demands of high intensity performance skills in popular street dancing forms. Students will be encouraged to develop individual interpretation and personal style indigenous to this dance form. Prerequisite: None. Recommended Preparation: Beginning and/or intermediate level jazz dance.
--AA/AS General Education: AA/AS C or AA/AS E
--Transfers to both UC/CSU
--CSU Area(s): E1

### Diagnostic Medical Sonography

- **DMS-095 Sonography Medical Terminology**
  - The course provides students with the knowledge and understanding of medical terminology used in the Diagnostic Medical Sonography field. Prerequisite: Acceptance into the Diagnostic Medical Sonography Program.
  - Not transferable

- **DMS-100 Fundamentals of Diagnostic Medical Sonography**
  - This is an introductory course for students accepted into the Diagnostic Medical Sonography program. The student will learn basic scanning skills, transducers and monitor orientation using ultrasound machines. The Society of Diagnostic Medical Sonographers Code of ethics and Clinical Practice Standards will be discussed along with sonography terms and scanning planes. Students will learn to identify and image anatomy using ultrasound machines. Prerequisite: Acceptance into the Diagnostic Medical Sonography Program.

Course Descriptions

**DMS-134**
Ultrasound Seminar 2 units
LEC 32-36
This course is a review of ultrasound physics/instrumentation, abdomen and superficial structures, and presentation of case studies. Discussion of interesting and/or rare cases pertaining to clinical symptoms, sonographic patterns and technical pitfalls will be included. New trends in diagnostic imaging are introduced. Practice testing to prepare for the ARDMS registry examinations and instruction on writing a resume will be included in the course. Prerequisite: DMS-132 and DMS-140 (with a grade of C or better).
--Transfers to CSU only

**DMS-135**
Ultrasound Physics and Instrumentation II 2 units
LEC 32-36
This is the second of two courses designed to teach Ultrasound Physics and Instrumentation. The focus of this course is image storage and display, hemodynamics, doppler, color flow and color power imaging, artifacts found in ultrasound, quality assurance, and the bioeffects and safety of ultrasound. Prerequisite: DMS-125 (with a grade of C or better).
--Transfers to CSU only

**DMS-136**
Clinical Experience III 10 units
LAB 480-540
(formerly Clinical Experience IV)
This course is offered as a continuation of advanced on the job training in a sonography department of a selected affiliated hospital/medical center. The student will demonstrate the ability to perform sonographic examinations of the abdomen, superficial structures, pelvis, and obstetric exams according to protocol guidelines established by the program and the clinical education center utilizing state of the art equipment. Prerequisite: DMS-124 (with a grade of C or better).
--Transfers to CSU only

**DMS-140**
Introduction to Vascular Imaging 2 units
LEC 32-36
This course is to provide the DMS student with an introduction to scanning and evaluating blood flow within the body; specifically the carotid artery, and the arteries and veins of the extremities. The course will introduce duplex imaging in the normal vessel and the expected outcomes when scanning a stenotic vessel. The student will learn to correlate related diagnostic imaging procedures (angiogram, MRA and CT) with the sonographic appearances. Prerequisite: DMS-100 and DMS-120 (with a grade of C or better).
--Transfers to CSU only

**DMS-299**
Special Projects: Diagnostic Medical Sonography 1-3 units
IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Diagnostic Medical Sonography classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

---

**Economics**

**ECON-201**
Principles of Macroeconomics 3 units
LEC 48-54
This course covers the basic theories, concepts, terminology, and uses of macroeconomics. Emphasis is placed on Classical and Keynesian theories, Federal Reserve System, and how institutions achieve domestic and international economic goals using monetary and fiscal policies. Concentrates on aggregate supply and demand, economic fluctuations, money and banking, national income and expenditure, employment, inflation, output, economic stability and growth. Other topics covered include international trade and finance, globalization and international impacts on economies. Prerequisite: MATH-096 (with a grade of C or better).
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 4B
--CSU Area(s): D2

**ECON-201H**
Honors Principles of Macroeconomics 3 units
LEC 48-54
This course covers the basic theories, concepts, terminology, and uses of macroeconomics. Emphasis is placed on Classical and Keynesian theories, Federal Reserve System, and how institutions achieve domestic and international economic goals using monetary and fiscal policies. Concentrates on aggregate supply and demand, economic fluctuations, money and banking, national income and expenditure, employment, inflation, output, economic stability and growth. Other topics covered include international trade and finance, globalization and international impacts on economies. Prerequisite: Acceptance in the Honors Enrichment Program and MATH-096 (with a grade of C or better).
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 4B
--CSU Area(s): D2

**ECON-202**
Principles of Microeconomics 3 units
LEC 48-54
This course covers the basic theories, concepts, terminology, and uses of microeconomics. Emphasis is on the interaction of consumers, business, and industry choices in a market economy. Topics covered include optimizing behavior of individual firms and consumers, supply and demand, elasticity, consumer choice, production and costs, market structures, antitrust and regulation, factor markets, income and poverty, market failures, and public choice. Issues such as environmental problems are also studied. Prerequisite: MATH-096 (with a grade of C or better).
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 4B
--CSU Area(s): D2
--C-ID ECON 201
Course Descriptions

**ECON-202H**  
Honors Principles of Microeconomics  
LEC 48-54  
This course covers the basic theories, concepts, terminology, and uses of microeconomics. Emphasis is on the interaction of consumers, business, and industry choices in a market economy. Topics covered include optimizing behavior of individual firms and consumers, supply and demand, elasticity, consumer choice, production and costs, market structures, antitrust and regulation, factor markets, income and poverty, market failures, and public choice. Issues such as environmental problems are also studied. Prerequisite: Acceptance in the Honors Enrichment Program and MATH-096 (with a grade of C or better).  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 4B  
--CSU Area(s): D2

**ECON-203**  
Introduction to Environmental Economics  
LEC 48-54  
This course covers the basic theories, concepts, terminology, and uses of environmental economics, with an emphasis on the impacts of environmental problems and economic analysis of environmental issues and economic implications of the emerging green economy; urban and corporate environmentalism; economics of environmental regulation and of non-renewable resources and sustainability. Other topics covered include environmental problems and policies on wealth distribution, economic growth and international environmental issues. Prerequisite: None. Recommended Preparation: ECON-202.  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU

**ENGR-107**  
Total Quality Management  
LEC 48-54  
This course is designed to give the student an understanding of the total quality approach to quality management. The total quality philosophy is an approach to doing business that incorporates continuous improvement techniques and employee training to increase overall performance and competitiveness. Prerequisite: None. Recommended Preparation: ENGL-092 or ENGL-098.  
--Transfers to CSU only

**ENGR-108**  
Organizational Behavior  
LEC 48-54  
This course is designed to give students an understanding of and methods to react to various behaviors encountered in the workplace. The study of organizational behavior provides insights into people at work in all kinds of situations and organizations. By providing an understanding of how organizations operate, the student can become a more efficient and productive team member. *Cross-listed as MGT-108. Prerequisite: None.*  
--Transfers to CSU only

**ENGR-109**  
Manufacturing Inspection Techniques and Applications  
LEC 48-54  
This course is designed to give the student an understanding of the basic skills that contribute to the quality of manufactured products and focuses on the tools and techniques used by industry for inspection and measurement of products. It covers various quality assurance, quality control and inspection topics used in industry at the technician level. Prerequisite: None.  
--Transfers to CSU only

**ENGR-114**  
Machine Tool Technology  
LEC 32-36/LAB 48-54  
This course gives students an understanding of the fundamentals and uses of machine tool technology in the manufacturing and environmental industries. Lecture/theory instruction will be followed by demonstrations and hands-on use of many of the machine tools currently used in industry. Prerequisite: None.  
--Transfers to CSU only

**ENGR-116**  
Energy Efficiency and Construction Methods  
LEC 48-54  
This course provides an overview of the green construction movement and the basic factors involved with designing a new ecological home. Topics include green construction methods and sustainable systems. Prerequisite: None.  
--Transfers to CSU only

**ENGR-117**  
Solar Photovoltaic Installation  
LEC 48-54  
This course provides students with a comprehensive guide to the design, installation and evaluation of residential and commercial solar photovoltaic systems. The course will cover the principles of photovoltaics and how to effectively incorporate PV systems into a stand-alone or interconnected electrical system. Prerequisite: SEMA-100 or ENGR-114 (with a grade of C or better).  
--Transfers to CSU only

**ENGR-118**  
Solar Thermal Installation  
LEC 48-54  
This course provides students with a comprehensive guide to the design, installation and evaluation of residential and commercial solar thermal systems. The course will cover the principles of solar thermal technology and how to effectively incorporate solar thermal systems into residential and commercial applications. Prerequisite: SEMA-100 or ENGR-114 (with a grade of C or better).  
--Transfers to CSU only

**ENGR-119**  
Solar Thermal Installation  
LEC 48-54  
This course provides students with a comprehensive guide to the design, installation and evaluation of residential and commercial solar photovoltaic systems. The course will cover the principles of photovoltaics and how to effectively incorporate PV systems into a stand-alone or interconnected electrical system. Prerequisite: SEMA-100 or ENGR-114 (with a grade of C or better).  
--Transfers to CSU only
Course Descriptions

ENGR-119 3 units
Small Wind Energy Installation  LEC 48-54
This course provides students with a comprehensive guide to the design, installation, and evaluation of residential small wind energy systems. The course will cover the principles of wind energy technology and how to effectively incorporate small wind energy systems into residential applications. Prerequisite: SEMA-100 or ENGR-114 (with a grade of C or better).

--Transfers to CSU only

ENGR-149 1-4 units
Occupational Internship: Engineering  LI 16-72
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.

--Transfers to CSU only

ENGR-154 3 units
Computer Aided Drafting I  LEC 32-36/LAB 48-54
This course is an introductory course to Computer Aided Drafting (CAD). Course provides students with the necessary skills for entry level drafting careers in fields employing architectural and engineering drawings, surveying and planimetric mapping, and computer aided mapping skills, such as Geographic Information Systems. Applying cutting edge technology in the field of drafting, students learn concepts of engineering drawing and drafting plans through digital manipulation of design elements. Prerequisite: None. Recommended Preparation: ENGL-92 or ENGL-098 and computer experience or the completion of a computer literacy class.

--Transfers to both UC/CSU

ENGR-155 3 units
Computer Aided Drafting II  LEC 32-36/LAB 48-54
This course provides students with the necessary skills for drafting careers in fields that employ architectural engineering drawings, surveying, planimetric mapping, computer aided mapping skills such as Geographic Information Systems and Manufacturing. Applying cutting edge technology in the field of drafting students learn concepts of engineering drawing and drafting plans through digital manipulation of design elements. Exercises focus on coordinate geometry modeling, programming and plotting. Prerequisite: ENGR-154 (with a grade of C or better).

--Transfers to both UC/CSU

ENGR-156 3 units
SolidWorks I  LEC 32-36/LAB 48-54
This course is designed to introduce the student to three-dimensional parametric solid modeling with SolidWorks. Students will begin with basic parametric solid modeling techniques advancing into complex assemblies. Prerequisite: None.

--Transfers to CSU only

ENGR-157 3 units
MicroStation I  LEC 32-36/LAB 48-54
This course is designed to introduce students to MicroStation CAD software and provides students with the necessary skills that are essential with the program. Students learn concepts of engineering drawing and drafting plans through digital manipulation of design elements. Students will be able to create 2 dimensional drawing including:

structure and setting levels, manipulate elements such as copy parallel and set fence modes modify and lock fence. Prerequisite: None. Recommended Preparation: Computer experience or the completion of a computer literacy class.

--Transfers to CSU only

ENGR-164 4 units
Plane Surveying I  LEC 48-54/LAB 48-54
This course will cover surveying fundamental skills which includes: use and proper care of surveying instruments, horizontal, vertical and angular measurements, layout and traverse procedures, computation, analysis, and adjustments of the traverse. Students will also get an introduction to the Public Land Survey System, State Plane Coordinates, Global Positioning System, and state/local laws. Prerequisite: MATH-051 (with a grade of C or better) or appropriate assessment score.

--Transfers to CSU only

ENGR-165 4 units
Plane Surveying II  LEC 48-54/LAB 48-54
This advanced course is a continuation of Plane Surveying I and designed for students seeking a career in surveying and engineering. Students will compute horizontal and vertical curves, earthworks, and adjustment of level nets. Students will be introduced to the Public Land Survey System, California Coordinate System, easements and property descriptions, astronomic observations, Global Information System, and photogrammetry. Prerequisite: ENGR-164 (with a grade of C or better).

--Transfers to CSU only

ENGR-166 3 units
Legal Aspects of Surveying  LEC 48-54
This course is designed for surveyors, engineers, realtors, and any person who deals with property descriptions. It includes a study of the legal aspects of public land surveys, municipal property surveys, and laws applicable to surveyors. Topics include history of land survey system, establishment of township subdivisions, reestablishing private subdivisions, and reading, interpreting, and writing land descriptions. Prerequisite: None. Recommended Preparation: ENGL-092 or ENGL-098.

--Transfers to CSU only

ENGR-167 4 units
Global Positioning Systems  LEC 48-54/LAB 48-54
This course provides students with fundamental knowledge for applying GPS technology in the field for engineering based operations. Emphasis is placed on satellite systems, measurements for positional accuracy, statistical adjustments, post-processing, real-time and post-differential correction, field data collection, and mapping models. The course provides hands-on experience with GPS instruments used for field-based survey and planimetric mapping. Prerequisite: None.

--Transfers to CSU only

ENGR-180 3 units
Introduction to Engineering  LEC 48-54
An introduction to the career opportunities and skills needed to become an engineer. Various forms of engineering communication including laboratory report writing, graphical presentations, and problem solving format are presented. The scientific method of investigation is covered. This course is recommended for all students considering career possibilities in engineering. Prerequisite: None.

--Transfers to CSU only
Course Descriptions

ENGR-181 3 units
Statics
LEC 48-54
This course lays the foundation of Newtonian mechanics, serves as the building blocks for further courses in analysis and design. A study of two and three dimensional equilibrium of particles and rigid bodies; concentrated and distributed force systems; shear and bending moment stresses in beams; analysis of frames, machine and trusses; force resultant using vectors in tow and three dimension; non-coplanar force system, friction forces; center of gravity and moment of inertia. Prerequisite: PHY-201 (with a grade of C or better).
--Transfers to both UC/CSU

ENGR-182 4 units
Strength and Materials
LEC 48-54/LAB 48-54
Plane stress-strain, axial, torsional, bending and shear stresses are studied, including combined loads, Mohr's Circle, principal stresses and strains, and pressure vessels. Generalized Hooke's Law, material properties, allowable stress, factor of safety, statically indeterminate members, shear and moment diagrams; moment-area, slope by double integration, singularity functions, superposition, and Castigliano methods are also studied. Topics include thermal expansion, indeterminate forms and column buckling. Prerequisite: ENGR-181 (with a grade of C or better).
--Transfers to both UC/CSU

ENGR-298A-G, I-V 0.50-4 units
Special Topics in Engineering/Surveying
LEC 8-54/LAB 8-108
Engineering special topics enhance the core curriculum and provide students with an opportunity to develop specialized skills. Whenever the demand for a special topic is adequate, a request for new course section (with a designation A through V) may be added to the upcoming schedule. Topics and credit will vary. One topic per course may be taken for credit. Prerequisite: None.
Course Topics:
A. Introduction to Engineering/Surveying
B. Microstation
C. Solidworks
D. Terramodel
E. Auto-CAD Engineering/Surveying Mapping
F. Least Squares Adjustment
G. 3-D Processing
I. Land Surveyor Test Workshop
J. Engineer In Training (EIT) Workshop
K. Civil Engineer Test Workshop
L. Handheld Calculator/Data Collector
M. Public Land Survey System
N. Survey Research
O. Engineering/Surveying Hardware
P. Preparing Legal Descriptions
Q. Global Positioning System
R. Construction Surveying
S. Surveying for GIS purposes
T. Surveying for Photogrammetric Mapping purposes
U. Handdrafting
V. Land Surveying in Training (LSIT) Workshop
--Transfers to CSU only

ENGR-299 1-3 units
Special Projects: Engineering
IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Engineering and Related Technologies classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

English

ENGL-061 4 units
Basic Grammar and Usage
LEC 64-72
This course in the context of reading and writing develops grammar usage skills needed for English 062, 092, 098, and 101. The course begins with the structure of a sentence including parts of speech, punctuation, and mechanics, and ends with the structure of an expository paragraph. Offered as pass/no pass only. Prerequisite: None.
--Not transferable

ENGL-062 4 units
Basic Writing Skills
LEC 64-72
This course improves the writing skills needed for English 092, 098 and 101. English 062 emphasizes the writing process, accurate expressive writing developed through self-editing and revision. The course focuses on paragraph writing leading to the development of a multiple-paragraph essay. A student must earn at least 75% of the course points to pass the course. Prerequisite: ENGL-061 or appropriate assessment score.
--Not transferable

ENGL-092 5 units
Accelerated English Fundamentals and Skills
LEC 80-90
This course provides an accelerated route to English 101 for the highly motivated student. This course will focus on critical reading, the multi-paragraph essay, and an introduction to academic research fundamentals. Grammar and paragraphing will be reviewed as needed. Prerequisite: ENGL-061 or ENGL-062 or appropriate assessment score.
--Not transferable

ENGL-095 3 units
Business English
LEC 48-54
A study of the principles of editing written communication applicable to business. The course emphasis is on fundamentals of grammar, number usage, punctuation, spelling, and modern business vocabulary. The course provides a thorough treatment of current English usage needed in the business office environment. The basic principles of business writing are introduced. *Cross-listed as OTEC-095. Prerequisite: None.
--Not transferable

ENGL-098 4 units
English Fundamentals
LEC 64-72
This course provides practice in English composition with emphasis on the multi-paragraph essay and a review of mechanics and paragraphing. The course also introduces students to finding library resources and integrating them into a paper. Successful completion will prepare students for English 101. Prerequisite: ENGL-062 or appropriate assessment score.
--Not transferable
ENGL-101  4 units
Freshman Composition  LEC 64-72
This course provides instruction in writing academic analytic essays. Students will learn to interpret and respond to sources analytically, conduct academic-level research and incorporate those sources into a research paper. This course satisfies graduation and transfer requirements. Prerequisite: ENGL-092, ENGL-098 or ESL-098W (with a grade of C or better) or appropriate assessment test score.
--AA/AS General Education: AA/AS D1
--Transfers to both UC/CSU
--IGETC Area(s): 1A
--CSU Area(s): A2
--C-ID ENGL 100

ENGL-101H  4 units
Honors Freshman Composition  LEC 64-72
This course provides instruction in writing academic analytic essays. Students will learn to interpret and respond to sources analytically, conduct academic-level research and incorporate those sources into a research paper. This course satisfies graduation and transfer requirements. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-092, ENGL-098 or ESL-098W (with a grade of C or better) or appropriate assessment test score.
--AA/AS General Education: AA/AS D1
--Transfers to both UC/CSU
--IGETC Area(s): 1A
--CSU Area(s): A2
--C-ID ENGL 100

ENGL-103  4 units
Critical Thinking and Writing  LEC 64-72
This course provides continuing practice in the analytic writing begun in English 101. The course develops critical thinking, reading, and writing skills as they apply to the analysis of written texts (literature and/or non-fiction) from diverse cultural sources and perspectives. The techniques and principles of effective written argument as they apply to the written text will be emphasized. Some research is required. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU
--IGETC Area(s): 1B
--CSU Area(s): A3
--C-ID ENGL 105 or C-ID ENGL 110

ENGL-103H  4 units
Honors Critical Thinking and Writing  LEC 64-72
This course provides continuing practice in the analytic writing begun in English 101. The course develops critical thinking, reading, and writing skills as they apply to the analysis of written texts (literature and/or non-fiction) from diverse cultural sources and perspectives. The techniques and principles of effective written argument as they apply to the written text will be emphasized. Some research is required. Prerequisite: Acceptance in the Honors Enrichment Program; ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS D2
--Transfers to both UC/CSU
--IGETC Area(s): 1B
--CSU Area(s): A3
--C-ID ENGL 105

ENGL-106  3 units
Introduction to Literature  LEC 48-54
This course is a multi-genre, multi-period course that introduces students to fiction, poetry, and drama from diverse cultural sources and perspectives. Students will examine literary terms and methods of literary analysis to provide them with a broad understanding of literature. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2
--C-ID ENGL 120

ENGL-106H  3 units
Honors Introduction to Literature  LEC 48-54
This course is a multi-genre, multi-period course that introduces students to fiction, poetry, and drama from diverse cultural sources and perspectives. Students will examine literary terms and methods of literary analysis to provide them with a broad understanding of literature. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2
--C-ID ENGL 120

ENGL-130  3 units
Introduction to Creative Writing  LEC 48-54
This course encourages individual exploration into creative writing in several core genres- particularly poetry and short fiction. The course includes writing in journals, composing creative works, reading works of literature, and actively participating in peer workshops. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C2

ENGL-130H  3 units
Honors Introduction to Creative Writing  LEC 48-54
This course encourages individual exploration into creative writing in several core genres- particularly poetry and short fiction. The course includes writing in journals, composing creative works, reading works of literature, and actively participating in peer workshops. Prerequisites: Acceptance into the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C2

ENGL-131  3 units
Children's Literature  LEC 48-54
This course is a general survey of children's literature from picture books to novels. Students will examine literary elements developed in poetry and prose for children, children's responses to books, the development of literature-based activities for children, genres of children's literature as well as literary approaches to the literature. *Cross-listed as CDE-131. Prerequisite: ENGL-098 or ENGL-092 (with a grade of C or better). Recommended Preparation: ENGL-101.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C2

Course Descriptions

ENGL-207H 3 units
Honors American Literature: Pre-Colonial to 1865 LEC 48-54
This course chronologically surveys American writing from the pre-colonial period to the Civil War and examines the work of both major and minor writers. Writers are examined in an historical context and considered in light of the ethnic, literary, geographical, religious, ideological, and political environments within which they wrote. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2
--C-ID ENGL 130

ENGL-208 3 units
American Literature: 1865 to Present LEC 48-54
This course chronologically surveys American writing from the post-Civil War period to the present and examines the work of both major and minor writers. Writers are examined in an historical context and considered in light of the ethnic, literary, geographical, religious, ideological, and political environments within which they wrote. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2
--C-ID ENGL 135

ENGL-208H 3 units
Honors American Literature: 1865 to Present LEC 48-54
This course chronologically surveys American writing from the post-Civil War period to the present and examines the work of both major and minor writers. Writers are examined in an historical context and considered in light of the ethnic, literary, geographical, religious, ideological, and political environments within which they wrote. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2
--C-ID ENGL 135

ENGL-220 3 units
Analysis of Fiction LEC 48-54
This course examines a variety of genres, periods, and authors of fiction from diverse cultural sources and perspectives. Students will explore the elements that make up fiction as well as approaches for analyzing literature so that they can enhance their enjoyment of fiction and become better critical readers of short stories and novels through interpretation, discussion, and writing. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ENGL-220H 3 units
Honors Analysis of Fiction LEC 48-54
This course examines a variety of genres, periods, and authors of fiction from diverse cultural sources and perspectives. Students will explore the elements that make up fiction as well as approaches for analyzing literature so that they can enhance their enjoyment of fiction and become better critical readers of short stories and novels through interpretation, discussion, and writing. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ENGL-225 3 units
Film and Literature LEC 48-54
This course acquaints students with basic literary and film theory and terminology as tools for the analysis of both narrative literature and film and to explore the interplay between these two types of text. Some attention to genre and literary and film history will contextualize our discussions about the translation of literature into film. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ENGL-225H 3 units
Honors Film and Literature LEC 48-54
This course acquaints students with basic literary and film theory and terminology as tools for the analysis of both narrative literature and film and to explore the interplay between these two types of text. Some attention to genre and literary and film history will contextualize our discussions about the translation of literature into film. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ENGL-230 3 units
English Literature: Anglo-Saxon to 1775 LEC 48-54
This course chronologically surveys English writing from the Anglo-Saxon period to 1775 and examines the work of both major and minor writers including such writers as the anonymous author of Beowulf, Chaucer, Malory, the anonymous author of Everyman, More, Sidney, Spenser, Marlowe, Shakespeare, Donne, Jonson, Bacon, Herrick, Herbert, Marvell, Milton, Dryden, Swift, Pope, Johnson, Boswell and Gray. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2
--C-ID ENGL 160
ENGL-230H 3 units
Honors English Literature: Anglo-Saxon To 1775  LEC 48-54
This course chronologically surveys English writing from the Anglo-Saxon period to 1775 and examines the work of both major and minor writers including such writers as the anonymous author of Beowulf, Chaucer, Malory, the anonymous author of Everyman, More, Sidney, Spenser, Marlowe, Shakespeare, Donne, Jonson, Bacon, Herrick, Herbert, Marvell, Milton, Dryden, Swift, Pope, Johnson, Boswell and Gray. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2
--C-ID ENGL 160

ENGL-231 3 units
English Literature: 1775 to Present  LEC 48-54
(formerly English Literature: 1775-1950)
This course chronologically surveys English writing from 1775 to the present, examining the work of both major and minor writers. Writers are studied in a historical context and considered in light of the ethnic, literary, geographical, religious, ideological, and political environments within which they wrote. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2
--C-ID ENGL 165

ENGL-231H 3 units
Honors English Literature: 1775 to Present  LEC 48-54
This course chronologically surveys English writing from 1775 to the present, examining the work of both major and minor writers. Writers are studied in a historical context and considered in light of the ethnic, literary, geographical, religious, ideological, and political environments within which they wrote. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2
--C-ID ENGL 165

ENGL-240 3 units
American Indian Literature  LEC 48-54
(formerly Native American Literature)
This course surveys the variety of writings that constitute American Indian literature. Discussion, lectures, and presentations will cover the significance of the cultural context of various societies as well as the way American Indian literature and our perceptions have changed as a result of historical, political and literary movements. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ENGL-240H 3 units
Honors American Indian Literature  LEC 48-54
(formerly Honors Native American Literature)
This course surveys the variety of writings that constitute American Indian literature. Discussion, lectures, and presentations will cover the significance of the cultural context of various societies as well as the way American Indian literature and our perceptions have changed as a result of historical, political and literary movements. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ENGL-250 3 units
Women and Literature  LEC 48-54
This course examines and explores literary traditions by and about women of various nationalities, ethnicities, and historical periods. The course may include fiction, poetry, drama, film, and non-fiction prose, including autobiography, written by and about women. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ENGL-250H 3 units
Honors Women and Literature  LEC 48-54
This course examines and explores literary traditions by and about women of various nationalities, ethnicities, and historical periods. The course may include fiction, poetry, drama, film, and non-fiction prose, including autobiography, written by and about women. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ENGL-260 3 units
Introduction to African American Literature  LEC 48-54
(formerly African-American Literature)
This course surveys, interprets and compares texts written by and about African Americans and expands upon the African American Diaspora experiences. Discussions, lectures, and presentations will focus on the oral tradition, the search for identity, freedom and literacy, and the complexities of language from both an historical and a literary perspective. The course may include a variety of genres: fiction, poetry, drama, film, and non-fiction prose, etc. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2
Course Descriptions

ENGL-260H 3 units
Honors Introduction to African American Literature
(formerly Honors Introduction to African-American Literature)
This course surveys, interprets and compares texts written by and about African Americans and expands upon the African American Diaspora experiences. Discussions, lectures, and presentations will focus on the oral tradition, the search for identity, freedom and literacy, and the complexities of language from both an historical and a literary perspective. The course may include a variety of genres: fiction, poetry, drama, film, and non-fiction prose, etc. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ENGL-280 3 units
Multiethnic Literature
(formerly Multi-Ethnic Literature)
This course surveys, interprets, and compares the variety of texts written by Asian Americans, African Americans, American Indians and Chicana/o authors, exploring the experiences of ethnic Americans. Discussions, lectures, and presentations will focus on the cultural and historical aspects of the various cultures as well as the way the cultures themselves differ. Prerequisite: ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ENGL-280H 3 units
Honors Multiethnic Literature
(formerly Honors Multi-Ethnic Literature)
This course surveys, interprets, and compares the variety of texts written by Asian Americans, African Americans, American Indians and Chicana/o authors, exploring the experiences of ethnic Americans. Discussions, lectures, and presentations will focus on the cultural and historical aspects of the various cultures as well as the way the cultures themselves differ. Prerequisite: Acceptance in the Honors Enrichment Program and ENGL-101 (with a grade of C or better).
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

ENGL-299 1-3 units
Special Projects: English
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous English classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

English As a Second Language

ESL-050 4 units
English As a Second Language - Level 1
(formerly ESL-050A-ESL 1: Sentence Structure)
Speaking, listening, reading, writing, grammar, vocabulary, and pronunciation skills are focused on in this course. This class is the entry-level college credit course for speakers of English as a second language and focuses on the development of all language skills to increase overall language fluency for students who wish to prepare for college-level coursework. Offered as pass/no pass only. Prerequisite: Appropriate placement based on the CELSA placement instrument.
--Not transferable

ESL-051 4 units
English As a Second Language - Level 2
(formerly ESL-051A-ESL 2: Paraphrastic Structure)
ESL-051 is a continuation of ESL-050. This course provides instruction and practice in high beginning/low intermediate credit English sentence structure, reading, writing, speaking, listening, pronunciation, vocabulary, study skills, and critical thinking skills for students who wish to prepare for college-level work. Students should have passed ESL-050 or have an equivalent skill level to be successful in ESL-051. Offered as pass/no pass only. Prerequisite: ESL-050 or the appropriate placement score.
--Not transferable

ESL-055 2 units
English Pronunciation
(formerly ENGL-056 - English As a Second Language Listening and Speaking)
English Pronunciation allows students for whom English is not their native language to practice and develop their overall English speaking proficiency and focus on specific areas of pronunciation difficulty. Regular attendance, language contact assignments, discussions, and student presentations are required to receive class credit. Offered as pass/no pass only. *Cross-listed as COMM-055. Prerequisite: ESL students test for credit-level English through the CELSA placement test 9 or other approved ESL placement instrument or has appropriate English skill level of participation in college courses. Students test for ESL-050 or above
--Not transferable

ESL-056 3 units
English Conversation and Culture
(formerly ENGL-056 - English As a Second Language Listening and Conversation)
This course is an English conversation class that develops speaking and listening skills in the context of acquiring academic content. Students acquire academic skills while learning about American culture and communication. Classes consist of listening exercises, pair/ small group discussion and student presentations. A basic knowledge of English is required. Offered as pass/no pass only. *Cross-listed as COMM-056. Prerequisite: Appropriate placement on the CELSA placement instrument (or other approved ESL placement instrument) or ESL-050 or higher.
--Not transferable

ESL-062W 4 units
Basic Writing Skills
(formerly ENGL-056 - English As a Second Language Writing)
This course prepares ESL students for ESL 98W and focuses on important aspects of American English writing style and common non-native grammar mistakes. This course emphasizes the acquisition of skills in grammar, punctuation, expressive writing, and revision as students develop from paragraph writing to multiple-paragraph essays. Prerequisite: ESL-051 or the appropriate assessment score.
--Not transferable

Mt. San Jacinto College 2014-2015 Catalog
Course Descriptions

ESL-063R 4 units
ESL Reading and Vocabulary Level 1 LEC 64-72
This course advances students' general reading abilities, vocabulary, critical thinking skills, and use of reading strategies. While some class material may involve academic reading, the focus is on developing overall strategies and skills to improve reading comprehension, accuracy, and application of material. Prerequisite: Placement into ESL-050.
--Not transferable

ESL-064R 4 units
ESL Academic Reading and Vocabulary Level 2 LEC 64-72
This course advances students' skills in the areas of vocabulary usage, comprehension, critical thinking, and cultural inferences to prepare for college level classes. This course also improves students' reading strategies that can be applied to various reading tasks, emphasizes reading as a problem-solving process, and develops study skills. Prerequisite: ESL-063R (with a grade of C or better) or the appropriate assessment score.
--Not transferable

ESL-098W 4 units
English Writing Fundamentals LEC 64-72
This course prepares speakers of other languages for ENGL-101 by providing instructors trained in teaching ESL. The course provides practice in American English composition with an emphasis on the multi-paragraph essay. Grammar, writing mechanics, and paragraphing will also be reviewed with attention given to the unique needs of ESL students. Students will also be introduced to using library resources. Completion of ESL-098W with a grade of C or better meets the prerequisite for ENGL-101. Prerequisite: ESL-062W (with a grade of C or better) or the appropriate assessment test score.
--Not transferable

Environmental Studies

ENVS-100 3 units
Humans and Scientific Inquiry LEC 48-54
This introductory course explores the physical, chemical, biological, anthropological and earth sciences as they relate to human inquiry focusing on the inter-relationships of the physical and natural sciences as they affect everyday human life. The course introduces students to the basic principles of scientific study using human issues as its main theme. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5A
--CSU Area(s): B1, E1

ENVS-100H 3 units
Honors Humans and Scientific Inquiry LEC 48-54
This introductory course explores the physical, chemical, biological, anthropological and earth sciences as they relate to human inquiry focusing on the inter-relationships of the physical and natural sciences as they affect everyday human life. The course introduces students to the basic principles of scientific study using human issues as its main theme. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5A
--CSU Area(s): B1

ENVS-101 3 units
Environmental Science LEC 48-54
An introductory course exploring current environmental issues emphasizing their relationship to the physical, chemical and biological sciences. This course introduces students to the basic principles of scientific study using environmental issues as its main theme, focusing on the inter-relationships of the biotic and abiotic factors of the biosphere as they are influenced by human action. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5A
--CSU Area(s): B1

ENVS-101H 3 units
Honors Environmental Science LEC 48-54
An introductory course exploring current environmental issues emphasizing their relationship to the physical, chemical and biological sciences. This course introduces students to the basic principles of scientific study using environmental issues as its main theme, focusing on the inter-relationships of the biotic and abiotic factors of the biosphere as they are influenced by human action. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5A
--CSU Area(s): B1

ENVS-102 1 unit
Environmental Science Laboratory LAB 48-54
This introductory course explores laboratory techniques used in environmental studies. The course emphasizes laboratory techniques and field-based experiences to investigate the physical, chemical, biological and earth science components of environmental science. Field trips are required. Prerequisite/Corequisite: ENVS-101 (with a grade of C or better).
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5C
--CSU Area(s): B3

ENVS-102H 1 unit
Honors Environmental Science Laboratory LAB 48-54
This introductory course explores laboratory techniques used in environmental studies. The course emphasizes laboratory techniques and field-based experiences to investigate the physical, chemical, biological and earth science components of environmental science. Field trips are required. Prerequisite: Acceptance in the Honors Enrichment Program. Prerequisite/Corequisite: ENVS-101 (with a grade of C or better).
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5C
--CSU Area(s): B3
Course Descriptions

ENVS-110  4 units
Natural Resources  LEC 48-54/LAB 48-54
Introductory course with a lab/field component designed for science majors or non-majors. This course focuses on sustainable management principles with application to the harvest and extraction of natural resources, particularly forest resources. Principles covered include human interactions with forest resources, forest ecology and management, renewable resources, market applications and current issues as they develop in the subject area. A week-long field institute with the USDA Forest Service in Idyllwild is a requisite component of this course. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU only

ENVS-190  4 units
Watershed Resource Management  LEC 48-54/LAB 48-54
Introduction to the foundations of watershed hydrology and management. This course covers the hydrologic cycle, water quality, aquatic ecosystems, social and economic systems, point and nonpoint source pollution, and laws and institutions for managing water resources. It explores the process of developing and implementing a watershed management plan, from problem definition through data collection, public consultation, and program evaluation. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to CSU only

ENVS-299  1-3 units
Special Projects: Environmental Science  IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Environmental Science class; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

Fire Technology

FIRE-101  3 units
Introduction to Fire Technology  LEC 48-54
This course provides an introduction to fire protection; career opportunities; philosophy and history of fire protection; fire loss analysis; organization and function of public and private fire protection services; fire departments as part of local government; laws and regulations affecting the fire service; specific fire protection functions; basic fire chemistry and physics; introduction to fire protection systems; fire strategy and tactics. Prerequisite: None.
--Transfers to CSU only

FIRE-102  3 units
Fundamentals of Fire Prevention  LEC 48-54
This course provides fundamental knowledge relating to the field of fire prevention: Topics include: history and philosophy of fire prevention; organization and operation of a fire prevention bureau; use and application of fire codes and standards; plans review; fire inspections; fire and life safety education; and fire investigation. Prerequisite: None.
--Transfers to CSU only

FIRE-103  3 units
Fire Hydraulics  LEC 48-54
This course emphasizes the principles of fire pump theory, construction, operations and preventative maintenance. The course analyzes the principles of hydraulics, hydraulic measurement, and engine and hose appliance calculations. Students apply mathematical formulas and examine the physical characteristics of water and water supply system throughout the course. This course helps prepare the student to flow water at proper pressures from a fire pump. Prerequisite: FIRE-101 (with a grade of C or better).
--Transfers to CSU only

FIRE-106  3 units
Fundamentals of Fire Behavior and Combustion  LEC 48-54
This course provides the student with fundamental information and knowledge of the physical and chemical characteristics of matter, fire, hazardous materials, extinguishing agents and fire control techniques. Prerequisite: None.
--Transfers to CSU only

FIRE-107  3 units
Fire Apparatus and Equipment  LEC 48-54
Introduces the student to the Driver/Operator job position in the fire service. This course will analyze fire apparatus design, specifications and performance capabilities; effective utilization of apparatus in fire service emergencies. Students will solve hydraulics calculations and examine the physical characteristics of water and water supply systems. Prerequisite: FIRE-101 (with a grade of C or better).
--Transfers to CSU only

FIRE-108  3 units
Fundamentals of Fire Investigation (formerly Fire Investigation IA)  LEC 48-54
This course provides information for determining causes of fires that may be accidental, suspicious and/or incendiary. This course also provides information on different types of arson fires, related laws, introduction to arson, and incendiaism; recognizing and preserving evidence; interviewing witnesses and suspects; arrest and detention procedures, court procedures and giving court testimony. Prerequisite: FIRE-101 (with a grade of C or better).
--Transfers to CSU only

FIRE-109  3 units
Fundamentals of Fire Protection and Equipment  LEC 48-54
This course provides information relating to the features of design and operation of fire detection and alarm systems, heat and smoke control systems, special protection and sprinkler systems, water supply for fire protection, and portable fire extinguishers. Prerequisite: FIRE-101 (with a grade of C or better).
--Transfers to CSU only

FIRE-115  3 units
Building Construction for Fire Protection  LEC 48-54
This course studies the components of building construction that relate to fire safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, preplanning fire operations, and operating at fires. The development and evolution of building and fire codes will be studied in relationship to past fires in residential, commercial, and industrial occupancy. Prerequisite: None. Recommended Preparation: Concurrent enrollment in FIRE-101 or be a volunteer or career firefighter.
--Transfers to CSU only

FIRE-117  1 unit
Hazardous Materials First Responder Operational  LEC 16-18
Provides public safety workers and potential public safety workers who are likely first responders with an improved capability to respond to Hazardous Materials events in a safe and competent manner, within typical resource and capability limitations at the operational level. Prerequisite: None.
--Transfers to CSU only
**Mt. San Jacinto College 2014-2015 Catalog**

---

**FIRE-121 3 units**  
Fundamentals of Wild Land Fire Fighting  
LEC 48-54  
This course provides fundamental information on all aspects of wild land fire fighting including wild land fire safety, fire behavior, and the incident command system and resource usage. The course also describes new advances in technology used in wild land fire suppression such as fire-blocking gels and the use of GPS. Prerequisite: FIRE-101 (with a grade of C or better).  
--Transfers to CSU only

---

**FIRE-122 3 units**  
Principles of Fire and Emergency Services  
LEC 48-54  
Safety and Survival  
This course introduces the basic principles and history related to the national firefighter life safety initiatives, focusing on the need for cultural and behavioral change throughout the emergency services. Prerequisite: FIRE-101 (with a grade of C or better).  
--Transfers to CSU only

---

**FIRE-149 1-4 units**  
Occupational Internship: Fire Technology  
OI 16-72  
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.  
--Transfers to CSU only

---

**FIRE-299 1-3 units**  
Special Projects: Fire Technology  
IS 16-54  
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Fire Technology classes; a contract must be completed with the instructor prior to enrollment.  
--Transfers to CSU only

---

**Geography**

**GEOG-080 .5 unit**  
Geographic Information Systems Practicum  
LAB 24-27  
(formerly GIS Practicum)  
This Geographic Information Systems computer laboratory course offers students an opportunity to access GIS software and hardware, improve their conceptual and technical GIS skills, and work one-on-one with an instructor, instructional aide or GIS tutor. Although the GIS Practicum is recommended for students enrolled in GIS courses, students enrolled in related disciplines may also benefit from this lab course. Prerequisite: None. Recommended Preparation: CSIS-101 or working knowledge of MS Windows programs.  
--Not transferable

**GEOG-081 .5 unit**  
Spatial Awareness  
LEC 8-9  
This course is designed for anyone curious about What is GIS and provides a broad overview of spatial concepts and applications of Geographic Information Science (GIS). Students are introduced to basic computer skills necessary to succeed in GIS certificate courses. Offered as pass/no pass only. Prerequisite: None. Recommended Preparation: CSIS-101 or working knowledge of Microsoft Windows programs.  
--Not transferable

**GEOG-082 3 units**  
Programming for GIS  
LEC 48-54  
(formerly GEOG-298A Special Topics in GIS: Programming for GIS)  
This course prepares students with the concepts necessary for technical application for programming within the framework of GIS. Topics include variable management, branching and looping, reading and writing from GIS tabular and spatial data, custom tool creation, and tool manipulation. Through practical applications, students will use programming methods to customize and streamline GIS data management and analysis. Prerequisite: GEOG-081 (with a grade of C or better).  
--Not transferable

**GEOG-083 3 units**  
Spatial Database Design and Management  
LEC 48-54  
(formerly GEOG-298K Special Topics in GIS: Geodatabase Design)  
This course prepares students with geographic concepts and skills necessary for GIS spatial database design and management. Students learn about various GIS data types and formats that are compatible or may be converted, exported or imported. Students design and create spatial databases for a specific application involving project management and complex data analysis. Real world challenges of spatial databases used for solving problems, spatial query language, decision support strategies and system integration are emphasized. Prerequisite: GEOG-081 (with a grade of C or better).  
--Not transferable

**GEOG-084 3 units**  
Water Management with GIS  
LEC 48-54  
(formerly GEOG-298Q Special Topics in GIS Water Technologies)  
This course enhances professional potential in the water industry. Water Science topics include hydrology concepts and common GIS applications. This course covers hydrology networks of rivers, streams, drainage basins and flooding. Legal and ethical issues of water management are discussed. Professional certification, project collaboration and presentation, and networking at GIS events prepare students for entering a GIS profession in water-related industries. Prerequisite: GEOG-081 (with a grade of C or better).  
--Not transferable

**GEOG-085 3 units**  
GIS for Catastrophes  
LEC 48-54  
This course provides students with an introduction to the use of GIS in emergency management, natural hazard assessment and public safety. Students learn about GIS applications to various types of emergency response, natural hazards and homeland security scenarios for which GIS is commonly used for making quick and critical decisions. Emphasis is placed on analytical techniques for mitigating disasters, allocating emergency resources, identifying hot spots for crime or analyzing potential homeland security threats. Prerequisite: GEOG-081 (with a grade of C or better).  
--Not transferable

**GEOG-086 3 units**  
GIS for Web Applications  
LEC 48-54  
This course prepares students with the geographic concepts and skills necessary for designing and developing geospatial content for web applications, internet interfaces and web environments. Students will learn web based concepts, internet fundamentals, web architecture and practices as they design and create geospatial data for online data analysis, interactive mapping, and map publishing via web applications. Students will use real world challenges and problem solving solutions for interoperability, customizing and sharing services. Prerequisite: GEOG-081 (with a grade of C or better).

This course provides students an opportunity to acquire nontraditional work experience. Students may work individually or in groups on client projects, and may work on various phases of a project over several years. Clients may be from various fields with varying levels of GIS experience and expectations. Instructor and students will identify client needs, design a GIS solution, prepare a semester-length proposal with goals and outcomes, and implement the solution to meet client needs. Prerequisite: GEOG-115 (with a grade of C or better). Maximum of 3 units per offering. Not transferable.

This course studies the physical environment of the earth’s surface and human interaction with that environment. Emphasis is given to global patterns of climate, ecosystems, hydrology, plate tectonics, and various processes of land formation. Controversial topics, such as climate change, introduce students to concerns we have as inhabitants of this planet. A field trip is required. Prerequisite: None. Recommended Preparation: Concurrent enrollment in GEOG-104.

This course offers students an understanding of global cultural diversity and humans as agents of change with emphasis on cultural elements of the human habitat. Students are introduced to the geographical aspects of population distribution, socio-economic conditions, rural and urban settlement patterns, cultural landscapes, and local ecosystems. Global patterns of distinct cultural characteristics, such as language, religion and political organization, are presented. A field trip is required. Prerequisite: None.

This laboratory course focuses on application of the principles of physical geography and is offered for students who have taken or are currently enrolled in an Introduction to Physical Geography. Laboratory exercises include basic map skills, weather and climate, earth materials, geomorphology, fluid agents and erosion. Prerequisite/Corequisite: GEOG-101 (with a grade of C or better).

This course involves the study of cities, their origin, growth and sustainability. Students are introduced to several topics including problems of urbanization in less developed countries, urban architectural form, segregation and integration, neighborhoods and ghettos, and the politics and policies of urban change. Prerequisite: None.

Th is course introduces students to the cartographic principles necessary for spatial analysis. Topics covered include the history of map making, symbolic standards, layout aesthetics, geographic coordinates and projections, map scales, map accuracy, map interpretation and reading, way finding, aerial and satellite imagery and computer assisted mapping. Students will create hand drawn and digital maps. Cartographic skills are useful to students preparing for degrees in the natural, physical, social and behavioral sciences. Prerequisite: None. Recommended Preparation: GEOG-081.

Th is laboratory course focuses on application of the principles of physical geography and is offered for students who have taken or are currently enrolled in an Introduction to Physical Geography. Laboratory exercises include basic map skills, weather and climate, earth materials, geomorphology, fluid agents and erosion. Prerequisite/Corequisite: GEOG-101 (with a grade of C or better).

Prerequisite: None.
GEOG-108 3 units
World Regional Geography  LEC 48-54
This course is a global survey of world cultural regions. It presents students with basic geographic concepts for studying and comparing cultural traditions, resources, economies, landscapes, and origins. The interaction of countries and regions, their global roles, issues of globalization and the conflicting pressures of cultural diversity are discussed. Contrasts between developed and underdeveloped countries are explored. Prerequisite: None.
--AA/AS General Education: AA/AS B2 or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 4E
--CSU Area(s): D5
--C-ID GEOG 125

GEOG-111 3 units
Geography of California  LEC 48-54
This course introduces students to California’s regional, physical and cultural diversity, the interrelationships between California’s regional, physical and cultural landscapes, and the evolving human-environment interface and impact to landscapes. A thematic approach to the state’s issues, processes and topics relevant to geography include climate, landforms, natural vegetation, water resources, cultural landscape, ethnic diversity, urban and agricultural regions, and the economy. Prerequisite: None.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 4E
--CSU Area(s): D5
--C-ID GEOG 140

GEOG-115 3 units
Introduction to Geographic Information Science  LEC 32-36/LAB 48-54
(formerly Introduction to Geographic Information Systems)
This course prepares students with the geographic concepts necessary for technical application of Geographic Information Science (GIS). Topics include data structure, acquisition, integration and manipulation. Through practical applications in GIS students use scientific methods of inquiry to analyze tabular and spatial data for geographic trends, patterns and relationships. Prerequisite: GEOG-081.
--Transfers to both UC/CSU
--C-ID GEOG 155

GEOG-120 3 units
Intermediate Geographic Information Science  LEC 32-36/LAB 48-54
(formerly Intermediate Geographic Information Systems)
This course prepares students for advanced geographic analysis. Spatial statistics, topology and surface modeling are emphasized. Advanced tools, techniques and software applications for modeling surfaces, such as spatial, network and 3-dimensional terrain analysis are explored. Both qualitative and quantitative techniques for spatial analysis are explored in the context of various scientific methodologies. Prerequisite: GEOG-115 (with a grade of C or better).
--Transfers to CSU only

GEOG-125 3 units
Advanced Geographic Information Science  LEC 32-36/LAB 48-54
(formerly Advanced Geographic Information Systems: Applications)
This course enhances professional potential in a geospatial career. Advanced topics include geodatabase methods, topology, customized and automated processes, and cartographic representation. Legal and ethical issues, geospatial certification, professional presentation, online collaboration and networking at GIS events prepare students for entering a GIS profession in many discipline related fields. Exploration of scientific models and methods for advanced analysis prepare students for independently planning, implementing and producing deliverable of a real-world GIS project. Prerequisite: GEOG-120 (with a grade of C or better).
--Transfers to CSU only

GEOG-149 1-4 units
Occupational Internship: Geographic Information Science  OI 16-72
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.
--Transfers to CSU only
Course Descriptions

GEOG-298A-Z  0.50-3 units
Special Topics in Geographic Information Science
This course enhances the core curriculum and provides students with an opportunity to develop specialized skills. Whenever the demand for a special topic is adequate a request for a new course section (with a designation A through Z) may be added to the upcoming schedule. Topics and credit will vary. One topic per course may be taken for credit. Prerequisite: None.
Maximum of 3 units per offering
Course Topics:
A. (Deactivated) - See GEOG-082
B. Business and Marketing
C. (Deactivated)
D. Surveying with GPS
E. Historic Preservation
F. Social Science Applications
G. GIS in Transportation
H. GIS in Utilities
I. (Deactivated)
J. GIS and Parcel Management
K. (Deactivated) - See GEOG-083
L. (Deactivated)
M. (Deactivated)
N. 3D and Animated Maps (formerly Virtual Reality and Animated Mapping)
O. Security Systems - Local, National and International
P. Computer Aided Drafting
Q. (Deactivated) - See GEOG-084
R. Landscape Design (formerly Landscape Architect)
S. Tracking Analysis
T. Survey Analysis
U. (Deactivated)
V. (Deactivated)
W. Municipal Government
X. Map Publication
Y. Environmental Management
Z. Urban Planning and Community Development
--Transfers to CSU only

GEOG-299  1-3 units
Special Projects: Geographic Information Systems IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Geography classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

GEOL-100  4 units
Physical Geology: Dynamic LEC 48-54/LAB 48-54
Planetary Systems of Spaceship Earth (formerly Physical Geology)
We live on a satellite isolated in space; our interactions with this dynamic, fragile system will determine our ultimate survival. This course offers the student an understanding of planet Earth as an isolated, uniform and evolving spaceship. Topics range from materials in the earth (sparkling crystals and rocks), to planet processes (explosive volcanoes, devastating landslides, and glistening glaciers), to an understanding of our planet’s interior (destructive earthquakes and fiery cracks within deep sea floors). Prerequisite: None. Recommended Preparation: College level reading skills.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5A, 5C
--CSU Area(s): B1, B3

GEOL-103  3 units
Environmental Geology: Natural Hazards LEC 48-54
and Disasters (formerly Environmental Geology)
Disasters such as earthquakes, hurricanes, landslides, volcanoes, floods, tsunamis, and the collisions of asteroids and comets with earth are all topic that are explored in Environmental Geology. Emphasis will be placed on the causes and effects of natural hazards, and the dramatic impact of such events on humans, as well as the role of humans in exacerbating the dangers of the natural world. Prerequisite: None. Recommended Preparation: College-level reading skills.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5A
--CSU Area(s): B1

GEOL-105  4 units
Historical Geology: Evolving Earth, Dinosaurs, and Homo Sapiens (formerly Historical Geology)
Examine the dramatic events of Earth’s creation and development in the context of Darwinian Theory and geologic time by venturing through the fossil record. Explore Earth’s unfolding saga starting from the Big Bang and following the violent tectonic relationships on the planet while investigating past life. Exciting topics include: volcanoes, crystals, colliding continents, ancient oceans, radiometric dating,
Course Descriptions

**GEOL-112**  3 units
California Geology  
LEC 48-54
This course is an introduction to California and its geology as revealed in the beautiful mountains, valleys and coastlines of the state. Topics of discussion will include materials (rocks and minerals), processes (weathering, erosion, mountain building), structure (folds and faults), stratigraphy (geological formations), and current theories regarding the Earth’s crust. This course is an introductory course intended for both the science and non-science student that will complement Geologic Field Studies (GEOL 107). Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5A

**GUID-100**  3 units
College Success  
LEC 48-54
This course integrates personal growth, academic and career success with problem solving, critical and creative thinking. The course focuses on the following topics: life management, goal setting, career decision making, educational planning, college expectations and opportunities, instructor-student relationships, cultural diversity, health maintenance, stress management, campus resources, learning styles, and strategies including lecture, note-taking, test taking, and concentration. Prerequisite: None.
--AA/AS General Education: AA/AS E
--Transfers to both UC/CSU

**GUID-105**  3 units
Transitions for Intercollegiate Student Athletes  
LEC 48-54
This course explores current issues and challenges facing the intercollegiate athlete and develops skills needed to adjust to the college experience. The course focuses on the following topics as they relate to the student athlete: goal setting, time management, career decision making, educational planning, stress management, personal and social responsibility, student/ instructor relationships, and NCAA/NAIA transfer rules and requirements. Prerequisite: None.
--Transfers to CSU only

**GEOL-107**  1.5 units
Scenic Adventure Field Trips in Geology  
LEC 24-27
(formerly Geologic Field Trips)
This course will be conducted at various locations throughout the Southwest including Death Valley, the Grand Canyon, and Owens Valley. This course will provide field experiences, give greater insight into tectonic forces that shape the Earth, and help students discover the fantastic mineral and rock wealth created by the alternating ice age climates. A three hour prep class meeting and overnight camping will be required. Prerequisite: None.
--Transfers to CSU only
--CSU Area(s): B1

**GEOL-109**  3 units
Geology of National Parks  
LEC 48-54
This course reviews the landforms, rocks, and minerals that create the spectacular wonders of National Parks throughout the United States. Emphasis is on materials (rocks, minerals); processes (weathering, erosion, mountain building); structure (folds, faults); stratigraphy (geological formations); and Earth’s interior (plate tectonic processes). Upon completion students will be able to understand and described the geologic materials and environments of the United States national Park system. It is intended for both the science and non-science student. Prerequisite: None. Recommended Preparation: MATH-096.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU

**GEOL-110**  4 units
Oceanography  
LEC 48-54/LAB 48-54
This course focuses on geological, physical, chemical, biological, and meteorological aspects of oceans and continental margins. Topics include marine science and biology, critical global warming issues involving the thermohaline current, tsunamis, earthquakes, undersea volcanoes, and the effects/causes of El Nino. This course includes laboratory experiences and is intended for both the science and non-science student. Recommended Preparation: MATH-096.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5A, 5C
--CSU Area(s): B1, B3

**GEOL-111**  3 units
Planetary Astronomy  
LEC 48-54
This course is an introductory course to Planetary Sciences, and is an interdisciplinary scientific exploration of the solar system. Studies will use the scientific method to examine properties and processes of solar system function and formation, including the current hypotheses regarding the creation and evolution of the Earth and planetary bodies moons, asteroids, comets, meteors and the Sun. *Cross-listed as ASTR-111. Prerequisite: None.
--AA/AS General Education: AA/AS A
--Transfers to both UC/CSU
--IGETC Area(s): 5A
--CSU Area(s): B1

trilobites, dinosaurs, mass extinctions, mammals, the transition of reptiles to birds, and finally the evolution of homo sapiens. Prerequisite: None. Recommended Preparation: College-level reading skills and GEOL-101.

--Transfers to CSU only
GUID-110  1 unit  
Career Search  
LEC 16-18  
This introductory course provides undecided students with essential skills to make informed and satisfying career decisions. Students identify personal interests, values, abilities, personality styles, and lifestyle goals using a variety of career assessment instruments. Strategies and skills for occupational and educational exploration, decision-making, and goal-setting are developed. A realistic career action plan is created. This course is appropriate for motivated students desiring a fast approach to career planning and selecting a program of study. Prerequisite: None.  
--Transfers to CSU only  

GUID-112  2 units  
Creative Job Search  
LEC 32-36  
This course explores successful job search within a contemporary workplace. Students will learn to use effective techniques for obtaining a new job or making employment transitions. Students are instructed in the effective use of sound guidelines and cutting-edge strategies necessary for active career management today. Topics include how to: handle transitions, explore job leads, research employers, write a winning resume, maintain a career portfolio, establish a professional network, interview successfully, and negotiate job offers. Prerequisite: None.  
--Transfers to CSU only  

GUID-116  3 units  
Integrative Career/Life Planning  
LEC 48-54  
This course integrates a multidimensional process of adult and career development for achieving wholeness over the life span. Applying psychological, sociological, and physiological concepts, students explore strategies to create a meaningful life purpose within changing global environments and connect career/life roles, relationships, and lifestyles. Students master effective career/life management skills, value diversity and inclusively, and manage personal and career transitions during workplace and societal changes. Recommended for students choosing their first career or changing careers. Prerequisite: None.  
--AA/AS General Education: AA/AS B2  
--Transfers to CSU only  
--CSU Area(s): E1  

GUID-118  3 units  
Transfer Success  
LEC 48-54  
This course applies the necessary knowledge, skills, tactics, and resources to successfully transfer from a community college to a baccalaureate level college, university, or other institution. Students learn how to research, differentiate between, evaluate, and select majors and schools based on individual needs and career goals. Academic practices, requirements, application timelines and processes, financial assistance, housing, and student support services are explored. Student educational and action plans are developed for achieving transfer and career goals. Prerequisite: None.  
--Transfers to CSU only  

GUID-120  3 units  
Personal Success Habits of Highly Effective People  
LEC 48-54  
This course is designed to provide new and continuing students the opportunity to explore an integrated approach to personal and interpersonal effectiveness. Students will apply the habits and principles that embody many of the fundamental principles of human effectiveness such as integrity, honesty, service, time management, conflict resolution, goal setting, decision-making skills, and effective communication skills. Prerequisite: None.  
--AA/AS General Education: AA/AS E  
--Transfers to CSU only

| HS-121      | 3     | Fundamentals of Healthful Living  
LEC 48-54  
This course offers a comprehensive overview of human health from a multidimensional perspective (physical, psychological, social, spiritual, intellectual and environmental health). It provides students with an opportunity to learn about the maintenance and improvement of their health and wellness. Topics include psychological health/problems, stress management, physical fitness, nutrition, substance use and abuse, infectious/non infectious diseases, cancer, cardiovascular disease, reproductive health, relationships, human sexuality, health and wellness related to the human lifecycle and environmental health issues. Prerequisite: None.  
--AA/AS General Education: AA/AS B2 or AA/AS E  
--Transfers to both UC/CSU  
--CSU Area(s): E1 |
| HS-123      | 3     | Drugs: Use and Abuse  
LEC 48-54  
This course offers a comprehensive investigation of drug, alcohol and tobacco use, abuse and dependence in American society including the origins, history and composition of commonly used psychoactive drugs. The effect of psychoactive drugs on the nervous system is also covered. Prerequisite: None.  
--AA/AS General Education: AA/AS B2 or AA/AS E  
--Transfers to both UC/CSU  
--CSU Area(s): E1 |
| HS-299      | 1-3   | Special Projects: Health Science  
IS 16-54  
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Health Science classes; a contract must be completed with the instructor prior to enrollment.  
--Transfers to CSU only |

## History

### HIST-101  
Western Civilization I: to 1500  
LEC 48-54  
This course traces the economic, social, political, and cultural development of Western Civilization from its origins in the ancient Middle East through the European Renaissance. Prerequisite: None. Recommended Preparation: ENGL-092 or ENGL-098.  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 3B, 4F  
--CSU Area(s): C2, D6 |

### HIST-102  
Western Civilization II: from 1500 to the Present Era  
LEC 48-54  
This course traces the economic, social, political, and cultural development of Western Civilization from the Renaissance to the present. Prerequisite: None. Recommended Preparation: ENGL-092 or ENGL-098.  
--AA/AS General Education: AA/AS B2 or AA/AS C  
--Transfers to both UC/CSU  
--IGETC Area(s): 3B, 4F  
--CSU Area(s): C2, D6 |

### HIST-103  
History of World Civilizations to 1500  
LEC 48-54  
This course explores the origin and development of civilizations in Europe, the Near East, India, Africa, the New World, and East Asia. Using a comparative approach between the world’s major civilizations, students will examine social structure and daily life, political systems, cultural values and assumptions, and economic development. Prerequisite: None. Recommended Preparation: ENGL-092 or ENGL-098.  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 3B, 4F  
--CSU Area(s): C2, D6 |

### HIST-103H  
Honors History of World Civilizations to 1500  
LEC 48-54  
This course explores the origin and development of civilizations in Europe, the Near East, India, Africa, the New World, and East Asia. Using a comparative approach between the world’s major civilizations, students will examine social structure and daily life, political systems, cultural values and assumptions, and economic development. Prerequisite: Acceptance in the Honors Enrichment Program. Recommended Preparation: ENGL-092 or ENGL-098.  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 3B, 4F  
--CSU Area(s): C2, D6 |

### HIST-104  
History of World Civilizations: Since 1500  
LEC 48-54  
This course is a survey of the modern world from 1500 to the present. Using a comparative approach between the world’s major civilizations, students will examine interconnections between major European, Middle Eastern, African, South and North American, and Asian civilizations and will explore social structure and daily life, industrialization, colonization, cultural development, revolutions and protests, and independence movements. Emphasis will be placed on structures, values, and inter-relationships. Prerequisite: None. Recommended Preparation: ENGL-092 or ENGL-098.  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 3B, 4F  
--CSU Area(s): C2, D6 |
HIST-104H 3 units
Honors History of World Civilizations: LEC 48-54
Since 1500
This course is a survey of the modern world from 1500 to the present. Using a comparative approach between the world's major civilizations, students will examine interconnections between major European, Middle Eastern, African, South and North American, and Asian civilizations and will explore social structure and daily life, industrialization, colonization, cultural development, revolutions and protests, and independence movements. Emphasis will be placed on structures, values, and inter-relationships. Prerequisite: Acceptance in the Honors Enrichment Program. Recommended Preparation: ENGL-092 or ENGL-098.
--AA/AS General Education: AA/AS B2
--IGETC Area(s): 3B, 4F
--CSU Area(s): C2, D6

HIST-106 3 units
The World Since 1900
LEC 48-54
This course introduces students to major global historical trends since 1900 and considers important developments in art and culture, science and technology, economics, politics, and military and diplomatic affairs. Through readings and written assignments, students will explore scholarship on recent world history, probe the origins of current world problems, and acquire a greater appreciation of international affaires. Prerequisite: None. Recommended Preparation: ENGL-092 or ENGL-098.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 3B, 4F
--CSU Area(s): C2, D6

HIST-106H 3 units
Honors The World Since 1900
LEC 48-54
This course introduces students to major global historical trends since 1900 and considers important developments in art and culture, science and technology, economics, politics, and military and diplomatic affairs. Through readings and written assignments, students will explore scholarship on recent world history, probe the origins of current world problems, and acquire a greater appreciation of international affaires. --AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 3B, 4F
--CSU Area(s): C2, D6

HIST-107 3 units
The History of East Asia Before 1600
LEC 48-54
This course examines the premodern histories of China, Japan, Korea, Vietnam, and Thailand and of their institutional and cultural interaction. Emphasis will be placed on the analysis of the conflicting themes of cultural unity and cultural uniqueness in East Asian civilization and on how Japan, Korea, and Vietnam modified the foundations of Chinese civilization to create distinctive civilizations of their own. Prerequisite: None.
--AA/AS General Education: AA/AS B2 or AA/AS C and AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3B, 4F
--CSU Area(s): C2, D6

HIST-108 3 units
The History of East Asia Since 1600
LEC 48-54
This course explores the major themes in the development of Chinese, Japanese, Korean, and Vietnamese societies from the beginning of the 17th century to the present. Emphasis will be placed on the Communist Revolution in China, political modernization and imperialism in Japan, and the social, economic, technological, ecological and cultural impact of extended contact with the West upon China, Korea, Vietnam and Japan. Prerequisite: None.
--AA/AS General Education: AA/AS B2 or AA/AS C and AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3B, 4F
--CSU Area(s): C2, D6

HIST-109 3 units
Global History of World War II
LEC 48-54
This course examines World War II from a global perspective, exploring the origins of the war, ways in which the war affected military forces, civilian populations, areas of the world beyond Europe and the United States, and early developments in the post-war world. Prerequisite: None. Recommended Preparation: ENGL-092 or ENGL-098.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 3B, 4F
--CSU Area(s): D6

HIST-109H 3 units
Honors Global History of World War II
LEC 48-54
This course examines World War II from a global perspective, exploring the origins of the war, ways in which the war affected military forces, civilian populations, areas of the world beyond Europe and the United States, and early developments in the post-war world. Prerequisite: Acceptance into the Honors Enrichment Program. Recommended Preparation: ENGL-092 or ENGL-098.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 3B, 4F
--CSU Area(s): D6

HIST-110 3 units
U.S. History to 1877
LEC 48-54
This course explores political, social, economic, and intellectual developments in the United States from colonization and settlement through the Civil War and Reconstruction. Prerequisite: None. Recommended Preparation: ENGL-092 or ENGL-098.
--AA/AS General Education: AA/AS B1 or AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 3B, 4F
--CSU Area(s): D6

HIST-111 3 units
Honors U.S. History to 1877
LEC 48-54
This course explores political, social, economic, and intellectual developments in the United States from colonization and settlement through the Civil War and Reconstruction. Prerequisite: Acceptance in the Honors Enrichment Program. Recommended Preparation: ENGL-092 or ENGL-098.
--AA/AS General Education: AA/AS B1 or AA/AS B2

HUM-138  3 units
The Cinema of Alfred Hitchcock  LEC 32-36/LAB 48-54
This course explores the cinematic work of director Alfred Hitchcock and examines the contexts in which the films were produced (Britain and the United States), the technical and commercial aspects of production, the major themes and ideas treated in his films, and his influence on other films and directors. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to CSU only

Leadership

LEAD-101  3 units
Leadership Development  LEC 48-54
(formerly SGA-101)
This course is designed to provide emerging and existing student leaders the opportunity to analyze the theoretical aspects of leadership and apply those concepts to their leadership skills. The course emphasizes personal and organizational goal setting, leadership development, decision-making strategies, team building, the acquisition of organizational ethics, conflict management, and supporting the mission and vision of an organization. Prerequisite: None.
--AA/AS General Education: AA/AS B2
--Transfers to CSU only

LEAD-102  3 units
Personal Leadership Development  LEC 48-54
(formerly SGA-102)
This course will explore advanced topics in leadership and the application to the personal lives, and careers in education, private or public sector organizations. Topics will include crisis in leadership, being a positive change agent, conflict resolution, power and influence, diversity, leadership roles, ethics and leading teams. Students will develop and implement a plan to apply new skills and knowledge to an organization they belong to. Prerequisite: None.
--AA/AS General Education: AA/AS B2
--Transfers to CSU only

LEAD-105  1.5 units
Service Learning Leadership  LEC 16-18/LAB 24-27
(formerly SGA-105)
This course provides students the opportunity to utilize leadership theories outside the classroom in community service and take part in the active education while addressing concerns and needs of the community. The goals of this course are to connect the relevance of academic theories to community life experience, enhance student's confidence and self-esteem, and assist in the development, coordination, and participation of community events. *Cross-listed as CDE-105. Prerequisite: None.
--Transfers to CSU only

LEAD-299  1-3 units
Special Projects: Special Topics  IS 16-54
(formerly SGA-299)
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: A contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

LNSK-051  .5 unit
Learning Disabilities Workshop  LEC 8-9
(formerly LNSK-071 Learning Skills: Assessment Workshop)
The course focuses on understanding learning differences, and strategies related to specific learning disabilities. Cognitive and achievement assessment will be provided as needed to identify student's learning profile. Offered as pass/no pass only. Prerequisite: None.
--Not transferable

LNSK-053  3 units
Study Skills  LEC 48-54
(formerly LNSK-073 Learning Skills: Study Skills)
This course provides specialized instruction in study skills to help learning disabled students maximize their success in college classes. Skills include listening, note-taking, reading textbooks, memory techniques, study habits, test-taking strategies, time management, and library resources. Offered as pass/no pass only. Prerequisite: None. Recommended Preparation: LNSK-051.
--Not transferable
### Course Descriptions

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
</table>
| LNSK-054    | 1 unit| Language Arts Lab (LAB 48-54)  
(formerly LNSK-074 Learning Skills: Language Arts Lab)  
The course is designed to provide remediation and intervention to learning disabled students who have been identified through diagnostic testing. A study plan is developed to target specific areas and remediate weaknesses related to language arts including reading and writing. Offered as pass/no pass only. Prerequisite: None. Recommended Preparation: LNSK-051.  
--Not transferable |
| LNSK-055    | 2 units| Language Arts (LEC 24-27/LAB 24-27)  
(formerly LNSK-075 Learning Skills: Language Arts)  
The course is designed to provide individualized and small group instruction to learning disabled students who need remediation in the following language skills: listening comprehension, reading, written expression, spelling, and oral comprehension. Offered as pass/no pass only. Prerequisite: None. Recommended Preparation: LNSK-051.  
--Not transferable |
| LNSK-056    | 2 units| Vocabulary Development for LD (LEC 24-27/LAB 24-27)  
(formerly LNSK-076 Expressive and Receptive Vocabulary Development for LD Students)  
The course is designed to remediate deficits impeding expressive and receptive vocabulary development in learning disabled students. The course uses adaptive techniques and technology to enable students to improve their expressive and receptive vocabulary. Offered as pass/no pass only. Prerequisite: None. Recommended Preparation: LNSK-051.  
--Not transferable |
| LNSK-057    | 2 units| Pre-Algebra Support for LD (LEC 24-27/LAB 24-27)  
(formerly Pre-Algebra Support for LD Students)  
The course is designed to provide individualized and small group instruction to learning disabled students who need remediation in basic math skills. Offered as pass/no pass only. Prerequisite: None. Recommended Preparation: LNSK-051.  
--Not transferable |
| LNSK-077    | 2 units| Algebra Support for LD (LEC 24-27/LAB 24-27)  
(formerly Algebra Support for LD Students)  
The course is designed to provide individualized and small group instruction to learning disabled students who need remediation in algebra. Offered as pass/no pass only. Prerequisite: None. Recommended Preparation: LNSK-051.  
--Not transferable |
| LNSK-079A   | 2 units| Adaptive Computer Technology (LEC 16-18/LAB 48-54)  
The course is designed to provide individualized or small group instruction to learning disabled students who have been identified through diagnostic testing who need remediation in adaptive computer access and technology, including voice activation. Offered as pass/no pass only. Prerequisite: None. Recommended Preparation: LNSK-051.  
--Not transferable |
| LNSK-079B   | 2 units| Advanced Adaptive Computer Technology (LEC 16-18/LAB 48-54)  
The course is designed to provide individualized or small group instruction to learning disabled students who have been identified through diagnostic testing who need remediation in adaptive computer access and technology, including voice activation and read options. Prerequisite: None. Recommended Preparation: LNSK-079A.  
--Not transferable |

### Legal Assistant

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Units</th>
<th>Description</th>
</tr>
</thead>
</table>
| LEG-100     | 3 units| Foundations of the Legal System (LEC 48-54)  
This course explores the legal system including basic legal terminology, sources of law, legal reasoning, federalism, court structure, the rules of procedure and ethical standards for lawyers and legal assistants. It includes substantive introduction to the law of contracts and torts, crimes of common law, U.S. Constitution, and the two legal concentration areas of family law and immigration law. Prerequisite: None.  
--AA/AS General Education: AA/AS B2  
--Transfers to CSU only  
--CSU Area(s): D8 |
| LEG-103     | 3 units| Elder Law (LEC 48-54)  
This course presents the contemporary world of elder law with a comprehensive legal overview of the most important laws that affect the elderly. The multi-disciplinary approach will analyze the legal needs relevant to the elderly and the ethical, social, and physical needs associated with aging. Prerequisite: None.  
--AA/AS General Education: AA/AS B2  
--Transfers to CSU only |
| LEG-104     | 3 units| Law Office Management (LEC 48-54)  
This course is designed to examine the role of a legal assistant in law office management, office organizations and the relationship to attorneys and other support staff. Subjects include accounting, scheduling, calendaring and coordinating schedules, cost control and database use. Prerequisite: None.  
--Transfers to CSU only |
| LEG-105     | 3 units| California Civil Procedure (LEC 48-54)  
This course prepares students to assist in drafting the many documents needed or required in litigation. It explains the civil litigation process through trial and post-trial in California courts. Students acquire an ability to analyze procedural issues that arise during litigation, including pre-litigation needs, drafting of pleadings and discovery, analysis of procedures for discovery, summary judgment and other pre-trial motions, trial preparation, trial procedures, enforcement of judgments, appeal and alternative dispute resolution procedures. Prerequisite: LEG-100 (with a grade of C or better).  
--Transfers to CSU only |
| LEG-107     | 3 units| Research and Writing for Legal Assistant (LEC 48-54)  
This course introduces the customary methods of legal research including the use of printed and online materials. The course integrates critical analyses of researched material and presentation of researched findings through persuasive writing ensuring proper formatting specific to the legal field and proper grammar. Prerequisite: None.  
--Transfers to CSU only |
Course Descriptions

LEG-112  3 units
Administrative Law
LEC 48-54
This course presents the adjudicatory process for administrative agency
hearings concerning government benefits and regulatory powers, claims
made to, and by, state and federal administrative agencies, discovery in
the claims process, and appeals from administrative orders or decisions,
including judicial review. The student will also learn to conduct
claimant and witness interviews and analyze the impact of agency
regulations and governing statutes that control claims processing before
agencies. Prerequisite: LEG-100 (with a grade of C or better).
--Transfers to CSU only

LEG-124  3 units
Immigration Law
LEC 48-54
This course introduces fundamentals of substantive and procedural
immigration law of the United States, including historical perspectives
leading to current rules and policy, structure of implementing
agencies, conditions of eligibility for immigrant and non-immigrant
status, grounds for exclusion and removal, asylum eligibility, process
for granting full citizenship, and U.S. Constitutional requirements.
Prerequisite: None.
--AA/AS General Education: AA/AS B2
--Transfers to CSU only

LEG-134  3 units
Family Law
LEC 48-54
This course explores fundamental principles and practice issues in
California family law. Students will analyze laws and procedures
governing marriage, dissolution of marriage, annulment, child custody,
guardianship, paternity, child support, adoption and family violence.
The course covers the drafting of court forms for court proceedings
and issues pertaining to counseling in the family law field and the
drafting of agreements, including prenuptial agreements and separation
agreements. Prerequisite: LEG-100 (with a grade of C or better).
--AA/AS General Education: AA/AS B2
--Transfers to CSU only

LEG-140  3 units
Bankruptcy Law
LEC 48-54
This course introduces the fundamental principles and basic analysis
of bankruptcy theory and practices. The course will provide an over
view of the bankruptcy system’s internal logic, processes and basic
steps to complete court forms, research statutory materials, and obtain
an understanding of local court rules. Prerequisite: None.
--Transfers to CSU only

LEG-149  1-4 units
Occupational Internship:
OL 16-72
Legal Assistant
The purpose of this course is to enable eligible students to include
supervised on-the-job training as an integral part of the total college
educational program. This is accomplished through a planned program
of learning experiences which combines academic and vocational
learning at school with new learning experiences on the job in an
occupational setting. Prerequisite: Each student must be enrolled for
the full semester and have completed one course in the discipline. A
training agreement must be completed prior to registration. Please
refer to the Occupational Internship Student Handbook for specific
information.
--Transfers to CSU only

LEG-150  3 units
Probate Law and Procedures
LEC 48-54
This course examines the role of a legal assistant in the probate law office
environment. Students will review the formal requirements for a valid
will; identify various kinds of property, forms of ownership and transfer
of property under the Law of Succession. Elements of trusts and the
benefits of estate planning will be investigated. Students will prepare
legal forms and documents related to estate planning, probate and trust
administration. Prerequisite: None.
--Transfers to CSU only

LEG-160  3 units
Business Organizations
LEC 48-54
This course presents California law governing the reasons and
procedures for forming, maintaining and dissolving sole proprietorships,
partnerships, limited liability companies and corporations. The course
explains the rights and obligations of partners, members, directors,
officers and shareholders under Federal and state laws and regulations.
The course analyzes the selection of the business form, business
ethics and the legal assistant’s role in documenting the formation and
maintenance of California business organizations. Prerequisite: LEG-
100 (with a grade of C or better).
--Transfers to CSU only

Library Science

LIB-100  3 units
Introduction to Library Research and
Information Competency
LEC 48-54
This course will empower students with the information competency
skills necessary to perform both academic and personal research using
library resources, electronic databases, and the Internet. Students will
be guided through the process of selecting, searching, analyzing, and
including citing various information resources. The research process will be
applied to a variety of information needs: term papers, coursework,
careers, and life-long learning. This course will prepare students for
college level research in all disciplines. Prerequisite: None.
--Transfers to CSU only

LIB-101  1 unit
Essentials of Library Research and
Information Competency
LEC 16-18
This course will guide students through the research process, using both
library resources and the Internet. Students will learn how to search a
variety of electronic databases, library catalogs, and Internet sources for
relevant and authoritative information, and prepare a works cited list
using the MLA format. This course will prepare students for research
in any discipline, and will impart the information competency skills
necessary to become a lifelong learner. Prerequisite: None
--Transfers to CSU only

Management/Supervision

MGT-103  3 units
Introduction to Management
LEC 48-54
U.S. businesses operate in a constantly changing global business
environment. Thus modern business managers need to be aware of a
wide variety of domestic and global issues. This course will introduce
students to the task of managing, the history of management, the role
of planning, organizing, leading and controlling on both a domestic
and global level. Students will review the role of information systems,
management theories, and examine current issues in management.
Prerequisite: None.
--Transfers to CSU only
MGT-103H 3 units
Honors Introduction to Management LEC 48-54
U.S. businesses operate in a constantly changing global business environment. Thus modern business managers need to be aware of a wide variety of domestic and global issues. This course will introduce students to the task of managing, the history of management, the role of planning, organizing, leading and controlling on both a domestic and global level. Students will review the role of information systems, management theories, and examine current issues in management. Prerequisite: Acceptance into the Honors Enrichment Program.
--Transfers to CSU only

MGT-108 3 units
Organizational Behavior LEC 48-54
This course is designed to give students an understanding of and methods to react to various behaviors encountered in the workplace. The study of organizational behavior provides insights into people at work in all kinds of situations and organizations. By providing an understanding of how organizations operate, the student can become a more efficient and productive team member. *Cross-listed as ENGR-108, Prerequisite: None.
--Transfers to CSU only

MGT-132 3 units
Labor Management Relations LEC 48-54
This course will emphasize the history and development of the labor movement and the passing of labor legislation. The supervisor's responsibility for good labor relations, union contract and grievance procedures will be discussed as well as ethical issues associated with labor relations. The course will also analyze bargaining and grievance procedures. Prerequisite: MGT-103 (with a grade of C or better).
--Transfers to CSU only

MGT-133 3 units
Productivity Management LEC 48-54
This course surveys and researches the role productivity plays in various business structures. Included is a study of internal and external factors contributing to productivity and the effects national and global elements have on productivity. Students will survey and research management theories, practices and methods. Through case study analysis students will apply techniques to analyze current productivity and apply methods to sustain and improve productivity. Prerequisite: MGT-103 (with a grade of C or better).
--Transfers to CSU only

MGT-138 3 units
Personnel Management LEC 48-54
This course is designed to develop an understanding of personnel techniques for which managers are responsible, including job/task analysis, HRM planning, recruitment, selection, placement testing, orientation, job training, counseling, merit rating, appraisal, promotion, transfer, outplacement, safety and security. Management of the human resource function is covered. Prerequisite: MGT-103 (with a grade of C or better).
--Transfers to CSU only

MGT-149 1-4 units
Occupational Internship: Management OI 16-72
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.
--Transfers to CSU only

MGT-205 3 units
Principles of Marketing Management LEC 48-54
This course presents an overview of marketing management in today's business. Topics emphasize the environment of marketing, determining target markets, product planning, pricing, promotion and distribution. This course is designed for students pursuing a business career, considering ownership of a small business or business owners who wish to advance their marketing skills. Prerequisite: None.
--Transfers to CSU only

MGT-299 1-3 units
Special Projects: Management IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Management classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

Mathematics

MATH-041 1 unit
Pre-Algebra Lab LEC 8-9/LAB 24-27
This course explores and reinforces the math concepts taught in MATH-051 Pre-Algebra. Activities will help the students gain a better understanding of concepts. Assistance from professional experts, peer tutors, and computer-assisted tutorials will be available. Offered as pass/no pass only. Prerequisite: None. Corequisite: MATH-051 or MATH-051LL.
--Not transferable

MATH-042 1 unit
Elementary Algebra Lab LEC 8-9/LAB 24-27
This course explores and reinforces the math concepts taught in MATH-090, Elementary Algebra. Activities will help the students gain a better understanding of concepts. Assistance from professional experts and peer tutors is available through the Math Centers. Computer-assisted tutorials will also be available. Offered as pass/no pass only. Prerequisite: None. Corequisite: MATH-090 or MATH-090A.
--Not transferable

MATH-051 3 units
Pre-Algebra LEC 48-54
(formerly Foundations of Mathematics (Pre-Algebra))
This course is designed to prepare students for elementary algebra. The course covers basic arithmetic, working with whole numbers, integers, fractions, decimals, and percentages. Other topics taught will include conversions within and between the metric and standard systems. Topics in geometry and algebra will be introduced. Prerequisite: MATH-050 (with a grade of C or better).
--Not transferable
Course Descriptions

MATH-051LL 3 units
Pre-Algebra + Lab
LEC 32-36/LAB 48-54
(formerly Foundations of Mathematics + Lab (Pre-Algebra))
This course is designed to prepare students for Elementary Algebra. The course covers basic arithmetic, working with rational numbers and percentages. Other topics taught will include conversions within and between the metric and standard systems. Topics in geometry and algebra will be introduced. In addition to lecture, the students will also work on lab activities. This course is designed to give students ample time in class to understand the concepts covered in the lecture. Prerequisite: MATH-090 (with a grade of C or better) or Accuplacer score of 45 or better.
--Not transferable

MATH-055 4 units
Accelerated Pre-Algebra with Arithmetic
LEC 64-72
This course provides an accelerated route to MATH-90. It covers arithmetic with rational number, including applications, percentages, and solving equations. Topics in algebra will be introduced. The first portion involves non-negative rational numbers while the last portion includes all rational numbers. Prerequisite: Appropriate assessment score.
--Not transferable

MATH-090 4 units
Elementary Algebra
LEC 64-72
Students will solve linear equations, systems of linear equations, equations involving algebraic fractions, and quadratic equations by factoring and utilizing the Quadratic Formula. These skills will be applied to set up and solve application problems. Other topics include how to graph lines, perform arithmetic with both polynomial and rational expressions, and how to factor polynomials. Prerequisite: MATH-051 or MATH-051LL or MATH-055 (with a grade of C or better) or appropriate assessment score.
--Not transferable

MATH-090A 3 units
Elementary Algebra Part A
LEC 48-54
This course will cover topics from the first half of an Elementary Algebra course. Students are given more time to understand abstract concepts, such as solving linear equations and applications, graph lines, and solving systems of equations. Together, MATH-090A and MATH-090B are equivalent to MATH-090. Prerequisite: MATH-051 or MATH-051LL or MATH-055 (with a grade of C or better) or appropriate assessment score.
--Not transferable

MATH-090B 3 units
Elementary Algebra Part B
LEC 48-54
This course is the second half of the year-long Elementary Algebra course. Students will solve applications, perform rational expression arithmetic, solve equations involving algebraic fractions, factor polynomials, and solve quadratic equations. This course is designed to give students ample time to learn concepts. Prerequisite: MATH-090A (with a grade of C or better).
--Not transferable

MATH-096 5 units
Intermediate Algebra
LEC 80-90
This course prepares the student for transfer-level math courses. Topics for this class include solving absolute value inequalities and radical equations along with systems of equations involving three variables. Application problems are an essential part of the course. The graphing of conic sections and several types of functions including exponential functions will also be covered. Function notation, domain, range and determining if a relation is a function will be explored. Prerequisite: MATH-090 or MATH-090B (with a grade of C or better) or equivalent assessment score.
--AA/AS General Education: AA/AS G
--Not transferable

MATH-096A 3 units
Intermediate Algebra Part A
LEC 48-54
This course is the first half of the year-long Intermediate Algebra course. Students will distinguish between the real number sets, solve quadratic, rational, absolute value equations and inequalities, related applications, factor polynomials, simplify expressions containing radicals or rational exponents, evaluate function notation, determine if the graph represents a function and find the domain and range and develop math study skills. Prerequisite: MATH-090 or MATH-090B (with a grade of C or better) or appropriate assessment score.
--Not transferable

MATH-096B 3 units
Intermediate Algebra Part B
LEC 48-54
This course is the second half of the year-long Intermediate Algebra course preparing students for transfer level math courses. Students will solve quadratic, rational and radical equations, related applications, graph function, simplify expressions containing rational exponents, construct graphs of conic sections, graph exponential functions and formulate the logarithmic equivalent to an exponential equation and vice versa. This course is designed to give students ample time to learn concepts and to further develop math study skills. Prerequisite: MATH-096A (with a grade of C or better).
--AA/AS General Education: AA/AS G
--Not transferable

MATH-105 4 units
College Algebra
LEC 64-72
MATH 105 covers graphing of polynomials, rational and transcendental functions and conic sections, solving of polynomial, rational, exponential and logarithmic equations and related applications, solving of systems of linear equations utilizing determinants, function theory including notation, combination and composition as well as existence and formulation of inverses, sequences and the Binomial Theorem. Prerequisite: MATH-096 (with a grade of C or better).
--AA/AS General Education: AA/AS G
--Transfers to both UC/CSU
--IGETC Area(s): 2A
--CSU Area(s): B4
--C-ID MATH 151

MATH-105H 4 units
Honors College Algebra
LEC 64-72
MATH 105H covers graphing of polynomials, rational and transcendental functions and conic sections, solving of polynomial, rational, exponential and logarithmic equations and related applications, solving of systems of linear equations utilizing determinants, function theory including notation, combination and composition as well as existence and formulation of inverses, sequences and the Binomial Theorem. Prerequisite: Acceptance in the Honors Enrichment Program; MATH-096 (with a grade of C or better).
--AA/AS General Education: AA/AS G
--Transfers to both UC/CSU
--IGETC Area(s): 2A
--CSU Area(s): B4
MATH-110  5 units
Pre-Calculus  LEC 80-90
This course is a prerequisite to Calculus I. The topics covered include: a review of selected algebra topics, polynomial functions, rational functions, exponential functions, logarithmic functions, analytic trigonometry, applications of trigonometry, functions and their graphs, conic sections, sequences and series, and proof by mathematical induction. Prerequisite: MATH-105 (with a grade of C or better) or equivalent assessment score.
--AA/AS General Education: AA/AS G
--Transfers to both UC/CSU
--IGETC Area(s): 2A
--CSU Area(s): B4

MATH-115  3 units
Ideas of Mathematics  LEC 48-54
This transfer level course is designed for Social Science and Liberal Arts majors. This course covers topics in and applications of sets, counting, probability, statistics and logic. Prerequisite: MATH-096 (with a grade of C or better) or equivalent.
--AA/AS General Education: AA/AS G
--Transfers to both UC/CSU
--IGETC Area(s): 2A
--CSU Area(s): B4

MATH-135  4 units
Calculus for Social Science and Business  LEC 64-72
This course covers functions and their graphs, including exponential and logarithmic functions, limits, differentiation and integration. It includes applications to business, economics and the social sciences, and introduces multivariable calculus. Prerequisite: MATH-105 (with a grade of C or better) or equivalent assessment score.
--AA/AS General Education: AA/AS G
--Transfers to both UC/CSU
--IGETC Area(s): 2A
--CSU Area(s): B4

MATH-140  4 units
Introduction to Statistics  LEC 64-72
This course is an introduction to the concepts, ideas and applications of probability and statistics. Math 140 covers descriptive statistics, elementary probability, probability distributions, estimation of population parameters, hypothesis testing, correlation, linear regression and ANOVA. Applications will be taken from the fields of business, economics, social sciences, life sciences, engineering and physical sciences. Prerequisite: MATH-096 or MATH-096B (with a grade of C or better) or equivalent.
--AA/AS General Education: AA/AS G
--Transfers to both UC/CSU
--IGETC Area(s): 2A
--CSU Area(s): B4

MATH-211  5 units
Analytic Geometry and Calculus I  LEC 80-90
(formerly Calculus I and Analytic Geometry)
This course is the first in the Calculus sequence. Students will compute limits, identify regions of continuity, and differentiate and integrate algebraic and trigonometric functions. Applications of differentiation and integration to problems of graphing, related rates, optimization, areas, volumes, arc-length, and rectilinear motion are included.
Prerequisite: MATH-110 (with a grade of C or better) or appropriate assessment score.
--AA/AS General Education: AA/AS G
--Transfers to both UC/CSU
--IGETC Area(s): 2A
--CSU Area(s): B4

MATH-212  5 units
Analytic Geometry and Calculus II  LEC 80-90
This course is the second in the Calculus sequence. Students will differentiate exponential, logarithmic, and inverse trigonometric functions, perform logarithmic differentiation, and learn techniques of integration. Evaluating improper integrals, indeterminate forms using L'Hopital's Rule, and infinite series are also included as well as polar coordinates, curves, conic sections, parametric equations, and separable first-order differential equations. Prerequisite: MATH-211 (with a grade of C or better).
--AA/AS General Education: AA/AS G
--Transfers to both UC/CSU
--IGETC Area(s): 2A
--CSU Area(s): B4

MATH-212H  5 units
Honors Analytic Geometry and Calculus II  LEC 80-90
This course is the second in the Calculus sequence. Students will differentiate exponential, logarithmic, and inverse trigonometric functions, perform logarithmic differentiation, and learn techniques of integration. Evaluating improper integrals, indeterminate forms using L'Hopital's Rule, and infinite series are also included as well as polar coordinates, curves, conic sections, parametric equations, and separable first-order differential equations. Prerequisite: Acceptance in the Honors Enrichment Program; MATH-211 (with a grade of C or better).
--AA/AS General Education: AA/AS G
--Transfers to both UC/CSU
--IGETC Area(s): 2A
--CSU Area(s): B4

MATH-213  5 units
Analytic Geometry and Calculus III  LEC 80-90
This course covers vectors in 2 and 3 dimensions, partial derivatives, multiple integrals, volumes and surface areas, line integrals, Green's and Stokes' Theorems. Prerequisite: MATH-212 (with a grade of C or better).
--AA/AS General Education: AA/AS G
--Transfers to both UC/CSU
--IGETC Area(s): 2A
--CSU Area(s): B4

MATH-213H  5 units
Honors Analytic Geometry and Calculus III  LEC 80-90
This course covers vectors in 2 and 3 dimensions, partial derivatives, multiple integrals, volumes and surface areas, line integrals, Green's and Stokes' Theorems. Prerequisite: Acceptance in the Honors Enrichment Program; MATH-212 (with a grade of C or better).
--AA/AS General Education: AA/AS G
--Transfers to both UC/CSU
--IGETC Area(s): 2A
--CSU Area(s): B4

--IGETC Area(s): 2A  
--CSU Area(s): B4 |

| **MATH-218** | 4 units | Linear Algebra | LEC 64-72  
This course covers matrix algebra, matrices and linear equations, determinants and their properties, vector spaces and their properties, linear transformations, eigenvalues, eigenvectors, and orthogonal matrices. It also examines related topics and applications. Prerequisite: MATH-211 (with a grade of C or better).  
--Transfers to both UC/CSU  
--IGETC Area(s): 2A  
--CSU Area(s): B4 |

| **MATH-299** | 1-3 units | Special Projects: Math | IS 16-54  
Students with previous course work in the program may do special projects that involve research and special study. Prerequisite: Previous Math classes; a contract must be completed with the instructor prior to enrollment.  
--Transfers to CSU only |

| **Multimedia** |  |  |  |
| **MUL-080** | 1 unit | Multimedia Lab | LEC 48-54  
(formerly Multimedia 2D Design Practicum)  
This course reviews and reinforces the theory and applications taught in the Multimedia courses. This course offers assignment assistance with current course work. Offered as pass/no pass only. This course is offered as Pass/No Pass only. Prerequisite: None.  
--Not transferable |

| **MUL-110** | 3 units | Introduction to Multimedia | LEC 48-54  
This survey course addresses digital media techniques to communicate in an electronic and print environment. Students combine text, audio, animation, web pages, images, and video to create interactive products to inform, educate, or entertain. Prerequisite: None. Recommended Preparation: Knowledge of general computer use.  
--Transfers to CSU only |

| **MUL-112** | 3 units | Interactive Multimedia Design I | LEC 48-54  
This course provides students with web design and development skills. These skills, for both web and portable devices, include accessible and standards-driven design using XHTML and CSS, Information Architecture for information sharing environments, navigation systems, form generation, and electronic communication concepts. The course is one of four core courses applicable to the multimedia certificate and/or degree. Prerequisite: MUL-110 (with a grade of C or better).  
--Transfers to CSU only |

| **MUL-114** | 3 units | Multimedia Project Management | LEC 48-54  
(formerly Production Management)  
This multimedia project and production management course provides students with a foundation in project planning, project control, web, video, and animation production principles, and team dynamics. In addition, students will explore information processes and systems that support all multimedia areas. Prerequisite: MUL-112 or MUL-123 or MUL-126 (with a grade of C or better).  
--Transfers to CSU only |

| **MUL-116** | 3 units | Social Media Marketing | LEC 48-54  
This social media marketing course provides students with an online marketing foundation in social networking, online video sharing, microblogging, podcasts, article generation, and blogging by working with social media marketing tools and creating a social media marketing plan. Prerequisite: MUL-110 (with a grade of C or better).  
--Transfers to CSU only |

| **MUL-123** | 3 units | Video Production I | LEC 48-54  
(formerly Digital Video Production I)  
This course introduces students to the theoretical concepts and equipment operations of video production. Students will learn basic camera operations, lighting techniques, production techniques, audio-for-video techniques and video editing. Other topics covered in this class include iris/depth-of-field relations, framing for depth perception, applicable frame rates, pre-production paper work, and final authoring to DVD. *Cross-listed as AUD-152. Prerequisite: None. Recommended Preparation: MUL-110 or AUD-140.  
--Transfers to both UC/CSU |

| **MUL-125** | 3 units | Interactive Motion Media | LEC 48-54  
(formerly Scripting for Multimedia)  
This course provides students with the skills to create professional animations and interactive advertisements. Students will also integrate animated design into websites and incorporate audio and video into self-contained presentations. The course covers drawing and color tools, mastering the essentials of animation, working with type, graphics, sound, video, and scripting using industry-standard animation software. Prerequisite: MUL-110 (with a grade of C or better).  
--Transfers to CSU only |

| **MUL-126** | 3 units | Time Based Media | LEC 32-36/LAB 48-54  
This course investigates multiple contexts of video from an artistic point of view. The student will gain a clear understanding of the relationship between the narrative and the visual structure of film/video. Lectures will show many developments and movements of the video medium as well as design elements used to control the narrative content. Students will also develop a work that is experimental in nature, focusing on the sequential process and editing decisions in Time Based Media. *Cross-listed as ART-124. Prerequisite: None.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU |
Course Descriptions

**MUL-131**  
3D Animation  
(formerly 3D Animation I)  
LEC 48-54  
This course covers the process of 3D computer graphics. Issues related to modeling, material texture and animation are a particular focus. Cinematic staging and lighting are also covered topics. Still and animated imagery will be created using industry software. Prerequisite: MUL-110 (with a grade of C or better).  
--Transfers to CSU only

**MUL-133**  
Production Management - Entertainment  
LEC 48-54  
This course is designed to prepare the student to plan and manage projects, such as an advertising campaign, video, TV commercial and movie. They learn to schedule, budget, and breakdown the components of the campaign, based upon a breakdown of script and storyboard requirements, time and resources. Prerequisite: AUD-152 or MUL-123 or MUL-131 (with a grade of C or better).  
--Transfers to CSU only

**MUL-134**  
2D Animation  
LEC 48-54  
This beginning skills development course demonstrates the use of 2D animation techniques to produce works that exhibit the best principles of the entertainment industry. The course covers traditional cel animation, beginning with pencil tests and moving to industry standard software. A variety of stop-motion techniques are also explored. Prerequisite: None.  
--Not transferable

**MUL-139**  
Advanced Animation  
(formerly 3D Topic-Character)  
LEC 48-54  
This course covers advanced 2D and 3D animation skills. The focus is on perfecting technique; improving quality and efficiency using industry standard software. Prerequisite: MUL-131 (with a grade of C or better) and MUL-134 (with a grade of C or better).  
--Transfers to CSU only

**MUL-149**  
Occupational Internship: Multimedia  
OI 16-72  
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.  
--Transfers to CSU only

**MUL-214**  
Practical Production - Entertainment  
LEC 48-54/LAB 48-54  
This advanced course provides the student with real-world production and post-production experiences through the creation of a half-hour television show. Studio and location shooting, video editing and special effects are all activities performed. Throughout the course, the work environment varies from students as individuals, small production teams and the full ensemble. Prerequisite: Student resumes and portfolios are reviewed by 2 Lead Instructors to determine if student will be invited to enroll- a process similar to industry practice.  
--Transfers to CSU only

**MUL-218**  
Dynamic Web Design  
LEC 48-54  
This course provides students with advanced web authoring skills for designing, building and managing dynamic web sites. These skills include Web 2.0, ecommerce, social media design, and search engine optimization. In addition, students will modify templates, apply CSS, install interactive modules and components within a website, and explore and apply electronic marketing principles and theories. Prerequisite: MUL-112 (with a grade of C or better).  
--Transfers to CSU only

**MUL-223**  
Video Production II  
LEC 48-54  
This advanced course will cover the use of digital video production software and hardware (editing, effects, filters, color correction, compression output processes). Students work on projects using non-linear video editing software techniques. Related topics include preparing video production for television broadcasting and DVD authoring.  
*Cross-listed as AUD-153. Prerequisite: AUD-152/MUL-123 (with a grade of C or better).  
--Transfers to both UC/CSU

**MUL-299**  
Special Projects: Multimedia  
IS 16-54  
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Multimedia classes; a contract must be completed with the instructor prior to enrollment.  
--Transfers to CSU only

**Music**

**MUS-100**  
Introduction and Appreciation of Music  
LEC 48-54  
This course provides students with a survey of European music styles concentrating on Baroque, Classical, Romantic, and Modern music. The purpose of the course is to develop an understanding of various styles and musical elements, as well as the history and aesthetics of music. Prerequisite: None.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--IGETC Area(s): 3A  
--CSU Area(s): C1

**MUS-100H**  
Honors Introduction and Appreciation of Music  
LEC 48-54  
This course provides students with a survey of European music styles concentrating on Baroque, Classical, Romantic, and Modern music. The purpose of the course is to develop an understanding of various styles and musical elements, as well as the history and aesthetics of music. Prerequisite: Acceptance in the Honors Enrichment Program.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--IGETC Area(s): 3A  
--CSU Area(s): C1  
--C-ID MUS 100
Course Descriptions

MUS-101 3 units
Music Fundamentals
LEC 48-54
This course introduces the primary elements of music. It develops skills in handwritten musical notation. The course is designed both for students who have a limited formal background in music and theory. Students will be introduced to the arrangement of the keyboard and staff, the basic properties of sound, intervals, diatonic scales and diatonic chords. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C1
--C-ID MUS 110

MUS-103 3 units
Music Theory I
(formerly Music Theory I--Diatonic Harmony)
LEC 48-54
This course introduces and develops the basic concepts of music composition in common practice including rhythm and meter, basic properties of sound, intervals, diatonic scales and triads, diatonic chords, basic cadential formulas and phrase structures, the dominant seventh chord, figured bass symbols, and non-harmonic tones. Students develop fluency with the language of music and handwritten notation through guided composition and analysis. Prerequisite: None. Recommended Preparation: MUS-101 and concurrent enrollment in MUS-175 and concurrent enrollment in one of the following performance ensemble courses: MUS-205, MUS-206, MUS-210, MUS-211, MUS-212 or MUS-214 and concurrent enrollment in one of the following piano courses: MUS-111 or MUS-112.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C1
--C-ID MUS 120

MUS-104 3 units
Music Theory II
(formerly Music Theory II--18th and 19th Century Harmony)
LEC 48-54
This course builds upon the material learned in Music Theory I. The course will focus on an introduction to two-part counterpoint, four-part chorale voice leading, diatonic harmony, and an introduction to secondary harmonies and modulation. Prerequisite: MUS-103 (with a grade of C or better). Recommended Preparation: Concurrent enrollment in MUS-176 and concurrent enrollment in one of the following piano courses: MUS-111 or MUS-112 and concurrent enrollment in one of the following performance ensemble courses: MUS-205, MUS-206, MUS-210, MUS-211, MUS-212 or MUS-214.
--Transfers to both UC/CSU
--CSU Area(s): C1
--C-ID MUS 130

MUS-106 3 units
History of Rock & Roll
LEC 48-54
This course is designed to assist students in developing historical understanding, appreciation, and respect for rock and roll and related derivative musical styles. The course focuses upon the evolutionary development of rock from the 1950s to today. The genres innovators will be discussed and analyzed. Moreover, students will be introduced to and gain an understanding of basic musical concepts through the rich history of this American born music. Prerequisite: None.
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

MUS-107 3 units
Introduction and Appreciation of American Music
LEC 48-54
This course is a survey of American styles including jazz, popular music, and art music. The purpose of the course is to develop knowledge of music history, an understanding of elements of music, and an aesthetic appreciation of various styles. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

MUS-107H 3 units
Honors Introduction and Appreciation of American Music
LEC 48-54
This course is a survey of American styles including jazz, popular music, and art music. The purpose of the course is to develop knowledge of music history, an understanding of elements of music, and an aesthetic appreciation of various styles. Prerequisite: Acceptance into the Honors Enrichment Program.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

MUS-108 3 units
History of Jazz and Blues
LEC 48-54
This course assists students in developing an appreciation and respect for jazz and blues music as original American art forms. The focus is on the evolutionary development of the music and artists responsible for its creation. Students will gain an understanding of basic musical concepts, as well as the rich history of a uniquely American music. Prerequisite: None.
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

MUS-108H 3 units
Honors History of Jazz and Blues
LEC 48-54
This course assists students in developing an appreciation and respect for jazz and blues music as original American art forms. The focus is on the evolutionary development of the music and artists responsible for its creation. Students will gain an understanding of basic musical concepts, as well as the rich history of a uniquely American music. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

MUS-109 3 units
World Music
LEC 48-54
This course explores the indigenous music of many cultures around the world. It is designed to assist students in developing an appreciation and respect for those cultures. The music of Africa, China, Japan, Central Asia, India, Indonesia, Latin America, the Middle East, Eastern and Western Europe, Native America, and the Caribbean are presented in conjunction with American folk traditions. Emphasis is placed on the development of skills needed to distinguish various musical styles and instrumentation. Prerequisite: None.
--AA/AS General Education: AA/AS C or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

</thead>
</table>
| MUS-111     | 1     | Beginning Piano | This course offers individual piano instruction to students who have no previous training. Students will develop techniques used to perform piano music, learn basic concepts of music theory, and learn to read music. Prerequisite: None.  
- AA/AS General Education: AA/AS C  
- Transfers to both UC/CSU |
| MUS-112     | 1     | Intermediate Piano | This course is a continuation of beginning piano. It builds upon the techniques and knowledge of music theory obtained in beginning piano, and exposes the student to piano literature at the intermediate level. Prerequisite: MUS-111 (with a grade of C or better) or Instructor Consent.  
- AA/AS General Education: AA/AS C  
- Transfers to both UC/CSU |
| MUS-113     | 3     | Children's Music | This course is designed to teach musical techniques valuable for use with children of pre-school through grade school ages. Included in the course will be notation, singing, music movement, and basic music skills.  
- Cross-listed as CDE-109. Prerequisite: None.  
- AA/AS General Education: AA/AS C  
- Transfers to CSU only  
- CSU Area(s): C1 |
| MUS-114     | 2     | Jazz Improvisation | Develop skills in the art of improvisation in the jazz idiom. Students apply principles of jazz theory in real-time through classroom performance. The course concentrates on matching correct pitches and scales with chord progressions from standard jazz literature. Students learn to be creative and make appropriate stylistic choices by analyzing recordings of classic jazz solos. The art of jazz improvisation benefits musicians who perform in all genres, such as rock, pop, world music, and classical. Prerequisite: MUS-103 (with a grade of C or better). Demonstrate proficiency on a musical instrument by audition or interview.  
- AA/AS General Education: AA/AS C  
- Transfers to both UC/CSU  
- CSU Area(s): C1 |
| MUS-115     | 2     | Beginning Voice Class - Breath/Tone | This course is one part of a two-semester package of Beginning Voice Classes. The two may be taken in any order. This section focuses on breathing and support, tone production and resonance. Students learn about the physiology of good singing and learn to sing in group and solo settings. Prerequisite: None.  
- Transfers to both UC/CSU |
| MUS-116     | 2     | Beginning Voice Class - Diction and Expression | This course is one part of a two-semester package of Beginning Voice Classes. The two may be taken in any order. This section focuses on diction, style, and expression. Students learn about the physiology of good singing and learn singing in large group and small group environments. Prerequisite: None.  
- Transfers to both UC/CSU |
| MUS-118     | 1     | Applied Music: Instrumental | This course is designed to provide individualized instruction to the instrumental musician, developing appropriate techniques and repertoire for the student's chosen instrument. Solo performance skills will be progressively developed, and students will be evaluated through a juried performance. May be taken 4 times for credit. Prerequisite: Demonstrate proficiency on a musical instrument by audition and/or interview. Audition requirement may be satisfied with enrollment in MUS-210, MUS-211, MUS-212, or MUS-214. Recommended Preparation: Concurrent enrollment in an instrumental performance ensemble (MUS-210, MUS-211, MUS-212, MUS-214), an appropriate music theory course (MUS-103, MUS-104, MUS-253, MUS-254), an appropriate musicianship course (MUS-175, MUS-176, MUS-177, MUS-178), and a piano course (MUS-111 or MUS-112).  
- Transfers to both UC/CSU |
| MUS-125     | 1     | Guitar I | This course offers individual guitar instruction to students who have no previous training. The course covers a variety of musical styles, including folk, blues, pop, rock, and beginning classical guitar pieces. Students will learn useful techniques, and basic theory. Musical tablature, strumming and picking patterns to accompany voice are taught. Prerequisite: None. Recommended Preparation: MUS-101. Other Enrollment Criteria: The student must provide a classical or folk guitar for his or her own use during the first semester of this course.  
- AA/AS General Education: AA/AS C  
- Transfers to both UC/CSU |
| MUS-127     | 1     | Guitar II | This course builds on beginning guitar technique, developing students' skills to the intermediate level through individual instruction. Students will learn music from a variety of genres that reinforces various techniques and left hand positions. The student must provide a classical or folk guitar for his or her own use. Prerequisite: MUS-125 (with a grade of C or better).  
- AA/AS General Education: AA/AS C  
- Transfers to both UC/CSU |
| MUS-140     | 3     | Beginning Studio Recording | This course offers instruction in the basic concepts of multi-track recording. Instruction includes an examination of basic acoustics, microphones, mixers, monitors, signal processors, and recording techniques. Cross-listed as AUD-140. Prerequisite: None.  
- Transfers to both UC/CSU |
| MUS-141     | 3     | Intermediate Studio Recording | This course offers instruction in multitrack recording techniques, equalization, mixing, microphone techniques, Foley, signal processing, and 3-dimensional recording. Cross-listed as AUD-141. Prerequisite: MUS/AUD-140 (with a grade of C or better).  
- Transfers to both UC/CSU |
Course Descriptions

MUS-142  
Advanced Studio Recording I  
LEC 48-54  
This course is the study of techniques used for audio-for-video and film. Study will include: multi-track recording, mixing, Foley, signal processing and ADR. *Cross-listed as AUD-142. Prerequisite: MUS/AUD-141 (with a grade of C or better).  
--Transfers to CSU only  

MUS-143  
Computer Audio Editing  
(formed Advanced Studio Recording II)  
LEC 48-54  
This course offers students experience in digital editing using computers and software. The class includes digital recording techniques. *Cross-listed as AUD-143. Prerequisite: AUD/MUS-140 (with a grade of C or better).  
--Transfers to CSU only  

MUS-145  
Midi & Computer Recording  
LEC 48-54  
This course offers instruction in music software and basic audio concepts. The primary focus is on recording, mixing, and editing. *Cross-listed as AUD-145. Prerequisite: AUD/MUS-143 (with a grade of C or better).  
--Transfers to CSU only  

MUS-146  
Recording Music and Live Sound  
LEC 48-54  
This course offers instruction in microphone techniques for vocals, acoustic musical instruments and electronic musical instruments. Students will also receive instruction in advanced mixdown techniques and in the use of public address systems as applied to live sound (concert and theater) situations. *Cross-listed as AUD-146. Prerequisite: MUS/ AUD-141 (with a grade of C or better).  
--Transfers to CSU only  

MUS-147  
The Music & Audio Business  
LEC 48-54  
This course acquaints students with business practices in the music and audio industries. Students taking this course will be educated in areas such as contracts, copyrights, publishing and industry trends. Other topics covered by this course include the differences between bootlegging, piracy and counterfeiting. *Cross-listed as AUD-147 and BADM-147. Prerequisite: None.  
--Transfers to CSU only  

MUS-150  
Intermediate Voice Class  
LAB 48-54  
This course builds on the foundational skills learned in the two Beginning Voice classes. The course emphasizes performance and application of the theories of good singing. Students select their own song materials and receive assigned songs from the instructor. Regular vocal solo performance and critique are major components of the course. Prerequisite: MUS-115 and MUS-116 (with a grade of C or better).  
--Transfers to both UC/CSU  

MUS-151  
Applied Music: Voice  
(formerly Applied Music: Voice I)  
LAB 48-54  
This course consists of individualized study of the appropriate techniques and repertoire for the voice. The emphasis is on the progressive development of skills needed for performance. It prepares students for a performance exam for university entry and for public performance. Achievement is evaluated through a juried performance. May be taken 4 times for credit. Prerequisite: Demonstrate proficiency by audition and/or interview. Audition requirement may be satisfied by enrollment in MUS-205 or MUS-206. Recommended Preparation: Concurrent enrollment in a vocal performance ensemble (MUS-205 or MUS-206), an appropriate music theory course (MUS-103, MUS-104, MUS-253, MUS-254), an appropriate musicianship course (MUS-175, MUS-176, MUS-177, MUS-178), and a piano course (MUS-111 or MUS-112).  
--Transfers to both UC/CSU  

MUS-152  
Musicianship I  
LAB 48-54  
This course applies and develops the rhythmic, melodic, and harmonic materials of Music Theory I through ear training, sight singing, analysis, and dictation. The course includes dictation of simple diatonic melodies, chords, basic rhythms, and singing of diatonic melodies. Prerequisite: None. Recommended Preparation: Concurrent enrollment in MUS-103 and MUS-111 or MUS-112.  
--Transfers to both UC/CSU  

MUS-153  
Musicianship II  
LAB 48-54  
This course applies and develops the rhythmic, melodic, and harmonic materials of Music Theory II through ear training, sight singing, analysis, and dictation. The course builds on the material of Musicianship I with more challenging melodies, rhythms, and dictation of chord progressions. Prerequisite: MUS-175 (with a grade of C or better). Recommended Preparation: Concurrent enrollment in MUS-104 and one of the following piano courses: MUS-111 or MUS-112.  
--Transfers to both UC/CSU  

MUS-154  
Musicianship III  
LAB 48-54  
This course applies and develops the rhythmic, melodic, and harmonic materials of Music Theory III through ear training, sight singing, analysis, and dictation. The course includes syncopation, triplet rhythms, and melodies and harmonies that incorporate close-key modulation and chromaticism. Prerequisite: MUS-176 (with a grade of C or better). Recommended Preparation: Concurrent enrollment in MUS-253 and concurrent enrollment in one of the following piano courses: MUS-111 or MUS-112.  
--Transfers to both UC/CSU  

MUS-155  
Musicianship IV  
LAB 48-54  
This course applies and develops the rhythmic, melodic, and harmonic materials of Music Theory IV through ear training, sight singing, analysis, and dictation. The course includes rhythms, melodies, and harmonies used in Romantic, Impressionist, Modal, and Twentieth-Century music. Prerequisite: MUS-177 (with a grade of C or better). Recommended Preparation: Concurrent enrollment in MUS-254 and concurrent enrollment in one of the following piano courses: MUS-111 or MUS-112.  
--Transfers to both UC/CSU
Course Descriptions

MUS-206 1 unit
Chamber Choir
LAB 48-54
This course provides vocal performance experience for singers who have previous choral experience. Singers are expected learn quickly and to be able to memorize music for performance. Music of all styles and practices is performed requiring a variety of vocal performance techniques. The Chamber Choir also may join with other college ensembles, both choral and instrumental, for performances both on campus and off campus. May be taken 2 times for credit. Prerequisite: Demonstrate singing proficiency by audition and/or interview. Student must be able to match pitch and sing in tune.
--Transfers to both UC/CSU
--C-ID MUS 180

MUS-209 1-3 units
Musical Production
LAB 48-162
This course is designed for the presentation of a musical. Students will learn the preparation of a production including: rehearsal technique, acting, movement, music, dramatic text, and technical theater. *Cross-listed as DAN-209 and THA-209 Prerequisite: By audition and/or interview.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU

MUS-210 1 unit
Jazz Ensemble I
LAB 48-54
This class is a performance ensemble that prepares students for jazz performance in the professional and university settings. Various styles of music performed may include swing, Latin jazz, bebop, jazz-funk fusion, avant garde, and other styles. The course reinforces all aspects of jazz performance including improvisation, sight reading, intonation, rhythmic interpretation, section and ensemble balances, and stylistic interpretation. The ensemble performs on campus and throughout the community as opportunities arise. May be taken 2 times for credit. Prerequisite: Demonstrate proficiency on a musical instrument by audition or interview.
--Transfers to both UC/CSU
--C-ID MUS 180

MUS-211 1 unit
Jazz Ensemble II
LAB 48-54
This course is a continuation of Jazz Ensemble I and focuses on the practices and styles of the professional jazz musician. Jazz Ensemble II reinforces the main concepts discussed in Jazz Ensemble I and students are expected to demonstrate those skills at a higher level. Further, students will be expected to arrange, compose, and improvise in a wide variety of jazz styles. The ensemble performs on campus and throughout the surrounding area as opportunities arise. May be taken 2 times for credit. Prerequisite: Demonstrate proficiency on a musical instrument by audition and/or interview.
--Transfers to both UC/CSU
--C-ID MUS 180

MUS-212 1 unit
Instrumental Chamber Music
LAB 48-54
This instrumental music group rehearses and performs selections from standard classical repertoire, as well as modern compositions. Musical instruments may include members of the brass, woodwind, string, percussion, and keyboard families. May be taken 4 times for credit. Prerequisite: None. Other Enrollment Criteria: Demonstrate proficiency on a musical instrument by audition and/or interview.
--AA/AS General Education: AA/AS C
--Transfers to CSU only

MUS-214 1 unit
Guitar Ensemble
LAB 48-54
This course is a study of classical guitar technique and performance practice within an ensemble. Different genres of guitar related music will be explored through concerts, master classes, and workshops designed to promote the awareness of the guitar through group participation. May be taken 4 times for credit. Prerequisite: MUS-125 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to CSU only

MUS-253 3 units
Music Theory III
(formerly Music Theory III--Analysis and Chromatic Harmony)
LEC 48-54
This course builds upon the material learned in Music Theory II. Students continue analyzing and writing music in progressively advanced material. Harmonic content extends to chromatic harmony, secondary chords, modulation, borrowed chords, and Neapolitan and augmented-sixth chords. Prerequisite: MUS-304 (with a grade of C or better). Recommended Preparation: Concurrent enrollment in MUS-177 and concurrent enrollment in one of the following piano courses: MUS-111 or MUS-112 and concurrent enrollment in one of the following performance ensemble courses: MUS-205, MUS-206, MUS-210, MUS-211, MUS-212 or MUS-214.
--Transfers to both UC/CSU
--CSU Area(s): C1
--C-ID MUS 140

MUS-254 3 units
Music Theory IV
LEC 48-54
This course builds upon the material learned in MUS 253. It introduces post-Romantic and 20th century techniques through composition and analysis. Topics include borrowed chords and modal mixture; chromatic mediant; Neapolitan and augmented sixth chords; 9th, 11th, and 13th, chords; altered chords and dominants; Impressionism; tone rows; set theory; pandiatonicism and polychoralism; and advanced approaches to meter and rhythm. Prerequisite: MUS-253 (with a grade of C or better). Recommended Preparation: Concurrent enrollment in MUS-178 and concurrent enrollment in one of the following piano courses: MUS-111 or MUS-112 and concurrent enrollment in one of the following performance ensemble courses: MUS-205, 206, 210, 211, 212 or 214.
--Transfers to CSU only
--C-ID MUS 150

MUS-299 1-3 units
Special Projects: Music
IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Music classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only
Course Descriptions

Nursing

NURS-064R 0.50-1 unit
Nursing Skills Laboratory-Remediation LAB 24-27
This course provides the student with an opportunity to enroll in the Nursing Skills Laboratory for remediation in the practice and mastery of skills necessary for safe patient care. Remediation activities will follow the student learning outcomes addressed in the course the student was enrolled in prior to dismissal from program. Offered as pass/no pass only. Prerequisite: Nursing (RN and LVN) Program Probationary. Requires Instructor Consent. Other Enrollment Criteria: Enrollment shall occur during the same semester that they were dismissed from the Associate Degree Nursing or Vocational Nursing Program.

NURS-071 .5 unit
Foundations of Nursing Skills Lab LAB 24-27
This course introduces students to the foundation of nursing psychomotor skills and simulation of a patient care environment. Basic safety and the nursing process are introduced. Prerequisite: Admission to the Associate Degree Nursing Program.

NURS-072 .5 unit
Basic Medical Surgical Nursing Skills Lab LAB 24-27
This course develops the first year nursing student's basic psychomotor nursing skill performance in a simulated patient care environment. Psychomotor nursing skills will be applied to simulated patients with non-critical, moderately complex disease processes and co-morbidities. Prerequisite: NURS-071.

NURS-073 .5 unit
Intermediate Nursing Skills Lab LAB 24-27
This course examines the second year nursing student's application of intermediate nursing skill performance in a simulated patient care environment. Psychomotor nursing skills and the nursing process will be applied to simulated patients with complex, multi-system disease process. Prerequisite: NURS-072 or Admission to Associate Degree Nursing program and Licensed Vocational Nurse transitioning into the third semester of the associate degree nursing program.

NURS-074 .5 unit
Advanced Nursing Skills Lab LAB 24-27
This course is focused on the application of the advanced psychomotor skills and the nursing process in the care of critically ill patients and geriatric patients. Prerequisite: NURS-073.

NURS-085 7.5 units
Certified Nursing Assistant LEC 80-90/LAB 120-135 and Home Health Aide
This course provides training in fundamental nursing skills and theory. The course is designed to meet department of health curriculum requirements while preparing the student for state examination in both nurse assistant and home health certification. The course includes both theory and clinical training. Prerequisite: None. Corequisite: NURS-084A. Other Enrollment Criteria: Enrollment is pending completion of state required forms. Students are required to obtain a CNA packet, available at the Department of Nursing and Allied Health office upon enrollment to the CNA program. All forms must be completed prior to the first day of class.

NURS-100 3 units
Introduction to Anatomy and Physiology LEC 48-54
This course provides a basic overview of the structure and function of the body for allied health students or those who desire a basic understanding of the human body. The content includes the anatomy and physiology as systems approach and includes selected homeostatic mechanisms and pathologies where appropriate. *Cross-listed as ANAT-100. Prerequisite: None.

NURS-194 3.5 units
Pharmacology & Dosage Calculations LEC 56-63
for Nurses
This course provides nursing students with a methodical approach for calculating medication dosages, selecting and administering drugs, and monitoring the patient's response to drug therapy. Content includes general principles of pharmacology, legal, ethical, and safety aspects of medication administration and drug calculations. Drug information includes pharmacotherapeutics, pharmacodynamics, pharmacokinetics, contraindications and precautions, adverse side effects and drug interactions. Also includes patient variables (health status, life span/gender, diet, lifestyle/habits, environment, and culture in relationship to drug therapy). Prerequisite: Acceptance in the Associate Degree Nursing Program.

NURS-212 4 units
Foundations of Nursing LEC 32-36/LAB 96-108
This course provides an introduction to nursing and the roles of the nurse, the nursing process, critical thinking, knowledge, and basic skills necessary to administer beginning level assessment and intervention/procedure for adults. The emphasis is on health promotion in wellness settings. Clinical experiences will provide opportunities for students to participate in therapeutic activities in a variety of health settings that focus on health maintenance and promotion. Prerequisite: Admission requirements to the RN program.

NURS-214 4 units
Introduction to Medical-Surgical Nursing I LEC 32-36/LAB 96-108
This course introduces concepts/practices relating the non-critical young adult through geriatric adult in the medical/surgical environment. Utilizing the nursing process, the student will begin to recognize alterations in functioning or illness and formulate age appropriate nursing interventions. Selected psychomotor skills associated with the basic needs, medication administration and intravenous therapy will be studied/practiced. This course introduces the first year nursing student to concepts and practices relating to the adult patient in the Medical/Surgical environment. Prerequisites: NURS-194 and NURS-212 (with a grade of C or better).

NURS-222 3.5 units
Nursing Care of Children & Families LEC 32-36/LAB 72-81
This course focuses on the integration and application of the nursing process as it relates to the nursing care of children and their families. Emphasis is on the concepts and skills related to age-appropriate family centered care. Prerequisite: Admission requirements to the RN program.

Mt. San Jacinto College 2014-2015 Catalog 258
| Course Code | Units | Title                                      | Description                                                                                                                                                                                                 | Prerequisite | Transferable
|-------------|-------|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-------------------
| NURS-224    | 5     | Beginning Medical-Surgical Nursing II      | This course develops the first year nursing student’s knowledge and skills as they relate to the adult non-critical, moderately complex medical/surgical patient. Through utilization of the nursing process, the student will recognize alterations in functioning or illness and formulate age-appropriate nursing interventions. Psychomotor skills associated with moderately complex needs, medication administration and intravenous therapy will be studied and practiced. The impact of multiple nursing diagnoses on patient outcomes will be introduced. Prerequisite: NURS-214 (with a grade of C or better). |             | --Transfers to CSU only |
| NURS-226    | 3.5   | Nursing of Childbearing & Families         | This course will enable the student to obtain knowledge and skills necessary to provide safe, effective, culturally sensitive physiological and psychosocial care using the nursing process and family centered approach for childbearing clients and their families. Clinical experiences emphasizes refinement of critical thinking, decision making, psychomotor skills and management of care for evidence based practice in the roles of professional nursing. Prerequisite: Admission requirements to the RN program. |             | --Transfers to CSU only |
| NURS-232    | 3     | Role Transition                            | This course is an advanced placement (bridge) course for the LVN to RN student who will be transitioning into the third semester of the Associate Degree Nursing Program. The course will focus on the theory and application of concepts of physical assessment, the nursing process, critical thinking, relationship of homeostatic mechanisms to fluids and electrolytes and nursing competencies in the professional roles of clinician, teacher, leader, and advocate. Prerequisite: Admission criteria to the Associate Degree Nursing program and Licensed Vocational Nurse. |             | --Transfers to CSU only |
| NURS-234    | 5     | Intermediate Medical-Surgical Nursing III  | This course will synthesize and correlate nursing knowledge and skills in providing care to multiple patients who have complex, multi-system illnesses. Focus will be for the students to predict patient needs and priorities, and evaluate outcomes on care. Associated psychomotor skills will be integrated and practiced. Prerequisite: NURS-224 (with a grade of C or better). |             | --Transfers to CSU only |
| NURS-236    | 3     | Mental Health Nursing                      | This course provides an introduction to Mental Health Nursing using the nursing process to promote psychosocial integrity within the context of the health illness continuum across the life span. Emphasis is on therapeutic interactions and communications, biopsychosocial, rehabilitation and therapeutic use of self. Clinical experiences will provide opportunities for students to participate in therapeutic activities in a variety of mental health settings. Prerequisite: None. |             | --Transfers to CSU only |
| NURS-238    | 2     | Gerontology and Community Nursing          | This course builds on previous knowledge and skills in applying the nursing process to older adults living in the community. Gerontological nursing theory is stressed with emphasis on lifestyle and physical changes that occur with aging, the process of initiating health referrals for the older adult, and the outcome criteria for evaluating the aging individual’s response to teaching and learning. The student will also explore interventions to increase the older adult’s functional abilities. Prerequisite: None. |             | --Transfers to CSU only |
| NURS-244    | 4     | Advanced Medical-Surgical Nursing IV       | This course focuses on advanced application of the nursing process in the care of critically ill adult and geriatric patients. The student will organize and discriminate data to establish priorities of care. Correlated clinical experiences emphasize refinement of clinical decision making, psychomotor skills and management of patient care in professional nursing practice. Prerequisite: NURS-234 (with a grade of C or better). |             | --Transfers to CSU only |
| NURS-248    | 2.5   | Preceptorship                              | This course provides the senior nursing student the opportunity to integrate and apply previously learned skills/knowledge in the role of graduate nurse and prepare for professional responsibilities in employment. The student will participate as a pre-licensed preceptee member of the healthcare team and assume responsibility for a group of clients under the direct supervision of a qualified registered nurse. Students use critical thinking skills in their role of advocate, leader, and manager of patient care. Prerequisite: NURS-244 (with a grade of C or better). |             | --Transfers to CSU only |
| NURS-299    | 1-3   | Special Projects: Nursing                  | Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Nursing classes; a contract must be completed with the instructor prior to enrollment. |             | --Transfers to CSU only |

---

**NUTR-100H** 3 units
**Honors Family Nutrition**
LEC 48-54

This course covers basic principles of nutrition. It includes the study of the essential nutrients, food labels and consumer protection laws, meal planning, dietary considerations for various stages of life, dietary recommendations for disease prevention, and weight control methods.

Prerequisite: Acceptance in the Honors Enrichment Program.

--AA/AS General Education: AA/AS B2 or AA/AS E
--Transfers to both UC/CSU
--CSU Area(s): E1

---

**NUTR-101** 3 units
**Nutrition and Foods**
LEC 48-54

This course examines the science of nutrition. The course develops the student's understanding of macro and micro nutrients and the role they play in dietary intervention of various disease states. This course also explores the role of nutrition throughout the life span and the effects of exercise on overall wellness.

Prerequisite: None.

--AA/AS General Education: AA/AS A or AA/AS E
--Transfers to CSU only
--CSU Area(s): E1

---

Photography

PHOT-090 1 unit
Digital Imaging Studio Laboratory LAB 48-54
This lab course makes the Digital “Light Room” and Digital imaging studio available to intermediate and advanced digital photography students. Students enroll in this lab to be eligible to reserve the Digital Studio to produce project work assigned in this production course. Students enrolled in this lab must also be concurrently enrolled in the intermediate course or the advanced course. Prerequisite: PHOT-125 (with a grade of C or better). Corequisite: PHOT-224 or PHOT-225.
--Not transferable

PHOT-091 1 unit
Professional Production Studio Laboratory LAB 48-54
This advanced lab course makes the Digital “Light Room” and Digital imaging studio available to advanced digital photography students who have completed Digital Photography Production III and seek professional-level photographic challenges in the studio and on location. Students enroll in this course to be eligible to reserve the Digital Studio to produce project work assigned in this production lab. Prerequisite: PHOT-225 (with a grade of C or better).
--Not transferable

PHOT-125 3 units
Digital Photography Production I LEC 48-54
This course provides practical, technical, critical and creative instruction in digital photographic theory and workflow utilizing digital imaging software and capture equipment. It covers fundamental photographic principles, theory and exposure essentials, referencing the evolution of the photographic industry from traditional to digital tools. Coursework is project-based and immersive. Students will acquire skill sets pertaining to the digital paradigm that will allow them to master acquisition, manipulation, and digital output to current professional industry standards. Prerequisite: None. Recommended Preparation: MUL-110.
--Transfers to both UC/CSU

PHOT-130 3 units
History of Still Photography LEC 48-54
The History of Still Photography offers a comprehensive exploration of the historical progression of fixing a still image, that is to say writing with light. This course starts in ancient times with naturally occurring images, and moves through advances in optics and chemical processes. It then moves through the prolific period of traditional Black and White photography and then covers the birth and advancements of the digital light sensor and its possibilities for the future. Prerequisite: None.
--CSU Area(s): C
--Transfers to both UC/CSU

PHOT-149 1-4 units
Occupational Internship: Photography OI 16-72
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.
--Transfers to CSU only

PHOT-224 3 units
Digital Photography Production II LEC 48-54
This course is designed to elevate the intermediate student to a professional level. Digital skill sets include: Metadata-driven digital asset management and raw workflow, advanced compositing strategies and special effects, studio lighting fundamentals regarding portrait and still life/product photography, photographic criticism and professional competition. Prerequisite: PHOT-125 (with a grade of C or better).
--Transfers to CSU only

PHOT-225 3 units
Digital Photography Production III LEC 48-54
This course provides advanced training in photography. Students will have extensive studio, field and software challenges designed to build a professional digital portfolio. Skill sets in advanced digital archiving,
post processing, lighting and output are explored. Students will have
increased access to the digital imaging studios intended for intensive
production work. High quality and high-resolution industry-standard
tools are provided to offer practical hands-on experience in image
production within the digital paradigm. Prerequisite: PHOT-224 (with
a grade of C or better).
--Transfers to CSU only

PHOT-299  1-3 units
Special Projects: Photography  IS 16-54
Students with previous course work in the program may do special
projects that involve research and special study. The actual nature of
the project must be determined in consultation with the supervising instructor. Prerequisite: PHOT-124, PHOT-224, and PHOT-225
(with a grade of C or better). A contract must also be completed with
the instructor prior to enrollment.
--Transfers to CSU only

Physical Education

PE-100  3 units
Introduction to Physical Education  LEC 48-54
This is an orientation course designed to survey the history, philosophy
and related sport and fitness issues related to physical education. The
responsibilities of the physical education instructor and sports coach will
be investigated and the role of the physical educator within recreation,
school and community health services will be researched and identified.
Prerequisite: None. Recommended Preparation: READ-063.
--AA/AS General Education: AA/AS E
--Transfers to both UC/CSU

PE-106  3 units
Sports Officiating  LEC 48-54
(formerly Officiate Basketball/Baseball)
This course presents the theory and techniques used in officiating organized sports. The practice of these techniques within a game
situation is also emphasized. Prerequisite: None.
--Transfers to both UC/CSU

PE-110  3 units
Prevention and Care of Athletic Injuries  LEC 48-54
(formerly Prevention and Care of Injuries)
This course introduces the Athletic Training profession and the methods and techniques for the prevention and treatment of sports-related injuries through the study of human anatomy and function with particular respect to muscle and joint anatomy, biomechanics, exercise physiology and the care of sports-related injuries. This course focuses on injury prevention, evaluation, management, and rehabilitation, as well as professional development. Prerequisite: None.
--AA/AS General Education: AA/AS A or AA/AS E
--Transfers to both UC/CSU

PE-112  1 unit
Body Conditioning  LAB 48-54
This course provides a series of activities designed to establish a life-long
physical fitness program which includes cardio-respiratory endurance,
strength endurance, and flexibility. The types of exercises may include
the following: walking, jogging, jumping rope, strength training, stretching, and callisthenic exercises. Prerequisite: None.
--AA/AS General Education: AA/AS E
--Transfers to both UC/CSU

PE-112A  1 unit
Beginning Step Aerobics  LAB 48-54
This course is designed to provide the students the opportunity to learn
basic step aerobics routines and training techniques used to achieve
optimal fitness. The student will benefit from comprehensive weight
training and cardiovascular endurance activities. Proper warm up and
cool down, intensity monitoring, and fitness testing and evaluation for
aerobic exercise will be included. The student will explore the health
benefits of aerobic fitness to facilitate personal health and wellness.
Prerequisite: None.
--AA/AS General Education: AA/AS E
--Transfers to both UC/CSU

PE-113  1 unit
Jogging  LAB 48-54
(formerly Introduction to Jogging)
This course is designed to teach students the correct way to jog and experience the fitness activity of jogging. Included in this course is
information on equipment, proper techniques and mechanics of jogging, training and conditioning principles, injury prevention
and how to develop and implement a personal jogging program. Prerequisite: None.
--AA/AS General Education: AA/AS E
--Transfers to both UC/CSU

PE-114A  1 unit
Strength Training: Circuit  LAB 48-54
Circuit weight training is a combination of high-intensity aerobics and
resistance training designed to target fat loss, increase muscular strength
and endurance, improve cardiovascular endurance and flexibility.
Training techniques involve moving from one exercise to another,
identifying and working different muscle groups while incorporating
ramp stations and stretch stations with an understanding of the target
heart rate training zone. Proper safety precautions will be introduced
and implemented throughout this course. Prerequisite: None.
--AA/AS General Education: AA/AS E
--Transfers to both UC/CSU

PE-114B  1 unit
Strength Training: Free Weights  LAB 48-54
An introduction and review of equipment, safety techniques, correct
exercise technique and the basic anatomy used for specific exercises.
Proper diet and nutritional principles applicable to strength training
will be introduced and applied to the individual needs of each student.
This class will provide the opportunity to further develop strength,
flexibility and cardiovascular fitness by developing an individualized
program that will incorporate daily record keeping, evaluation and
measurement to ensure success in meeting personalized objectives. Prerequisite: None.
--AA/AS General Education: AA/AS E
--Transfers to both UC/CSU

PE-114C  1 unit
Powerlifting  LAB 48-54
An introduction and review of basic weight training principles, the
history of powerlifting, equipment, safety techniques, and the basic
anatomy used for specific exercises. Students will be instructed
in the proper protocols to successfully execute basic explosive and
powerlifting exercises. Nutritional factors related to strength and fitness
performance will be identified and applied to the individual needs of
each student. Daily record keeping, evaluation and measurement will
be implemented to ensure success in meeting personalized and course
objectives. Prerequisite: None.
--AA/AS General Education: AA/AS E
--Transfers to both UC/CSU

**PE-299 1-3 units**

**Special Projects: Physical Education**

(IS 16-54)

Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Physical Education classes; a contract must be completed with the instructor prior to enrollment.

--Transfers to CSU only

**Pre-Season Athletics: Football (Men)**

(Formerly PE-140)

This course is designed for pre-season soccer conditioning for intercollegiate athletes, including strength training, cardiovascular conditioning, drill techniques, and game play in preparation for Intercollegiate competition. Students who repeat this course will improve soccer skills and fitness through further instruction and practice. May be taken 4 times for credit. Prerequisite: Students planning and preparing to compete in Intercollegiate athletics must be healthy enough to pass a physician's examination and complete an interview with the instructor.

--Transfers to CSU only

**Off-Season Athletics: Soccer (Women)**

(Formerly PE-139)

This course is intended for off-season soccer conditioning, including; strength training, cardiovascular conditioning, drill techniques, and game play in preparation for intercollegiate soccer competition. Students who repeat this course will improve skills and fitness through further instruction and practice. May be taken 4 times for credit. Prerequisite: Students planning and preparing to compete in Intercollegiate athletics must be healthy enough to pass a physician's examination and complete an interview with the instructor.

PHY-201 4 units
Mechanics and Wave Motion  LEC 48-54/LAB 48-54
This course is a calculus based study of statics and dynamics of particles, solid bodies, along with fluid mechanics and wave motion. It is designed primarily for students who plan to major in physics, engineering, chemistry, mathematics or life sciences. It is also designed for pre-medical students. Prerequisite: MATH-211 (with a grade of C or better).
---AA/AS General Education: AA/AS A
---Transfers to both UC/CSU
---IGETC Area(s): 5A, 5C
---CSU Area(s): B1, B3
---C-ID PHYS 205

PHY-202 4 units
Electricity and Magnetism  LEC 48-54/LAB 48-54
This course is designed for engineering and physical sciences students. It covers topics in thermodynamics including temperature, heat, and the laws of thermodynamics; and the kinetic theory of gases. It also covers topics in electricity and magnetism including electric fields and potential; Gauss' law; capacitance; magnetic fields; Ampere's law; Faraday's law and induction; electromagnetic oscillations; dc and ac current; and circuits. Prerequisite: Acceptance in the Honors Enrichment Program; PHY-201 (with a grade of C or better). Corequisite: MATH-212 or higher.
---AA/AS General Education: AA/AS A
---Transfers to both UC/CSU
---IGETC Area(s): 5A, 5C
---CSU Area(s): B1, B3
---C-ID PHYS 210

PHY-202H 4 units
Honors Electricity and Magnetism  LEC 48-54/LAB 48-54
This course is designed for engineering and physical sciences students. It covers topics in thermodynamics including temperature, heat, and the laws of thermodynamics; and the kinetic theory of gases. It also covers topics in electricity and magnetism including electric fields and potential; Gauss' law; capacitance; magnetic fields; Ampere's law; Faraday's law and induction; electromagnetic oscillations; dc and ac current; and circuits. Prerequisite: Acceptance in the Honors Enrichment Program; PHY-201 (with a grade of C or better). Corequisite: MATH-212 or higher.
---AA/AS General Education: AA/AS A

---CSU Area(s): B1, B3
---C-ID PHYS 210

PHY-203 4 units
Optics and Modern Physics  LEC 48-54/LAB 48-54
This course is a calculus based study of optics, and modern physics. Subjects covered include Geometrical and Physical Optics, Special Relativity, Quantum Physics, Atomic Physics, Nuclear Physics and Particle Physics. Prerequisite: PHY-202 (with a grade of C or better).
---Transfers to both UC/CSU
---IGETC Area(s): 5A, 5C
---CSU Area(s): B1, B3

PHY-299 1-3 units
Special Projects: Physics  IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Physics classes; a contract must be completed with the instructor prior to enrollment.
---Transfers to CSU only

Political Science

PS-101 3 units
Introduction to American Government  LEC 48-54
and Politics
An introduction to the politics, principles, theories and practices of the governments of the United States and California. It meets the state requirement in American political institutions. This course, in combination with any U.S. History course, will meet all state requirements in American history. Prerequisite: None.
---AA/AS General Education: AA/AS B1 or AA/AS B2
---Transfers to both UC/CSU
---IGETC Area(s): 4H
---CSU Area(s): D8
---C-ID POLS 110

PS-101H 3 units
Honors Introduction to American Government and Politics
An introduction to the politics, principles, theories and practices of the governments of the United States and California. It meets the state requirement in American political institutions. This course, in combination with any U.S. History course, will meet all state requirements in American history. Prerequisite: Acceptance in the Honors Enrichment Program.
---AA/AS General Education: AA/AS B1 or AA/AS B2
---Transfers to both UC/CSU
---IGETC Area(s): 4H
---CSU Area(s): D8

PS-102 3 units
Comparative Politics and Government  LEC 48-54
A comparative analysis of the politics and governmental institutions of democratic and non-democratic based political systems. The course will include an analysis of the crises and stages of political development; a discussion of the relationship of geography, history, and economics to political development; an examination of the role of political socialization, political culture, and political ideology in political development; a discussion of intra-national conflicts; and the problems of developing-world nation building. Prerequisite: PS-101 (with a grade of C or better).
---AA/AS General Education: AA/AS B2 or AA/AS F
---Transfers to both UC/CSU
---IGETC Area(s): 4H
---CSU Area(s): D8
---C-ID POLS 130

PS-102H 3 units
Honors Comparative Politics and Government  LEC 48-54

Course Descriptions

PS-120H
Honors California Government
LEC 48-54
This course is an introduction to the principles, theories, and practices of California politics and government. Special emphasis will be given to the impact of state and local government on the individual in public and private life, as well as the impact citizens may have on state and local governments through political activism, political parties, interest groups, campaigns, and elections. Prerequisite: Acceptance in the Honors Enrichment Program and PS-101 (with a grade of C or better).
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 4H
--CSU Area(s): D8

PS-149
Occupational Internship: Political Science
OL 16-72
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational training at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.
--Transfers to CSU only

PS-299
Special Projects: Political Science
IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Political Science classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

Psychology

PSYC-101
Introduction to Psychology
LEC 48-54
This course is designed to introduce students to the themes of psychology - the scientific study of behavior and mental processes. Contemporary theories and research methods will be explored. Topics will include learning, memory, cognition, brain physiology, and psychopathology. Prerequisite: None.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 4I
--CSU Area(s): D9, E1
--C-ID PSY 110

PSYC-101H
Honors Introduction to Psychology
LEC 48-54
This course is designed to introduce students to the themes of psychology - the scientific study of behavior and mental processes. Contemporary theories and research methods will be explored. Topics will include learning, memory, cognition, brain physiology, and psychopathology. Prerequisite: Acceptance in the Honors Enrichment Program. Recommended Preparation: ENGL-098.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 4I
--CSU Area(s): D9
--C-ID PSY 110

PSYC-102
Personal Growth
LEC 48-54
This course introduces the major points of view in psychology as pathways toward personal growth. The course will explore psychological health and mental illness from different perspectives. Psychological principles that can be useful to the individual in achieving personal growth will be emphasized. Prerequisite: None.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 4I
--CSU Area(s): D9, E1

PSYC-103
Human Development
LEC 48-54
This course focuses on the human life span, examining the psychological, cognitive, physical, and social development of individuals from conception to the end of the life journey. Contemporary developmental theories and research will be emphasized. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 4I
--CSU Area(s): D9, E1
--C-ID PSY 180

PSYC-103H
Honors Human Development
LEC 48-54
This course focuses on the human life span, examining the psychological, cognitive, physical, and social development of individuals from conception to the end of the life journey. Contemporary developmental theories and research will be emphasized. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS B2
--Transfers to both UC/CSU
--IGETC Area(s): 4I
--CSU Area(s): D9, E1
--C-ID PSY 180

PSYC-104
Psychology of Gender
LEC 48-54
This course is designed to introduce students to traditional and contemporary psychological theories and research regarding gender impact on women's and men's thought processes, behaviors, and emotions. The course evaluates gender in different social and individual contexts. Some of the topics covered in this course are gender role development, stereotypes, sex differences in cognitive ability, aggression, mental health, and family roles. Prerequisite: None.
--AA/AS General Education: AA/AS B2 or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 4D, 4I
--CSU Area(s): D4, D9, E1

PSYC-104H
Honors Psychology of Gender
LEC 48-54
This course is designed to introduce students to traditional and contemporary psychological theories and research regarding gender impact on women's and men's thought processes, behaviors, and emotions. The course evaluates gender in different social and individual contexts. Some of the topics covered in this course are gender role development, stereotypes, sex differences in cognitive ability, aggression, mental health, and family roles. Prerequisite: Acceptance in the Honors Enrichment Program.
--AA/AS General Education: AA/AS B2 or AA/AS F
--Transfers to both UC/CSU
--IGETC Area(s): 4D, 4I
--CSU Area(s): D4, D9, E1
### Course Descriptions

**PSYC-105**  
**Social Psychology**  
LEC 48-54  
This course involves the analysis of relationships between the behavior of individuals and the structure, functions, and processes of society. Topics to be covered include: attitude formation and change, beliefs, attribution, social persuasion, social facilitation, group influences, prejudice, aggression, attraction, altruism, and conflict. Prerequisite: None.  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 4I, 4J  
--CSU Area(s): D9, D0

**PSYC-105H**  
**Honors Social Psychology**  
LEC 48-54  
This course involves the analysis of relationships between the behavior of individuals and the structure, functions, and processes of society. Topics to be covered include: attitude formation and change, beliefs, attribution, social persuasion, social facilitation, group influences, prejudice, aggression, attraction, altruism, and conflict. Prerequisite: Acceptance in the Honors Enrichment Program.  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 4I, 4J  
--CSU Area(s): D9

**PSYC-107**  
**Psychobiology**  
LEC 48-54  
This course is an exploration of the biological basis of psychology and its effects of cognition, emotions, and experience. Study is made of sensation, perception, emotion, clinical symptoms of abnormal behavior, sleep, learning, and drug effects. Prerequisite: PSYC-101 (with a grade of C or better).  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 4I  
--CSU Area(s): D9

**PSYC-107H**  
**Honors Psychobiology**  
LEC 48-54  
This course is an exploration of the biological basis of psychology and its effects of cognition, emotions, and experience. Study is made of sensation, perception, emotion, clinical symptoms of abnormal behavior, sleep, learning, and drug effects. Prerequisite: Acceptance in the Honors Enrichment Program and PSYC-101 (with a grade of C or better).  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 4I  
--CSU Area(s): B2, D9

**PSYC-108**  
**Abnormal Psychology**  
LEC 48-54  
This course examines psychological disorders, including schizophrenia, anxiety disorders, mood disorders, and personality disorders. The course will focus on types of abnormal disorders, causes, and treatments. Prerequisite: None. Recommended Preparation: ENGL-101.  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 4I  
--CSU Area(s): D9

**PSYC-108H**  
**Honors Abnormal Psychology**  
LEC 48-54  
This course examines psychological disorders, including schizophrenia, anxiety disorders, mood disorders, and personality disorders. The course will focus on types of abnormal disorders, causes, and treatments. Prerequisite: Acceptance into the Honors Enrichment Program. Recommended Preparation: ENGL-101.  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 4I  
--CSU Area(s): D9

**PSYC-112**  
**Gender and Social Interaction**  
LEC 48-54  
This course explores the micro-social and structural aspects of gender both in the U.S. and around the world. Micro-social aspects include the construction of gender roles and interpersonal communications, interactions, and relationships. Structural aspects include analyses of the economic and political aspects of gender, the representation of gender in the media, differential access issues, and the effects on individuals’ opportunity.  
--AA/AS General Education: AA/AS B2 or AA/AS F  
--Transfers to both UC/CSU  
--IGETC Area(s): 4D  
--CSU Area(s): D4, D7, E1

**PSYC-124**  
**Social Research Methodology**  
LEC 48-54  
This course is an introduction to social and behavioral science research. It will provide students with an in depth analysis of both qualitative and quantitative social research methods. Students will have the opportunity to design, conduct and analyze an experimental research.  
--Transfers to CSU only

**PSYC-124H**  
**Honors Social Research Methodology**  
LEC 48-54  
This course is an introduction to social and behavioral science research. It will provide students with an in depth analysis of both qualitative and quantitative social research methods. Students will have the opportunity to design, conduct and analyze an experimental research.  
--Transfers to CSU only

**PSYC-299**  
**Special Projects: Psychology**  
IS 16-54  
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Psychology classes; a contract must be completed with the instructor prior to enrollment.

Please refer to the Occupational Internship Student Handbook for specific information.
--Transfers to CSU only

Real Estate

RE-140 3 units
Real Estate Principles LEC 48-54
This course covers the basic laws and principles of California real estate. It provides the basic background and terminology necessary to understand property ownership, contracts, agency, listings, real estate financing, deeds, liens, escrows and title insurance, land descriptions, real estate mathematics, real estate licensing and state regulations. Prerequisite: None.
--Transfers to CSU only

RE-141 3 units
Real Estate Practice LEC 48-54
This course provides an analysis of real estate business as conducted in California stressing the practical application of real estate knowledge. Ideal for future or licensed real estate professionals. Topics include establishing the real estate office, prospecting, advertising, selling, listings, financing, escrow procedures, taxes, business opportunities, property management, and ethics. Prerequisite/Corequisite: RE-140 (with a grade of C or better) or Real Estate License.
--Transfers to CSU only

RE-142 3 units
Legal Aspects of Real Estate LEC 48-54
This course provides a broad survey of the legal system in the United States with special emphasis on California Real Estate Law. It provides insight into those areas which are most important in avoiding legal difficulties which can arise in connection with real estate transactions. Special emphasis is given to aspects of California Real Estate Law necessary to prepare students for the State Real Estate Licensing Exam. Prerequisite/Corequisite: RE-140 (with a grade of C or better) or Real Estate License.
--Transfers to CSU only

<th>Title</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>RE-143</td>
<td>3</td>
<td>Real Estate Finance</td>
<td>This course provides an analysis of real estate financing. Topics covered include financing instruments, sources of financing, loan origination and servicing, and the role of federal and state governments. Prerequisite: None. Recommended Preparation: RE-140 or Real Estate License.</td>
</tr>
<tr>
<td>RE-144</td>
<td>3.5</td>
<td>Basic Appraisal Principles and Procedures</td>
<td>This course meets the requirements of the 2008 Appraisal Qualifications Board of the Appraisal Foundation. Emphasis is on residential real estate and covers basic real estate appraisal principles and procedures. It meets the license requirements for all levels of appraisal licensure and is required for the trainee, residential, certified residential, and certified general licenses. This course qualifies with the California Department of Real Estate as a statutory/pre-license course for the salesperson and broker education requirements. Prerequisite: None.</td>
</tr>
<tr>
<td>RE-145</td>
<td>3</td>
<td>Real Estate Economics</td>
<td>This course is a practical study of the economic aspects of real estate and land use designed to provide a grasp of the dynamic factors which create real estate values and establish trends in real estate markets. Successful completion of this course qualifies the student to take the California real estate broker's examination and qualifies for the third course requirement to apply for the California real estate salesperson's examination. Prerequisite: RE-140 or RE-141 (with a grade of C or better) or Real Estate License.</td>
</tr>
<tr>
<td>RE-146</td>
<td>3</td>
<td>Mortgage Loan Brokering and Lending (formerly Real Estate Mortgage Broker)</td>
<td>This course will provide students with a broad technical knowledge of the state and federal laws which govern the practice of mortgage loan brokering and lending in the state of California. Students will learn lending laws, regulations, disclosures, and the lending process. Prerequisite: None.</td>
</tr>
<tr>
<td>RE-149</td>
<td>1-4</td>
<td>Occupational Internship: Real Estate</td>

</table>
**Sociology**

**SOCI-095**  
Survey of Human Services  
LEC 16-18

This survey course provides an overview of the field of Human Services and an outline of the Human Services Certificate program including program expectations, prospects for employment, California state legal requirements and restrictions, examination of service populations and their challenges as they relate to the field of Human Services. Offered as pass/no pass only. Prerequisite: None.

--Not transferable

**SOCI-101**  
Principles of Sociology  
LEC 48-54

This course is the scientific study of human society and behavior in social settings. It surveys the basic characteristics and dynamics of society and culture from the sociological perspective. Topics for this course include culture, socialization and personality development, social interaction, deviance, group dynamics, social structure, social institutions, inequality, social change and collective behavior. Prerequisite: None.

--CSU Area(s): D9, D0

**SOCI-101H**  
Honors Principles of Sociology  
LEC 48-54

This course is the scientific study of human society and behavior in social settings. It surveys the basic characteristics and dynamics of society and culture from the sociological perspective. Topics for this course include culture, socialization and personality development, social interaction, deviance, group dynamics, social structure, social institutions, inequality, social change and collective behavior. Prerequisite: Acceptance in the Honors Enrichment Program.

--CSU Area(s): D9, D0

**SOCI-102**  
Contemporary Social Problems  
LEC 48-54

In this course, students will be introduced to major sociological theories (i.e. structural-functionalism, conflict, and social-interactionist theories), concepts, and other sociological perspectives useful to the study of contemporary social problems. Special emphasis will be placed upon the identification, description, and evaluation of emerging social and chronic social problems. Prerequisite: None.

--CSU Area(s): D0, E1

**SOCI-103**  
Marriage and the Family  
LEC 48-54

This course is an analysis and exploration of the contemporary American family and intimate relationships with comparisons of family structures in the US and abroad. This course will examine the research data, practices used and methods of developing intimate relationships in the social atmosphere. Prerequisite: None.

--CSU Area(s): D0, E1

**SOCI-104**  
Human Sexuality  
LEC 48-54

This course helps students better understand human sexuality in relation to oneself and society in general. To achieve this, a multi-disciplinary approach will be taken with perspectives in sociology, medical/biology, psychology, and anthropology, giving students an opportunity to learn basic academic requirements as well as making decisions concerning their personal sexual lives. Prerequisite: None.

--CSU Area(s): D0, E1

**SOCI-105**  
Social Psychology  
LEC 48-54

Social psychology involves the analysis of relationships between the behavior of individuals and the structure, functions, and processes of society. Topics to be covered in this course include: attitude formation and change, beliefs, attribution, social persuasion, social facilitation, group influences, prejudice, aggression, attraction, altruism, and conflict. *Cross-listed as PSYC-105. Prerequisite: None.

--CSU Area(s): D0, E1

**SOCI-105H**  
Honors Social Psychology  
LEC 48-54

Social psychology involves the analysis of relationships between the behavior of individuals and the structure, functions, and processes of society. Topics to be covered in this course include: attitude formation and change, beliefs, attribution, social persuasion, social facilitation, group influences, prejudice, aggression, attraction, altruism, and conflict. *Cross-listed as PSYC-105H. Prerequisite: Acceptance in the Honors Enrichment Program.

**SOCI-106**  
Intercultural Relations  
LEC 48-54

The study, functions, and consequences of culture in inter - and - intra - group relations among various racial/ethnic, sex/gender, social class, religious, ability, and nationality groups in the United States and selected other countries around the world. Prerequisite: None.

--CSU Area(s): D0, E1

**SOCI-108**  
Media and Society  
LEC 48-54

This course explores the sociological evolution of contemporary television, film, and publishing industries, as well as the virtual communities of the Internet and the World Wide Web. Exploring the effects and consequences of media in society, and a particular emphasis will be placed on the representations of various cultures and subcultures in the U.S. and abroad. Prerequisite: None.

--CSU Area(s): D0, E1
### Course Descriptions

#### SOCI-112  
**Gender and Social Interaction**  
**LEC 48-54**  
This course explores the micro-social and structural aspects of gender both in the U.S. and around the world. Micro-social aspects include the construction of gender roles and interpersonal communications, interactions, and relationships. Structural aspects include analyses of the economic and political aspects of gender, the representation of gender in the media, differential access issues, and the effects on individuals' opportunity. *Cross-listed as PSYC-112. Prerequisite: None.*  
--AA/AS General Education: AA/AS B2 or AA/AS F  
--Transfers to both UC/CSU  
--IGETC Area(s): 4D  
--CSU Area(s): D4, D7, E1

#### SOCI-115  
**Contemporary Chicano in Society**  
**LEC 48-54**  
This course explores the micro-sociological and institutional aspects of contemporary Chicanos/as in the U.S., particularly in California from the 1930s to present. Topics include an exploration of identity formation, gender roles, and interactions within the Chicano/a community. Structural aspects include an analysis of differential access to politics, education, healthcare and the economy, the representation of Chicanos/as in the media, and the effects on Chicanos/as life chances. Prerequisite: None.  
--AA/AS General Education: AA/AS B2 or AA/AS F  
--Transfers to both UC/CSU  
--IGETC Area(s): 4J  
--CSU Area(s): D0, D3

#### SOCI-124  
**Social Research Methodology**  
**formerly Foundations of Social Research Methodology**  
**LEC 48-54**  
This course is an introduction to social and behavioral science research. It will provide students with an in depth analysis of both qualitative and quantitative social research methods. Students will have the opportunity to design, conduct and analyze an experimental research. *Cross-listed as PSYC-124. Prerequisite: PSYC-101 or SOCI-101 (with a grade of C or better). Recommended Preparation: ENGL-101 and MATH-140.*  
--Transfers to CSU only

#### SOCI-124H  
**Honors Social Research Methodology**  
**LEC 48-54**  
This course is an introduction to social and behavioral science research. It will provide students with an in depth analysis of both qualitative and quantitative social research methods. Students will have the opportunity to design, conduct and analyze an experimental research. *Cross-listed as PSYC-124H. Prerequisite: PSYC-101 or SOCI-101 (with a grade of C or better) and Acceptance in the Honors Enrichment Program. Recommended Preparation: ENGL-101 and MATH-140.*  
--Transfers to CSU only

#### SOCI-125  
**Crime and Society**  
**LEC 48-54**  
This course examines crime in American society with an emphasis on diversity, including an analysis of how race/ethnicity, sex/gender, social class, and sexual orientation affect the interpretation of criminal laws, sentencing, and prevention. Prerequisite: None.  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 4J  
--CSU Area(s): D0

#### SOCI-130  
**Sociology of Aging**  
**LEC 48-54**  
This course explores the micro-social and structural aspects of gender both in the U.S. and around the world. Micro-social aspects include the construction of gender roles and interpersonal communications, interactions, and relationships. Structural aspects include analyses of the economic and political aspects of gender, the representation of gender in the media, differential access issues, and the effects on individuals' opportunity. *Cross-listed as PSYC-112. Prerequisite: None.*  
--AA/AS General Education: AA/AS B2  
--Transfers to both UC/CSU  
--IGETC Area(s): 4J  
--CSU Area(s): D0

#### SOCI-140  
**Introduction to Applied Human Services**  
**LEC 48-54**  
This course provides an overview and foundation in case management and advocacy in applied Human Services professions. Essential case management and advocacy skills are studied including: screening, intake, resource identification, comprehensive needs assessment, and service coordination. The legal and ethical elements of case management are studied including: documentation, legal rights and responsibility, and confidentiality. Advocacy is studied both on an individual client centered advocacy and on a system and community advocacy level. Prerequisite: None. Corequisite: SOCI-095.  
--Transfers to CSU only

#### SOCI-141  
**Case Services and Advocacy in Human Services**  
**LEC 48-54**  
This course provides an overview and foundation in case management and advocacy in applied Human Services professions. Essential case management and advocacy skills are studied including: screening, intake, resource identification, comprehensive needs assessment, and service coordination. The legal and ethical elements of case management are studied including: documentation, legal rights and responsibility, and confidentiality. Advocacy is studied both on an individual client centered advocacy and on a system and community advocacy level. Prerequisite: None. Corequisite: SOCI-095.  
--Transfers to CSU only

#### SOCI-150  
**Introductory Field Work in Human Services**  
**LEC 48-54**  
This course provides an overview of employment and workforce development from an applied human services perspective. It provides an overview of major theories on socio-cultural evolution of work, problems in the workplace, the changing world of work and how it impacts the individual. This course includes topics related to the historical perspectives of career development theory, and the role of para-professionals. Focus is on assisting special populations. Prerequisite: None. Corequisite: SOCI-095.  
--AA/AS General Education: AA/AS B2  
--Transfers to CSU only

#### SOCI-299  
**Special Projects: Sociology**  
**IS 16-54**  
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Sociology classes; a contract must be completed with the instructor prior to enrollment.  
--Transfers to CSU only
Teaching Assistant

TA-100 2 units
Introduction to Tutoring Across Disciplines LEC 48-54
This course is an introduction to the basic principles of tutorial theory and practice. It covers tutorial ethics and philosophy, the steps of the tutorial cycle, the basics of tutorial communication, the development of effective study behaviors, and strategies for tutoring students with differing learning styles and special needs. The course is designed to prepare students to work as professional tutors with students at all educational levels and across disciplines both individually and in groups. Prerequisite: Interview with Learning Center faculty. Other Enrollment Criteria: Students need to have completed or be simultaneously enrolled in MATH-096 and/or ENGL-101 or receive equivalent testing scores if they wish to be eligible for an interview.
--Transfers to CSU only

TA-149 1-4 units
Occupational Internship: Teaching Assistant OI 16-72
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and have completed one course in the discipline. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information.
--Transfers to CSU only

TA-299 1-3 units
Special Projects: Teaching Assistant IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Teaching Assistant classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CSU only

Theater Arts

THA-101 3 units
Introduction to Theater LEC 48-54
This course emphasizes the value and importance of theater as a fine art and a metaphor for society and life. Emphasis is placed on the role of theater as a source and reflection of ideas, cultural values, and human understanding. Contributions of the playwright, director, actor, designer, technician, and audience are explored. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

THA-101H 3 units
Honors Introduction to Theater LEC 48-54
This course emphasizes the value and importance of theater as a fine art and a metaphor for society and life. Emphasis is placed on the role of theater as a source and reflection of ideas, cultural values, and human understanding. Contributions of the playwright, director, actor, designer, technician, and audience are explored. Prerequisite: Acceptance in the Honors Enrollment Program.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3A
--CSU Area(s): C1

THA-102 3 units
Theater History LEC 48-54
This survey course approaches world theater history from Ancient Greece through contemporary theater in the early 21st century. Comparative historical studies of Asian, Byzantine, European, African, Latin American and American theater are included. The complexity of theater as an art form, from its function in a given era and culture to its many component parts including acting, audiences, theatrical spaces, texts, playwriting, production design, machinery, special effects, music, dance, directing, management, and criticism are examined. *Cross-listed as HIST-154. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B
--CSU Area(s): C2

THA-105 3 units
Voice and Diction LEC 48-54
(formerly Voice for the Actor)
This course covers voice and speech production for students of theater arts and communications and anyone who wishes to learn to use the voice effectively in a variety of performance situations. Special focus is placed on breath support, vocal relaxation, habitual use, optimum pitch, diction, phonetics and regional dialects. Students will work on developing skills in effective oral communication performance as well as character voice work. *Cross-listed as COMM-105. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU

THA-108 3 units
Improvisation for Dance and Theater LEC 48-54
This course explores unscripted theater using techniques found in viewpoints, action theater, mask work, contact improvisation, theater games, and dance. Students will develop as whole performers through learning intuitive response techniques in all performance situations. *Cross-listed as DAN-108. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): E1

THA-109 3 units
Movement for Actors LEC 48-54
This course focuses on the development of an articulate body with dynamic and expressive range. Students explore and identify their individual movement habits and preferences to develop the organic characterization and authentic intention required in acting, using a variety of methods and techniques. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C1

THA-110 3 units
Fundamentals of Acting LEC 48-54
Through lectures, class discussion, improvisation, and practical exercises, the student will learn about the actor’s craft. Students will create characters in the rehearsal and performance of monologues and scnenowork. Warm-up techniques, audition practices, theater etiquette, safety, and the acting profession are emphasized. Students will develop critical analyses of live and video taped performance, in relation to the art and craft of acting. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C1
--C-ID THTR 151
Course Descriptions

THA-111  Intermediate Acting  LEC 48-54
This course offers a continuing study of acting technique for the serious theater student preparing for advanced work at the university or professional levels. Emphasis is placed on developing multi-dimensional characters, objectives, playable actions, believability and the working rehearsal process in both scene and solo study. Particular attention is paid to audition preparation, resume and portfolio development. Prerequisite: THA-110 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C1
--C-ID THTR 152

THA-112  Acting for Film and Television  LEC 48-54
This is a course in the fundamentals of acting in front of the camera for film and television. Students learn elements of concentration and character creation (in out-of-context shooting), to work with a studio production team, script/rehearsal procedures, and scene preparation for film. Various studies in television acting may include TV dramas, sitcoms, soap operas, news and commercials. Prerequisite: THA-110 (with a grade of C or better).
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C1

THA-113  Oral Interpretation of Literature  LEC 48-54
This course analyzes the art of communicating works of literary merit to an audience; it is an introduction to performance studies. Appropriate literary selection and the use of vocal skills, along with facial and body expression will be developed in order to present works of literature to a theatrical audience. Individual and group performances of poetry, prose, and drama are included. *Cross-listed as COMM-113. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C1
--C-ID COMM 170

THA-117  Stagecraft  LEC 32-36/LAB 48-54
This is a course in the fundamentals of scenic design and its construction. Students will be taught the safe operation of hand and power tools, as well as choosing the correct construction materials for completing a scenic design. Students will be given instruction in the separate parts and working elements of a typical theatre. Students may have the opportunity to construct, paint sets and set up lighting and sound equipment for MSJC Performing Arts productions. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--CSU Area(s): C1

THA-118  Stage Management  LEC 48-54
(formerly Theater Production)
This course presents the basic skills of stage management, which involves organizing and producing dramatic and musical plays. Through the study of stage managing, backstage operations, technical crews and equipment, budget, and house managing, the students identify the techniques necessary to stage manage and run a theatre with the greatest effectiveness. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU

THA-120  Lighting  LEC 32-36/LAB 48-54
Students will learn the basic concepts of stage lighting. Study includes the operation of lighting equipment and control systems, theory of lighting design, color media, rigging and planning, light plots, and technical rehearsal and performance procedures. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--C-ID THTR 173

THA-121  Costume Construction  LEC 32-36/LAB 48-54
(formerly Costume)
This course will introduce the students to all aspects of costume construction including sewing, fabric modification, garment alteration and the relationship between fibers and fabrics. Study of historical costume silhouette, costume organization, wardrobe maintenance, and theatrical production provide the student with a broad base of knowledge of costuming. Prerequisite: None.
--Transfers to both UC/CSU

THA-122  Stage Makeup  LEC 16-18/LAB 96-108
This is an introduction to the basic techniques and materials of stage makeup. Demonstration of techniques will culminate in hands-on assignments. Students will learn application, medium choices, color mixing, realistic and corrective functions, basic prosthetics and the history and aesthetics of makeup design for a specific play. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--C-ID THTR 175

THA-123  Introduction to Scene Design  LEC 32-36/LAB 48-54
(formerly Models and Rendering)
This course introduces the students to the basic techniques and materials used in perspective watercolor renderings and scale models for scenic representation of designs for theatrical productions. Students will create water-color renderings and three dimensional models through interpretation of ground plans, elevations, and construction plots. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU

THA-124  Scenic Painting  LEC 32-36/LAB 48-54
This course is an introduction to the basic techniques and materials used in the painting of scenery for the stage. Demonstration of techniques will culminate in hands-on assignments that make extensive use of these materials to achieve a scenic effect. Students will learn color mixing, base, lay-out, lay-in, detail and the use of standard brushes and tools. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU

Course Descriptions

THA-201 3 units
Rehearsal and Performance LAB 144-162
This course is a laboratory designed to give the student a variety of experiences in acting and production. The student will work on presenting plays through rehearsal techniques that build skills in all areas of theater, including involvement in production, acting, and artistic teams. This course culminates in public performance. Prerequisite: By audition and/or interview.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU

THA-205 3 units
Summer Repertory Theater LAB 144-162
This course gives the student opportunities to participate in all creative and technical phases of play and musical production in repertory during the summer. Students are given opportunities to act, stage manage, work crew and participate in all phases of creating plays and musicals for public performance. Prerequisite: Students must successfully audition or interview to be enrolled as cast or crew.
--Transfers to both UC/CSU

THA-209 1-3 units
Musical Production LAB 48-162
This course is designed for the presentation of a musical. Students will learn the preparation of a production including: rehearsal technique, acting, movement, music, dramatic text, and technical theater. *Cross-listed as DAN-209 and MUS-209. Prerequisite: By audition and/or interview.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU

THA-210 3 units
Fundamentals of Directing LEC 32-36/LAB 48-54
(formerly THA-119)
This is an introductory course in the theory, process, and development of directorial skills for the stage. Primary focus is placed on the director's work with textual analysis, research, interpretation, collaboration and communication. Students will research, cast, rehearse, and present a piece for public performance. Prerequisite: THA-101 and THA-110 (with a grade of C or better).
--Transfers to both UC/CSU
--CSU Area(s): C1

THA-299 1-3 units
Special Projects: Theater Arts IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Theater Arts classes; a contract must be completed with the instructor prior to enrollment.
--Transfers to CU only

Turf & Landscape Management

HORT-101 3 units
Horticulture Science LEC 48-54
This course introduces the horticulture industry. Topics include fundamental skills used in the horticulture industry, cultivation of plant varieties, methods, knowledge and techniques used in commercial and residential landscaping; golf course management; plant nurseries; and maintenance for urban gardeners. Prerequisite: None.
--Transfers to CSU only

HORT-102 3 units
Introduction to Turfgrass Management LEC 48-54
This course presents basic methods and materials used in the maintenance of turf grass. Topics include major factors in turf grass management including turf grass establishment, weed identification and control, turf grass pests, fertilization, irrigation, mowing procedures and scheduling. Prerequisite: None.
--Transfers to CSU only

HORT-103 3 units
Advanced Turfgrass Management LEC 40-45/LAB 24-27
This course is designed to give the student in depth study in the specialization of large turf landscape sites such as golf courses and athletic field management. Topics include the most up to date methods used in the maintenance of turf grass for golf courses and sports fields and large turf areas. It examines construction, budgeting, staffing, and equipment. Prerequisite: HORT-102 (with a grade of C or better).
--Transfers to CSU only

HORT-104 3 units
Soil Science and Management LEC 32-36/LAB 48-54
This course is designed to present principles of soil and water conservation, land use, soil fertility and the physical and chemical relationships that govern soil reactions and interactions. Emphasis is given to management of various soil types; pH, salinity, texture, organic matter, and control. Lab will cover applied procedures, testing, and nutritional management of landscape and horticultural settings. Prerequisite: None. Recommended Preparation: HORT 101.
--Transfers to CSU only

HORT-105 3 units
Golf Course/Landscape Irrigation LEC 48-54
This course is an introduction to fundamental irrigation principles and practices for turfgrass and other horticultural areas. The student will learn to read and interpret an irrigation blue print, calculate evapotranspiration rate, perform a water audit, design an irrigation schedule, program an irrigation controller, troubleshoot and repair basic irrigation problems, and calculate precipitation rates. Prerequisite: None.
--Transfers to CSU only

HORT-106 3 units
Pesticide Law & Regulations - Turf & Landscape LEC 48-54
This course covers pesticide law and regulations. Course content includes pesticide, safety and enforcement regulations pertaining to the turf and landscape manager. Prepares students to take the Department of Pesticide Regulations Laws and Regulations exams, as well as categorize application areas exams. Prerequisite: None.
--Transfers to CSU only

HORT-107 3 units
Arboriculture LEC 32-36/LAB 48-54
This course includes care and management of ornamental trees, pruning techniques, fruit tree care, bracing, cabling, and pest control. Also included are safe practices in the use of equipment, including the use of ropes, chippers, boom trucks, chain saws, and identification and evaluation of common trees. This course prepares students for the tree worker and arborist certification exams. Prerequisite: None.

<tr>
<th>Course Code</th>
<th>Units</th>
<th>Course Title</th>
<th>Description</th>
</tr>
</thead>
</table>
| WATR-103 | 3 | Water Treatment Plant Operations I & II | LEC 48-54  
This course will cover sources of water, the water treatment process, water treatment plant operations, safety, water quality regulations, and waterworks mathematics. The course will prepare students for Water Treatment Plant Operator I or II (T-1 or T-2) licenses for the State of California. Prerequisite: None. Recommended Preparation: WATR-102. --Transfers to CSU only |
| WATR-105 | 3 | Water Treatment Plant Operations III, IV & V | LEC 48-54  
The course covers sources of water, the water treatment process, water treatment plant operations, safety, water quality regulations and waterworks math. This course is designed for individuals seeking employment or already employed in the water industry. It covers the Water Treatment Plant Operator's job-related knowledge identified by the California Department of Public Health examination developers as essential for minimally competent Water Treatment Plant Operator III, IV or V (T-3,T-4, or T-5). Prerequisite: WATR-103 (with a grade of C or better) or State of California T-2 Certificate in Water Treatment. Recommended Preparation: WATR-090. --Transfers to CSU only |
| WATR-107 | 3 | Water Distribution I & II | LEC 48-54  
The course covers the sources of water, principles of design, installation, operation and maintenance of pipes, pumps, valves, meters, and other related hydraulic units. Operation and maintenance safety considerations are emphasized. The course is designed to prepare the student to take the State of California Water Distribution Operator exam. Prerequisite: None. Recommended Preparation: WATR-090. --Transfers to CSU only |
| WATR-109 | 3 | Water Distribution III, IV & V | LEC 48-54  
This is a comprehensive course that teaches the students the advanced principles of the operation and maintenance of a water distribution system. The course covers the sources of water, principles of design, installation, operation and maintenance of pipes, pumps, valves, meters, and other related hydraulic units. Prerequisite: WATR-107 (with a grade of C or better) or a D-2 state certificate in water distribution. --Transfers to CSU only |
| WATR-120 | 3 | Wastewater Treatment Plant Operations I & II | LEC 48-54  
This course is an introduction to wastewater treatment. Students will explore the scope, limits, and methods of wastewater treatment processes through readings, discussions, analysis, and laboratory study. This course is designed for individuals seeking employment or already employed in the wastewater field. It covers the wastewater operator's job-related knowledge identified by the CSWRB examination developers as essential for a minimally competent Wastewater Treatment Plant Operator Grade III or above. Prerequisite: WATR-120 (with a grade of C or better) or CWSRB Certification. --Transfers to CSU only |
| WATR-125 | 3 | Laboratory Procedures for Water and Wastewater | LEC 48-54  
This course prepares students to safely perform laboratory tests and analyze and interpret test data relating to water/wastewater treatment plants. Topics include: Basic chemistry and related mathematical analyses involved in the operation of water/wastewater treatment plants; tests necessary to maintain process control of wastewater treatment plants and to monitor sewage and industrial wastes prior to disposal; and, proper methods for collecting and handling samples. Prerequisite: None. Recommended Preparation: MATH-090, WATR-090 or WATR-103, WATR-107, or WATR-120. --Transfers to CSU only |
| WATR-130 | 3 | Environmental Laws and Regulations | LEC 48-54  
This course provides an overview of federal, state, and local laws pertaining to environmental protection and pollution prevention relating to water quality, air quality, solid waste, and cross media contamination. Prerequisite: None. --Transfers to CSU only |
| WATR-140 | 3 | Wells, Pumps and Motors | LEC 48-54  
This course will provide students with a basic knowledge of domestic water wells, water booster pumps, pump theory, electric motor theory and design. Water well design regulations and abandonment will be discussed as well as maintenance procedures in the field and in the shop. The class will cover the various types of pumps used in the water industry and discuss the various uses and maintenance issues for each style of pump. Prerequisite: None. --Transfers to CSU only |
| WATR-149 | 1-4 | Occupational Internship: Water Technologies | OI 16-72  
The purpose of this course is to enable eligible students to include supervised on-the-job training as an integral part of the total college educational program. This is accomplished through a planned program of learning experiences which combines academic and vocational learning at school with new learning experiences on the job in an occupational setting. Prerequisite: Each student must be enrolled for the full semester and complete 7 units (including the occupational internship) or be enrolled in the Alternative Plan. A training agreement must be completed prior to registration. Please refer to the Occupational Internship Student Handbook for specific information. --Transfers to CSU only |
| WATR-299 | 1-3 | Special Projects: Water Technology | IS 16-54  
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Water Technology classes; a contract must be completed with the instructor prior to enrollment. --Transfers to CSU only |

### CHIN-101  5 units  
Elementary Chinese I  
LEC 80-90

This beginning course concentrates on developing basic skills in listening, pronunciation, oral practice, and basic grammar of Mandarin Chinese at the beginning level. This course includes discussions of Chinese culture and daily life. Prerequisite: None.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--IGETC Area(s): 6A  
--CSU Area(s): C2

### CHIN-201  4 units  
Intermediate Chinese I  
LEC 64-72

This course is a continuation of skills learned in Chinese 101. Students will become more proficient in the use of Mandarin Chinese through reading, writing, listening and speaking. Chinese 201 concentrates on more advance grammar and further knowledge of Chinese culture and daily life. Prerequisite: CHIN-101 (with a grade of C or better) or two years of high school Chinese.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--IGETC Area(s): 3B  
--CSU Area(s): C2

### CHIN-202  4 units  
Intermediate Chinese II  
LEC 64-72

This course is a continuation of skills learned in Chinese 201. Students will become more proficient in the use of Mandarin Chinese through reading, writing, listening and speaking. Chinese 202 concentrates on advanced grammar, dialectal variations and further knowledge of Chinese culture and daily life. Prerequisite: CHIN-201 (with a grade of C or better) or AP exam with a passing score.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--IGETC Area(s): 3B  
--CSU Area(s): C2

### CHIN-201  5 units  
Elementary Chinese I  
LEC 80-90

This course introduces students to French language and culture. Students will learn basic grammar and vocabulary while studying pronunciation rules through oral and written practice. Students will also study basic aspects of French culture and civilization. Prerequisite: None.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--IGETC Area(s): 6A  
--CSU Area(s): C2

### CHIN-202  4 units  
Intermediate Chinese II  
LEC 64-72

This course is a continuation of CHIN-201. This course introduces more advanced grammar and vocabulary with more emphasis on oral and written communication. Students will also study francophone culture and civilization in more depth. Prerequisite: CHIN-201 (with a grade of C or better) or two years of high school French.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--IGETC Area(s): 3B, 6A  
--CSU Area(s): C2

### FREN-201  4 units  
Intermediate French I  
LEC 64-72

This course is a continuation of FREN 102. This course introduces more advanced grammar and vocabulary with emphasis on oral and written communication in response to level-appropriate readings in francophone culture and civilization. Formal compositional strategies are introduced. Prerequisite: FREN-102 (with a grade of C or better) or three years high school French.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--IGETC Area(s): 3B, 6A  
--CSU Area(s): C2

### FREN-202  4 units  
Intermediate French II  
LEC 64-72

A continuation of FREN 201, this course emphasizes advanced grammar and vocabulary, with major emphasis on effective oral communication at a high-intermediate level. Formal composition in response to more advanced readings in francophone culture and civilization is stressed. Prerequisite: FREN-201 (with a grade of C or better) or four years of high school French.  
--AA/AS General Education: AA/AS C  
--Transfers to both UC/CSU  
--IGETC Area(s): 3B, 6A  
--CSU Area(s): C2

### FREN-299  1-3 units  
Special Projects: French  
IS 16-54

Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous French classes; a contract must be completed with the instructor prior to enrollment.

--CSU Area(s): C2

SPAN-103 5 units
Elementary Spanish for Spanish Speakers LEC 80-90
This course is designed for the Spanish speaker with little or no experience with Spanish grammar and composition. Emphasis is on basic grammar, written accent, orthography, composition, and reading comprehension. Prerequisite: None.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 6A
--CSU Area(s): C2

SPAN-104 5 units
Elementary Spanish for Spanish Speakers II LEC 80-90
A continuation of Spanish 103, this course is designed for Spanish speakers. It introduces more advanced grammar and vocabulary, and it provides the opportunity for further development of reading comprehension and oral communication, with more emphasis in writing proficiency and diction. Compositional strategies are presented throughout the course, as well as level-appropriate readings in Spanish culture and civilization. Prerequisite: SPAN-103 (with a grade of C or better) or two years of high school Spanish.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU

SPAN-201 4 units
Intermediate Spanish I LEC 64-72
A continuation of Spanish 102, this course introduces more advanced grammar and vocabulary with added emphasis on reading and writing. Prerequisite: SPAN-102 (with a grade of C or better) or three years of high school Spanish.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B, 6A
--CSU Area(s): C2

SPAN-201H 4 units
Honors Intermediate Spanish I LEC 64-72
A continuation of Spanish 102, this course introduces more advanced grammar and vocabulary with added emphasis on reading and writing. Prerequisite: Acceptance into the Honors Enrichment Program; SPAN-102 (with a grade of C or better) or three years of high school Spanish.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B, 6A
--CSU Area(s): C2

SPAN-202 4 units
Intermediate Spanish II LEC 64-72
This course is a continuation of skills learned in Spanish 201. This course emphasizes the usage of advanced grammar and vocabulary with major emphasis on reading and writing. Prerequisite: SPAN-201 (with a grade of C or better) or four years of high school Spanish.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B, 6A
--CSU Area(s): C2

SPAN-202H 4 units
Honors Intermediate Spanish II LEC 64-72
This course is a continuation of skills learned in Spanish 201. This course emphasizes the usage of advanced grammar and vocabulary with major emphasis on reading and writing. Prerequisite: Acceptance into the Honors Enrichment Program; SPAN-201 (with a grade of C or better) or four years of high school Spanish.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
--IGETC Area(s): 3B, 6A
--CSU Area(s): C2

SPAN-210 3 units
Spanish Grammar I LEC 48-54
This course is designed for students wishing to further develop their knowledge of Spanish grammar through a linguistic perspective. It focuses on the rules of Spanish grammar and explains syntax and its components, especially those that are traditionally difficult for students of Spanish. This course is strongly recommended for students pursuing a major or minor in Spanish. Prerequisite: SPAN-202 (with a grade of C or better) or Native Speaker currently enrolled in SPAN-202.
--AA/AS General Education: AA/AS C
--Transfers to both UC/CSU
**SPAN-211**
**Spanish Grammar II**
LEC 48-54
This course is a continuation of Spanish 210 and is designed for students wishing to further develop their knowledge of Spanish grammar through a linguistic perspective. It focuses on the rules of Spanish grammar and explains syntax and its components, especially those that are traditionally difficult for students of Spanish. This course is strongly recommended for students pursuing a major or minor in Spanish. Prerequisite: SPAN-210 (with a grade of C or better).

- AA/AS General Education: AA/AS C
- Transfers to both UC/CSU

**SPAN-230**
**Spanish Composition I**
LEC 48-54
This course is designed for students wishing to further develop written communication as well as oral comprehension and fluency at a mid-intermediate level in Spanish through culturally relevant materials. This course is for students who want to enhance their Spanish skills and for students planning to transfer to a four-year institution. Prerequisite: SPAN-104 or SPAN-201 (with a grade of C or better).

- AA/AS General Education: AA/AS C
- Transfers to both UC/CSU
- CSU Area(s): C2

**SPAN-231**
**Spanish Composition II**
LEC 48-54
This course is the continuation of SPAN-230, it is designed for students wishing to further develop written communication as well as oral comprehension and fluency at a mid-intermediate level in Spanish through culturally relevant materials. This course is for students who wish to enhance their Spanish skills and for students planning to transfer to a four-year institution. Prerequisite: SPAN-230 (with a grade of C or better).

- AA/AS General Education: AA/AS C
- Transfers to both UC/CSU
- CSU Area(s): C2

**SPAN-240**
**Spanish through Film**
LEC 48-54
This course is designed to expand the study of written and spoken Spanish through discussion and written analysis of selected Spanish films. Prerequisite: SPAN-201 (with a grade of C or better).

- AA/AS General Education: AA/AS C
- Transfers to both UC/CSU
- IGETC Area(s): 3B
- CSU Area(s): C2

**SPAN-251**
**Intermediate Spanish Conversation I**
LEC 48-54
This course is designed for those students who have taken Spanish 102 and want to further develop their communicative skills for everyday contact with Spanish speaking people. The course emphasizes pronunciation, oral practice, and reviews the fundamentals of grammar and vocabulary. The study of Hispanic culture and civilization will be covered throughout all readings and assignments. Prerequisite: SPAN-102 (with a grade of C or better).

- AA/AS General Education: AA/AS C
- Transfers to both UC/CSU
- IGETC Area(s): 3B
- CSU Area(s): C2

**SPAN-252**
**Intermediate Spanish Conversation II**
LEC 48-54
This course is a continuation of Spanish 251 and is designed for those students who have taken Spanish 201 and want to further develop their communicative skills for everyday contact with Spanish speaking people. The course emphasizes pronunciation, oral practice, and the study of Hispanic culture and civilization. The course will also review the fundamentals of grammar and introduce new vocabulary. Prerequisite: SPAN-201 (with a grade of C or better).

- AA/AS General Education: AA/AS C
- Transfers to both UC/CSU
- IGETC Area(s): 3B, 6A
- CSU Area(s): C2

**SPAN-299**
**Special Projects: Spanish**
IS 16-54
Students with previous course work in the program may do special projects that involve research and special study. The actual nature of the project must be determined in consultation with the supervising instructor. Prerequisite: Previous Spanish classes; a contract must be completed with the instructor prior to enrollment.

- Transfers to CSU only
Non-Credit - Other

**LL-001X**

*Supervised Tutoring*

This course provides tutoring and/or mediated instruction in multidisciplinary areas designed to meet individual student needs in designated disciplines. Educational experiences may include scheduled tutoring appointments, walk-in tutoring, study groups, group tutoring, computer-based learning, supplemental instruction, academic/study skills development and assessment, and other activities designed to give students academic support in a variety of learning center settings.
Continuing Education

Basic Skills

ESL-004X Non-Credit ESL Beginning 1
This course is designed for students who cannot read or write in English or their native language. Emphasis is on developing the students’ ability to recognize and form letters and to interpret and write words within the context of listening and comprehending messages in the new language. Language functions and structures are integrated in competency-based integrated-skills instruction.

ESL-005X Non-Credit ESL Beginning 2
This course is designed for students that have a minimum exposure to English. Emphasis is on developing the students’ ability to listen to and understand messages. Language functions and structures are integrated in competency-based integrated-skills instruction.

ESL-006X Non-Credit ESL Beginning 3
This course is designed with emphasis on developing the student's ability to listen and understand messages while encouraging increased language production. The emphasis of instruction is on increasing fluency and overall communication.

ESL-007X Non-Credit ESL Intermediate 1
This course is designed for the learner who has a basic knowledge of survival English. Emphasis is on developing fluency, both orally and in writing. Language functions and structures are incorporated with an integrated skills approach.

ESL-008X Non-Credit ESL Intermediate 2
This course is designed for limited English proficient students. Instruction leading to a mastery of capacities deemed necessary to function effectively in society. Emphasis is on developing oral and written fluency. Language functions and structures are integrated with vocational, academic, civic, and general interest topics.

ESL-009X Non-Credit ESL Advanced 1
This course is designed for limited English proficient students. Instruction leading to a mastery of capacities necessary to function effectively in society. Course emphasis is on developing oral and written fluency. Language functions and structures are integrated with vocational, academic, civic, and general interest topics.

ESL-011X Non-Credit ESL Multi-level 1
This course is designed for limited English proficient students that fall within the NC/ESL Beginning 1, NC/ESL Beginning 2, NC/ESL Beginning 3 levels.

ESL-012X Non-Credit ESL Multi-level 2
This course is designed for limited English proficient students that fall within the NC/ESL Intermediate 1, NC/ESL Intermediate 2, NC/ESL Advanced levels. Identified student needs, goals and interests. Students develop their listening, speaking, reading, and writing skills as they achieve life-skill and personal development competencies.

ABE-001X Adult Basic Education
This course consists of individualized and group instruction in basic reading, arithmetic fundamentals, and oral and written communication.

GED-001X General Educational Development (GED)
This course will prepare students to take the GED test, a battery of five comprehensive examinations. Students will be given a practice test to determine which subject areas they need to develop.

CTZN-001X Citizenship
This course is designed to prepare the foreign born applicant for United States citizenship.

ABE-004X Light Duty Service Technician
This course offers exposure to career options in the Automotive Technology industry. Topics include: Lube & Oil, Brakes & Tires and basic Tune-Ups. Students will learn shop safety and environmental precautions. Students will gain insight and an opportunity to set short term goals with this first step on the Automotive Technology career ladder. Students will enhance workplace skills, and prepare for future career choices.

CEP-001X Career Enhancement Skills
Participants clarify employment needs, establish short/long term career goals, develop action plans and job search skills necessary to achieve goals for career success. Career planning skills, goal setting, resume development, job search, interview techniques and employee success techniques are reinforced by work-based activities and group sessions which build work-success skills such as problem solving, teamwork, communication, and integrating life skills.

COMP-001X Computer Skills for Business
This course will provide students with an overview of the basic computer functions used in a business setting. Topics include using the internet to search for information, completing online forms, sending email, creating folders and saving documents. The course uses state of the art software and web based programs.
Continuing Education

Older Adult Program

ART-001X Watercolor
Intermediate and advanced. Course will include a review of painting and sketching techniques. In each class the students will learn new techniques of watercolor step by step. The instructor will critique and help each student with his/her work individually.

ART-002X Ceramics
An introduction to working with clay, emphasizing basic hand building, surface treatments, and finished glaze. The use of the potter’s wheel will also be introduced, with concentration on centering and basic thrown shapes.

ENGL-001X Creative Writing for the Older Adult
This is a beginning to intermediate creative writing class. The course will present the student with the opportunity to express ideas in prose and poetry form. Participants contribute their own knowledge, experience, understanding and support for one another in critique sessions.

MUS-001X Community Concert Band
A performing organization for advanced instrument students interested in playing big band jazz. By audition on a space available basis. The student will improve sight reading skills, increase knowledge of selected musical styles, improve concepts of phrasing. Concerts will be held. NOTE: Students will have the opportunity to participate with one of several performance groups.

MUS-002X Golden Eagle Orchestra
This course is designed for all men and women who like to sing in harmony and enjoy the fellowship of each other’s company. The students will sing in four-part harmony with soprano, alto, tenor and bass voices. No previous choral or voice training is required but is helpful if you can read music and understand four-voice work. Basic voice and instruction is given. NOTE: Students will have the opportunity to participate with one of several performance groups.

MUS-003X Hemet Harmonizers
Rehearsal and performance of choral literature for advanced students interested in singing a variety of choral styles. By audition on a space availability basis. NOTE: Students will have the opportunity to participate with one of several performance groups.

Chorale Groups

Mt. San Jacinto College Inland Chorale
An advanced choral group dedicated to the performance of quality music in a professional and entertaining manner

Hemet Harmonizers Barbershop Harmony
This group is devoted to singing barbershop harmony. The class includes vocal production and proper use of the voice in barbershop harmony.

Bands

Valley Winds Band
The Valley Winds is a community band open to any wind or percussion instrument. This is a relaxed and fun group.

Community Concert Band
Open to wind and percussion players, this band explores the best in concert band literature. Musicians are exposed to a variety of musical styles and develop good ensemble playing by focusing on intonation, balance, and rhythmic relationships

Mt. San Jacinto College Symphony
Rehearsal and performance of orchestral literature. The student will improve sight reading skills, increase knowledge of selected musical styles and improve concepts of phrasing.

Golden Eagle Jazz Ensemble
A performing organization for advanced instrument students interested in playing Big Band music.

Noncredit Older Adult Music courses (MUS-001X, MUS-002X and MUS-003X) include opportunities to participate in performances each semester.

Academic Titles at MSJC

Academic titles are determined by an Academic Rank Committee using the following standards:

The title Instructor is given to Full-Time non tenure-track employees.

The title Assistant Professor is awarded to tenure-track Full-Time Faculty in their first through fourth years of employment.

The title Associate Professor is awarded to tenured Full-Time Faculty who are in their fifth or later year of service.

The title Professor is given to tenured Full-Time Faculty who have demonstrated eminence and service meeting the standards set by the Academic Rank Committee.

2014-2015 Full-Time Faculty and Administrators

Aguilar, Shelley
Associate Professor, Biology
A.A., San Bernardino Valley College
B.A., University of California, Riverside
M.S., California State University, San Bernardino
Ph.D., University of LaVerne

Alonzo, Steve
Associate Professor, Physical Education
B.A., Azusa Pacific University
M.A., Brigham Young University

Alvia, Hyman
Counselor
A.A., Victor Valley College
A.S., Victor Valley College
B.A., California State University, San Bernardino
M.A., California State University, Dominguez Hills

Amezcua, Rosalva
Counselor
B.A., University of California, Riverside
M.S., University of Wisconsin, Madison

Angeles, Miranda
Assistant Professor, Counselor
B.A., California State University, San Marcos
M.A., University of San Diego

Anthony, Crystal
Instructional Activity Coordinator – STEM
A.A., Southwestern College
B.S., University of Washington
D.PT, Slippery Rock University

Atkinson, Yvonne
Associate Professor, English
B.A., California State University, San Bernardino
M.A., California State University, San Bernardino
Ph.D., University of California, Riverside

Avila, Bobby
Associate Professor, Mathematics
B.S., California Polytechnic State University, Pomona
M.S., California Polytechnic State University, Pomona

Bader, Jason
Associate Professor, Studio Art/Graphic Design
B.A., California State University, Long Beach
M.F.A., University of California, Los Angeles
M.A., University of California, Riverside

Barkley, Lawrence
Associate Professor, English
B.A., University of New Mexico
M.A., San Diego State University
M.A., California State University, San Bernardino

Barraza, Bertha
Associate Professor, Counseling and EOPS
A.A., Riverside Community College
B.A., University of California, Riverside
M.S.W., University of Southern California
D.M., University of Phoenix

Barraza, Larry
Assistant Professor, Business/Management
B.S., California Polytechnic University, Pomona
M.B.A., California State University, San Bernardino

Beckham, Michael
Associate Professor, Math
B.S., University of California, Riverside
M.S., University of California, Riverside

Bennett, William
Associate Professor, Networking
MCSE, MCT, CIW Certification
B.V.E., California State University, San Bernardino
M.A., California State University, San Bernardino
M.S., California State University, Fullerton

Bergin, William P.
Associate Professor, Computer Information Systems
B.S., San Diego State University
B.A., San Diego State University
M.A., San Diego State University
M.S., San Diego State University

Blake, Ted
Associate Professor, English Learning Center Coordinator
B.A., Principia College
M.A., University of Kansas

Bowman, Ronald S.
Associate Professor, Business/Accounting
B.S., Brigham Young University
M.B.A., Brigham Young University

Brooks, Raelene
Associate Professor, Nursing
A.A., Southwestern College
A.S., Maric College
B.S., University of Phoenix
M.S., University of Phoenix

Brown, Jeremy
Associate Professor, Music
B.M.E, Baylor University
M.M., University of Texas, Austin
D.M.A., University of Texas, Austin
Burleson, Jennifer
Associate Professor, Counselor
B.S., Ohio State University
M.S., California State University, Fullerton
Ed.D., Argosy University

Candelaria, David
Associate Professor, Accounting
B.A., California State University, Fullerton
M.S., California State University, Fullerton

Carmody, Barbara
Director, Child Development & Education Centers
A.A., Macomb Community College
B.A., Eastern Michigan University
M.A., California State University, San Marcos

Castro, Lissette
Associate Professor, Spanish
A.A., Palomar College
B.A., California State University, San Marcos
M.A., University of California, Davis

Charles, Katherine
Associate Professor, Physical Education
B.A., Biola University
M.A., Azusa Pacific University
M.S., Cal Poly Pomona

Correia-Jordan, Elizabeth
Associate Professor, Spanish
A.S., North Virginia College
B.A., University of California, Irvine
M.A., California State University, Irvine

Cranney, Karen
Associate Professor, Counselor
B.S., Rider College
M.A., University of Colorado
Ed.D., University of Southern California, Los Angeles

Cuatok, Alejandro
Associate Professor, Education/Mathematics
B.A., University of California, San Diego
M.S., National University

Cvetko, Marlene
Associate Professor, Learning Disabilities
B.S., Portland State University
M.S., Portland State University
Ed.D., Oregon State University

Dalaimo, Denise M.
Associate Professor, Sociology
B.A., University of Nevada, Las Vegas
M.A., University of Nevada, Las Vegas
Ph.D., University of Nevada, Las Vegas

Davis, James R.
Associate Professor, History
B.A., St. Mary’s College
Ph.D., Brandeis University

Decker, James
Associate Professor, Learning Disabilities
B.A., Southwestern College, Winfield
M.A., University of New Mexico
Ph.D., University of New Mexico

Doktorski, Eileen
Associate Professor, Art
B.F.A., Parsons School of Design
M.F.A., Yale School of Art

Donnell, Kathy
Director, Superintendent/President’s Office
A.A., Mt. San Jacinto Community College

Donovan III, Thomas W.
Associate Professor, Philosophy
B.A., Michigan State University
M.A., Michigan State University
Ph.D., University of California, Riverside

Duffie, Dwight
Associate Professor, Computer Information Systems
B.S., Loma Linda University
M.S., Claremont Graduate School

Durbin, Arthur
Associate Professor, Emergency Medical Technician Program Director
A.S., Mt. San Jacinto Community College
B.S., University of Redlands

Elam, Becky
Vice President of Business Services
B.A., California State University, Fullerton
M.A., University of Phoenix

Ellis, Wade
Interim Dean of Business Services
B.S., Ball University

Escamilla, Elias
Assistant Professor, Counselor
A.A., Southwestern Community College
B.A., University of California, Riverside
M.A., California State University, San Bernardino

Farrington, Susan
Associate Professor, Nursing
A.S., Riverside Community College
A.S.N., Riverside Community College
B.S.N., University of Phoenix
M.S.N., University of California, San Bernardino

Fears, Shartelle
Associate Professor, Counselor
A.A., Mt. San Jacinto Community College
A.S., Mt. San Jacinto Community College
B.A., Azusa Pacific University
M.A., Azusa Pacific University

Firtha, Farah
Chemistry Instructor
B.S., University of California, Riverside
M.S., University of California, Riverside

Fleming, Michael
Associate Professor, Communications
A.A., Chaffey College
B.A., California State University, San Bernardino
M.A., California State University, San Bernardino

Flores, Monica
Associate Professor, Library Science
B.A., Loma Linda University
M.L.S., San Jose State University
District Personnel

Flournoy, Yula, D.
Associate Professor, English
A.A., Weatherford College, Texas
B.A., University of North Texas
M.A., University of North Texas

Flynn, Laurie
Director of DSPS
B.A., California State University, Fullerton
M.A., California State University, San Bernardino

Ford, Pamela J.
Professor, Anthropology
B.A., Chapman University, Orange
M.A., University of Washington, Seattle
Ph.D., University of Washington, Seattle

Gibson, Laura
Nursing Instructor
B.S., Trenton State College
M.S., California State University, Long Beach
Ph.D., Texas Woman’s University

Gomez, Leticia
Nursing Instructor
B.S. California State University, Domincuez Hills

Associate Professor, Office Technologies
A.A., Mt. San Antonio College
B.S., Capella University

Heinsma, Dewey
Associate Professor, Economics
A.A., Lane Community College
B.S., Portland State University
M.S., Portland State University

Helms, Del
Associate Professor, Health Science
B.A., Colorado State University
M.A., Azusa Pacific University
Ed.D., Pepperdine University

Hendry, Paul
Associate Professor, English
B.A., Washington and Lee University
M.Ed., University of California, Los Angeles
M.A., University of California, Irvine

Hennessy, Caren
Associate Professor, Office Technologies
B.A., John Carroll University
M.B.A, Cleveland State University
Ed.D., Argosy University

Hert, Paul
Associate Professor, Mathematics
Instructional Program Review Coordinator
B.S., California State University, San Bernardino
M.A., University of California, Riverside

Hert, Theresa M.
Associate Professor, Mathematics
A.A., Riverside Community College
B.A., California State University, San Bernardino
M.A., California State University, San Bernardino

Hill, Robert
Director, Talent Search Grant Programs
B.S., University of La Verne
M.P.A., University of La Verne
Ed.D., University of Southern California

Hlebakos, Jason
Associate Professor, Environmental Sciences
B.A., University of California, Berkeley
Ph.D., University of California, Riverside

Hochstrat, Susan
Counselor
A.A., Mt. San Jacinto Community College
A.A., Mt. San Jacinto Community College
A.S., Mt. San Jacinto Community College
B.A., California State University, San Bernardino
M.A., Azusa Pacific University

Howell, Patricia
Associate Dean of Human Resources
B.S., University of Phoenix

James, Pamala M.
Associate Professor, Counseling
B.A., California State University, Long Beach
M.S., California State University, Long Beach

Johnson, J. Keith
Associate Professor, Physical Science
B.S., Western Kentucky University
M.S., Murray State University
Johnson, Joyce  
Dean of Instruction, Career Education & Categorical Programs,  
Menifee Valley Campus  
A.A., San Bernardino Valley College  
A.S., Victor Valley College  
B.S., University of Phoenix  
M.S., California State University, Dominguez Hills  

Kandus, Richard J.  
Associate Professor, Psychology  
B.A., University of California, Los Angeles  
M.A., Humboldt State University  

Kazi, Nizam U.  
Professor, Mathematics  
B.Sc., Chittagong University, Bangladesh  
M.Sc., Chittagong University, Bangladesh  
M.S., West Coast University, Los Angeles  
Ph.D., University of Southern California  

Koobatian, James  
Associate Professor, Philosophy  
A.A., Fresno City College  
B.A., California State University, Fresno  
M.S.L.S., University of Southern California  
M.A., California State University, Long Beach  

Kouanchao, Ketmani  
Director of EOPS & CARE  
B.A., University of Minnesota  
M.Ed., University of Minnesota  

Lambert, Tennille  
Associate Professor, Dance  
B.A., University of Alabama at Birmingham  
M.F.A., Florida State University  

Legarra, Richard  
Associate Professor, Administration of Justice  
B.S., California State University, Los Angeles  
M.A., California State University, Los Angeles  
M.P.A., University of Southern California

Levasseur, Janice  
Supplemental Instruction Coordinator  
B.S., Sonoma State University  
M.S., University of California, Riverside  

Loomis, Susan  
Associate Dean of Student Services  
B.S., Bellevue University  
M.Ed., American Intercontinental University  

Lopez, Maria  
Associate Professor, Psychology  
A.A., Chaffey College  
B.A., California State University, Fullerton  
M.S., California State University, Long Beach  

Luna-Sims, Leticia  
Student Success Activity Coordinator - STEM  
B.A., California State University, San Marcos  
M.A., University of San Diego  

Mardichian, Andreea  
Associate Professor, Mathematics  
B.S., California State University, Northridge  
M.S., California State University, Northridge  

Marriott, Karin  
Director of Public Information & Marketing  
A.A., Crafton Hills College  
B.A., University of Redlands  

Mason II, Roy  
Professor, Biology/Environmental Science  
B.A., University of Colorado  
M.S., Oregon State University  
Ph.D., Oregon State University  

Mazzotta, Casey  
Associate Professor, Physical Education  
A.A., Cerritos Community College  
B.S., Brigham Young University  
M.Ed., Azusa Pacific University  

Mendoza, Marisa  
Director of Upward Bound Program  
B.A., California State University, Chico  
M.A., California State University, Chico  

Menz, Evelyn  
Associate Professor, English  
Learning Center Coordinator  
B.S., Southeast Missouri State University  
M.A., Southeast Missouri State University  

Mesaris, Nikilos  
Interim Director of Institutional Research  
B.A., California State University, San Bernardino  

Moore, Brandon  
Interim Dean of Instruction, Math & Science  
B.A., Point Loma Nazarene University  
M.S., San Diego State University  

Moore, Sherri  
Associate Professor, Library Science  
A.S., Mt. San Jacinto Community College  
B.A., University of California, Riverside  
M.S., San Jose State University  

Moss, E. David  
Associate Professor, Communication

**District Personnel**

**Roulette, Sterling**  
Associate Professor, Anatomy and Physiology  
A.S., Mt. San Jacinto Community College  
B.S., California Polytechnic State University, San Luis Obispo  
M.S., California State University, San Bernardino  
Ed.D., University of LaVerne

**Rouley II, Richard D.**  
Dean of Instruction, Arts, Humanities & Social Sciences, Menifee Valley Campus  
B.A., University of Michigan  
M.A., Central Michigan University  
Ph.D., University of Minnesota

**Rycraft, Rickianne**  
Associate Professor, English  
B.A., California State University, San Marcos  
M.A., California State University, San Marcos  
M.F.A., Pacific University, Forest Grove

**Safranek, Teresa**  
Interim Director of Continuing Education & Workplace Training  
B.S., Westminster College of Salt Lake City  
M.B.A., California State University, San Marcos

**Sanchez, Gloria**  
Associate Professor, Accounting  
B.A., California State University, Fullerton  
M.B.A., National University

**Saunders, Colleen**  
Assistant Professor, Ultra Sound  
A.A., Orange Coast College

**Schaadt, Beverlyann**  
Associate Professor, Mathematics  
B.S., University of California, Riverside  
M.S., University of California, Los Angeles

**Schulter, John**  
Associate Professor, Chemistry  
A.S., San Bernardino Valley College  
B.S., University of Southern California  
M.S., California Polytechnic State University, Pomona  
Ed.D., University of LaVerne

**Schultz, Roger**  
Superintendent/President  
B.A., University of Southern California, Los Angeles  
M.A., University of Southern California, Los Angeles  
Ph.D., Capella University

**Schwertfeger, Patrick**  
Interim Vice President of Instruction  
A.A., Cerritos College  
B.A., Loyola University  
M.A., California State University, Northridge  
Ed.D., University of San Diego

**Searl-Chapin, Stacey**  
Associate Professor, Political Science  
B.A., University of California, Riverside  
M.A., University of California, Riverside  
Ph.D., University of California, Riverside

**Seed, John**  
Professor, Art  
B.A., Stanford University  
M.A., University of California, Berkeley

**Sherkat, Bahram**  
Associate Professor, Mathematics  
B.A., University of California, San Diego  
M.A., University of California, San Diego

**Sisco, Teri**  
Associate Dean, Procurement and General Services  
B.A., Strayer University

**Sisk, Richard**  
Associate Professor, English  
B.A., University of California, San Diego  
M.A., California State University, San Bernardino

**Slattery-Farrell, Lorraine**  
Associate Professor, Child Development & Education  
B.A., California State University, San Bernardino  
M.A., California State University, San Bernardino

**Slepiski, Jeffrey M.**  
Professor, Biology  
B.S., California State University, San Bernardino  
M.A., Azusa Pacific University  
M.S., University of Bridgeport  
Ed.D., University of Sarasota

**Smathers, Julie**  
Associate Professor, Counseling  
A.A., Mt. San Jacinto Community College  
B.A., University of California, Irvine  
M.A., University of Redlands

**Smith, Dolores**  
Associate Dean of Financial Aid  
A.A., Southwestern College  
B.A., National University  
M.S., National University

Associate Professor, Spanish  
B.A., Universite de Bordeaux III, Bordeaux, France  
M.A., California State University, San Marcos

**Teague, Rebecca**  
Associate Dean, Institutional Effectiveness/Planning/Grants  
B.A., University of California, Los Angeles  
M.A., California State University, Dominguez Hills

**Torok, Lori**  
Associate Professor, Dance/Theater  
B.A., Niagara University  
M.A., State University, New York

**Tovares, Carlos**  
Dean of Instruction, Academic Programs, San Jacinto Campus  
B.A., University of Florida  
M.A., University of Washington  
Ph.D., University of Washington

**Uhl, Suzanne**  
Associate Professor, Communications  
B.A., San Diego State University  
M.A., San Diego State University  
Ph.D., Regent University

**Valdez, Jorge**  
Associate Professor, Mathematics  
B.A., University of California, Riverside  
M.S., University of California, Riverside

**Vargas, Gary**  
Associate Professor, History  
B.A., University of California, Santa Barbara  
M.A., University of California, Riverside

**Vasek, Anthony**  
Professor, Engineering/Mathematics  
B.A., St Joseph’s College  
B.Ae.E., University of Detroit  
M.S., University of Detroit  
Exec. M.B.A., Michigan State University  
D.Engr., University of Detroit

**Venable, Julie**  
Director, Budget & Accounting  
B.S., Indiana Wesleyan University

---

**Vincent, William**  
Vice President of Student Services  
B.S., University of Oregon  
M.A., University of California, Long Beach  
Ed.D., University of Southern California

**Vrtis, April**  
Associate Professor, Counselor  
A.A., Long Beach City College  
B.S., University of Houston, Clear Lake  
M.A., California State University, Dominguez Hills  
M.A., California State University, Dominguez Hills

**Wakjira, Samson**  
Economics Instructor  
B.A., Addis Ababa University  
M.S., Addis Ababa University

**Welden, Michael**  
Associate Professor, Mathematics  
B.S., University of Illinois at Urbana-Champaign  
M.S., University of Illinois at Urbana-Champaign

**Winston, Kathleen M.**  
Dean of Nursing & Allied Health  
A.S., University of Nevada  
B.S., University of Nevada  
M.S., University of San Diego  
Ph.D., University of San Diego

**Yamanaka, Christina**  
Associate Professor, History  
B.A., University of California, Los Angeles  
M.A., University of California, Los Angeles

**Zografos, Peter**  
Associate Professor, Nursing  
B.A., Concordia University  
Diploma, Vanier College, Canada  
M.S.N., University of Phoenix  
Ph.D., Capella University
