MEDICAL BILLING & CODING

PROGRAM DESCRIPTION:

This not-for-credit, in-person, 13-week, program provides a systems approach to medical terminology which sets the foundation for analyzing case studies to determine the most appropriate diagnosis and procedure codes for medical insurance reimbursement. Participants learn to process claims for private and public insurance plans, as well as military and worker's compensation plans. Participants will have guided practice in the use of CPT and ICD-10-CM coding manuals for coding procedures and diagnoses for the various healthcare plans. Upon completion of the program, participants may apply to write the national exam, resulting in professional certification.
