Human Resources, Risk Management, and the Student Health Center, along with Executive Cabinet, have comprehensively considered employee safety and health through the implementation of new protocols in our workplace. We must remember that the COVID-19 threat is still here and that all employees are expected to commit to staying safe and healthy when reporting to work every day.

*Every employee plays a key role in avoiding exposure and limiting infection!*
MSJC is taking every precaution to ensure our workplaces are safe. The District is following federal and county health and safety guidelines as well as guidance from our state and local governments. The most current updates are included within this Guide and we will continue to modify our practices as the situation changes.

In order to continue keeping our workplace safe and healthy, the following has been implemented by the District:

- All employees - regardless of vaccination status - must self-check daily for any symptoms of COVID-19 prior to entering the workplace. The current self-check form can be found [here](#).

- All employees with symptoms of COVID-19, regardless of vaccination status, must notify their supervisor and complete the self-check above to report symptoms.

- As of 8/5/21: Per Executive Cabinet, employees are required to wear face coverings indoors at all times, as well as in common areas (cubicles are considered common areas).

- Informational signage is posted throughout campus related to current safety measures and requirements in place related to COVID-19. Signs may be updated as the healthcare crisis changes.

- Fully vaccinated employees will provide a copy of their COVID-19 vaccination card to Human Resources in separate, confidential file. Employees will receive a confirmation email from Human Resources.

- Disinfecting supplies (e.g., disinfecting wipes) will be available for employee use. Employees are encouraged to disinfect their workspaces throughout the workday.

- Hand sanitizer, soap, and paper towels will be readily available in all restrooms and hand sanitizer and disinfecting wipes will be available throughout campus office areas.

**Symptom Checker**

Employees who have symptoms should not report to campus. Employees who become symptomatic during their shift should immediately be sent home.

The following are symptoms of COVID-19:

- Headache
- Sinus congestion
- Fever (100.4 or greater)
- Cough
- GI symptoms: Nausea, vomiting, and/or diarrhea
- Chills
- Muscle pain
- Sore throat
- Loss of taste or smell
- Shortness of breath or difficulty breathing

**NOTE:** COVID-19 variants may have additional symptoms to be aware of. Please visit the [CDC webpage](https://www.cdc.gov) for more information.
KEEPING MSJC EMPLOYEES SAFE (CONTINUED)

- HVAC systems have been checked to allow optimal air flow throughout the buildings on campus and air filters have been replaced.

- Virtual meetings will continue to take the place of in-person meetings, as available.

- Employees who develop symptoms outside of work should notify Human Resources and stay home, following the procedures in this guide. Sick employees should follow the CDC recommended steps. Symptomatic employees should not return to work until they have met the California Department of Public Health and/or CDC criteria to discontinue home isolation and have been cleared by Human Resources (see procedures starting on page 8). CDPH quarantine criteria can be found here.

- Fully vaccinated employees may provide their COVID-19 vaccination card to Human Resources via https://my.msjc.edu/forms/edocs/hr. Vaccination records are kept strictly confidential and in a separate file different from any personnel file. Employees will receive verification email of fully vaccinated status from Human Resources.

- Mandatory employee training will be assigned through Keenan Safe Colleges. Employees will receive e-mail reminders to complete training. Training includes the following:
  - Coronavirus: Awareness
  - Coronavirus: CDC Guidelines for Making and Using Cloth Face Covering
  - Coronavirus: Cleaning and Disinfecting your Workplace
  - Coronavirus: Managing Stress and Anxiety
  - Return to Work Guide (Policy - mandatory)
  - Cal/OSHA COVID-19 Protection Plan

- Employees will resume the 4/9/4 schedule as we transition back to working on campus as described on the next page. Beginning June 7, 2021 through August 8, 2021, employees will begin the summer 4/10 schedule (4 days per week/10 hours per day).

---

**How and When to Wear a Face Covering**

When employees are in indoor common areas, face coverings must be used at all times. See page 14 for full guidance on the face covering requirements and exceptions.

Cloth face masks should:
- Fit snugly but comfortably against the side of the face
- Be secured with ties or ear loops
- Include multiple layers of fabric
- Allow for breathing without restriction
- Be able to be laundered and machine dried without damage or change to shape
- Be washed daily!
- Be removed carefully and hands washed after removal
Employees not available to work on a particular day for any reason, whether working from home or on campus, **must utilize leave time** (sick, vacation, etc.). *If you have no available paid leave balances, your leave will be processed as leave without pay.* As provided by law, Supplemental Paid Sick Leave will be processed by Human Resources, as applicable, and may be utilized prior to the use of employees' leave balances.

With the return of school age children to classrooms in our region, it is important to be mindful of child(ren)'s symptoms and/or COVID-19 testing guidelines. If your child, grandchild, or a child in your household is symptomatic and being tested for COVID-19 or has been ordered to quarantine due to potential exposure, stay home and report this via the Daily Self-Check. If the school, childcare facility, afterschool program etc. is closed due to COVID-19 on the premises, you may be eligible for leave under SB95. Contact Human Resources or Risk Management for more information.

**These steps are in place for your health and safety.**

**We have a responsibility to inform any and all employees who are considered to have had close contact to a COVID-19 positive employee or visitor on campus.**
Adherence to the following guidelines will assure the ongoing safety and health of everyone in our college community. Each and every MSJC employee is expected to:

**View/Read:** Prior to reporting to campus for the first time, read this Returning to Campus Guide and view the training videos assigned to you via Keenan Safe Schools. **IMPORTANT:** This training is required!

**Self-Check:** Employees must self-check daily for symptoms using the checklist found online here, regardless of vaccination status. This is to be done each day prior to reporting to work. You must not report to work if you are not cleared by the self-check form and must contact Human Resources as soon as possible, if not cleared. Employees experiencing COVID-19 symptoms/illness, regardless of vaccination status, will self-check to report symptoms and will utilize any applicable COVID-19 Supplemental Paid Sick Leave time and/or their available leave balances. If symptoms appear during the course of a campus workday, notify Human Resources and return home immediately. Always keep Human Resources informed and complete the appropriate leave paperwork in a timely manner. This expectation applies whether you are working from home or on campus! Remember, you are being paid to work your full schedule. If you are not available to do so, you must take leave time.

**Communicate:** If you have been in close contact with a COVID-19 positive person or are experiencing symptoms of COVID-19, see the procedures on page 8.

**Practice Safety:** Follow disinfecting product instructions when cleaning your work areas. Safety Data Sheet (SDS) are included at the end of this Guide and online training is available to all MSJC employees. For training, please coordinate with your supervisor.

**Hand Wash Frequently:** Wash your hands frequently (at least once every few hours) and/or use hand sanitizer.

**Cover:** Cover your nose and mouth when sneezing or coughing, and wash your hands afterwards.

**Be Aware:** Avoid touching your face, eyes, and mouth with hands.

**Face Covering:** All employees will wear a face covering in all indoor areas (including cubicles and other shared spaces), when entering or existing campus, and when leaving your desk if you are in an office or solo workspace. Any area that is a shared workspace should involve the use of a face covering. When in doubt - wear your face covering! See the CDPH full guidance on face coverings on page 14 of this Guide.

**No Physical Contact:** Do not shake hands or hug. Close contact spreads the virus.

**Avoid Sharing:** Avoid using other employees’ phones, desks, offices or other work tools and equipment, whenever possible. If spaces are shared, clean thoroughly between use and/or shifts.

**Express Concerns:** Talk to your manager and Human Resources if you have concerns specific to your circumstances, such as a health condition that may place you or someone in your household at high risk.

**Follow:** Follow all District policies and practices for the safety and health of everyone on campus.

**Ask Questions:** Ask questions to assure you understand what is expected of you. Reach out to your supervisor if you cannot find an answer after reviewing the Frequently Asked Questions in this guide.

**Be Responsive:** If Risk Management/HR reaches out to you regarding COVID-19 contact tracing or test results, respond immediately. If Human Resources contacts you regarding medical leave or vaccination information, respond immediately. There are time sensitive State-mandating reporting requirements that the District is required to adhere to. Your quick reply is essential to meet these mandated deadlines!
The current Employee Daily COVID-19 Self Check may be found online, here.

You may also go to: MSJC.edu, click on Departments/Human Resources, then click Daily COVID-19 Self Check under the heading, Resources.

Once the form has been submitted you will receive a status message stating whether you have been approved to come to campus or not.

**IMPORTANT:** If you are not approved to come to campus, reach out to Risk Management/HR immediately for further direction.
COVID-19 Leave Guidance

Employees MUST REPORT COVID-19 symptoms or positive test results to Human Resources within 24 hours

1. Have you been in contact with a COVID-19 positive person in the last 14 days?

   YES
   
   2. Are you experiencing symptoms of COVID-19?

      YES
      
      3. Have you tested positive for COVID-19?

         YES
         
         Symptomatic Positive
         Placed on leave for 10 calendar days beginning with date of onset of symptoms
         
         Asymptomatic Positive
         Placed on leave for 10 calendar days beginning from the date of specimen collection
         
         NO
         
         Asymptomatic Negative/Untested
         Please contact your healthcare provider for guidance on testing or medical certification, if needed.
         
         NO
         
         Symptomatic Untested
         Please contact your healthcare provider for guidance on testing for COVID-19 and medical certification for your leave and return to work.
In the event of a report of a Coronavirus case, Quarantine or Self-Quarantine, please follow the steps below.

Non-Industrial Case (Close Contact outside of work)

1. If an employee with close contact to a COVID-19 positive person reports to work site:
   a. Ask employee to move to an isolated area if they are having symptoms or if they state they have been exposed to the virus or have traveled to areas where the exposure is high.
   b. Inform Human Resources (vcontreras@msjc.edu) immediately!
   c. Human Resources will work with vaccinated employees to clear them to return to work. Human Resources will provide unvaccinated employees with leave eligibility and benefit information.
   d. Request the following information from employee, if possible:
      i. Employee Name, Employee Contact information (phone number, email), Employee ID Number, Department they work in, Supervisor Name, Campus location, and Building and Room Number. Also ask the employee for the last day they were at work (WFH or on campus), how they were exposed, and if they are showing any symptoms.

2. If an employee with close contact with a COVID-19 positive person calls their manager or Human Resources:
   a. Request the following information, if possible:
      i. Employee Name, Employee Contact information (phone number, email), Employee ID Number, Department they work in, Supervisor Name, Campus location, and Building and Room Number. Also ask the employee for the last day they were at work (WFH or on campus), how they were exposed, and if they are showing any symptoms.

3. Human Resources will work with the Student Health Center Dean to report all staff non-industrial (non work-related) incidents to the County Department of Public Health.

4. Human Resources, Risk Management, and Student Health Center Dean will report all employee non-industrial incidents to Executive Cabinet.

5. If an employee tests positive for Coronavirus and has been on campus, per DFEH and Cal/OSHA, Risk Management must notify any employees of the potential exposure for those who may have had CDC defined close contact with the COVID-positive employee.

6. Human Resources, Risk Management, and Student Health Center will also notify the Maintenance and Operations (M&O) department of any rooms or areas that the exposed person visited so they can be disinfected.

7. Human Resources will work with the employee and employee’s supervisor for applicable leave of absences.

8. Supervisors must practice confidentiality guided by HIPPA regulations for themselves and staff to keep potential cases confidential. Supervisors cannot share information with other employees and may only discuss with Human Resources and Risk Management.

9. Any calls from the Media should be directed to Karin Marriott, Public Information Officer (kmarriott@msjc.edu).
Industrial Case (Close Contact at work)

1. If an employee with close contact to a COVID-19 positive person reports to work site:
   a. Ask employee to move to an isolated area if they are having symptoms or if they state they have been exposed to the virus.
   b. Any employees that are exposed while at work will immediately notify their supervisor, Human Resources, and Risk Management to report the exposure.

2. Risk Management will work with the Student Health Center Dean, and Human Resources to report any employee industrial incidents to the Department of Public Health and to Cal/OSHA (via form 300) if the case is found to be industrial.
   a. Risk Management will work with employees to clear them to return to work or appropriate medical leave, regardless of vaccination status.

3. If an employee tests positive for Coronavirus and has been on campus, per DFEH and Cal/OSHA, Risk Management must notify any employees that may have had CDC defined close contact with the COVID-positive employee of the potential exposure.

4. Risk Management, Human Resources, and Student Health Center will also notify the Maintenance & Operations (M&O) department of any room/rooms that the exposed person visited so they can be disinfected.

5. The Student Health Center Dean will notify Executive Cabinet of potential cases/exposure.

6. Risk Management will provide employee with information regarding an industrial illness/injury and will work with the employee and the employee’s supervisor regarding applicable leave of absences.

7. Supervisors must practice confidentiality guided by HIPPA regulations for themselves and staff to keep potential or positive cases confidential.

8. Any calls from the Media should be directed to Karin Marriott, Public Information Officer (kmarriott@msjc.edu).

**Note:** Per Cal/OSHA, the employer is required to investigate whether a COVID-19 case is work-related by performing the following steps:

1) Ask the employee how they believe they contracted the illness.
2) Discuss with the employee, while respecting privacy concerns, the activities both inside and outside of work that may have led to the illness.
3) Review the employee’s work environment for potential COVID-19 exposure.
4) Review the employee’s work environment for potential COVID-19 hazards.

COVID-19 RIVERSIDE COUNTY TESTING LOCATIONS

SEARCH FOR A TESTING LOCATION NEAR YOU [HERE].

Scroll down to “Find A Location” to search by your zip code. Locations are updated frequently, so the information below may not be the most current. Click the link above to search in your area.

ADDITIONAL TESTING LOCATIONS CAN BE FOUND [HERE].
COVID-19 RIVERSIDE COUNTY VACCINATION CLINIC LOCATIONS

Please go to the Riverside County Public Health website here to search and register for a vaccine location in the county. Per the CDC, the COVID-19 vaccine is highly effective at preventing COVID-19. Vaccines are safe, effective, and reduce your risk of serious illness. See more information about the three different vaccines available currently, on the CDC website here.

Protect Against COVID-19.

Safe and effective COVID-19 vaccines are available for free for everyone living in the United States.

Get Vaccinated:

Frequently asked questions regarding the vaccine may be found here.
Frequently Asked Questions

What are the symptoms of COVID-19?

People with COVID-19 have had a wide range of symptoms reported - ranging from mild symptoms to severe illness. Symptoms may appear 2 - 14 days after exposure to the virus. People with the following symptoms may have COVID-19:

- Shortness of breath or difficulty breathing
- Fever (of 100.4 or above) or chills
- Headache
- Congestion or runny nose
- Gastrointestinal symptoms like nausea, vomiting, or diarrhea.
- Muscle pain
- Sore throat
- Loss of taste or smell

For more information, click here.

NOTE: COVID-19 variants may have additional symptoms to be aware of. Please visit the CDC webpage for more information.

What is meant by “close contact” related to COVID-19 exposure?

According to the CDC, people that need to quarantine are people who have been in close contact with someone who has COVID-19 (excluding people who have had COVID-19 within the past 3 months or who are fully vaccinated).

- People who have tested positive for COVID-19 within the past 3 months and recovered do not have to quarantine or get tested again as long as they do not develop new symptoms.
- People who develop symptoms again within 3 months of their first bout of COVID-19 may need to be tested again if there is no other cause identified for their symptoms.
- People who have been in close contact with someone who has COVID-19 are not required to quarantine if they have been fully vaccinated against the disease and show no symptoms.

What counts as close contact?

- You were within 6 feet of someone who has COVID-19 for a total of 15 minutes or more in a 24-hour period
- You provided care at home to someone who is sick with COVID-19
- You had direct physical contact with the person (hugged or kissed them)
- You shared eating or drinking utensils
- They sneezed, coughed, or somehow got respiratory droplets on you

For more information, click here.

When should I get tested for COVID-19?

See the CDPH guidance on page 16 and the CDPH website here.

How and where can I get a vaccination for COVID-19?

See the Riverside County Office of Public Health’s vaccination website here.
How is COVID-19 spread?

The virus is thought to spread mainly from person-to-person.

- Between people who are in close contact with one another (within 6 feet).
- Through respiratory droplets produced when an infected person coughs, sneezes, or talks.
- These droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs.
- COVID-19 may be spread by people who are not showing symptoms.
- From touching surfaces or objects. It may be possible that a person can get COVID-19 by touching a surface or object that has the virus on it and then touching their own mouth, nose, or possibly their eyes. This is not thought to be the main way the virus spreads, but we are still learning more about this virus.

For more information, click here.

How long do I need to wash my hands?

Per the CDC, wash your hands frequently.

Wash your hands often with soap and water for at least 20 seconds especially after you have been in a public place, or after blowing your nose, coughing, or sneezing. If soap and water are not readily available, use a hand sanitizer that contains at least 60% alcohol. Cover all surfaces of your hands and rub them together until they feel dry. Additionally, avoid touching your eyes, nose, and mouth with unwashed hands.

For more information, click here.

What do I do if I am feeling sick and think I may have COVID-19 or if I have been exposed to COVID-19?

Communicate with Human Resources and follow the guidelines from your healthcare provider as well as this Guide.

Guidelines related to exposure can also be found on the CDC website here. Additional guidance from the CDPH website may be found here.
Face Covering Do’s and Don’ts:

**DO:**
- Make sure you can breathe through it
- Wear it whenever going out in public
- Make sure it covers your nose and mouth
- Wash after using

**DON’T:**
- Use if under two years old
- Use surgical masks or other PPE intended for healthcare workers

**IMPORTANT NOTE ABOUT FACE COVERINGS AND WARMER TEMPERATURES:**
Take care to consume more water so that you do not get dehydrated and overheat. The CDC recommends using face coverings made from 100% cotton as they are more breathable. Face coverings should fit snug on your face, but not so tight that they interfere with your breathing.
With updated guidance from the Riverside County Public Health, the Mt. San Jacinto Community College District (MSJC) requires all employees, students, and members of the public to wear face masks while indoors at MSJC campus facilities, as of August 5, 2021.

The most common exceptions are:

- When alone in a room or vehicle
- When eating and drinking
- When a medical accommodation is required
- When job duties make a face covering infeasible or create a hazard

The following individuals are exempt from wearing face coverings at all times:

- Persons younger than two years old. These very young children must not wear a face covering because of the risk of suffocation.
- Persons with a medical condition, mental health condition, or disability that prevents wearing a face covering. This includes persons with a medical condition for whom wearing a face covering could obstruct breathing or who are unconscious, incapacitated, or otherwise unable to remove a face covering without assistance. Such conditions are rare.
- Persons who are hearing impaired, or communicating with a person who is hearing impaired, where the ability to see the mouth is essential for communication.
- Persons for whom wearing a face covering would create a risk to the person related to their work, as determined by local, state, or federal regulators or workplace safety guidelines.

Note: Persons exempted from wearing a face covering due to a medical condition who are employed in a job involving regular contact with others must wear a non-restrictive alternative, such as a face shield with a drape on the bottom edge, as long as their condition permits it.

CURRENT GUIDANCE REGARDING FACE COVERINGS CAN BE FOUND AT THE DIR HERE.

YOUR COOPERATION WITH KEEPING OUR WORKPLACE HEALTHY AND SAFE IS ESSENTIAL.
DO I NEED TO GET TESTED FOR COVID-19?

Are you experiencing:
Fever, Coughing or Shortness of Breath?

Call your physician

Doctor advises you to come in
Specimen is collected via swab and sent to lab to be tested
Doctor will provide you with test results

Doctor identifies mild symptoms and advises home isolation
Isolate / Stay at home

You didn’t get an immediate response, and you’re experiencing severe symptoms?
Go to your local urgent care/ ER or call 9-1-1

MORE INFORMATION - Follow the California Department of Public Health:
@capublichealth and www.cdph.ca.gov/covid19

SEE WHERE TO FIND TESTING LOCATIONS ON PAGE 10.
COVID-19 - Stop the Spread of Germs

Stop the Spread of Germs

Help prevent the spread of respiratory diseases like COVID-19.

- Stay at least 6 feet (about 2 arm lengths) from other people.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash and wash your hands.
- When in public, wear a mask over your nose and mouth.
- Do not touch your eyes, nose, and mouth.
- Clean and disinfect frequently touched objects and surfaces.
- Stay home when you are sick, except to get medical care.
- Wash your hands often with soap and water for at least 20 seconds.

cdc.gov/coronavirus
HAND WASHING STEPS

**STEPS FOR HANDWASHING**

Stop the spread of germs and keep yourself and others from getting sick.

1. Wet your hands with warm water.

2. Lather up with soap. Soap gets rid of the oil that helps germs stick to your hands.

3. Rub and scrub your hands together for at least 20 seconds. Strongly rub and scrub your wrists, palms, between fingers, under your nails, and the backs of your hands. The soap and scrubbing action will loosen the germs off your hands.

4. Rinse your hands thoroughly with warm, running water.

5. Dry your hands completely with a clean towel or paper towel. Use the towel to turn off the faucet when you’re finished drying your hands. Throw the paper towel away.

If soap and water aren’t available, use an alcohol-based hand sanitizer. Alcohol-based hand sanitizers can usually be found as a gel or wipes. Make sure the product is at least 60 percent alcohol.

To use an alcohol-based hand sanitizer:
- Rub the gel or wipe all over both hands.
- Rub hands together for 30 seconds until they feel dry.
SAFETY DATA SHEET

PURELL® Hand Sanitizing Wipes

SECTION 1. IDENTIFICATION

Product name: PURELL® Hand Sanitizing Wipes

Manufacturer or supplier's details
Company name of supplier: GOJO Industries, Inc.
Address: One GOJO Plaza, Suite 500
Akron OH 44311
Telephone: 1 (330) 255-8000
Emergency telephone: 1-800-424-9300 CHEMTREC

Recommended use of the chemical and restrictions on use
Recommended use: Hand Sanitizer
Restrictions on use: This is a personal care or cosmetic product that is safe for consumers and other users under normal and reasonably foreseeable use. Cosmetics and consumer products, specifically defined by regulations around the world, are exempt from the requirement of an SDS for the consumer. While this material is not considered hazardous, this SDS contains valuable information critical to the safe handling and proper use of the product for industrial workplace conditions as well as unusual and unintended exposures such as large spills. This SDS should be retained and available for employees and other users of this product. For specific intended-use guidance, please refer to the information provided on the package or instruction sheet.

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification
Flammable liquids: Category 3
Eye irritation: Category 2A

GHS Label element
Hazard pictograms: 

Signal Word: Warning
Hazard Statements: H226 Flammable liquid and vapor.
H319 Causes serious eye irritation.
1. Identification

Product identifier: Spray Instant Hand Sanitizer TF

Other means of identification:
- SDS number: 16SAM03084A
- Product code: HIL00422
- Recommended use: Instant Hand Sanitizer
- Recommended restrictions: For Labeled Use Only

This is a personal care or cosmetic product that is safe for consumers and other users under normal and reasonably foreseeable use. Cosmetics and consumer products, specifically defined by regulations around the world, are exempt from the requirement of an SDS for the consumer.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer:
- Company name: HILLYARD INDUSTRIES
- Address: 302 North Fourth St.
  St. Joseph, MO 64501

Contact person: Regulatory Affairs
- Telephone number: (816) 233-1321 (Ext. 8285)
- Fax: (816) 383-9485
- E-mail: regulatoryaffairs@hillyard.com
- Emergency telephone #: (800) 424-0300
  (Only in the event of chemical emergency involving a spill, leak, fire, exposure or accident involving chemicals)

2. Hazard(s) identification

Physical hazards: Flammable liquids

Health hazards: Serious eye damage/eye irritation

Environmental hazards: Not classified.

OSHA defined hazards: Not classified.

Label elements:

Signal word: Danger

Hazard statement:
Highly flammable liquid and vapor. Causes serious eye irritation.

Precautionary statement:

Response: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. In case of fire: Use appropriate media to extinguish.

Storage: Store in a well-ventilated place. Keep cool.
