

# Emergency Medical Technician (EMT)

## Greetings from the MSJC EMT Program!

We're excited to share the latest updates and achievements from our growing Emergency Medical Technician program at Mount San Jacinto College. As we continue to expand and enhance our offerings, we are dedicated to providing an excellent educational experience for our students.

## Program Growth

Spring 2023: 30 students, 1 cohort

Fall 2023: 58 students, 2 cohorts

Spring 2024: 90 students with additional waitlisted, 3 cohorts

This remarkable growth reflects our commitment to meeting the increasing demand for skilled professionals in the field of emergency medical services.

## Employer "Meet and Greet" Events

To bridge the gap between education and employment, we organized "Meet and Greet" events where employers presented on various aspects of the EMT career. These events, held at both the San Jacinto and Menifee Valley Campuses, provided valuable insights into job opportunities, additional career paths, and tips on application preparation. We appreciate the active participation from employers, students, and staff.

*EMT professionals visiting our students to provide insight and answer questions about experience in the field.*

## Celebrating Achievements and Looking to the Future

### Pinning Ceremony - December 14th

We are proud to celebrate the accomplishments of 59 completers at our upcoming Pinning Ceremony on December 14th. This event is a testament to the hard work and dedication of our students as they complete their EMT program.

### Spring 2024 Cohort

We eagerly anticipate the arrival of our Spring 2024 cohort, which boasts an impressive 90 students. This substantial increase over previous semesters reflects the growing interest in our program and the demand for skilled professionals in the field.

*EMT class demonstrates how to properly secure and carry a patient using a spine board stretcher.*

### Sponsorship Program with Riverside County Workforce Development

We are pleased to announce our sponsorship program in collaboration with Riverside County Workforce Development. Eligible students can have their program costs sponsored through the Employment Training Panel (ETPL). This initiative aims to make quality education accessible to a broader range of individuals, fostering the development of highly trained EMTs.

### EMT Apprenticeship Program: Coming Soon!

Stay tuned for the launch of our EMT Apprenticeship Program. This exciting initiative will provide students with hands-on experience and further opportunities for skill development in real-world scenarios.

### Paramedic Program - Summer 2025

Looking ahead, we are thrilled to announce the addition of the Paramedic Program, scheduled to begin in the summer of 2025. This program expansion aligns with our commitment to offering comprehensive training and meeting the evolving needs of the healthcare industry.
